

out for the neighborhood kids and was excited to serve his country. He joined the U.S. Army immediately following high school, graduating from helicopter pilot school and arriving in Vietnam in 1967. While he only served a little over a year before his death, Schultz earned many honors, including a Purple Heart, Good Conduct Medal, National Defense Service Medal, Army Aviator Wings, and an Expert Marksmanship Badge. In addition, Schultz's name is engraved on the Vietnam Veterans Memorial.

Sheldon Schultz's return home brings comfort and relief to his family, who went years without much information about his death. Madam Speaker, Sheldon Schultz dedicated his life to serving his country. His homecoming is a solemn reminder of the sacrifices our soldiers make in service to our Nation. Our thoughts are with his family, his fellow Vietnam veterans and members of his community. Another soldier has been brought home.

NEW DIRECTION FOR ENERGY
INDEPENDENCE, NATIONAL SECURITY,
AND CONSUMER PROTECTION ACT

SPEECH OF

HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Saturday, August 4, 2007

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 3221) moving the United States toward greater energy independence and security, developing innovative new technologies, reducing carbon emissions, creating green jobs, protecting consumers, increasing clean renewable energy production, and modernizing our energy infrastructure:

Ms. SCHAKOWSKY. Mr. Chairman, I rise in strong support of the Udall-Platts amendment. This amendment allows the United States to adopt a renewable portfolio standard of 15 percent by 2020 that fulfills our obligation as the world's lone superpower to be at the forefront in protecting the environment.

The need for a renewable portfolio standard is clear. With only 5 percent of the world population, the United States produces nearly 25 percent of annual global heat-trapping emissions. Electricity generation accounts for fully one-third of these emissions. We have a responsibility and a compelling interest to signifi-

cantly reduce these harmful emissions. Renewable electricity standards offer a smart, affordable climate solution with a proven track record.

Passing a renewable fuel standard not only reduces our nation's harmful impact on the environment, it also makes us more secure. Today, the United States imports nearly 60 percent of its oil from the Middle East and politically unstable nations such as Algeria, Nigeria and Venezuela. As alarming as this statistics is, evidence suggests that unless we change our behavior, the situation will only become more dire. In fact, a recent study found that if the United States continues its current consumption without increasing its domestic production, by 2010 we will have to import 75 percent of our fuel.

To prevent this sort of prediction from becoming a reality, it is crucial, that the United States takes steps to decrease its dependence on foreign oil. The 15 by 20 principle is the answer to this challenge. It can be achieved by tapping a multitude of natural resources. We can harvest the sun and wind to produce new energy. We can grow a wide variety of crops to produce ethanol and biodiesel and we can utilize livestock wastes to produce biogas and generate new power sources.

In addition to the advantages that renewable energy holds in terms of environmental and national security issues, there is also a strong economic incentive as well. Many renewable energy facilities are located near key regions across rural America. These facilities provide good jobs, often near small towns which have suffered from population declines.

Currently, renewable energy accounts for about 14 percent of the world's energy consumption. While this number is encouraging, the United States lags behind. According to a September 2006 report by the Center for American Progress, just over 6 percent of our electricity needs come from renewable energy sources.

We can do better, and, Americans want us to do better. I believe that setting a goal of 15 percent of America's total energy needs from renewable sources by 2020 sets us on the right path. I strongly endorse this amendment and I urge my colleagues to support it.

TRIBUTE TO VIOLET MOORHOUSE,
U.S. GOVERNMENT PRINTING OFFICE

HON. ROBERT A. BRADY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 4, 2007

Mr. BRADY of Pennsylvania. Madam Speaker, as chairman of the Committee on House Administration and of the Joint Committee on Printing, I want to recognize Ms. Violet Moorhouse, a long-time map cataloger at the Government Printing Office, who retired on July 31, 2007, following nearly 40 years of dedicated service.

Ms. Moorhouse went to work at the GPO in 1968 committed to serve the public, a commitment strengthened by a desire to do something positive following the assassinations of Dr. Martin Luther King, Jr., and Senator Robert F. Kennedy in 1968. During her long career, Ms. Moorhouse worked in almost every type of library, including public, school, univer-

sity, and special libraries. Prior to GPO, she cataloged documents at the New York Public Library. After working on cataloging general monographs, Ms. Moorhouse turned to map cataloging when maps were brought into GPO's Federal Depository Library Program in the 1970's. She cataloged all types of Federal maps, including serial maps and maps on microfiche and CD-ROM from the U.S. Geological Survey, the U.S. Forest Service, and the National Park Service. She pioneered many currently used cataloging practices for maps while welcoming advances in technology and cataloging that allowed more timely access to these important materials. She also trained incoming librarians in map cataloging, and was generous in sharing her expertise and detailed knowledge of the nuances of Federal maps with others.

