

Senator, Senator BOND, is fond of saying that these locks belong on the National Register of Historic Places. He is actually mistaken. They are already on the National Registry of Historic Places.

I urge this House to override the President's veto.

GENERAL LEAVE

Mr. CLYBURN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

NATIONAL BIBLE WEEK

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. CLYBURN) is recognized for 5 minutes.

Mr. CLYBURN. Mr. Speaker, it is interesting that I come after the gentleman from Missouri, because before leaving home down in South Carolina this morning, I went to dedicate a water project in a part of my State where they have a real problem with potable water, and extensive health problems as well. During that ceremony, it was asked of me what kind of guarantee that I have that this water project would be seen to fruition. This morning we were dedicating the first phase. There are two others.

In answering the question, I referred to the greatest of all books, the Bible. I referred to the Book of Hebrew, the 11th chapter. I call that the faith chapter of the Bible. I quoted Hebrew 11:1: Faith, the substance of things hoped for and the evidence of things unseen. I quoted that because in our work here, much of the time, though we don't view our work as being grounded in the Bible, we often strike out on faith. We have a little idea sometimes of exactly where any issue is going. I do believe that as we carry out our duties and responsibilities to the people of this great Nation, sometimes we ought to pause and give credence to where that emanates from.

So I am pleased that my good friend from Illinois asked me to come down tonight and to join in this special order commemorating the Bible during National Bible Week. When I was growing up, my father, who was a fundamentalist minister, never asked me to read the Bible, never instructed me to do so. He just told me every morning at the breakfast table to recite a Bible verse. Now, it would be a little difficult to do that without reading the Bible. He made sure that we didn't do the same one twice. Daddy set down the rule. He took Jesus' whip off the table. So it was very, very important for me to read the Bible daily.

He also had a second rule, and that is that every night before retiring to bed, we had to share with our parents, or one of them, some current event. He would often have ways of showing us how that particular event that we may have shared was grounded in the Good Book.

So long before I became House Majority Whip, I assumed the leadership of the Democrats' Faith Working Group. For the last 3 years now, Mr. Speaker, it has been my great joy to work with the members of our caucus, trying to get our membership comfortable with the fact that our work here is in fact faith-based.

If you doubt it, then I ask all of my colleagues to just take a look at my favorite book of the Bible, the Book of James. It has got nothing to do with my name, though that would not be a bad thing. It's a very short book, but it tells us a lot about our responsibility. There, in the second chapter of James, we are all instructed that if your brother or sister comes to you hungry and naked, it is not enough to tell them to go in faith; you feed them and you clothe them.

That is what this Congress is all about. This Congress is about doing those things that are necessary to make sure that our constituents and make sure that our citizens are fed that need to be fed or clothed that need to be clothed. I do believe if James were writing his epistle today, he would also tell us it is also important to house them when they need shelter.

Mr. RAHALL. Mr. Speaker, this year the week of November 18–24th has been designated "National Bible Week," a week to renew our interest in the Bible and to recognize the influence that the Bible has had in our lives and on our nation throughout its history.

As a child growing up in West Virginia, I was encouraged by my father to read the Bible daily, because he found such solace and comfort in the Word. As Paul wrote in Philippians 4:13, "I have learned the secret of being content in any and every situation, whether well fed or hungry, whether living in plenty or in want, I can do everything through Christ who gives me strength."

Knowing this soothes and comforts my soul in times of distress. It is my guiding light that keeps me centered and focused and I derive great joy from reading the scriptures during my time of mediation and reflection.

Today, God's Word written in the Holy Scriptures of the Bible is important to me both as an individual and as a leader. It is the Bible that guides me through the day, as I seek to make decisions that will affect people in my state and in our nation—decisions that require a wisdom that is found throughout the Old and New Testaments of the Bible.

It is the Word of God written in the Bible that gives me the fortitude I need to carry out my responsibilities as a friend, a father, a husband, and a Congressman. The Bible provides the wisdom to know how to respond to my family and constituents during times of dire crisis.

For these reasons, and many more, I thank God that we have a manual for our daily living in the Bible.

As we face the unforeseen challenges that lie ahead, both at home and abroad, I encourage all Americans to read the Bible and read it often, to study its teachings, and to make it an important part of their lives.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3043) making appropriations for the Department of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 2008, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

This conference agreement includes the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008 as Division A; and the Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2008 as Division B.

DIVISION A—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS, 2008

In implementing this conference agreement, the Departments and agencies should be guided by the language and instructions set forth in House Report 110-231 and Senate Report 110-107 accompanying the bill, H.R. 3043.

In the cases where the language and instructions in either report specifically address the allocation of funds, each has been reviewed by the conferees and those that are jointly concurred in have been endorsed in this joint statement.

In the cases in which the House or the Senate reports direct the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

The conferees note that section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Committees 15 days prior to reprogramming, or to the announcement of intent to

reprogram, funds in excess of 10 percent, or \$500,000, whichever is less, between programs, projects and activities.

Finally, the conferees request that statements on the effect of this appropriation Act on the Departments and agencies funded in this Division be submitted to the Committees within 45 days of enactment of this Act, pursuant to section 518. The conferees expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different than that of the budget request. Furthermore, the conferees request the statements to also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2008 budget.

REDUCING THE NEED FOR ABORTIONS

The conference agreement includes nearly \$615 million over the fiscal year 2007 funding level for the initiative in the House bill to reduce the need for abortions in America through both prevention and support programs. Key increases are provided for Healthy Start, Family Planning, Abstinence Education, Child Care, and Community Services Block Grant to increase services to prevent unintended pregnancies, encourage women to carry their pregnancies to term, and provide support for new parents who have economic difficulties. New approaches include a young parents training initiative in the Department of Labor, first time motherhood grants under the Health Resources and Services Administration, and a teen pregnancy prevention demonstration within the Centers for Disease Control.

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008, put in place by this bill, incorporates the following agreements of the managers:

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION

TRAINING AND EMPLOYMENT SERVICES

(INCLUDING RESCISSIONS)

The conference agreement includes \$3,618,940,000 for Training and Employment Services, instead of \$3,530,530,000 as proposed by the House and \$3,587,138,000 as proposed by the Senate. Of the amount appropriated, \$1,772,000,000 is an advance appropriation for fiscal year 2009 as proposed by the House and the Senate.

The conference agreement includes \$1,471,903,000 for Dislocated Worker Assistance as proposed by the House and the Senate. The conferees override the formula that provides that 80 percent of the funds provided will be used for State formula grants and 20 percent in a National Reserve Account. For program year 2008 the conferees provide \$1,189,811,000 for the State formula grants and \$282,092,000 for the National Reserve Account.

The conference agreement provides that \$6,300,000 in National Reserve Account funds shall be available upon enactment for the purposes of grants, to be awarded within 30 days of enactment, for the continuation of national or multi-state training and employment programs. These grants are to be awarded to the AFL-CIO Working for America Institute and AFL-CIO Appalachian Council, as proposed by the Senate, and the National Center on Education and the Economy, as proposed by the House.

The conference agreement provides that up to \$125,000,000 within the National Reserve Account may be used to carry out the Community-Based Job Training Grant initiative as proposed by the House, instead of \$150,000,000 as proposed by the Senate. The

conference agreement continues bill language which provides that this amount is to be allocated from national emergency grant funds available under section 132(a)(2)(A) of the Workforce Investment Act of 1998, notwithstanding the limitation otherwise imposed under section 171(d), as provided by the Senate. The House contained no similar provision. The conference agreement includes a general provision requiring these grants to be awarded competitively.

The conferees are in agreement that no funds from the dislocated worker national reserve account or other pilot and demonstration resources be used for career advancement accounts or the predecessor proposal for personal reemployment accounts prior to a specific authorization of such activities, as proposed by the House. The Senate contained no similar provision.

For Native Americans, the conference agreement includes \$55,039,000, instead of \$56,381,000 as proposed by the House and \$53,696,000 as proposed by the Senate.

For Migrant and Seasonal Farmworkers, the conference agreement includes a total of

\$82,740,000 instead of \$83,740,000 as proposed by the House and \$79,752,000 as proposed by the Senate. Within the total, \$77,265,000 is for State service area grants. The amount provided also includes \$4,975,000 for housing grants and \$500,000 for other discretionary purposes, as described in the Senate report. The House bill included \$5,000,000 for housing and the Senate bill provided \$4,950,000 for housing and \$500,000 for other discretionary purposes. The conference agreement includes bill language proposed by the House providing that no less than 70 percent of formula funds be used for employment and training services and bill language proposed by the Senate which prohibits the Department from restricting the provision of ‘related assistance’ services by grantees. These provisions ensure that the program primarily addresses the employment and training needs of the target population while also allowing grantees to provide related services that are often critical to the stabilization and availability of the farm labor workforce.

For YouthBuild, the conference agreement includes \$62,500,000, instead of \$60,000,000 as proposed by the House and \$65,000,000 as proposed by the Senate. This will provide sufficient funds for an additional competitive grant round in program year 2008.

For Pilots, Demonstrations and Research, the conference agreement includes \$50,569,000 instead of \$28,140,000 as proposed by the House and \$30,650,000 as proposed by the Senate. Included in this amount is \$5,000,000 for a new demonstration program of competitive grants to address the employment and training needs of young parents as proposed by the House and detailed in House Report 110–231. The House provided \$10,000,000 for this purpose. The Senate had no similar provision.

For the remaining amount provided for Pilots, Demonstrations and Research, the conference agreement includes a modification of bill language as proposed by the Senate. The conference agreement includes the following projects in the following amounts:

The conference agreement consolidates the Responsible Reintegration of Youthful Offenders and Prisoner Reentry programs into a program of Reintegration of Ex-Offenders, as proposed by the House. The conference agreement provides \$78,694,000, instead of \$68,746,000 as proposed by the House and a total of \$68,642,000 as proposed by the Senate in two individual programs. Within this amount, the conference agreement provides that no less than \$59,000,000 be used for programming for youth. The conference agreement also provides that a total of \$50,000,000 be available from resources in both fiscal years 2007 and 2008 for a youth mentoring initiative. The \$50,000,000 provided is for competitive grants to local educational agencies or community-based organizations to develop and implement mentoring strategies in schools identified as persistently dangerous. The conferees intend that \$33,000,000 provided in this Act, along with \$17,000,000 in funds made available under the fiscal year 2007 appropriation for youthful offenders, be available for this purpose and direct that the solicitation of grant agreements be issued on a timeline that provides for the incorporation of both the fiscal year 2007 and fiscal year 2008 contributions to the enhanced effort to assist persistently dangerous schools in men-

toring efforts to prevent youth violence in high crime areas.

For the Denali Commission, the conference agreement provides \$6,875,000 as proposed by the Senate for job training services. The House did not include funds for this activity.

The conference agreement does not include the \$49,000,000 undistributed reduction in training and employment services as proposed by the House. The Senate bill had no similar provision.

