

electrical bill accounted for 61% of total expenditures, according to town administrator Helen Mitchell. In response, it has cut costs. The hours for city workers were cut to six hours from eight hours a day last year. The part-time patrolman position was eliminated a couple of years ago.

The result of these crushing bills is that remote villages face a slow decline. Four schools in the last two years have shut their doors when they fell below 10 students and lost most state funding. In Shungnak, school enrollment is off 7% in the past decade. A few miles down the Kobuk River, the village of Ambler has lost 29% of its school-aged population.

Despite shrinking enrollment, the regional school district has been on a building boom in recent years, largely supported by state grants. That, in turn, has only increased its need for fuel. The new schools, despite better insulation, require more petroleum to operate.

NEW SCHOOL

In nearby Noatak, an 18,000-square-foot school was torn down and replaced with one more than twice as large with a new air-circulating system and more lights.

"We have a very fragile economy in most of these villages already and then you add the jolt of high fuel-oil prices. It's my guess that many of these communities will not find themselves viable if fuel prices stay here," says Mike Black, director of community advocacy at Alaska's Department of Commerce, Community and Economic Development. The villages, he says, "are begging, borrowing and stealing to get enough fuel."

The extreme costs of fuel in rural Alaska have led to numerous energy experiments. But various efforts to reduce rural Alaska's dependence on petroleum-based energy have struggled. Petroleum is easy to store, handle and transport, says Brent Sheets, head of the federal government's Arctic Energy Office in Fairbanks. "It is hard to beat diesel fuel," he says.

A proposal to build a small nuclear power plant for one small town was shelved when a study concluded that the federal security requirements made the project uneconomic. Solar isn't a good fit for Alaska, because fuel demand goes up in the winter when the state gets little sunlight. The Energy Department office even looked at turbines designed to harness river energy, dodging logs and car-sized icebergs, but plans never made it past the theoretical stage.

One alternative-energy success story is in Kotzebue, the hub community to the west of Shungnak on the Chukchi Sea. On the tundra outside of Kotzebue, where the only sign of life is paw prints from an Arctic fox, are 17 windmills capable of generating one megawatt of electricity. The windmills "are a hedge against rising fuel costs," says Brad Reeve, a Minnesotan who came to the town 30 years ago to run the public-radio station and now heads up the electric cooperative.

As the cost of bringing in diesel has grown, electricity from the windmills has looked better and better. But the windmills have a high upfront cost—they sit on special pilings with chemicals that ensure the tundra remains frozen to hold the windmills steady. And on a recent morning, as a computer in the coop's offices showed 2.8 megawatts of demand, the wind wasn't blowing. All of the electricity came from distillate-burning generators, a reminder that Kotzebue needs to keep a steady supply of oil.

In Shungnak, Mr. Woods, the tribal-government official, says he expects the oil will keep on flowing. Eskimos are accustomed to adapting to extreme conditions, he says. But there is little effort being made to teach children how to hunt the old way. "Their lifestyle now is so convenient," he says.

Hanging out on the steps of the village store after school with friends, 11th-grader Dion Tiekett says he didn't grow up learning how to hunt or take care of a team of Alaskan huskies. He grew up watching television and riding snowmobiles, something he and his friends do to pass the time. "There's nothing to do around here," he says.

After school let out on a recent afternoon, Mr. Woods spent \$90 to fill up his Arctic Cat snowmobile to take his son out hunting. But he doesn't expect his son to need these skills. In a couple of years, when his son enters high school, Mr. Woods plans to move his family to east Texas, where he was stationed in the military. Gasoline there costs just under \$3.00 a gallon.

LEWISTON'S RECOGNITION AS ONE OF TEN ALL-AMERICAN CITIES

HON. MICHAEL H. MICHAUD

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. MICHAUD. Mr. Speaker, I rise today in celebration of the fact that Lewiston, Maine, has been recognized as 1 of 10 All-American Cities by the National Civic League.

Lewiston truly embodies both dynamic change and proud tradition and is extremely deserving of this award. Located in my congressional district in Maine, the city of Lewiston was first settled in 1770 by Franco-American and Acadian settlers, who came to Lewiston to find employment in the mills powered by the nearby Androscoggin River. Textile mills flourished as women from the surrounding countryside came for employment opportunities. The city continued to grow and expand, and by the 1950s, Lewiston had become the State's primary manufacturing center.