During her career, Ms. Moorhouse contributed more than 100,000 bibliographic records to the Catalog of United States Government Publications and initiated many geographic name authority records in the Library of Congress authority database, providing a deep contribution to the field of geophysical data. Her prodigious talents were so valued that in 1998 she received the American Library Association's Map and Geography Round Table (MAGERT) award, which is presented to librarians for outstanding service to map librarianship. Her articles on GPO map cataloging appeared regularly in the MAGERT publication "base line" and in GPO's "Administrative Notes" newsletter. She also wrote the chapter on the Superintendent of Documents classification of maps in GPO's Classification manual. Ms. Moorhouse was active in the ALA's Government Documents Round Table and in the Cartographic Users Advisory Council, as well as in MAGERT.

Ms. Moorhouse earned a B.A. in English and comparative literature at the University of California, Berkeley. She earned an M.L.S. while on a one-year fellowship at Berkeley. She also did graduate work in Far Eastern Regional studies, with an emphasis on China, at the University of the Pacific, and continued her academic studies in the computer and cartographic fields in Washington, D.C.

I ask my colleagues to join me in thanking Ms. Moorhouse for her significant contributions to the GPO through her distinguished service in the Federal Depository Library Program, and extending best wishes for her well-earned retirement.

HONORING CODY GRATER OF
SPRING HILL, FLORIDA

HON. GINNY BROWN-WAITE

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 4, 2007

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, I rise today to honor an American soldier who gave his life in service to our Nation.

Army Private First Class Cody C. Grater of Spring Hill, Florida was killed in action when he was struck by a rocket-propelled grenade near Baghdad, Iraq. Pfc. Grater is survived by his mother, Anita Lewis, stepfather Larry Decker of Spring Hill and sister Cheyanne Decker.

While standing guard duty on the rooftop of an outpost in Baghdad, Cody's position was

hit by a rocket propelled grenade. He was killed, and another soldier stationed nearby was injured in the blast. During his time in the military, Cody had been awarded the Bronze Star, Purple Heart, National Defense Service Medal, Iraq Campaign Medal, Global War on Terrorism Medal, Army Service Ribbon and the Combat Action Badge.

Growing up in Hernando County, Cody had attended Springstead High School, where he had many friends and enjoyed working with cars and all things mechanical. An avid military buff as a child, Cody read military themed books and played with toys that dealt with the military. Prior to his enlistment in the Army, Cody was an active part of the Spring Hill Community, working with local elected officials to gain support for the construction of a skateboard park for area youth.

Joining the Army in April, 2006, Cody was assigned to the 407th Brigade Support Battalion, 2nd Brigade Combat Team. He then completed Motor Transport Operator Advanced Individual Training at Fort Leonard Wood, Missouri and was re-assigned as a vehicle driver with the 82nd Airborne Division.

Halfway through his fourteen month tour in Iraq, Cody had planned to re-enlist so that he could work with Blackhawk helicopters. His stepfather said that Cody loved the military and that "it was his goal to make the Army his career, which he loved. He was proud of serving his country." A firm believer in the mission he was fighting in Iraq, Cody was disappointed that people back home in the United States did not see the positive results of the military's efforts there.

Madam Speaker, it is soldiers like Pfc. Cody Grater who have volunteered to protect the freedoms that all Americans hold dear. While brave men and women like Cody have perished in the name of freedom and liberty, his family, friends and loved ones should know that this Congress will never forget his sacrifice and commitment.

TRIBUTE TO THE MEMORY OF DR.
JEANNETTE A. ALLEN WILLIAMS

HON. DONALD M. PAYNE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, September 4, 2007

Mr. PAYNE. Madam Speaker, it is with heartfelt sympathy that I ask my colleagues here in the House of Representatives to join me as I rise to offer a tribute to the memory of Dr. Jeannette A. Allen Williams. Dr. Williams was a remarkable educator and an outstanding role model. With her passing on Wednesday, August 22, 2007, our greater community has lost one of its more valiant leaders. Fortunately, she leaves a legacy that her family, friends and colleagues can recall with a great deal of pride.

Truly, the cities of Newark, Jersey City and Plainfield were blessed to have Dr. Williams in their midst as an educator extraordinaire and as an administrator who always had the best interest of children at the heart of all her initiatives. She was thoughtful, gracious and a consummate professional. As a young teacher at West Side High School in Newark, Dr. Williams would serve as an inspiration to many of her young charges. When she became principal at West Side, she would be the first

black person to be a high school principal in the City of Newark and as a result she raised the bar for all students to realize that they could be anything they set their minds to becoming.

Personally, I knew Dr. Allen for over forty years and was glad to have her as a resident in the 10th Congressional District. Not only did she believe education was important for herself, having achieved advanced degrees but she encouraged her students, nieces, nephews and other relatives to strive for academic excellence. From what I know of many students touched by her, she was successful in her efforts.

Madam Speaker, it is my sincere hope that all those who knew and loved Dr. Jeannette A. Allen Williams will be able to draw comfort from the memories they have of her. I know she will continue to live in their hearts. As a Christian woman, I feel confident in saying that "it is well with her soul."
