

students and families of High School District 204 in Cook County. Now, as he prepares for his retirement, I would like to thank him for his years of dedicated service.

Mr. Hogan's decision to become a teacher led him to college to complete his degree and education certification in 1978. To finance his education, Mr. Hogan took on a wide variety of service jobs, where he developed a disciplined attitude and strong work ethic that continues to guide his life. Mr. Hogan's awareness of the importance of family, friends, integrity, and career is the foundation of his professional success, and has led his colleagues and the communities he serves to hold him in the highest regard.

Mr. Hogan began his career in education as a special education teacher at Lyons Township High School, serving students who felt disconnected from their families, school, and peers because of emotional and behavioral disabilities. He provided the structure, empathetic concern, and skill-building activities that his students needed to allow them an opportunity to develop trusting relationships with others and graduate from high school to become productive citizens. Mr. Hogan later became the Dean of Students in High School District 204. Again, his commitment to teaching the skills of responsible decision-making and his willingness to help individuals understand and assume responsibility for their actions resulted in a positive, life-changing experience for countless students.

For the final 15 years of his career, Mr. Hogan has served as Associate Principal, dedicating himself to his principle of "making the school work". His fairness, integrity, and meticulous attention to detail have impacted the daily lives of all those he has served: the faculty, staff, and families of Lyons Township High School.

Today, I ask my colleagues to join me in honoring Mr. Michael Hogan as an outstanding educator, and recognize his tireless efforts to educate and develop generations of confident, responsible, and disciplined students. He has done nothing less than an extraordinary job in preparing future generations for their challenges ahead. I thank and congratulate Michael for his service and dedication and wish him a happy, healthy, and fulfilling retirement.

COMMEMORATING THE 100TH BIRTHDAY OF RACHEL CARSON

HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 24, 2007

Mr. VAN HOLLEN. Madam Speaker, I rise today to celebrate the life of Rachel Carson and to commemorate her 100th birthday this Sunday, May 27.

Rachel Carson was an author, environmentalist, scientist, and poet. She was also a person with the courage to speak out against policies that harmed the environment.

In 1945, the U.S. Government was increasingly using chemical pesticides to control pests that were harming agricultural crops. Rachel Carson, living in Silver Spring at the time, was particularly alarmed by insecticide experiments in Patuxent, MD. She worried that the Government was using pesticides indiscriminately, with little regard for the damage they might cause to unintended targets, like other wildlife, or people who would eat the crops.

In 1957, her concerns became reality. Spraying for mosquitoes in Massachusetts, covering Long Island with a mixture of DDT

and fuel-oil to eradicate the gypsy moth, and a chemical war against fire ants in the South—all of these caused the widespread death of other animals in the areas.

Ms. Carson, a former scientist at the U.S. Fish and Wildlife Service with a Masters degree in Zoology, and the author of two previous books, wrote a third, *Silent Spring*, about the pesticide problem. She described the issue in vivid terms—a happy town struck by a “strange blight” that stopped the birds from flying and silenced their voices.

Her message was not accepted quietly. Even the idea of the book, before it was published, was enough to cause the chemical industry, with the support of the U.S. Department of Agriculture, to work to discredit Ms. Carson. She was called a “hysterical woman” and threatened with lawsuits. Her meticulous scientific work was described as “oversimplifications,” “downright errors,” and “scary generalizations.”

However, Rachel Carson did not back down from a fight. Even as she was battling cancer, Ms. Carson testified before Congress, stood up for her research and her work, and, with her eloquent words and confidence in the science behind them, rallied millions of Americans to her side.

Rachel Carson helped begin the modern environmental movement by helping Americans relate to complicated scientific issues. She also forced the Government to consider that even potentially beneficial practices like eliminating the bugs that ate our crops could have dangerous environmental effects. Her stand paved the way for others to join the cause. She spoke the first “inconvenient truth.”

When she died, she left a legacy for us to carry. The pesticide problem did not end with *Silent Spring*. Our environment is not safe from dangers. Agricultural run-off, sprawl and logging, and of course, global warming, are persistent threats that we must face with the same courage and tenacity Rachel Carson showed 40 years ago.

This year, Congress is prepared to meet those challenges head on. We are developing comprehensive global warming legislation to curb pollution and reduce our dependence on foreign oil.

We all have the responsibility to follow Rachel Carson’s example to be stewards of our environment and natural resources. We must ensure that we and the generations that follow us can, as Ms. Carson advised, “dwell among the beauties and mysteries of the earth.”

**TRIBUTE TO SHERIFF’S DEPUTY
MARVIN JEROME SCARLETT**

HON. KENDRICK B. MEEK

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 24, 2007

Mr. MEEK of Florida. Madam Speaker, I rise today with a heavy heart as I mourn the passing of a friend and fellow member of the law enforcement community, Marvin Jerome Scarlett of Henry County, Georgia. Sheriff’s Deputy Scarlett was a patriot dedicated to upholding and defending the rule of law. He was a man of great courage, conviction and passion who lived a wonderfully fulfilling life surrounded by a loving family, close friends and admiring colleagues.

Sheriff’s Deputy Scarlett was a college friend and a teammate; together we played beside each other on the football field at Florida Agricultural and Mechanical University in Tallahassee, Florida. Marvin reflected the very best qualities I would hope for in a teammate—he always put the team first and this dedication to his peers and community was a hallmark of Marvin’s personality.

I mourn alongside the loving family of Marvin Jerome Scarlett, and honor his wife Latosha, and children Johnnie, Lottrenise, Lottriana, and Shi-Mon. During this difficult time, we will comfort the Scarlett family and pray for their wellbeing.

Like the God he faithfully served, this gentleman came and lived among us that we may have hope more abundantly. True to his faith, Sheriff’s Deputy Scarlett would urge us to believe that his death does not represent an irrevocable finality, and he would assure us that he will live on in the good deeds he left behind. Indeed, no life could be more revered for having fulfilled his vocation as God’s faithful steward. I will cherish the wonderful memories I have of Marvin Jerome Scarlett, a true friend and defender of our community.