Unfortunately, the subsequent decline of textile manufacturing led to unemployment, decreased wages, and a need for new ideas and new industries. In the 1990s, the city began to focus on new downtown construction, bold development strategies, improved post-secondary educational prospects, expanded health care, and new cultural events. In 1992, the town acquired the Bates mill and redeveloped 500,000 square feet of space. Lewiston also joined in a partnership with Auburn, ME, for economic development, busing, 911 services and drinking water. In the downtown area, the Southern Gateway project established Maine's first fully-fiber optic community for telephone, cable and broadband services. University of Southern Maine has begun a new expansion which makes the Lewiston-Auburn College the fastest growing campus within the University of Maine system, while Bates College has been recognized as a best value college by a national publication.

Since 2003, Lewiston has invested \$20 million in affordable housing to provide opportunities for families, and since 2000, it has seen \$350 million in new business construction.

Today, Lewiston is thriving. It is home to almost 36,000 residents, and it is clear that her citizens are working together with great pride to continue building the community. Local institutions are deeply involved in helping Lewiston to grow and evolve. The Androscoggin Leadership Institute is helping the community to understand its current and future needs and find new opportunities for individuals to contribute. The local Thongrakk Nature Center

Project is now the largest bird sanctuary within New England; volunteers there ensure safe access to 5 miles of recreational trails. And since the city is now home to a large Somali community, the group United Somali Women of Maine has created a DVD that stresses the importance of education, changing roles of women, and the commitment to preserving their culture for the youth of Lewiston.

It is clear that Lewiston today is a center of business, volunteerism, education, environmental action, and diversity. The citizens are mindful of their proud traditions, and have made something very special in Lewiston, ME. Their achievements are truly something to commemorate, and I congratulate the city of Lewiston for their achievements and for the well-deserved recognition of this award.

MILITARY CONSTRUCTION AND VETERANS AFFAIRS APPROPRIATIONS ACT, 2008

SPEECH OF

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, June 15, 2007

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2642) making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2008, and for other purposes:

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Chairman, I would like to commend the chairman of the Military Construction and Veterans' Affairs Appropriations Subcommittee—Congressman EDWARDS, Chairman OBEY, and my colleagues for passing the Military Construction and Veterans Appropriations for FY 2008.

This bill is the largest increase in veterans funding in the 77-year history of the Veterans Administration.

As a result, this measure supports high priority programs such as Homeless Veterans Care, Mental Health Care, and Long-Term Care.

As a former psychiatric nurse at the Dallas Veterans Administration Hospital, I know firsthand the disparities contributed by lack of funding.

I am particularly pleased to see the bill provides increased funding for homeless veterans programs, three centers for Centers of Excellence for Mental Health and Post Traumatic Stress Disorder to become fully operational this year. It also matches the VA's request to fund programs for minority contractor procurement and streamlines the VA billing system.

The Dallas VA has been a leader in outreach to homeless veterans, who comprise almost a fourth of the homeless adults in the Nation.

The North Texas VA Health Care System in Dallas was the first to establish a comprehensive homeless program, which helps homeless veterans with mental and physical illnesses. Dallas is one of eight cities in the country with a veteran's homelessness program targeted towards women.

I am also pleased with the Military Construction and Veterans Affairs FY 08 funding because it includes funds for mental health centers. I have continually advocated for increased access to mental health care by returning veterans through the science committee.

This bill also grants the Veterans Administration request for administrative functions, including operation of Veterans Administration Medical Centers, quality of care oversight, informational technology—hardware and software, legal services, billing, coding activities, and procurement.

Funding for administrative functions is especially important to decreasing claims backlog for veterans waiting for disability and other benefits by adding more than 1,100 new claims processors. The funding also makes five polytrauma centers and three Centers of Excellence for Mental Health and Post Traumatic Stress Disorder (PTSD) fully operational this year. These centers will afford care for those returning from Iraq and Afghanistan.

Subsequently, sufficient funding for procurement and billing activities is in particular important to Dallas, since the Dallas Veterans Administration actively encourages large businesses to partner with small businesses through subcontracting plans.

This bill makes available resources to support military construction projects and ensures America's servicemen and women have more effective training facilities, and better housing, health care and day care facilities. I would like to take this opportunity to once again commend my colleagues, Congressman EDWARDS and Chairman OBEY for providing a comprehensive Military Construction and Veterans Appropriations for FY 2008 possible.

CONGRATULATIONS TO BOB WILLIAMS ON THE OCCASION OF HIS RETIREMENT FROM THE WAVE TRANSIT SYSTEM

HON. JO BONNER

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. BONNER. Madam Speaker, it is with great pride and pleasure that I rise today to recognize the outstanding service and leadership of Bob Williams on the occasion of his retirement after 35 years of service in public transportation. For the past 6 years, Bob has served Mobile as the general manager of the Wave Transit System.

