STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. LIEBERMAN (for himself, Mr. FRIST, Mr. NELSON of Florida, and Mrs. HUTCHISON):

S. 2293. A bill to authorize a military construction project for the construction of an advanced training skills facility at Brooke Army Medical Center, San Antonio, Texas; to the Committee on Armed Services.

Mr. FRIST. Mr. President I am reminded daily of the sacrifice of the men and women of this country who serve or have loved ones who serve in our armed forces. As a Tennessean I often think of the courage and honor displayed by members of the 101st Airborne out of Fort Campbell and the many Guardsmen and Reservists from my State who have served in both Iraq and Afghanistan. These soldiers, many of whom call Tennessee home, make great sacrifices for our Nation. I am saddened to think about those who have been wounded in recent military operations and in some cases are so severely injured that they require extensive medical care, along with years of treatment and rehabilitation. Their future quality of life and ability to provide for their families depends on the treatment and rehabilitation they receive from the country they have served.

As a physician I marvel at the great work of my colleagues in the Armed Services Medical Commands who treat the most severely injured military personnel. The use of improvised explosive devices in Iraq has resulted in many injuries including amputations, head trauma, and in some cases partial and full paralysis. We must meet the care

and rehabilitation needs of the soldiers who have sacrificed so much for our country.

With this in mind I have joined with Senator LIEBERMAN to sponsor a bill to authorize the construction of a world-class state-of-the-art advanced training skills facility at Brooke Army Medical Center. This center will not only serve military personnel disabled in operations in Iraq and Afghanistan, but will also provide care to those severely injured in other operations and in the normal performance of their duties, both combat and non-combat related.

This center will provide necessary space and facilities for the rehabilitation needs of the patients and their caregivers. It will be constructed on a site sufficient in size to meet the needs of the center's patients and caregivers and will include top of the line indoor and outdoor facilities, a child care center, and other needed support facilities. I am proud of the service of our military personnel both past and present, and this new facility will go a long way in helping to meet their needs both now and into the future.

By Mrs. BOXER (for herself and Mrs. FEINSTEIN):

S. 2294. A bill to permanently prohibit oil and gas leasing off the coast of the State of California, and for other purposes; to the Committee on Energy and Natural Resources.

Mrs. BOXER. Mr. President, today, with my friend and colleague from California, DIANNE FEINSTEIN, I introduce the "California Ocean and Coastal Protection Act." This bill will permanently protect California's coast from the dangers of new offshore drilling.

In California, there is strong and enduring public support for the protection of our oceans and coastlines. Many years ago, my State decided that the potential benefits that might be derived from future offshore oil and gas development were not worth the risk of destroying our priceless coastal treasures. Regular chronic leakage associated with normal oil and gas operations, as well as catastrophic spills such as the horrific Santa Barbara rig blowout in 1969, irreparably contaminate our ocean, beaches, and wetlands.

The beauty of California's coast is so important that California passed legislation permanently prohibiting oil and gas exploration in State waters in 1994. This protection is limited, however, to California's territorial waters—only three nautical miles out from shore.

The Federal waters off the coast of California, which extend beyond State waters to 200 nautical miles out, are increasingly at risk of drilling. Despite years of bipartisan support for the moratoria on new offshore drilling in Federal waters, recent efforts are threatening our coasts. Some recent proposals would immediately lift the moratoria and allow for drilling within 20 miles off our coasts. Last year's energy bill included provisions to conduct
