

that a budget provides. Then the appropriators, as my friend from Georgia has discussed, the appropriators take over. And they can pass within that box that we have put Federal spending in, in the Federal budget, 11 different bills that deal with each component of government: defense, veterans, transportation, energy and the environment, military quality of life, the whole range of issues that then are debated again in committee, in subcommittee, on this floor, in the conference with the Senate.

This is a transparent process, a patently transparent process where people are free to watch their Members actively, aggressively, work to take language out of bills, to put language in the bills, to shift formulas around to benefit high-growth States or to protect low-growth States from having those monies shifted around; to put more money into veterans and less for the arts, or more into the arts and less for the Corps of Engineers, or more for the Corps of Engineers because of Katrina; to set aside emergency funds because we know that every year there will be a drought or a wildfire or a hurricane or an earthquake. All of those huge issues that are embodied in over \$2 trillion in Federal spending are here today in the form of the Federal budget.

This bill, this resolution, allows us to move forward with that process that began months ago, that began on a bipartisan basis in the Budget Committee, that was debated extensively in the Budget Committee, that was marked up in the Budget Committee, and will end up on the floor of this House today.

This is an open process, it is a transparent process. Anyone who has observed this debate can see that it involves a great deal of viewpoints about a great deal of very important issues. And that is the position we find ourselves in here today. It is a healthy process because it is a fundamental decision about the direction that Americans' hard-earned tax dollars will be taken.

□ 1445

Will those tax dollars find their way into bloated bureaucratic programs? Will they find their way into duplicative programs? Will they find their way back into a surging economy? Will they find their way into investments in the cure for cancer and Lou Gehrig's disease and a whole host of other ailments? Will they fund our troops in the theater of war?

That is the decision we are positioned to move forward on here today.

Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.