Bob began his career in Peoria, Illinois, as a bus operator and rose to assistant general manager. In 1988, he was selected to be assistant general manager of the Transit System in Charlotte, North Carolina, where he served for 12 years.

In 2001, Bob came to Mobile and was responsible for the overall management of day-to-day operations. He oversaw the opening of the renovated GM&O building and helped coordinate relief efforts during Hurricanes Dennis and Katrina. Bob forever changed the face of public transportation in Mobile—new carriers, the MODA, user-friendly routing, neighborhood pick-up service, comfortable rider stations, litter free bus rides, and increased ridership.

Madam Speaker, I ask my colleagues to join with me in commending Bob Williams for his

tireless service to public transportation in Mobile. I know Bob's colleagues, his family, and his many friends join with me in praising his significant accomplishments and extending thanks for all his efforts on behalf of the citizens of the First Congressional District.

HONORING RODOLFO AND DORA MIRABAL FROM CORPUS CHRISTI, TEXAS

HON. SOLOMON P. ORTIZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. ORTIZ. Madam Speaker, I rise today to pay tribute to the accomplishments of two pioneers in the national Hispanic community, and their home in south Texas. Rodolfo Zepeda Mirabal, Sr., and Dora Cervera Mirabal, were two activists and organizers in the Corpus Christi community who answered the call of patriots and did much to make our community a better, more transparent, place to live.

Rodolfo was among the original founders of the League of United Latin American Citizens, LULAC, and in the 1920s he began publishing his own Spanish-language newspaper, called *El Demócrata*. In the 1930s Dora began an annual publication of a traditional form of Mexican satirical verse for *Día de los Muertos* (Day of the Dead or All Souls Day).

Always civically engaged, Dora founded a bilingual school called *El Círculo de Nuestros Amigos Para Los Estudiantes Bilingües*, which operated at the Mirabal Printing Company and helped Spanish speakers learn English. She became the first female member of the Corpus Christi Mexican Chamber of Commerce, and served as an officer in the Corpus Christi Ladiess' LULAC Chapter.

Together Rodolfo and Dora operated Mirabal Printing Company in the heart of the Mexican-American community of Corpus Christi.

In 1938 the couple began publishing a weekly, full-size Spanish language newspaper in Corpus Christi, *El Progreso*, which kept the community informed for 41 years. This paper not only served as a crucial resource to the Hispanic community for local, national, and international issues, but it tried to give the Mexican-Americans in the Coastal Bend inspiration and a voice.

Following Rodolfo's death in 1968, Dora Cervera Mirabal continued work on *El Progreso* until she died of cancer on December 4, 1979. The Mirabals were succeeded by three children: Rodolfo, Jr.; Rosie; and Robert, all of whom carry on the family's printing business today.

Rodolfo and Dora Mirabal were "lost giants" in the advancement of the Mexican-American civil rights movement who inspired not just my generation, but generations to come.

I ask the House of Representatives to join me today in remembering this extraordinary couple and their outstanding record of civic service to the city of Corpus Christi and the south Texas community.

PERSONAL EXPLANATION

HON. LYNN A. WESTMORELAND

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 19, 2007

Mr. WESTMORELAND. Madam Speaker, on Friday, June 15 until the end of the legislative day, I was home in Georgia due to an unexpected medical condition of a family member. As a result, I missed a number of votes. Had I been present, I would have voted the following:

"Aye" on the McHenry 2nd Degree Amendment to the Fox Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 466).

"Aye" on the Fox Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 467).

"Aye" on the Fallin Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 468).

"Aye" on the Drake Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 469).

"Aye" on the King (NY) Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 470).

"Aye" on the Brown-Waite Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 471).

"Aye" on the Burgess Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 472).

"Aye" on the Ferguson Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 473).

"Aye" on the McHenry Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 474).

"Aye" on the Pearce Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 475).

"Aye" on the Carter Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (rollcall 476).

"Aye" on the McCaul (TX) Amendment No. 98 to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (Rollcall 477).

"Aye" on the King (IA) Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (Rollcall 478).

"Aye" on the Bilbray Amendment to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (Rollcall 479).

"Aye" on the McCaul (TX) Amendment No. 99 to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (Rollcall 480).

"Aye" on the Rogers Amendment No. 2 to H.R. 2638, the Department of Homeland Security Appropriations Act for Fiscal Year 2008 (Rollcall 481).
