

healthy growth and adds over \$15 billion annually to the value of U.S. crops.

Madam Speaker, the number of honey bee colonies throughout North America has gradually declined in recent decades due to parasites, pathogens, toxins and a host of other environmental factors. However, this rate of decline has increased significantly with the emergence of Colony Collapse Disorder. If the current rate of decline continues, the United States will be forced to rely more heavily on imported foods. This destabilization of American food security would have adverse effects on the availability, price, and quality of the many fruits, vegetables, and other products that depend on animal pollination.

I am proud of the vibrant variety of produce and citrus my district contributes to our Nation's food supply. However, this is an issue that not only impacts Floridians, but all citizens throughout this Nation. This is why I am honored that the Florida Department of Agriculture has contributed significantly to addressing Colony Collapse Disorder through the work of Jerry Hayes, Assistant Chief of the Bureau of Plant and Apiary Inspection. Mr. Hayes has contributed significantly to the Colony Collapse Disorder Working Group and I commend his effort along with those of his colleagues at the Pennsylvania State University, the United States Department of Agriculture—Agricultural Research Service, Bee Alert Technology, Inc., North Carolina State University, and the Pennsylvania Department of Agriculture.

Madam Speaker, it is necessary to provide funding to sustain the vital research of the Colony Collapse Disorder Working Group and the United States Department of Agriculture. As a former member of the Committee on Science and a graduate of Fisk University with an undergraduate degree in Zoology, I understand the value of their critical research. More specifically, this legislation will authorize immediate funding for laboratories conducting agricultural research at United States Department of Agriculture facilities as well as a reserve of \$10,000,000 for cooperative state research, education, and extension service grants to conduct relevant research to protect American agriculture. This legislation also authorizes \$5,250,000 over five years to conduct research specifically on Colony Collapse Disorder in the many affected States.

Madam Speaker, it is vital that this Congress takes on the task of supporting the work of the Colony Collapse Disorder Working Group. I would like to commend my colleague Chairman CARDOZA of the Subcommittee on Horticulture and Organic Agriculture for taking up this charge by calling for a hearing on "Honey Bee Decline" this upcoming Thursday, March 29, 2007. I hope that the Pollinator Protection Act that I introduce today will aid in this cause and urge this Congress to prioritize this effort. I look forward to working with Chairman CARDOZA on this issue and offer my utmost support for restoring stability to honey bee pollinated agriculture in this great Nation.

HONORING THE TUSKEGEE
AIRMEN

HON. JOHN B. LARSON

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 27, 2007

Mr. LARSON of Connecticut. Madam Speaker, I rise today to congratulate the

Tuskegee Airmen on receiving the Congressional Gold Medal. "Tuskegee Airmen" refers to all who were involved in the so-called "Tuskegee Experiment," the Army Air Corps program to train African Americans to fly and maintain combat aircraft. The Tuskegee Airmen included pilots, navigators, bombardiers, maintenance and support staff, instructors, and all the personnel who kept the planes in the air and bravely served our Nation during World War II.

In July 1941, 13 men started the first aviation cadet class at Tuskegee Army Field in Tuskegee, Alabama. After 9 months of vigorous flight training, 5 men successfully completed the program and graduated from the Tuskegee Flying School. These 5 airmen included CPT Lemuel R. Custis of my home State of Connecticut, who went on to become one of the first members of the 99th Fighter Squadron. The United States sent the 99th Fighter Squadron to North Africa and later Europe, where the Tuskegee Airmen proved to be valuable to the Allied Forces. In total, the Tuskegee Airmen of the 99th, 100th, 301st, and 302nd Fighter Squadrons distinguished themselves with 1,578 missions. Also, the 332nd earned a Presidential Unit Citation for "outstanding courage, aggressiveness, and combat technique" while escorting heavy bombers over Germany. The next generation of these outstanding individuals featured another constituent of mine, Flight Officer Connie Nappier, Jr., of Hartford, Connecticut. Nappier strived to excel at his work and passed every navigation exercise. Despite his accomplishments, he and others were constantly accused of cheating or denied credit for their outstanding achievements, which went directly to the white instructors. Connie Nappier and 100 other men were even thrown in prison for attempting to use the segregated Officer's Club at Freeman Field in Indiana, only to be released at the order of President Truman. The brave efforts of men like Connie Nappier, Jr., paved the way for African American aviators in the military.