The conference agreement includes a rescission of \$245,000,000 in prior year Workforce Investment Act unexpended balances for the Youth, Adult and Dislocated Worker formula programs. The House bill contained a \$335,000,000 rescission of prior year training and employment service balances, while the Senate bill had no similar provision. The conferees direct the Secretary to target the rescission within each funding stream so that the first funds subject to recapture are those program year 2005 and 2006 funds carried in to program year 2007 that are in excess of 30 percent of funds available in program year 2006 as of June 30, 2007. To arrive at the total amount within each funding stream, the balance of the rescission should be based on each State's remaining unexpended fiscal year 2005 and 2006 balances as of June 30, 2007, after adjusting those bal-

ances by any excess carryout identified in the first calculation. In addition, within each funding stream, the conferees direct that the Secretary ensure that the amounts rescinded within each State shall be from funds reserved for Statewide activities, and funds related to each local area, in proportion to the extent to which these balances, respectively, contributed to the amount to be rescinded in the State. Consistent with these specifications, the conferees direct the Secretary to carry out the rescission in a manner that will minimize burdens on States and local areas. To achieve that goal, the conferees further direct that it is intended that the requirements of sections 128, 133 and 134(a)(3)(B) of WIA relating to cost limits and to the applicable percentages of funds that may be used for Statewide activities, rapid response, and allocations to local areas, be applied by the Secretary only with respect to the initial allotments received by the State from fiscal year 2005 and 2006 funds and that those requirements are not intended to be applied based on the amounts remaining available to the States after this rescission has been carried out.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The conference agreement includes \$530,900,000 for Community Service Employment for Older Americans as proposed by the House, instead of \$483,611,000 as proposed by the Senate. This amount covers the second increment of the Federal minimum wage increase, from \$5.85 to \$6.55 an hour, for program participants.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The conference agreement includes \$3,377,506,000 for State Unemployment Insurance and Employment Service Operations, instead of \$3,382,614,000 as proposed by the House and \$3,386,632,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes language not included in the House or Senate bills that allows the Secretary of Labor to make payments on behalf of the States for matching Unemployment Insurance (UI) claims information against the information in the National Directory of New Hires to prevent, detect, and collect improper UI payments. States are required to reimburse the Department of Health and Human Services (HHS) for the reasonable costs incurred in providing the information. Allowing the Secretary to aggregate such amounts and provide a payment to HHS covering the costs of all States will not affect the share of UI administrative funds available to each State, but will provide a more cost-effective means through which the required reimbursements are to be paid.

For Employment Service grants to States, the conference agreement includes \$715,883,000 as proposed by the Senate, instead of \$725,883,000 as proposed by the House. This includes \$22,883,000 in general funds and \$693,000,000 from the Unemployment Trust Fund. For Employment Service National Activities, the conference agreement includes \$32,766,000 as proposed by the House instead of \$34,000,000 as proposed by the Senate. This includes \$12,740,000 for foreign labor certification programs.

For workforce information, national electronic tools and one-stop system building, the conference agreement provides \$52,985,000 as proposed by the House, instead of \$55,985,000 as proposed by the Senate. Within this amount, the conferees direct that workforce information grants to the States be funded at no less than \$32,430,000 as proposed by the House.

For Work Incentive Grants, the conference report provides \$14,649,000 instead of \$9,757,000 as proposed by the House and \$19,541,000 as proposed by the Senate. The conferees direct the Department to ensure that all States that wish to participate in this program receive funding for new or continuation grants to support their disability navigator programs.

PROGRAM ADMINISTRATION

The conference agreement includes \$176,662,000 for Program Administration, instead of \$170,500,000 as proposed by the House and \$185,505,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees. Within the amount for employment security activities, the conference agreement includes not less than \$43,500,000 to improve the timeliness and quality of processing applications under the foreign labor certification program.

EMPLOYEE BENEFITS SECURITY ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$142,925,000 for the Employee Benefits Security

Administration, as proposed by the House instead of \$143,262,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees. The conferees request a briefing on the schedule for the completion of the EFAST2 system prior to the announcement of the availability of funds for its development and regular progress reports on this project. The conferees are also in agreement that EBBSA should devote resources to the issuance of regulations on meaningful and uniform reporting of 401(k) fees and that a national education program on 401(k) investment options, fees and conflict of interest be created as described in House Report 110-231.

PENSION BENEFIT GUARANTY CORPORATION PENSION BENEFIT GUARANTY CORPORATION FUND

The conference agreement includes \$411,151,000 for the administrative expenses of the Pension Benefit Guaranty Corporation, as proposed by both the House and the Senate. The conference agreement includes language in the House bill providing for workload driven increases in management fees based on increases in assets received by the Corporation as a result of new plan terminations, after approval by the Office of Management and Budget and notification of the Committees on Appropriations of the House of Representatives and the Senate.

EMPLOYMENT STANDARDS ADMINISTRATION SALARIES AND EXPENSES

The conference agreement includes \$437,508,000 for the Employment Standards Administration, salaries and expenses, instead of \$436,508,000 as proposed by the House and \$438,508,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

For the enforcement of wage and hour standards, the conference agreement provides \$183,365,000, instead of \$182,365,000 as proposed by the House and \$184,365,000 as proposed by the Senate. The additional \$1,000,000 is provided for accelerating start-up of a system to resolve claims of injury caused by asbestos exposure. If the authority for an asbestos claims program is not enacted by June 30, 2008, these additional funds may be used to support wage and hour enforcement in low wage industries.

The conference agreement includes a rescission of \$102,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. The House and the Senate proposed a rescission of \$70,000,000; however, information received from the Department of Labor indicates that receipts in this account allow a higher amount to be rescinded while still ensuring that the \$5,500,000 the Department estimates it will use in fiscal year 2008 under current authority remains available.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES

OCCUPATIONAL ILLNESS COMPENSATION FUND (INCLUDING TRANSFER OF FUNDS)

Within the total provided, the conference agreement includes a proviso transferring \$4,500,000 to the National Institute for Occupational Safety and Health for use by the Advisory Board on Radiation and Worker Health. While both the House and the Senate included this provision, the House report specified that the amount be in addition to \$55,358,000 identified for transfer to the Department of Health and Human Services. The conferees clarify that the \$4,500,000 for the Advisory Board on Radiation and Worker Health is a part of the total transfer amount. The Board is a key component of the admin-

istration of the program at NIOSH and the conferees expect that it will be funded at the level provided for in the conference agreement.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION SALARIES AND EXPENSES

The conference agreement includes \$500,568,000 for the Occupational Safety and Health Administration (OSHA), instead of \$503,516,000 as proposed by the House and \$498,445,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

For Federal Enforcement, the conference agreement includes \$190,128,000 as proposed by the House, instead of \$188,005,000 as proposed by the Senate, and for Federal Compliance Assistance, the conference agreement includes \$72,659,000 as proposed by the Senate, instead of \$75,566,000 as proposed by the House. The conferees believe that it is important to rebuild the Federal enforcement capacity of OSHA and that the agency should collect data needed to evaluate the effectiveness of voluntary compliance programs before additional investments are made to support this approach.

The conference agreement includes language proposed by the House requiring the Secretary of Labor to provide detailed reports on the development and issuance of certain occupational safety and health standards that have remained on the OSHA regulatory agenda without completion. The Senate had a similar provision in its report, but not in the bill.

The conferees are concerned that the Department has failed to make sufficient progress on its comprehensive plan to address ergonomic injuries and requests that a report be provided to the Committees on Appropriations of the House of Representatives and the Senate within 30 days of enactment of this Act detailing the specific steps it will take to complete the issuance of all 16 industry guidelines. In addition to a timetable for the completion of the industry guidelines, the report should contain OSHA's plans for increased enforcement on ergonomic and musculoskeletal injuries.

The conferees are also concerned by OSHA's lack of action to ensure that health care workers and emergency responders will be adequately protected in the event of an influenza pandemic. The conferees note that the Department believes that in order to issue an emergency standard to protect these workers, the United States needs to be in the midst of an influenza pandemic and urges reconsideration of the standard-setting actions that can be taken on an emergency or expedited basis. Within 30 days of enactment of this Act, the conferees request a report to the Committees on Appropriations of the House of Representatives and the Senate detailing the timeline for developing and issuing a standard.

The conferees are also concerned by the inadequate response to the serious health hazards posed by industrial exposure to the chemical diacetyl, a butter flavoring agent used in microwave popcorn and other foods. Despite documented cases of a debilitating and potentially fatal lung disease, OSHA has not moved swiftly enough to protect workers from this hazard. The conferees urge OSHA to reconsider its decision concerning an emergency standard, and direct that at a minimum a permanent standard should be developed on an expedited basis. Within 30 days of enactment of this Act, the conferees expect OSHA to provide a report to the Committees on Appropriations of the House of Representatives and the Senate detailing its anticipated timeline for issuing such a

standard, as well as providing the details of a national emphasis program that will extend enforcement activities to all food manufacturing and flavoring plants where diacetyl is used.

**MINE SAFETY AND HEALTH ADMINISTRATION
SALARIES AND EXPENSES**

The conference agreement includes \$339,893,000 for the Mine Safety and Health Administration (MSHA), instead of \$340,028,000 as proposed by the Senate or \$313,478,000 as proposed by the House. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conferees are disturbed that MSHA has fallen significantly short of its obligation to complete 100 percent of regular inspections of coal mines, as required by law. In 2006, almost 5 of every 100 regular inspections nationally were not completed. In some districts, the rates were close to 15 or 20 of every 100 inspections that were not completed. The conferees find these results unacceptable.

The conference agreement provides MSHA with an increase of \$37,024,000 over fiscal year 2007 resources to ensure that MSHA can carry out its legal obligations to regularly inspect our nation's coal mines. Together with increased funding for standards development, educational policy and development, and technical support, the conferees believe that the additional funds provided are sufficient to ensure that MSHA completes all of its inspection responsibilities, as well as complies with other statutory requirements of this Act and the MINER Act.

The conferees direct that, not later than 30 days after enactment of this Act, MSHA provide to the Committees on Appropriations of the House of Representatives and the Senate a detailed operating plan describing how these funds will be utilized and the specific outcomes that will be achieved. The conferees concur with Senate Report 110-107 regarding the priority use of these additional funds and expect MSHA to adhere to these when preparing the required operating plan.

Within the amount provided for MSHA Program Administration, the conference agreement includes \$2,200,000 for a national project award to the United Mine Workers of America for classroom and simulated rescue training for mine rescue teams, and \$1,215,000 for the Wheeling Jesuit University National Technology Transfer Center.

**BUREAU OF LABOR STATISTICS
SALARIES AND EXPENSES**

The conference agreement includes \$566,804,000 for the Bureau of Labor Statistics (BLS), instead of \$576,118,000 as proposed by the House and \$560,000,000 as proposed by the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes \$185,796,000 for Prices and Cost of Living, instead of \$192,599,000 as proposed by the House and \$178,992,000 as proposed by the Senate. The conferees expect that the increase above fiscal year 2007 will be used for continuous updating of the housing and geographic area samples of the Consumer Price Index (CPI). The conference agreement does not include \$450,000 as proposed by the House to begin the development of a methodology to determine cost of living by State. The Senate did not include a similar provision.

Included in the amount for Compensation and Working Conditions is \$1,000,000 to conduct focused research studies on work-related injuries and illnesses as proposed by the Senate, instead of \$1,225,000 as proposed by the House for this purpose.

