#### TEXT OF AMENDMENTS

**SA 4292.** Mr. DORGAN (for himself, Mr. DURBIN, and Mr. HARKIN) proposed an amendment to the bill S. 2766, to authorize appropriations for fiscal year 2007 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; as follows:

At the end of division A, add the following:  
**TITLE XV—SPECIAL COMMITTEE OF SENATE ON WAR AND RECONSTRUCTION CONTRACTING**

##### SEC. 1501. FINDINGS.

Congress makes the following findings:

(1) The wars in Iraq and Afghanistan have exerted very large demands on the Treasury of the United States and required tremendous sacrifice by the members of the Armed Forces of the United States.

(2) Congress has a constitutional responsibility to ensure comprehensive oversight of the expenditure of United States Government funds.

(3) Waste and corporate abuse of United States Government resources are particularly unacceptable and reprehensible during times of war.

(4) The magnitude of the funds involved in the reconstruction of Afghanistan and Iraq and the war on terrorism, together with the speed with which these funds have been committed, presents a challenge to the effective performance of the traditional oversight function of Congress and the auditing functions of the executive branch.

(5) The Senate Special Committee to Investigate the National Defense Program, popularly known as the Truman Committee, which was established during World War II, offers a constructive precedent for bipartisan oversight of wartime contracting that can also be extended to wartime and postwar reconstruction activities.

(6) The Truman Committee is credited with an extremely successful investigative effort, performance of a significant public education role, and achievement of fiscal savings measured in the billions of dollars.

(7) The public has a right to expect that taxpayer resources will be carefully disbursed and honestly spent.

##### SEC. 1502. SPECIAL COMMITTEE ON WAR AND RECONSTRUCTION CONTRACTING.

There is established a special committee of the Senate to be known as the Special Committee on War and Reconstruction Contracting (hereafter in this title referred to as the "Special Committee").

(3) subcontracting under large, comprehensive contracts;

(4) oversight procedures;

(5) consequences of cost-plus and fixed price contracting;

(6) allegations of wasteful and fraudulent practices;

(7) accountability of contractors and Government officials involved in procurement and contracting;

(9) lessons learned from the contracting process used in Iraq and Afghanistan and in connection with the war on terrorism with respect to the structure, coordination, management policies, and procedures of the Federal Government.

(c) **INVESTIGATION OF WASTEFUL AND FRAUDULENT PRACTICES.**—The investigation by the Special Committee of allegations of wasteful and fraudulent practices under subsection (b)(6) shall include investigation of allegations regarding any contract or spending entered into, supervised by, or otherwise involving the Coalition Provisional Authority, regardless of whether or not such contract or spending involved appropriated funds of the United States.

At the end of subtitle B of title XXXI, add the following:

**SEC. 3121. EDUCATION OF FUTURE NUCLEAR ENGINEERS.**

(a) FINDINGS.—Congress makes the following findings:

(1) The Department of Defense and the United States depend on the specialized expertise of nuclear engineers who support the development and sustainment of technologies including naval reactors, strategic weapons, and nuclear power plants.

(2) Experts estimate that over 25 percent of the approximately 58,000 workers in the nuclear power industry in the United States will be eligible to retire within 5 years, representing both a huge loss of institutional memory and a potential national security crisis.

(3) This shortfall of workers is exacerbated by reductions to the University Reactor Infrastructure and Education Assistance program, which trains civilian nuclear scientists and engineers. The defense and civilian nuclear industries are interdependent on a limited number of educational institutions to produce their workforce. A reduction in nuclear scientists and engineers trained in the civilian sector may result in a further loss of qualified personnel for defense-related research and engineering.

(4) The Department of Defense's successful Science, Math and Research for Transformation (SMART) scholarship-for-service program serves as a good model for a targeted scholarship or fellowship program designed to educate future scientists at the postsecondary and postgraduate levels.