Finally, these outstanding individuals will officially receive the award and credit that they have long deserved. Unfortunately, my constituent, Lemuel Custis passed away in February of 2005 at the age of 89, and will not have the opportunity to receive the honor he long deserved for his brave service to our Nation. Custis himself recognized in his own words that the Tuskegee Airmen "were fighting a war on two fronts. They were fighting the enemy in Europe and Africa and they fought a Jim Crow society at home." Lemuel Custis was a hero and a true patriot, but is widely remembered to be a "humble man who loved his country." Lemuel Custis, Connie Nappier, Jr., and the rest of the Tuskegee Airmen bravely rose above the obstacles set by the rampant discrimination of the period, and courageously defended a democracy that had not yet embraced them as true citizens.

Madam Speaker, I strongly urge my colleagues to join me today in honoring the Tuskegee Airmen for their outstanding service to our Nation. I feel privileged to assist in honoring heroes like Lemuel Custis and Connie Nappier, Jr. who stood up to defend our Nation in the midst of World War II, and helped to break down the racial barriers of the United States military. We all owe them our appreciation and respect for their valiant contribution to this country.

HONORING THE LIFE AND SERVICE
OF ENSIGN JESSE L. BROWN, USN

HON. GENE TAYLOR

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 27, 2007

Mr. TAYLOR. Madam Speaker, I rise today in tribute to the life and service of ENS Jesse LeRoy Brown, United States Navy. Ensign Brown was born in Hattiesburg, Mississippi, on 13 October 1926. He enlisted in the Naval Reserve in 1946 and was appointed a Midshipman, USN, the following year. After attending Navy pre-flight school and flight training, he was designated a Naval Aviator in October 1948, the first African-American to achieve this status. Midshipman Brown was then assigned to Fighter Squadron 32. He received his commission as an Ensign in April 1949.

During the Korean War, he operated from USS *Leyte*, flying F4U-4 Corsair fighter aircraft in support of United Nations forces. On December 4, 1950, while on a close air support mission near the Chosin Reservoir, Ensign Brown's plane was hit by enemy fire and crashed. Despite heroic efforts by other aviators, he could not be rescued and died in his aircraft. ENS Jesse L. Brown was awarded the Distinguished Flying Cross for his Korean War combat service.

In honor of his service, the Secretary of the Navy named the 38th ship in the Knox-class of frigates the USS *Jesse L. Brown*.

Madam Speaker, I know my colleagues will join me in honoring Jesse's memory, and celebrating the addition of a plaque in his memory to the Naval Aviation Monument Park in Virginia Beach, to be presented May 5, 2007. Ensign Brown was both a pioneer and a model of service to country, who gave his life that we might enjoy our freedom.

DR. RABBI PAUL B. SILTON

HON. MICHAEL R. McNULTY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 28, 2007

Mr. McNULTY. Madam Speaker, this morning I had the honor of introducing our guest chaplain for today, my very dear friend and teacher, Dr. Rabbi Paul Silton of Temple Israel in Albany, New York.

In order for House Members to have a greater understanding of Rabbi Silton's extraordinary accomplishments, I submit a more detailed description of his impressive background:

Dr. Rabbi Paul Silton, Rabbi of Temple Israel, the largest conservative synagogue in northeast New York, received his B.A. in Philosophy from Boston University, an M.A. in Hebrew Literature and Rabbinical Ordination from the Jewish Theological Seminary of America in 1970, and a Doctor of Divinity in 1996. At his graduation from the Jewish Theological Seminary, he was awarded the top prize in Pastoral Counseling. While at the Seminary, he studied at the Meir Yeshiva in Brooklyn and taught at religious schools in Fort Lee, New Jersey; Hartford, Connecticut; and Rumson, New Jersey. He also served as Gabbai of the Seminary Synagogue under the

supervision of Dr. Rabbi Saul Lieberman and Dr. Rabbi Louis Finkelstein. Prior to his move to Albany, New York, Rabbi Silton spent 6 years as a teacher and Education Director at Camps Ramah in Glen Spey, New York and in Palmer, Massachusetts. Rabbi Silton arrived in Albany after serving as Rabbi at Congregation Beth Israel in North Adams, Massachusetts. While in North Adams, Rabbi Silton taught at Williams College and served as prison chaplain.