The conferees are interested in ascertaining the impact of the North Amer-

ican Free Trade Agreement (NAFTA) on employment in the United States. When NAFTA was debated in the U.S. Congress, there were estimates that implementation of the agreement would result in the net creation of 200,000 new U.S. jobs, and that job losses in the United States as a consequence of NAFTA would be concentrated in low-skill sectors. The conferees direct the Department of Labor, through BLS, to issue a report within 365 days of enactment of this Act, assessing the number of U.S. jobs, on an industry-by-industry basis, that were created as a consequence of NAFTA, and the number of U.S. jobs, on an industry-by-industry basis, that were lost as a consequence of NAFTA. The study should encompass the period from the date of implementation of NAFTA to December 31, 2007. Neither the House nor Senate report contained similar language.

**OFFICE OF DISABILITY EMPLOYMENT POLICY
SALARIES AND EXPENSES**

The conference agreement includes \$27,712,000 for the Office of Disability Employment Policy (ODEP), as proposed by the House and the Senate. The conferees intend that at least 80 percent of these funds shall be used to design and implement research and technical assistance grants and contracts to develop policy that reduces barriers to employment for youth and adults with disabilities.

The conferees are concerned by the lack of available information regarding the extent to which effective disability employment policy developed by the ODEP has been implemented within the Department of Labor and by other Federal agencies whose programs provide services to all job seekers and workers, including those with disabilities. Therefore, the conferees direct the Secretary of Labor, working through the Assistant Secretary for Disability Employment Policy, to provide a report to the Committees on Appropriations of the House of Representatives and the Senate. This report shall be provided to the Committees and published on the Department's web site no later than June 30, 2008.

The conferees expect this report to identify and recommend policies the ODEP has developed during its history that have been or should be implemented within the Department of Labor or by other relevant Federal agencies. Further, the report should describe the cause-and-effect relationship that these policies have had on reducing barriers to employment for adults and youth with disabilities. The conferees also request that the report summarize how funds have been spent by ODEP since its inception. The conferees expect the report to show how ODEP has utilized its resources, including on staff expertise, grants, and contracts, to develop policy to reduce barriers to employment.

**DEPARTMENTAL MANAGEMENT
SALARIES AND EXPENSES**

The conference agreement includes \$305,174,000 for Departmental Management, salaries and expenses, instead of \$272,595,000 as proposed by the House and \$313,218,000 as proposed by the Senate. The undistributed reductions in both the House and Senate bills are not included. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes \$82,516,000 as proposed by the Senate for the International Bureau of Labor Affairs (ILAB), instead of \$72,516,000 as proposed by the House. Within this amount, the conference agreement contains \$5,000,000 as proposed in the House bill to implement model programs to address worker rights through technical assistance in countries with which

the United States has trade preference programs and directs that this activity be carried out through a cooperative agreement with an international organization that has experience in working to assure adherence to a set of core labor standards through work with governments, employers and labor. The Senate had no similar provision. The conferees' recommendation for ILAB also includes \$41,000,000 for the U.S. contribution to the International Program for the Elimination of Child Labor and \$24,000,000 for bilateral assistance to improve access to basic education in international areas with a high rate of abusive and exploitative child labor. The Senate provided \$42,610,000 and \$26,770,000 respectively for these activities. The House had no similar provisions.

The conferees are deeply concerned about the recent discovery of abusive and exploitative child labor by a subcontractor based in India embroidering women's garments for a major U.S. apparel company. These children, some as young as ten, were forced from their parents, denied wages, forced to work long hours, and forced to live in squalor. Official Indian government estimates indicate that there are around 12 million children working in hazardous conditions. However, non-governmental organizations working on eradicating child labor believe that there are close to 60 million child laborers, including approximately 10 million child bonded laborers. While this major U.S. apparel company has 90 inspectors that travel around the world trying to ensure that their codes of conduct are not violated, it is a difficult and daunting task given the high prevalence of exploitative child labor and the non-existence of an industry wide monitoring system for the garment industry in India. Therefore, the conferees direct the Department to work with the International Labor Organization in an effort to implement standards similar to those used in the Cambodian and Bangladeshi garment industries to ensure that U.S. consumer products are not made by abusive child labor in violation of local and international standards.

The conference agreement provides \$20,000,000 for information technology systems, instead of \$18,000,000 as proposed by the House and \$22,000,000 as proposed by the Senate. These funds support information technology, architecture, infrastructure, equipment and software utilized by multiple agencies within the Department. The conferees support the use of a portion of such funds for the acquisition of a Financial Management System for the Department of Labor. The President's request to Congress included \$12,000,000 as a direct appropriation to the Working Capital Fund for this initiative.

The conference agreement includes \$95,050,000 for the Office of the Solicitor, instead of \$94,937,000 as proposed by the House and \$95,162,000 as proposed by the Senate. The conferees intend that the increased funding level support no less than an increase of 19 FTEs over the fiscal year 2007 staffing level for enforcement support for the Mine Safety and Health Administration, as specified by the Senate report. The House had no similar language.

For the Women's Bureau, the conference agreement includes \$10,300,000 as proposed by the Senate, instead of \$10,500,000 as proposed by the House. The conferees encourage continued funding for national networks for women's employment that advance women in the workplace through education and advocacy.

OFFICE OF JOB CORPS

The conference agreement funds this program within the Office of the Secretary as proposed by the House and the Senate. This reflects the current organizational status of

the program, and the funds for the administration of this program are included in this account instead of within program administration for the Employment and Training Administration, as indicated in the detailed table at the end of this joint statement.

The conference agreement includes \$1,650,516,000 for the Office of Job Corps, instead of \$1,649,476,000 as proposed by the House and \$1,659,872,000 as provided by the Senate. Within the total, \$1,507,684,000 is provided for continuing operations of the program, as proposed by the House, instead of \$1,516,000,000 as proposed by the Senate. For renovation and construction of Job Corps centers, the conference agreement includes \$113,960,000, instead of \$112,920,000 as proposed by the House and \$115,000,000 as proposed by the Senate. The conference agreement does not include the designation of funds for a competition to increase child care development centers on Job Corps campuses as proposed by the House, and instead designates the \$13,960,000 above the request for renovation and construction for the continued development of new Job Corps centers that have been awarded and are not yet completed. The conferees request that the Department of Labor include an analysis of the future funding needs of all new centers in development and a progress report on the timeline for opening new centers in its fiscal year 2009 budget justification, as proposed by the Senate.

The conference agreement includes bill language proposed by the Senate requiring that none of the funds in the Act be used to reduce student training slots below 44,791 in program year 2008. This slot level and the funds provided will support the maintenance of student training services at existing Job Corps centers, as well as provide for new centers scheduled to open in program year 2008. The House bill contained a similar provision.

VETERANS EMPLOYMENT AND TRAINING

The conference agreement contains \$228,198,000 for Veterans Employment and Training, as proposed by the House instead of \$231,198,000 as proposed by the Senate. The conferees encourage the Department to direct additional funds to the Transition Assistance Program, which will ensure that the increasing demand for services is met. The conferees also expect the Department to increase enforcement activities to ensure that veterans' rights under the Uniformed Services Employment and Re-Employment Rights Act and Veterans Employment Opportunities Act are being protected.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$78,658,000 for the Office of Inspector General as proposed by the House instead of \$79,658,000 as proposed by the Senate.

GENERAL PROVISIONS

JOB CORPS SALARIES

The conference agreement includes language that prohibits the use of funds for the Job Corps program to pay the salary of any individual, either as direct costs or any proration as an indirect cost, at a rate in excess of Executive Level I, as proposed by the Senate. The House included a similar provision in the Job Corps account.

ONE PERCENT TRANSFER AUTHORITY

(TRANSFER OF FUNDS)

The conference agreement includes a provision limiting the authority to transfer funds between a program, project or activity and requiring a 15 day advance notification of any such request. Both the House and Senate bills contained similar provisions.

TRANSIT SUBSIDIES

The conference agreement includes a provision requiring the Secretary of Labor to

issue a monthly transit subsidy at the full amount of \$110 for eligible employees in the National Capital Region, as proposed by the House. The Senate bill contained no similar provision.

OPERATING PLAN

The conference agreement includes a provision prohibiting the obligation of funds for demonstration, pilot, multiservice, research and multistate projects under section 171 of the Workforce Investment Act prior to the submission of a report on the planned use of such funds, as proposed by the House. The Senate had a similar provision requiring an operating plan for the use of such funds. The conferees expect that the operating report on the use of such funds will be provided not later than July 1, 2008, and direct the Department to continue to submit quarterly reports to the House and Senate Appropriations Committees on the status of awards made for pilot, demonstration, multiservice, research, and multistate projects under section 171 of the Workforce Investment Act. These quarterly reports shall be submitted no later than 45 days after the end of each quarter and shall include a list of all awards made during the quarter, and for each award, the grantee or contractor, the amount of the award, the funding source for the award, whether the award was made competitively or by sole source and, if sole source, the justification, the purpose of the award and expected outcomes.

DENALI COMMISSION

The conference agreement includes a provision, as proposed by the Senate that authorizes such sums as may be necessary to the Denali Commission to conduct job training where Denali Commission projects will be constructed. The House bill contained no similar provision.

GRANTS USING H-1B VISA REVENUE

The conference agreement includes a provision proposed by the House that prohibits the use of the funds available to the Department under section 414(c) of the American Competitiveness and Workforce Improvement Act for other than training in the occupations and industries for which employers are using the visas to hire foreign workers that generate these funds. The conferees expect that these activities will include industry career ladder programs and understand that there are some related activities that enhance or facilitate training programs that are part of a coordinated industry approach. The conference agreement provides that this limitation shall not apply to multi-year grants that have already been awarded under competitive solicitations issued prior to April 15, 2007. The conferees understand one additional round of Workforce Innovation in Regional Economic Development (WIRED) grants that would qualify under this limitation was awarded in June 2007. The Senate bill contained no similar provision.

HEALTH COVERAGE TAX CREDIT GAP-FILLER GRANTS

The conference agreement does not include a provision included in the House bill authorizing up to \$20,000,000 in revenue available to the Department under section 414 (c) of the American Competitiveness and Workforce Improvement Act to be used for "gap-filler" grants to trade-impacted workers awaiting certification for the Health Coverage Tax Credit. The Senate bill contained no similar provision. The conferees expect the Department of Labor to make grants available to States from the Dislocated Worker National Reserve for this purpose and to increase outreach to trade-impacted workers to inform them of their eligibility for the Health Coverage Tax Credit.

COMPETITIVE GRANTS

The conference report includes a provision prohibiting Community-Based Job Training grants and grants authorized under section 414(c) of the American Competitiveness and Workforce Improvement Act from being awarded on a non-competitive basis. Both the House and Senate bills included similar provisions.

ADMINISTRATIVE COST DEFINITION AND REDESIGNATION OF LOCAL AREAS

The conference agreement includes a provision requiring that the Secretary of Labor take no action to amend the definition established in 20 CFR 667.220 for functions and activities under title I of the Workforce Investment Act of 1998 or to modify the procedure for designation of local areas as specified in that Act until such time as legislation reauthorizing the Act is enacted, as proposed by the Senate. The House bill contained a similar provision.

PERSONAL PROTECTIVE EQUIPMENT

The conference agreement includes a provision as proposed by the House requiring the Secretary of Labor to promulgate a final regulation on personal protective equipment no later than November 30, 2007. The Occupational Safety and Health Administration (OSHA) made a commitment in Federal court to issue a final rule by this date. The Senate addressed this issue in report language.

