

students are now exposed to real-world experiences while providing business and industry with essential new ideas and out-of-the-box thinking.

These kinds of partnerships and innovations will carry Ohio into the next era of progress and development, and Kent State will be an important part of that success. Already, 10 start-up companies have been created in the last 6 years to capitalize on Kent State faculty research and add to the economic growth in the region. This is real-world research that benefits society, consumers, and the university.

Under Carol Cartwright's leadership, Kent State was named by the Association of University Technology Managers as fourth in the Nation for the number of start-up companies formed per \$10 million in research spending. Kent State also plays an important leadership role in JumpStart Inc., a new organization to help advance technology commercialization and foster economic development in Ohio.

Overall, President Cartwright's presidency has been marked by a commitment to developing students who are leaders and experts in innovation and service. Kent State has launched degree programs in high-demand and emerging fields, including an interdisciplinary undergraduate program in biotechnology that is unique in the State of Ohio; an interdisciplinary bachelor's program in American Sign Language; a baccalaureate program in paralegal studies; and the first graduate programs in Russian and Japanese at a public university in northeast Ohio. The revolutionary joint doctoral program in biomedicine with the Cleveland Clinic Foundation matches some of America's best and brightest students with world-class medical training opportunities, and Kent State is a partner in the Nation's only joint, 4-year doctoral program in audiology.

Her commitment to preparing students for the future and working with regional economic growth initiatives should be a model for colleges and universities across the country to emulate.

I ask my colleagues to join me in recognizing and commending President Cartwright on an excellent job of leading Kent State through an age of innovation and extraordinary achievement during her tenure. I wish her well on her upcoming retirement.●

## PETITIONS AND MEMORIALS

The following petition or memorial was laid before the Senate and was referred or ordered to lie on the table as indicated:

POM-291. A joint memorial adopted by the Legislature of the State of Washington relative to international trade; to the Committee on Finance.

### ENGROSSED SENATE JOINT MEMORIAL 8019

We, your Memorialists, the Senate and House of Representatives of the State of Washington, in legislative session assembled, respectfully represent and petition as follows:

Whereas, The trade liberalization efforts of the early 1990s and trade agreements such as the North American Free Trade Agreement and the World Trade Organization Uruguay Round agreements have increased the role of state policymakers in international trade decisions; and

Whereas, Trade liberalization has transformed the historical state-federal division of power and taxed state agency resources in dealing with the world marketplace; and

Whereas, Recent trade agreements have proceeded beyond discussion of tariffs and quotas and now address government regulation, taxation, procurement, and economic development policies that are implemented at state and local levels; and

Whereas, States often lack a clearly defined institutional trade policy structure,

making it difficult to handle requests from trading partners and federal agencies and to articulate a unified state stance on trade issues; and

Whereas, International lawsuits may be brought against states and governments found to be in violation of trade agreements; and

Whereas, There is a need for a stronger federal-state trade policy consultation mechanism; and

Whereas, Many state and local executive, legislative, and judicial branch officials have voiced the need for an informed, nonpartisan trade policy dialogue on a national level; and

Whereas, Federal-state communication and cooperation in the implementation of trade agreements is needed now more than ever before; and

Whereas, In August 2004, the Intergovernmental Policy Advisory Committee, a state-appointed advisory committee to the United States Trade Representative, recommended that a Federal-State International Trade Policy Commission would be an ideal resource for objective trade policy analysis and would foster communication among federal and state trade policy officials; and

Whereas, The creation of a federal-state trade policy infrastructure would assist states in understanding the scope of federal trade efforts and would assist federal agencies in understanding the various state trade processes; Now therefore,

Your Memorialists respectfully request that the United States Trade Representative create a Federal-State International Trade Policy Commission with membership to be drawn from federal and state trade policy officials; and be it

*Resolved*, That copies of this Memorial be immediately transmitted to the Honorable George W. Bush, President of the United States, the Ambassador Rob Portman, United States Trade Representative, the President of the United States Senate, the Speaker of the House of Representatives, and each member of Congress from the State of Washington.