Already in 1974, the pattern of Rabbi Silton's Rabbinate began to diverge from that of his colleagues. Here at Temple Israel, he began his career as Educational Director for students N-12, including the Communal High School, Camp Givah Director and assistant to Rabbi Kieval. In each of those areas, he actively fostered growth and change. Gradually the nursery school expanded into a full Early Childhood Center, servicing day care needs of pre-kindergarten youngsters and their parents. It now includes Baby and Me, Mommy (or Daddy) and Me toddler programs, and morning and afternoon nursery. The Religious School extended to 7 hours a week and featured a school-wide Israeli Dance Program, which eventually grew to present dance performances in Albany, Boston, and New York City. On Shabbatot and High Holidays, preprimary and primary children in addition to "Juniors" could now attend services especially designed for them. As they grew older, students could tour and study in Israel with double the amount of scholarship aid from generous member endowments and community sources. Adults could now attend class 5 days a week and occasionally participate in Hebrew Reading Marathons; Professor Stephen Berk's lecture series became a most successful Adult Education program.

At Camp Givah, Rabbi Silton founded the Kibbutz Program, inspired the building of Yam Sarah (Givah's lake), the arts and crafts center, and the early childhood shelter. He introduced and developed programs in boating, gymnastics, computers, horseback riding, and Red Cross Boating Certification. For younger children who literally could not wait until next summer's Givah excitement, he originated and organized Camp Horef Katan, a winter camp.

As Rabbi Silton's responsibilities increased, so his avid interest in many other areas continued to expand. He founded Holocaust Survivors and Friends in Pursuit of Justice and he hosted the first major 3-day national Holocaust conference for 1500 participants in April 1984 at Temple Israel. Since then he has organized a multitude of services for the community Kristalnacht and Holocaust Memorial commemorations, featuring international figures such as Beate Klarsfeld. He visited Germany several times in support of those testifying at war crimes trials, to officiate at an interfaith service in Passau, Germany, and at other events that united survivors and liberators.

Silton's most passionate efforts, however, have focused on Temple and community. In addition to attending to traditional Rabbinical duties at Temple Israel, he greatly expanded the Bar and Bat Mitzvah roles of boys and girls, initiated full reading of the scrolls by women on various holidays, a women's prayer group, Rosh Chodesh benching, P'Sukei D'Zimra, and regular Torah reading; he introduced Birkat Kohanim on an ongoing basis, a hashkamah (early) minyan and a learners' minyan. He also began a daily study program

of Jewish text which takes place every morning. This study program has continued for the past 10 years. In addition, he strengthened the daily minyanim, instituted Yom Kippur dialogues with inspiring international figures, initiated holiday dinners and workshops, organized Hassidic Song Festivals, Cantorial concerts and innumerable Kallot featuring international performers and scholars. Through the efforts of Rabbi Silton, Temple Israel has received numerous awards from United Synagogue of Conservative Judaism including those for: Israel Affairs, Camp Givah, Performing Arts, Community Relations and Israel/Masorti Affairs as well as Education Awards for Programming, High School Education and the Framework for Excellence Synagogue School Program Award. He assisted in the founding of HADAR, the award-winning Judaic Art and Book Center at Temple Israel. Rabbi Silton has also been featured in four books including The Outraged Conscience by Rochelle G. Saidel, 1984; Against the Stream: Growing Up Where Hitler Used to Live by Anna Rosmus, 2002; Out of Passau: Leaving a City Hitler Called Home by Anna Rosmus, 2004; and in a soon to be published book about the Sabbath by Christopher Ringwald.