MINE SAFETY REGULATIONS

The conference agreement includes language requiring specific dates by which the Secretary of Labor propose, and subsequently finalize, mine safety regulations regarding belt haulage entries and rescue chambers in coal mines, and makes additional requirements for review of mine ventilation plans. The Senate bill included a similar provision, while the House bill did not include such a provision.

SALARIES AND BONUSES

The conference agreement includes a provision proposed by the Senate that prohibits grantees from using funds appropriated for the Employment and Training Administration to pay the salary and bonuses of an individual at a rate in excess of Executive Level II. The House bill contained no similar provision.

MINE SAFETY FUNDING

The conference agreement does not include a general provision proposed by the Senate providing additional funding for necessary expenses for the Mine Safety and Health Administration (MSHA). Funding for MSHA activities are included under the heading for this agency. The House bill contained no similar provision.

NIOSH FIRE FIGHTER PROGRAM

The House proposed \$12,000,000 for oral health activities including these oral health demonstrations as well as State grants under section 340G of the Public Health Service Act. In addition to this SPRANS funding, the conferees have provided \$5,000,000 for section 340G State grants within allied health.

The conference agreement also includes within the SPRANS set-aside \$4,000,000 to continue epilepsy demonstrations instead of \$5,800,000 as proposed by the House and \$2,880,900 as proposed by the Senate.

The conference agreement includes \$4,000,000 within SPRANS to continue the sickle cell newborn screening program and its locally based outreach and counseling efforts, as proposed by the House. The Senate proposed \$3,841,200 for this program.

The conference agreement provides \$3,000,000 within the SPRANS set-aside to continue newborn and child screening for heritable disorders instead of \$3,800,000 as proposed by the House and \$1,920,600 as proposed by the Senate.

The conference agreement provides \$37,000,000 for a separate program for autism and other related developmental disorders, as proposed by the Senate. The House proposed \$30,000,000 within the Maternal and Child Health block grant SPRANS set-aside for these activities. The conferees intend that no less than \$6,000,000 be used to continue and expand the Leadership Education in Neurodevelopmental and Related Disabilities program. In addition, no less than \$6,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

The conferees provide \$1,000,000 for a fetal alcohol syndrome demonstration program instead of \$990,000 as proposed by the Senate. The House did not include funding for this activity.

The conferees identify \$3,200,000 within traumatic brain injury funding for protection and advocacy services, instead of \$3,400,000 identified in the Senate report. The House report did not have similar language.

The conferees are pleased that HRSA intends to allocate the maximum authorized level for the minority AIDS initiative within the Ryan White HIV programs.

The conferees intend that at least fifty percent of the increase within the Ryan White children, youth, women, and families programs be used to increase average grant award size.

The conferees are aware that HRSA has issued proposed regulations revising the requirements for the 340B drug purchasing program. While there are important elements in the regulations that target abuses of the program, the conferees believe there are legitimate concerns regarding the implementation of the proposed rule's definition of patient eligibility. The questions of eligibility and the means by which eligibility is determined are important and should be carefully considered. Therefore, the conferees urge HRSA to move quickly to implement the portions of the regulation that enjoy wide support and consider re-opening the patient eligibility question for an additional public comment period. The House and Senate included similar report language.

The conference agreement includes \$38,538,000 for rural flexibility grants as proposed by the Senate rather than \$63,538,000 as proposed by the House, and provides \$15,000,000 within the total for the small rural hospital improvement grant program as proposed by the Senate.

The conferees concur with guidance in the Senate report about the 2006 Delta health initiative satisfying the requirements of the authorization provided in section 219. The House report did not contain similar language.

The conference agreement includes \$2,500,000 for rural and community access to emergency devices, of which \$200,000 shall be used to establish an information clearinghouse that provides information to increase public access to defibrillation in schools, as proposed by the Senate. The House provided \$2,000,000 for this program, while the Senate provided \$3,000,000. The conferees intend that funding for emergency devices be divided equally between urban and rural communities, as proposed by the Senate.

The conferees note that many rural hospitals are working to implement systems to transmit medical information electronically to help deliver efficient and effective health care services to their patients. The conferees hope that HRSA will continue to examine ways to help such hospitals implement digital technologies, such as picture archiving communications systems and other digital technologies.

The conference agreement includes \$143,596,000 for program management instead of \$142,191,000 as provided by the House and \$145,000,000 as provided by the Senate. The conferees expect HRSA to use no more than one percent of the funds allocated for projects for agency administrative expenses.

VACCINE INJURY COMPENSATION PROGRAM TRUST FUND

The conference agreement provides \$6,000,000 for administration for the Trust Fund instead of \$3,528,000 as proposed by both the House and the Senate. These funds are necessary to support the adjudication of an expected high volume of claims.

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The conference agreement includes \$6,288,289,000 for disease control, research, and training at the Centers for Disease Control and Prevention (CDC), instead of \$6,138,253,000 as proposed by the House and \$6,165,338,000 as proposed by the Senate. In addition, \$327,022,000 is made available under section 241 of the Public Health Service (PHS) Act, instead of \$319,579,000 as proposed by the House and \$269,664,000 as proposed by

the Senate. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

The conference agreement includes bill language designating \$147,000,000 for equipment, construction, and renovation of facilities, instead of \$10,500,000 as proposed by the House and \$220,000,000 as proposed by the Senate. The conference agreement includes bill language to allow CDC to enter into a single contract or related contracts for the full scope of development and construction of facilities and that the solicitation and contract shall contain the clause "availability of funds" as proposed by the Senate. The House did not propose similar language. The level provided includes sufficient funds for the completion of building 24 and for other nationwide repairs and improvements.

The conference agreement includes bill language designating \$52,500,000 to provide screening and treatment for first response emergency services personnel, residents, students, and others related to the September 11, 2001 terrorist attacks on the World Trade Center. The conferees intend that this program be administered by the National Institute of Occupational Safety and Health (NIOSH). The House had proposed \$50,000,000 in CDC for first response emergency personnel only and the Senate had proposed \$55,000,000 in the Public Health and Social Services Emergency Fund (PHSSEF) to be transferred to CDC for responders, residents, students and others.

The conference agreement includes bill language designating \$116,550,000 for the National Center for Health Statistics surveys to be available through the evaluation set-aside authorized by section 241 of the PHS Act, instead of \$120,000,000 as proposed by the House and \$108,585,000 as proposed by the Senate. Also within the set-aside, the conference agreement includes \$44,523,000 for Health Marketing instead of \$39,173,000 as proposed by the House and \$463,000 for health marketing evaluations as proposed by the Senate and \$97,404,000 to carry out research activities within the National Occupational Research Agenda instead of \$91,861,000 as proposed by the House and \$92,071,000 as proposed by the Senate.

The conference agreement includes bill language that not to exceed \$19,414,000 may be available for making grants for the WISEWOMAN program to not less than 15 States, tribes, or tribal organizations. The Senate proposed \$19,035,000 in this same manner and the House proposed \$12,500,000 to not more than 15 States, tribes, or tribal organizations.

The conference agreement includes bill language that out of the funds made available for domestic HIV/AIDS testing, up to \$30,000,000 shall be for States eligible for the Early Diagnosis Grant Program, authorized by section 2625 of the Public Health Service Act, as of December 31, 2007. Funding for these grants shall be distributed by March 31, 2008 based on standard criteria relating to a State's epidemiological profile and shall not exceed \$1,000,000 for any one State. Any amounts that have not been obligated by March 31, 2008 shall be used to make grants to States and local public health departments for other HIV prevention activities. The House proposed that no funds appropriated may be used to implement the Early Diagnosis Grant Program and the Senate proposed to allow up to \$30,000,000 for the program if States are eligible.

The conference agreement includes bill language providing that employees of the CDC or the Public Health Service, detailed to States, municipalities, or other organizations under authority of section 214 of the PHS Act or in overseas assignments shall be treated as non-Federal employees for report-

ing purposes only and shall not be included within any personnel ceiling applicable to the Agency as proposed by the Senate. The House included similar language but did not include employees in overseas assignments.

The conference agreement includes ongoing pandemic influenza and related activities in the CDC appropriation as proposed by the House. The Senate proposed to fund these activities in PHSSEF to be transferred to CDC.

The conferees note that in September 2007, CDC realigned its budget through a reprogramming and transfer of funds at the program, project, and activity level. The Secretary communicated his intent that the realignment of funds be permanent. Funding levels proposed in the House- and Senate-passed bills did not reflect these changes because the request for reprogramming came after initial House and Senate Committee action on the fiscal year 2008 appropriations bills. Funding levels provided in the conference agreement make the funding realignment permanent. The conferees expect CDC to adhere to enacted funding levels in fiscal year 2008 and to not tap or assess program activities for unrelated purposes.

The conference agreement includes \$1,848,601,000 for Infectious Diseases, instead of \$1,900,508,000 as proposed by the House and \$1,762,083,000 as proposed by the Senate. The House proposed \$930,000 for lupus-related activities and the Senate proposed \$1,430,000. The conferees are concerned by the lack of reliable epidemiological data on the incidence and prevalence of all forms of lupus among various ethnic and racial groups. These sites should have an expertise in lupus epidemiology and represent the geographic regions of the United States that have a sufficient number of individuals of racial and ethnic groups that are disproportionately affected by lupus, principally African Americans, Hispanics/Latinos, Asian Americans, and Native Americans.

Within the total for chronic disease prevention, health promotion, and genomics, the conference agreement includes \$104,016,000 to expand tobacco-related activities, instead of \$104,347,000 as proposed by the House and \$106,347,000 as proposed by the Senate. The conferees are aware of a congenital malformation of the lungs affecting infants, known as alveolar capillary dysplasia (ACD), in which the normal diffusion process of oxygen from the air sacs to the blood in the lungs fails to develop properly. Life expectancy for infants with ACD is extremely short, and anecdotal evidence indicates that ACD is often misdiagnosed. Proper recognition and diagnosis of the disease are essential first steps to obtaining accurate prevalence data for ACD.

The conference agreement provides funds to support the National Center on Senior Benefits Outreach and Enrollment within the Administration on Aging rather than in the Centers for Medicare and Medicaid Services as proposed by the Senate. The House did not provide funding for this activity within CMS.

The conferees request the Government Accountability Office to submit a report to Congress by November 30, 2008 (1) assessing State efforts to reexamine health care delivery and expand access and (2) providing recommendations regarding the potential role of Congress in supporting State-based efforts. The Senate proposed a similar report in section 228 of H.R. 3043, as passed by the Senate. The House had no similar provision.

The conferees direct the Secretary of HHS to submit a report to the Appropriations Committees of the House of Representatives and the Senate no later than 30 days after enactment of this Act on workers' compensation set-asides under the Medicare secondary payer set-aside provisions under title XVIII of the Social Security Act. The Senate proposed a similar report in section 240 of H.R. 3043, as passed by the Senate. The House had no similar provision.

The conferees believe that the Secretary of HHS should maintain "deemed status" coverage under the Medicare program for clinical trials that are Federally funded or reviewed, as provided for by the Executive Memorandum of June 2000. The Senate expressed a similar view in section 241 of H.R. 3043, as passed by the Senate. The House had no similar provision.