(b) REPORT ON EDUCATION OF FUTURE NUCLEAR ENGINEERS.—

(1) STUDY.—The Secretary of Energy shall study the feasibility and merit of establishing a targeted scholarship or fellowship program to educate future nuclear engineers at the postsecondary and postgraduate levels.

(2) REPORT REQUIRED.—The President shall submit to the congressional defense committees, together with the budget request submitted for fiscal year 2008, a report on the study conducted by the Secretary of Energy under paragraph (1).

**SA 4300.** Mr. KENNEDY submitted an amendment intended to be proposed by him to the bill S. 2766, to authorize appropriations for fiscal year 2007 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle D of title I, add the following:

**SEC. 147. MULTI-SPECTRAL IMAGING CAPABILITIES.**

(a) FINDINGS.—The Senate makes the following findings:

(1) The budget of the President for fiscal year 2007, as submitted to Congress under section 1105(a) of title 31, United States

Code, and the current Future-Years Defense Program adopts an Air Force plan to retire the remaining fleet of U-2 aircraft by 2011.

(2) This retirement would eliminate the multi-spectral capability provided by the electro-optical/infrared (EO/IR) Senior Year Electro-optical Reconnaissance System (SYERS-2) high-altitude imaging system.

(3) The system referred to in paragraph (2) provides high-resolution, long-range, day-and-night image intelligence.

(4) The infrared capabilities of the system referred to in paragraph (2) can defeat enemy efforts to use camouflage or concealment, as well as provide images through poor visibility and smoke.

(5) Although the Air Force has previously recognized the military value of Senior Year Electro-optical Reconnaissance System sensors, the Air Force has no plans to migrate this capability to any platform remaining in the fleet.

(6) The Air Force could integrate such capabilities onto the Global Hawk platform to retain this capability for combatant commanders.

(7) The Nation risks a loss of an important intelligence gathering capability if this capability is not transferred to another platform.

(b) SENSE OF SENATE.—It is the sense of the Senate that the Air Force should investigate ways to retain the multi-spectral imaging capabilities provided by the Senior Year Electro-optical Reconnaissance System high-altitude imaging system after the retirement of the U-2 aircraft fleet.

(c) REPORT REQUIREMENT.—The Secretary of the Air Force shall submit to the congressional defense committees, at the same time the budget of the President for fiscal year 2008 is submitted to Congress under section 1105(a) of title 31, United States Code, a plan for migrating the capabilities provided by the Senior Year Electro-optical Reconnaissance System high-altitude imaging system from the U-2 aircraft to the Global Hawk platform before the retirement of the U-2 aircraft fleet in 2011.

**SA 4301.** Mrs. DOLE (for herself and Mr. JEFFORDS) submitted an amendment intended to be proposed by her to the bill S. 2766, to authorize appropriations for fiscal year 2007 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle I of title X, add the following:

**SEC. 1084. HEALTH CARE BENEFITS FOR INDIVIDUALS EXPOSED IN UTERO TO CONTAMINATED WATER AT CAMP LEJEUNE, NORTH CAROLINA.**

(a) ELIGIBILITY FOR BENEFITS.—The Secretary of Veterans Affairs shall provide each individual described in subsection (b) with such health care as the Secretary determines is needed by such individual for any health problem, condition, or disability that is associated with the exposure of such individual as described in that subsection.

(b) COVERED INDIVIDUALS.—An individual described in this subsection is any individual, as determined by the Secretary of Defense in consultation with the Agency for Toxic Substances, who was exposed in utero to water contaminated with toxic chemicals at United States Marine Corps Base Camp Lejeune, North Carolina.

(c) AUTHORITY FOR CARE TO BE PROVIDED DIRECTLY OR BY CONTRACT.—The Secretary

may provide health care under this section directly or by contract or other arrangement with a health care provider.

(d) CONSTRUCTION.—Nothing in this section shall be construed to affect the rights or obligations of any person or entity, including the Federal Government, under any other law.