All of the above mentioned activities attracted the community to Temple Israel but Silton directly involved himself in countless community events as well. For nearly 20 years he directed the Communal High School and taught at the Bet Shraga Capital District Hebrew Academy. When Soviet Jewish immigration was at its height, he supervised the ritual circumcisions of nearly all Soviet immigrants' male children, arranged and officiated at the first Russian Jewish wedding and Bar Mitzvah of these newly settled immigrants in the Capital District. In addition to serving on a host of community boards and committees including the Police Review Board under Mayor Gerald Jennings, he initiated the first Jewish-Latino Seder, hosted the third annual Black-Jewish Seder, assisted the Aviva chapter of B'nai B'rith with the first Seder for the developmentally disabled, discussed Judaism with hundreds of church groups and taught basic Judaism classes and has lectured at area colleges including College of St. Rose, Maria College, Siena College, and SUNY Albany. He also worked with Mayor Jennings on the observance of Yom HaShoah to honor the late Chiune Sugihara, a Japanese "Oskar Schindler". In 1994, Silton built the first mikveh owned by Temple Israel to serve the congregation and the entire Capital district community. The building of the mikveh has been an inspiration to other conservative congregations throughout the country. An article about it will be coming out in the very near future of United Synagogue Review.

On an ongoing basis, Rabbi Silton teaches in the Temple Israel Educational Center: junior high, high school, and adult education departments. Following the Six Day War, Rabbi Silton spent a year of study in Israel with his wife, Faye. While studying at the Hebrew University and the Rav Kook Yeshiva in Jerusalem, he learned to become a Mohel. Ordained in 1968 by the Chief Rabbinate of Israel, he has officiated at thousands of B'rit Milah from Syracuse to the Catskills to Western Massachusetts. Rabbi Silton and his wife, Faye, are the parents of Elana (Dr. Ari) Moskowitz, Michal (David, Esq.) Kahan, Dr. Akiva (Dr. Sharon) Silton, Tamar, Esq. (Jer-

emy) Epstein, Aviva (Ami) Robinson, Nava Silton and Shira Silton. They currently have 15 grandchildren.

COMMENDING THE ADELPHI NEW YORK STATEWIDE BREAST CANCER HOTLINE & SUPPORT PROGRAM

HON. CAROLYN McCARTHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 28, 2007

Mrs. McCARTHY of New York. Madam Speaker, I rise today to commend the Adelphi New York Statewide Breast Cancer Hotline & Support Program ("the Program"). The Program, established 27 years ago at the Adelphi University School of Social Work, was one of the first breast cancer programs in the country. This highly respected and valued program has developed important services that have been replicated throughout the U.S., and volunteers have been crucial to the services provided. On April 19, 2007, the Program volunteers who have given women a place to turn when faced with breast cancer will be recognized.

The dedicated volunteers and staff of the Program offer crucial information and emotional support to people throughout New York who are coping with breast cancer. Almost all the 100 volunteers have had breast cancer. They know the fear and confusion that comes with the discovery of a breast lump or the diagnosis of breast cancer. Because they have "been there," they immediately provide hope and much more to callers. These highly trained and well-supervised volunteers direct callers to the latest information, sending pamphlets and other resources when needed. They let them know what services are available in their communities. And they are a "shoulder to lean on" for callers. They are there to listen and to help and get people through difficult times.

My office has used the program many times when constituents have come to me looking for help for themselves or their family members. I have been able to refer them to the Adelphi Program knowing that they will be handled with care and concern and given the best possible assistance. In the Healthy Families and Communities Subcommittee, of which I am the Chairwoman, we have explored the need for volunteers and I understand how critical volunteerism is to this Nation. I thank the Program and its volunteers for their work.

TRIBUTE TO MINNIE BELLE MCINTOSH

HON. CHRIS VAN HOLLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 28, 2007

Mr. VAN HOLLEN. Madam Speaker, I rise today to recognize one of my constituents, Minnie Belle McIntosh, who celebrates her 100th birthday on March 30, 2007.

Minnie Belle McIntosh has led an extraordinary life. When she was only 4 years old, her mother died of tuberculosis, leaving her and her sister Anne as orphans to be shuttled