The conferees direct CMS to include in the next publication of "Medicare & You" information regarding: (1) the importance of writing and updating advance directives and living wills; and (2) access to laboratory findings and medical records and encouraging patients to be more proactive in asking for copies of these important pieces of health information.

HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

The conference agreement provides \$383,000,000, to be available until expended, from the Medicare trust funds for health care fraud and abuse control, as proposed by the Senate. The House proposed the same level of funding but with one-year availability. Within this total, the conference agreement provides a different allocation of funding between activities than that provided by the House or the Senate. The agreement provides \$284,620,000 for CMS program integrity activities, including activities authorized under the Medicare Integrity Program and \$35,000,000 for Medicaid anti-fraud

activities. The House and Senate had provided \$288,480,000 for the Medicare Integrity Program. The HHS Office of the Secretary is provided \$25,000,000 in the conference agreement rather than \$21,140,000 as proposed by the House and Senate. Funding for Medicaid program integrity activities was not included in either the House or Senate bill.

ADMINISTRATION FOR CHILDREN AND FAMILIES LOW-INCOME HOME ENERGY ASSISTANCE

The conference agreement includes \$2,411,585,000 for low-income home energy assistance instead of \$2,662,000,000 as proposed by the House and \$2,161,170,000 as proposed by the Senate. Of the amount provided, \$1,980,000,000 is provided for formula grants to States as proposed by both the House and Senate, and \$431,585,000 is provided for the contingency fund instead of \$682,000,000 as proposed by the House and \$181,170,000 as proposed by the Senate.

Within the total for refugee and entrant assistance, the conference agreement includes \$9,814,000, as proposed by the House, for victims of trafficking instead of \$9,823,000 as proposed by the Senate. The conferees concur with both the House and Senate and do not include bill language that would expand the program to include domestic victims of trafficking.

Within the total for refugee and entrant assistance, the conference agreement includes \$154,005,000 for social services as proposed by both the House and Senate. Included within this amount, \$19,000,000 is for support to communities with large concentrations of Cuban and Haitian entrants as proposed by the House. The Senate did not include similar language.

Within the total for refugee and entrant assistance, the conference agreement includes \$131,399,000 for the unaccompanied minors program instead of \$129,635,000 as proposed by the House and \$133,162,000 as proposed by the Senate. As proposed by both the House and Senate, the conference agreement does not include funds for expanded background checks. After addressing increased shelter and medical costs, the conferees direct ORR to use the increase provided for the unaccompanied minors program to expand the pro bono legal services initiative, as proposed by both the House and Senate.

PAYMENTS TO STATES FOR THE CHILD CARE AND DEVELOPMENT BLOCK GRANT

The conference agreement includes \$2,094,581,000 for the Child Care and Development Block Grant, instead of \$2,137,081,000 as proposed by the House bill and \$2,062,081,000 as proposed by the Senate bill. The bill designates \$982,080 for the Child Care Aware toll-free hotline; this provision was included in the House bill. The Senate bill included funds for this purpose but did not name the entity.

The conference agreement also includes bill language specifying \$5,000,000 for the Small Business Child Care program. The Senate bill provided these funds in a general provision. The House bill did not include a similar provision.

SOCIAL SERVICES BLOCK GRANT

The conference agreement includes bill language allowing States to transfer up to 10 percent of Temporary Assistance to Needy Families (TANF) funds to the Social Services Block Grant. This provision was not included in either the House or the Senate bill.

CHILDREN AND FAMILIES SERVICES PROGRAMS

The conference agreement includes \$9,231,195,000 for Children and Families Services Programs, of which \$10,500,000 is provided through the evaluation set-aside. The House bill proposed \$9,157,440,000 for these programs and the Senate proposed \$9,223,832,000. The detailed table at the end of this joint statement reflects the activity distribution agreed to by the conferees.

Head Start

The conference agreement includes \$7,042,196,000 for Head Start, instead of \$6,963,571,000 as proposed by the House and \$7,088,571,000 as proposed by the Senate. The agreement includes \$1,388,800,000 in advance funding.

The conference agreement includes \$65,033,000 for Child Abuse State Grants and child abuse discretionary programs, instead of \$63,840,000 as proposed by the House and \$64,745,000 as proposed by the Senate.

Included in this amount is \$27,007,000 for State grants, as proposed by both the House and the Senate. Within the amount provided for State grants, the conferees include \$10,000,000 for a home visitation initiative to support competitive grants to States to encourage investment of existing funding streams into evidence-based home visitation models. The conferees expect that the Administration for Children and Families will ensure that States use the funds to support models that have been shown, in well-designed randomized controlled trials, to produce sizeable, sustained effects on important child outcomes such as abuse and neglect. The conferees also recommend that the funds support activities to assist a range of home visitation programs to replicate the techniques that have met these high evidentiary standards. In carrying out this new initiative, the conferees instruct the Department to adhere closely to evidence-based

models of home visitation and not to incorporate any additional initiatives that have not met these high evidentiary standards or might otherwise dilute the emphasis on home visitation.

For child abuse discretionary activities, the conference agreement provides \$38,026,000, instead of \$36,833,000 as proposed by the House and \$37,738,000 as proposed by the Senate. Within the funds provided for

Adoption Incentives

The conference report includes \$4,400,000 for the Adoption Incentive Program, rather than \$9,500,000 as proposed by both the House and the Senate. The decrease reflects available carry-over from the previous fiscal year, due to the fact that bonus amounts earned by the States have fallen significantly, causing the Department to revise its estimate of funds needed to pay incentives earned by the States in fiscal year 2007.

Adoption Awareness

The conference agreement includes \$13,674,000 for the Adoption Awareness Program, instead of \$14,674,000 as proposed by

the House and \$12,674,000 as proposed by the Senate. Within this amount, the conferees expect that the increase of \$1,000,000 will be used for infant adoption awareness, bringing the total available for this activity to \$10,728,000. The remaining \$2,946,000 is recommended for the special needs adoption campaign.

The conferees are encouraged by the progress that the Office of Minority Health

made in fiscal year 2007 on the multi-year effort to address health disparities issues in the gulf coast region, and looks forward to further progress in this area in fiscal year 2008.

Within the funds provided for the Office of Minority Health, the conference agreement includes the following project in the following amount:

Project	Total Funding
Saint Francis Hospital, Wilmington, DE, to expand prenatal, maternity, pediatric, and other primary care services to indigent populations	590,000

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

The conference agreement includes \$66,151,000 for this activity, of which \$27,651,000 is provided in budget authority and \$38,500,000 is made available through the Public Health Service program evaluation tap. The House provided a combined total of \$61,302,000 for this activity; the Senate provided a combined total of \$71,000,000. The conferees encourage the Department to develop an interoperability standard, tool set, and validation protocol that facilitates

seamless medical device information sharing and device connectivity.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$45,187,000 for the Office of Inspector General instead of \$44,687,000 as proposed by the House and \$45,687,000 as proposed by the Senate.

PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND

(INCLUDING TRANSFER OF FUNDS)

The conferees concur with the House and provide funding for World Trade Center treatment and monitoring within the CDC appropriation and not the PHSSEF account as proposed by the Senate. The conferees direct the Secretary of Health and Human Services to provide a comprehensive Federal plan, as proposed by the House, for monitoring, screening, analysis, and medical treatment for all individuals who were exposed to the toxins at the World Trade Center site. The conference agreement expands the World Trade Center monitoring and treatment program administered by NIOSH to residents, students, and others, therefore the plan also should address how HHS intends to implement this expansion.

The conferees concur with the House and do not include funding for Security Coordination and Improvement or Healthcare Provider Credentialing within the programs funded through PHSSEF administered by the Office of the Secretary. The Senate proposed \$3,300,000 for Healthcare Provider Credentialing.

Office of the Assistant Secretary for Preparedness and Response

The conference agreement includes \$720,806,000 for the Office of the Assistant Secretary for Preparedness and Response (ASPR) instead of \$738,909,000 as proposed by the House. The Senate did not propose a funding level for ASPR in total, but did propose funding for specific activities within the office. The conference agreement includes bill language designating \$22,363,000 for BioShield management as proposed by the House instead of \$22,338,000 as proposed by the Senate.

Within the total for ASPR, the conference agreement includes \$50,000,000 for the National Disaster Medical System instead of \$53,000,000 as proposed by both the House and Senate.

Within the total for ASPR, the conference agreement includes \$444,241,000 for the hospital preparedness cooperative agreement grants program instead of \$450,991,000 as proposed by the House and \$438,843,000 as proposed by the Senate. The conferees concur with the House and do not include funds for a surge capacity demonstration program.

The Senate proposed \$25,000,000 for this demonstration program. Additionally, the conference agreement does not include funding for a partnership grant program.

Office of the Secretary—Pandemic Influenza Preparedness

The conference agreement includes bill language designating \$763,923,000 to prepare for and respond to an influenza pandemic instead of \$948,091,000 as proposed by the House and \$888,000,000 as proposed by the Senate. Of this amount, the conference agreement provides \$685,832,000 to be available until expended instead of \$870,000,000 as proposed by the House and \$652,000,000 as proposed by the Senate. The conference agreement includes bill language as proposed by the House, that funds appropriated for pandemic influenza may be transferred to other appropriations accounts of the Department of Health and Human Services. The Senate proposed similar language.

Within the total for pandemic influenza preparedness, the conference agreement includes \$78,091,000, as proposed by the House, for ongoing activities instead of \$78,000,000 as proposed by the Senate.

The conferees continue to support the Department's pandemic influenza preparedness activities and note that approximately \$1,800,000,000 remains available to be obligated from funds provided in prior appropriations for pandemic influenza preparedness. The conferees understand that HHS plans to use a portion of the prior appropriations to purchase additional doses of antivirals for the Federal stockpile rather than waiting for the fiscal year 2008 appropriation, which included as part of that request, \$248,000,000 for antiviral purchases. Due to the large unobligated balance for vaccine development and other activities and the plans to use prior year funds instead of fiscal year 2008 funds for antiviral purchase, the conferees are providing less funding than was requested by the Administration.

The conferees concur with the House and provide the ongoing pandemic preparedness activities of the CDC within the CDC appropriation. The Senate proposed to fund CDC pandemic flu activities in PHSSEF to be transferred to CDC within 30 days of enactment of this Act.

COVERED COUNTERMEASURE PROCESS FUND

ONE PERCENT TRANSFER AUTHORITY

This transfer is available only to meet emergency needs. The Committees are to be notified 15 days in advance of any transfer. The House bill included a similar provision, but allowed the authority to transfer between appropriations for unanticipated needs.

THIMEROSAL IN INFLUENZA VACCINES

The conference agreement includes a requirement that, for the 2010-2011 influenza season, the Secretary of Health and Human Services (HHS) shall not make available any funds for the administration of any influenza vaccine containing thimerosal as a preservative for children under three years of age. The conferees are concerned that, in several surveys, parents have noted fear of vaccines containing thimerosal as a reason for not vaccinating their children against influenza. Although there is no peer-reviewed scientific evidence linking thimerosal in vaccines to neurodevelopmental disorders, the conferees are nonetheless troubled by low influenza vaccination coverage rates in this population. To improve public confidence in the safety of vaccines, the conference agreement also includes language requiring the Secretary to submit to Congress a plan to work proactively with influenza vaccine manufacturers to facilitate approval of additional vaccines for children under three years of age, to increase Federal purchases of thimerosal-free influenza vaccine, and to take any additional actions to increase the supply of thimerosal-free influenza vaccine.

By enacting this language the conferees do not intend to supersede the judgments of expert scientists and physicians. Additionally, the conferees concur with CDC and its Advisory Committee on Immunization Practices that any person for whom the influenza vaccine is recommended receive any influenza immunization that is FDA-approved for use in that individual. By undertaking the current legislative action, the conferees do not intend to imply that vaccines containing thimerosal present more risk and thereby discourage citizens from availing themselves of such vaccines. Moreover, the conferees have granted the Secretary of HHS the authority to put aside the prohibition if the Secretary finds that thimerosal-free influenza vaccine supply is not sufficient to meet demand or a public health emergency occurs.

The House bill proposed prohibiting the use of funds provided in this Act to administer to children under three years of age an influenza vaccine containing thimerosal during the 2008-2009 influenza season. The Senate did not have a similar provision.

The conference agreement does not provide funding for State Grants for Innovative Education as proposed by the Senate instead of \$99,000,000 as proposed by the House.

For the Foreign Language Assistance program, the agreement provides \$26,780,000 as proposed by both the House and Senate. The agreement also includes a set-aside of \$3,000,000 in bill language for 5-year grants to local educational agencies to work in partnership with one or more institutions of higher education to establish or expand articulated programs of study in languages critical to United States national security as proposed by the House. The Senate did not propose this set aside. The conferees intend that funding available under this program promote the goal of well-articulated, long-sequence language programs that lead to demonstrable results for all students, and encourage school districts applying for these funds to reach out to institutions and centers funded under the Department's International Education programs under Title VI of the Higher Education Act. The conferees direct the Department not to make grants to school districts that are replacing current traditional language programs with critical needs language instruction.

The conference agreement includes \$416,000,000 for State Assessments as proposed by the Senate instead of \$411,630,000 as proposed by the House. Within the amount provided, the conferees recommend \$16,000,000 for enhanced assessment instruments to improve the implementation of the No Child Left Behind Act. The conferees urge

the Department to continue to place a high priority on grant applications that aim to improve the quality of State assessments for students with disabilities and students with limited English proficiency, and to ensure the most accurate means of measuring their performance on those assessments.

The conference agreement includes \$34,204,000 for the Education of Native Hawaiians program instead of \$34,500,000 as proposed by the Senate and \$33,907,000 as proposed by the House. The agreement includes bill language that allows funds under this program to be used for construction, renovation and modernization of any elementary school, secondary school, or structure related to an elementary school or secondary school run by the Department of Education of the State of Hawaii that serves a predominantly Native Hawaiian student body as proposed by the Senate. The conference agreement also includes bill language, as proposed by the Senate, which designates, within the amount provided for the Education of Native Hawaiians program, not less than \$1,250,000 to the Hawaii Department of Education for school construction/renovation activities, and \$1,250,000 for the University of Hawaii's Center of Excellence in Native Hawaiian Law. The House bill did not include a similar provision.

The conference agreement includes \$34,204,000 for the Alaska Native Educational Equity program instead of \$34,500,000 as proposed by the Senate and \$33,907,000 as proposed by the House. The conference agreement includes bill language which allows funds available through this program to be used for construction, as proposed by the Senate. The House bill did not include a similar provision.

The conferees expect that rural education funding will be equally divided between the Small, Rural Schools Achievement Program, which provides funds to school districts that serve a small number of students, and the Rural and Low-Income Schools Program, which provides funds to school districts that serve concentrations of poor students, regardless of the number of students served.

INDIAN EDUCATION

The conference agreement includes \$124,000,000 for Indian Education as proposed by the House instead of \$118,690,000 as proposed by the Senate. Within this amount, the agreement provides \$100,057,000 for grants to local educational agencies, \$19,884,000 for special programs for Indian children, and \$4,059,000 for national activities as proposed by the House. The Senate bill included \$95,331,000, \$19,399,000 and \$3,960,000, respectively, for these activities.

INNOVATION AND IMPROVEMENT

The conference agreement includes \$1,010,084,000 for programs in the Innovation and Improvement account, instead of \$992,354,000 as proposed by the House and \$962,889,000 as proposed by the Senate.

The conference agreement includes \$24,000,000 for the National Writing Project, a national writing instructional program authorized under the Elementary and Secondary Education Act, as proposed by the Senate instead of \$23,533,000 as proposed by the House.

The conference agreement includes \$120,000,000 for the Teaching of Traditional American History program as proposed by the Senate instead of \$119,790,000 as proposed by the House. The conferees recommend that the Department provide initial three-year grants, with two additional years if a grantee is performing effectively.

The conference agreement includes \$9,821,000 for the Advanced Credentialing program as proposed by the Senate instead of \$10,695,000 as proposed by the House. The conference agreement provides these funds for a

continuing award authorized under section 2151(c)(3)(c) of the Elementary and Secondary Education Act.

The conference agreement includes \$214,783,000 for the Charter Schools program as proposed by the Senate instead of \$251,394,000 as proposed by the House. The conference agreement modifies bill language proposed by the House and the Senate to permit the Secretary to use funds in excess of \$190,000,000 to carry out the State Facilities Incentive and Credit Enhancement for Charter Facilities programs.

Fund for the Improvement of Education (FIE)

The conference agreement includes \$262,917,000 for the Fund for the Improvement of Education instead of \$205,402,000 as proposed by the House and \$218,699,000 as proposed by the Senate.

The conferees expect the increase over fiscal year 2007 to be used for Ready to Learn outreach programs at the Corporation for Public Broadcasting.

The conference agreement includes \$1,977,000 for Close Up/Congressional Fellowships instead of \$1,454,000 as proposed by the House and \$2,500,000 as proposed by the Senate.

The conference agreement includes \$46,000,000 for Advanced Placement programs instead of \$50,000,000 as proposed by the House and \$42,000,000 as proposed by the Senate. The conferees intend that funds be used first for the Advanced Placement Test Fee

Program, estimated to require \$10,000,000 in fiscal year 2008. The remaining funds shall be used for continuing and new awards under the Advanced Placement Incentive Program Grants. The conferees encourage the Department to incorporate a priority for projects focused on the sciences, mathematics, and foreign languages in the fiscal year 2008 competition for new awards under the Advanced Placement Incentive Program.

The conferees direct the Department to use \$850,000 within the amount provided for Safe and Drug-Free Schools and Communities National Programs to identify, and provide recognition of, promising and model alcohol and drug abuse education programs in higher education.

The conferees intend that funding recommended for school emergency preparedness activities be used for new grant awards to higher education institutions, in addition to school districts currently eligible, to develop and implement emergency management plans for preventing campus violence (including assessing and addressing the mental health needs of students) and for responding to threats and incidents of violence or natural disaster in a manner that ensures the safety of the campus community. The conferees intend that these funds be used to help institutions of higher education plan and prepare for the entire constellation of threats (terrorist attacks, natural disasters, shootings, and gang-related activity).

The conference agreement also modifies bill language proposed by the House to permit Project SERV funds appropriated in fiscal year 2008 and in previous fiscal years to be used to provide services to school districts and institutions of higher education in which the learning environment has been disrupted due to a violent or traumatic crisis. The Senate bill did not include bill language allowing Project SERV funds to be awarded to institutions of higher education.

In addition, the recommended funding for the Office of Safe and Drug Free Schools will permit the Department to expand its examination of a variety of other school safety initiatives. The conferees request the Department to update the 2002 Department of Education and U.S. Secret Service guidance titled "Threat Assessment in Schools: A Guide to Managing Threatening Situations and to Creating Safe School Climates" to reflect the recommendations contained in the report titled "Report to the President on Issues Raised by the Virginia Tech Tragedy." The conferees also request that, within a year of the enactment of this Act, the Department shall disseminate the updated guidance to institutions of higher education

and to State departments of education for distribution to all local education agencies.

DIVISION B—MILITARY CONSTRUCTION AND VETERANS AFFAIRS AND RELATED AGENCIES APPROPRIATIONS ACT, 2008

This joint statement describes the effect of the conference agreement relative to the versions of the Military Construction and Veterans Affairs and Related Agencies Appropriations Act (H.R. 2642) as passed by the House of Representatives and the Senate. References to amounts or language proposed by the House of Representatives or the Senate refer to amounts and language in the House or Senate passed versions of H.R. 2642 or in the accompanying committee reports (House Report 110-186 and Senate Report 110-85).

The Senate amendment to the text deleted the entire House bill after the enacting clause and inserted the Senate bill. The conference agreement includes a revised bill.

Matters Addressed by Only One Committee.—The language and allocations set forth in House Report 110-186 and Senate Report 110-85 should be complied with unless specifically addressed to the contrary in the conference report and statement of the managers. Report language included by the House, which is not changed by the report of the Senate or the conference, and Senate report language, which is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate have directed the submission of a report, such report is to be submitted to both Houses of Congress.

TITLE I

DEPARTMENT OF DEFENSE

ITEMS OF GENERAL INTEREST

“Grow the Force”.—The conferees note that the President, in the fiscal year 2008 budget submission to Congress, did not identify individual projects associated with the Administration’s \$2,820,898,000 “Grow the Force” initiative, instead requesting lump sum funding for the initiative. Detailed information on individual projects was not provided by the Army and Marine Corps until weeks after the budget submission. The conferees provide full funding for this initiative, by project, and have identified the

“Grow the Force” projects in the table at the back of the statement of the managers. The conferees remind the Department that the “Grow the Force” projects for which the President requested lump sum funding are part of the regular military construction program and are therefore subject to the same notification and reprogramming requirements that apply to all military construction appropriations.

Construction Inflation.—The conferees are concerned by the continuing impact of high inflation rates for construction material prices and labor costs. These high rates have made it increasingly difficult for the services and Defense agencies to execute their military construction and family housing construction programs in a timely manner without scope reductions, project cancellations, and reprogramming requests. Given the enormous volume of construction to be completed over the next five years due to BRAC, global rebasing, end-strength increases for the Army and Marine Corps, and numerous smaller initiatives, realistic budgeting for construction inflation is necessary if the quality of life and quality of service for military personnel and their families are to be maintained at a high level. The conferees are dismayed by the failure of the Office of Management and Budget and the Department of Defense to incorporate realistic inflation estimates in the budget submissions, even though the consequences of this failure are predictable. The conferees support and encourage current efforts to more accurately account for regional variations in construction inflation; however, the conferees also believe that such efforts will be of limited value if the overall inflation figure used by the Administration to build the military construction program is unrealistically low. The conferees direct the Department of Defense to report to the Committees on Appropriations of both Houses of Congress on the baseline construction inflation rate incorporated in the fiscal year 2009 military construction and family housing budget request, as well as a justification for that rate, no later than seven days following the submission of that request to Congress.

Integrated Construction Plans for the “Grow the Force,” Global Basing, and Base Realignment and Closure Initiatives.—The conferees remain concerned about the ability of the Department of Defense to effectively coordinate and integrate the significant construction demands of the “Grow the Force” initiative with the equally daunting construction programs associated with the Department’s global rebasing plan and the 2005 Base Realignment and Closure program, particularly within the short timeframe allotted for the completion of each of these initiatives. The conferees agree that the Secretary of Defense shall submit a separate report to the Committees on Appropriations of both Houses of Congress by January 31, 2008, identifying the installations at which there is any overlap of military construction and/or family housing construction among any or all of the three initiatives. In addition to a detailed list of the projects by installation, the report should include the projected timeline for completing each of the identified projects and the projected timeline for the movement of military personnel associated with the initiatives into the affected installations.

Government Accountability Office (GAO) Review of Global Defense Posture Report.—The conferees agree that the GAO review of the status of the Defense Department’s Global Defense Posture should be submitted to the Committees on Appropriations of both Houses of Congress no later than April 15, 2008.

Failure to Comply With Report Deadlines.—The conferees note the Department of

Defense’s failure to comply with deadlines for several reports directed by the Committees on Appropriations of both Houses of Congress. These deadlines have passed without the reports being delivered, or even notice from the Department as to why it has been unable to meet the deadlines. Some of these reports are merely collections of data that are readily available. The conferees find this delay unacceptable. These reports are directed to ensure proper congressional oversight and to inform congressional decisions on the Department’s budget requests. The conferees direct the Department to submit all reports directed by House Report 110-186 and Senate Report 110-85 that are currently overdue, or an explanation of why these reports have not been delivered along with the expected date of delivery, no later than seven days after the enactment of this Act. The conferees direct the Department and the services to meet future reporting deadlines. If future deadlines are not met, the Department or service shall submit an explanation for the failure to deliver and the expected date of delivery no later than seven days after the deadline.

Incrementally Funded Projects.—The conferees note that the Administration requested several large military construction projects that can be incrementally funded, but were instead submitted as large single-year requests, in accordance with a directive from the Office of Management and Budget to the Department of Defense to severely restrict the use of incremental funding for military construction. The Committees on Appropriations of both Houses of Congress have previously notified the Administration that they reserve the prerogative to provide incremental funding where appropriate, in accordance with authorizing legislation. The conferees continue to believe that military construction projects should be fully funded or separated into stand-alone phases when practical. In some cases, however, incremental funding makes fiscal and programmatic sense. The conferees have therefore agreed that the following projects will be incrementally funded: Fuel Storage Facilities, Point Loma, California; Southern Command Headquarters, Miami, Florida; Submarine Drive-in Magnetic Silencing Facility, Pearl Harbor, Hawaii; SOF Operations Facility, Dam Neck Annex, Virginia; Kilo Wharf, Naval Base Guam; and Brigade Operations Support Facility and Brigade Barracks/Community Facility, Vicenza, Italy.

Guam Master Plan.—The conferees agree that the massive construction program planned to expand the presence of the U.S. military on Guam presents a major challenge to the Department of Defense, and requires a well-planned execution strategy. However, the conferees are concerned that the Senate provision requiring the Secretary of Defense to submit a master plan for Guam by December 29, 2007, does not give the Department adequate time to complete the plan, particularly in view of the ongoing environmental assessments being conducted on Guam. The conferees do not concur with the Senate position and instead direct the Secretary of Defense to submit to the Committees on Appropriations of both Houses of Congress no later than September 15, 2008, a report on the Department’s planning efforts for Guam. The report should identify in detail the size and makeup of the U.S. military forces to be located on Guam, the number of dependents expected to accompany those forces, and the infrastructure required to support the troops and their families. The report should also outline the Department’s plan to accomplish the projected level of construction associated with the build-up, within the constrained construction capacity of Guam, and the infrastructure required to

support the anticipated increase in the construction workforce. The Department is further directed to provide an updated funding plan for both the military and family housing construction, and the associated Defense education and Defense logistics infrastructure needed, and a status report on the availability and funding mechanism of the \$6.1

billion that the Government of Japan has agreed to contribute.

The fiscal year 2007 National Defense Authorization Act authorized a project to replace a fuel truck loading facility on Wake Island. The Department of Defense opted not to execute this project, shifting the funds to the contingency construction sub-account. A cancellation notice for the Wake Island project was not submitted until October 16, 2007 even though Pacific Air Forces had decided to place the island in caretaker status in March 2007. FAMILY HOUSING OVERVIEW

Incorporation of Additional Information Into Semi-Annual Reports on Family Housing Privatization.—The conferees direct the Department of Defense to include data on the maintenance of family housing units and the contributions of housing privatization entities to the recapitalization accounts of each ongoing family housing privatization project in each future semi-annual progress report on the privatization program.

Transfer of Funds Between Family Housing Construction and Operation and Maintenance Sub-Accounts.—The conferees direct the services and Defense agencies to notify the Committees on Appropriations of both Houses of Congress within 30 days of a trans-

fer of funds between sub-accounts within the family housing construction and family housing operation and maintenance accounts, if such transfer is in excess of 10 percent of the funds appropriated to the sub-account to which the funds are being transferred. Notifications to the Committees shall indicate the sub-accounts and amounts that are being used to source the transfer.

**DEPARTMENT OF DEFENSE BASE CLOSURE
ACCOUNT 1990**

The conference agreement appropriates \$295,689,000 for the Department of Defense Base Closure Account 1990, instead of \$270,689,000 as proposed by the House and \$320,689,000 as proposed by the Senate. The agreement includes an increase of \$75,000,000 above the budget request, of which \$25,000,000 is provided for the Army and \$50,000,000 is provided for the Navy. The conferees direct the Army and Navy to submit an expenditure plan for the additional funds provided no later than 30 days following the enactment of this Act. The conferees further direct the services to notify the Committees on Appropriations of both Houses of Congress 14 days prior to obligating an amount for a site or closure package that exceeds or reduces the amount identified for that site or closure package in the fiscal year 2008 budget submission (plus additional funds as identified by the expenditure plan) by 20 percent or \$2,000,000, whichever is less. This direction shall not apply to sites or closure packages for which the requested amount is less than \$5,000,000.

**DEPARTMENT OF DEFENSE BASE CLOSURE
ACCOUNT 2005**

The conference agreement appropriates \$8,040,401,000 for the Department of Defense Base Closure Account 2005, instead of \$8,174,315,000 as proposed by both the House and the Senate. The decrease from the request is a general reduction. The funds requested for this account, which are appropriated by lump sum, are allocated among 189 BRAC projects earmarked for funding by the President for fiscal year 2008. The requested projects and related planning and design total \$6,419,748,000. Additional funding provided in this account is for environmental, operations and maintenance, personnel, and related programs associated with the BRAC process. A detailed listing of the individual projects earmarked for funding by the President is provided in Senate report 110-85, and a list of the President's earmarks by BRAC closure package is provided in House report 110-186.

The conferees note that it is the practice of the Committees to not add congressional earmarks for BRAC construction because of the complicated and inter-related nature of the BRAC construction program. The conferees reaffirm this policy, and have included no congressionally directed earmarks in the BRAC 2005 account.

TITLE II—DEPARTMENT OF VETERANS AFFAIRS

ITEMS OF GENERAL INTEREST

Veterans Rights and Feedback.—The conferees are encouraged by the progress the Department has made in providing veterans with the opportunity to offer feedback and obtain assistance through the Internet and the use of toll-free telephone numbers. The conferees agree there are additional measures the Department should take to enhance these programs and to ensure that the Secretary, the Under Secretary for Health, the Under Secretary for Benefits, and the Office of Inspector General are kept informed of the feedback that is provided. The conference agreement includes sufficient funding to ensure the Department is able to provide a clearly marked, direct link that allows veterans to seek assistance and provide feedback on the Veterans Affairs Internet home page; provide a separate toll-free telephone number for the Veterans Health Administration and for the Veterans Benefits Administration that allows a veteran to check on his or her eligibility, seek assistance in obtaining services and/or resolving difficulties, and provide feedback; and provide the Secretary, the Under Secretary for Health, the Under Secretary for Benefits, and the Office of Inspector General with a report that informs them of the types of issues that are being addressed through these systems so that they may more easily identify evolving problems and take early corrective action. The Secretary is directed to report to the Committees on Appropriations of both Houses of Congress by February 1, 2008, on the actions that have been taken to implement this direction. Further, the Under Secretary for Health is directed to report to the Committees on Appropriations of both Houses of Congress by March 3, 2008, on the actions that have been taken to ensure that patient advocate contact information, including a telephone number, is clearly posted in all clinics, on all inpatient wards, and at the entrance of every Veterans Health Administration facility.

Services for Women Veterans.—The conferees agree more can be done by the Department to refine its programs, services and outreach efforts in order to inform women veterans of their eligibility status and improve their access to services. While the conference agreement does not retain the provision proposed by the House under General Operating Expenses, the conference agreement includes sufficient funds for the operation of both the Advisory Committee on Women Veterans and the Center for Women Veterans. Additionally, the conferees direct the Department to report to the Committees on Appropriations of both Houses of Congress by February 1, 2008, on the actions that have been taken to implement the recommendations of the Advisory Committee on Women Veterans 2006 Report. The conferees further direct the Government Accountability Office (GAO) to report to the Committees on Appropriations of both Houses of Congress by September 1, 2008, an

assessment of the adequacy of mental health services provided by the Departments of Veterans Affairs to women veterans.

Reprogrammings.—The conferees would like to emphasize that reprogrammings permitted by this Act are to be transmitted to Congress in a timely manner.

Quarterly Financial Report.—The quarterly financial report required by this Act shall contain, at a minimum, both the planned and actual expenditure rates, unobligated balances, potential financial shortfalls, any transfers between major accounts (medical services, medical administration, and medical facilities), and status of any equipment or non-recurring maintenance funds—including whether they have been used to pay for operating expenses. In addition, the service portion of the report will contain, at a minimum, the time required for new patients to get their first appointment, the time required for established patients to get their next appointment, and the number of unique veterans and patients being served. Each report should address data for the system total and for each VISN. Further, the conferees direct that the Department include progress reports on the revision of the International Classification of Diseases—9th Revision (ICD-9) codes with respect to Traumatic Brain Injury.

Contracting Out.—The conferees note that the competition requirement provided in this Act already applies to the Department of Veterans Affairs. For any function performed by more than ten employees, the Department, like other agencies covered by this competition requirement, must conduct a public-private competition, involving both a Most Efficient Organization plan and a Minimum Cost Differential, before that function can be converted to contractor performance. Unless specifically excluded, the Department of Veterans Affairs would be held to any successor public-private competition requirements included in legislation, as well as 38 U.S.C. 8110(a)(5).

VETERANS BENEFITS ADMINISTRATION COMPENSATION AND PENSIONS (INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$41,236,322,000 for Compensation and Pensions as proposed by both the House and the Senate. Of the amount provided, not more than \$28,583,000 is to be transferred to General Operating Expenses and Medical Administration for reimbursement of necessary expenses in implementing provisions of title 38.

READJUSTMENT BENEFITS

The conference agreement appropriates \$3,300,289,000 for Readjustment Benefits as proposed by both the House and the Senate.

VETERANS INSURANCE AND INDEMNITIES

The conference agreement appropriates \$41,250,000 for Veterans Insurance and Indemnities as proposed by both the House and the Senate.

VETERANS HOUSING BENEFIT PROGRAM FUND PROGRAM ACCOUNT

The conference agreement appropriates such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund Program Account as proposed by both the House and the Senate. The agreement limits obligations for direct loans to not more than \$500,000 and provides that \$154,562,000 shall be available for administrative expenses. The conference agreement does not include a transfer provision as proposed by the House.

VOCATIONAL REHABILITATION LOANS PROGRAM ACCOUNT (INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$71,000 for the cost of direct loans from the

Vocational Rehabilitation Loans Program Account as proposed by both the House and the Senate, plus \$311,000 to be transferred to and merged with General Operating Expenses. The conference agreement provides for a direct loan limitation of \$3,287,000 as proposed by both the House and the Senate.

NATIVE AMERICAN VETERAN HOUSING LOAN PROGRAM ACCOUNT

The conference agreement appropriates \$628,000 for administrative expenses of the Native American Veteran Housing Loan Program Account as proposed by both the House and the Senate. The conference agreement does not include a transfer provision or loan limitation as proposed by the House.

GUARANTEED TRANSITIONAL HOUSING LOANS FOR HOMELESS VETERANS PROGRAM ACCOUNT

The conference agreement provides up to \$750,000 of the funds available in General Operating Expenses and Medical Administration to carry out the Guaranteed Transitional Housing Loans for Homeless Veterans Program Account as proposed by both the House and the Senate.

VETERANS HEALTH ADMINISTRATION

Health Care Sharing Incentive Fund.—The conferees have included bill language to allow a minimum of \$15,000,000, to be transferred to the Health Care Sharing Incentive Fund to facilitate collaboration between the Departments of Defense and Veterans Affairs. The conferees agree the most important area for collaboration and investment between these departments is to ensure a seamless transition for our veterans. While the conferees do not intend to preclude the use of this fund for any joint project, the conferees strongly urge that priority for funding be given to the implementation of recommendations of the Report on the President's Commission on Care for America's Returning Wounded Warriors, July 2007. The conferees further urge the Departments of Defense and Veterans Affairs to seek every opportunity to partner to improve the continuity of care for our veterans through joint clinics; joint Centers of Excellence for Post Traumatic Stress Disorder (PTSD) and Traumatic Brain Injury (TBI); joint research and/or treatment; and the development of joint clinical practice guidelines for polytrauma injury, traumatic brain injury (to include diagnostics), blast injury, mental health/PTSD, burn, and amputee patients based on evidence based medicine.

Traumatic Brain Injury (TBI).—Current data make it difficult for the Department to provide budget information on TBI as a Select Program. The conferees are encouraged to learn the Department is working with the National Center for Health Statistics and the Department of Defense to refine current International Classification of Diseases-9th Revision (ICD-9) codes to better reflect the TBI patient population within the Departments of Defense and Veterans Affairs. The conferees direct the Department of Veterans Affairs to include an update of progress on the revision of the ICD-9 codes for TBI within the quarterly reports provided to Congress during fiscal year 2008. The conferees also direct the Department of Veterans Affairs to include TBI as a Select Program within the Medical Services account in the fiscal year 2009 budget submission and all future budget submissions thereafter.

Level I Polytrauma Centers and Centers of Excellence on Mental Health and Post Traumatic Stress Disorder (PTSD).—The conferees agree that every effort must be made to ensure that the Level I polytrauma centers and the Centers of Excellence on Mental Health and PTSD are resourced to provide the very best in medical care to our veterans who have suffered multiple trauma injuries

or require mental health services. The conference agreement has increased funding within the Veterans Health Administration accounts to ensure that the current Level I polytrauma centers and the Centers of Excellence on Mental Health and PTSD will be fully staffed and operational in fiscal year 2008.

Credentialing and Privileging in Rural Health Care Facilities.—The conferees are concerned about potential quality of care issues that may exist in rural VA medical facilities, including the qualifications of medical professionals. The conferees direct the Government Accountability Office to assess the standards that are being followed in rural VA hospitals, including the consistency with which VA standards are being applied across urban and rural facilities.

MEDICAL SERVICES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$29,104,220,000 for Medical Services, instead of \$29,031,400,000 as proposed by the House and \$28,979,220,000 as proposed by the Senate. Additionally, the Senate had proposed an additional \$125,000,000 in section 230 of the administrative provisions.

Of the amount provided, \$1,350,000,000 is available for obligation until September 30, 2009 as proposed by the Senate, instead of \$1,100,000,000 as proposed by the House. The conferees also agree that the Department shall spend not less than \$2,900,000,000 for specialty mental health services as proposed by the House and not less than \$130,000,000 for the homeless grants and per diem program.

The conference agreement includes a net increase of \$1,936,549,000 above the budget request in order to address shortfalls anticipated in the Department's projection of health care demand and to address the Department's failure to adjust the beneficiary travel reimbursement rate despite consistently rising gasoline prices. The conference agreement includes a 5.5 percent increase for workload and a 4.45 percent increase for inflation which the conferees believe is necessary to ensure that sufficient funding is available to maintain services at their current level. The agreement also includes an additional \$125,000,000 to increase the beneficiary travel reimbursement mileage rate to 28.5 cents per mile; an additional \$70,000,000 for substance abuse services; an additional \$12,500,000 for expanded outpatient services for the blind; an additional \$15,000,000 for Vet Centers; and provides sufficient funding to allow for additional personnel for the HUD-Veterans Affairs Supportive Housing Program to address any increase in the number of vouchers offered and directs the Department to increase the number of case workers as necessary to accommodate the increase in vouchers.

Mental Health and Substance Abuse.—The conferees are concerned mental health and substance abuse services were not sufficiently addressed within the fiscal year 2008 budget submission which includes a reduction in the number of inpatient beds for psychiatric care and an anticipated increase of less than one percent for substance abuse services. The conferees believe these projections are unrealistic and have increased funding within the Medical Services account in order to increase access to substance abuse services; ensure that adequate inpatient psychiatric care is maintained; and to allow the Department to pursue all opportunities to improve access to mental health services for all veterans. To this end, the Department is directed to re-examine the policy for a reduction in psychiatric inpatient care, taking into account the needs of returning Operation Enduring Freedom and

Operation Iraqi Freedom (OEF/OIF) veterans and the recommendations of OIG Report: Implementing VHA's Mental Health Strategic Plan Initiatives for Suicide Prevention, May 10, 2007, and is further directed to report to the Committees on Appropriations of both Houses of Congress by February 29, 2008, the findings of this review and what additional resources have been utilized to ensure that adequate inpatient care is available. Further, the conferees direct the Department not to reduce the number of inpatient psychiatric beds at any facility that currently has a waiting list. Additionally, the Department is directed to report to the Committees on Appropriations of both Houses of Congress by February 1, 2008, on its plan to better utilize all opportunities to improve access to mental health services for all veterans. This report should include, but not be limited to, the Department's plan to better utilize the services of the Community Mental Health Centers; implementation of peer training programs; additional fee-basis access to local mental health providers; mobile Vet Centers; and the development of Internet based services like the Network of Care for Mental Health recommended in the President's New Freedom Commission on Mental Health.

HIV/AIDS Among Veterans.—The conferees concur with the Senate's recommendations on the VA health care system's HIV testing policy guidelines and direct the Department to submit a progress report to the Committees on Appropriations of both Houses of Congress by January 30, 2008.

Access to Medical Care in Remote Rural Areas.—The conferees direct the Secretary of Veterans Affairs to report to the Committees on Appropriations of both Houses of Congress not later than six months after the date of the enactment of this Act, a description of: the unique challenges and costs faced by veterans in remote rural areas of contiguous and non-contiguous States when obtaining medical services from the Department of Veterans Affairs, and the need to improve access to locally administered care for veterans who reside in remote rural areas. The report should also identify the need to fund alternative sources of medical services in areas where facilities of the Department of Veterans Affairs are not accessible to veterans without leaving such areas; and in cases in which receipt of medical services by a veteran in a facility of the Department requires transportation of such veteran by air due to geographic and infrastructural constraints. The report should also contain an assessment of the potential for increasing local access to medical services for veterans in remote rural areas of contiguous and non-contiguous States through strategic partnerships with other government and local private health care providers.

MEDICAL ADMINISTRATION

The conference agreement appropriates \$3,517,000,000 for Medical Administration, instead of \$3,510,600,000 as proposed by the House and \$3,642,000,000 as proposed by the Senate.

Office of Rural Health.—The conferees agree the Office of Rural Health is vital to ensuring that equal access to health care is provided to all of our returning Reserve and National Guard veterans. While the conferees do not earmark a specific amount for the office, the conferees have provided sufficient funding within Medical Administration to ensure a robust Office of Rural Health. The conferees strongly encourage the Department to make full use of this office and direct the Secretary to submit a report to the Committees on Appropriations of both Houses of Congress on the actions that have been taken to improve access to health in rural areas by February 1, 2008.

MEDICAL FACILITIES

The conference agreement appropriates \$4,100,000,000 for Medical Facilities as proposed by the House, instead of \$4,092,000,000 as proposed by the Senate. The agreement also includes language allowing \$350,000,000 of the funds to be available until September 30, 2009, as proposed by the Senate, instead of \$250,000,000 as proposed by the House. The conference agreement further specifies that \$325,000,000 for non-recurring maintenance shall be allocated in a manner not subject to the Veterans Equitable Resource Allocation model, instead of \$300,000,000 as proposed by the House and \$350,000,000 as proposed by the Senate. The conferees are in agreement that the funding provided above the budget request shall be used to address both facility condition assessment deficiencies and other essential requirements.

Non-Recurring Maintenance.—The conferees remain concerned that the Department is not adequately addressing specific issues regarding obligation of non-recurring maintenance (NRM) funds raised in a May 16, 2007, GAO report. The conferees fully expect that by fiscal year 2009 the Department will be obligating not more than twenty percent of its annual allocation of NRM funds in the last two months of the fiscal year. By May 16, 2008, the Department shall submit to the Committees on Appropriations of both Houses of Congress a report outlining these management objectives and a business plan to reach that goal.

Community Based Outpatient Clinics.—The conferees direct the Department to provide the Committees on Appropriations of both Houses of Congress with a report on the actual number of Community Based Outpatient Clinics (CBOC) opened in fiscal year 2007 and the planned CBOC activations in fiscal year 2008. In addition, the conferees further direct the Department to examine the need for, and report on the feasibility of and/or plans for clinics in the following locations: El Centro, California; rural Colorado; Brandon, Florida; Statesboro, Georgia; Belleville, Illinois; Moline, Illinois; Whiteside County, Illinois; Plymouth, Massachusetts; Dover-Foxcroft, Maine; Houlton, Maine; Lewiston-Auburn, Maine; Plattsburg, New York; Riverhead, New York; Southeastern Pennsylvania; Port Angeles, Washington; Wenatchee, Washington; Green Bay, Wisconsin; and Lynchburg, Virginia.

MEDICAL AND PROSTHETIC RESEARCH

The conference agreement appropriates \$480,000,000 for Medical and Prosthetic Research as proposed by the House, instead of \$500,000,000 as proposed by the Senate.

NATIONAL CEMETERY ADMINISTRATION

The conference agreement appropriates \$195,000,000 for the National Cemetery Administration, instead of \$170,000,000 as proposed by the House and \$217,709,000 as proposed by the Senate. Of the amount provided, \$20,000,000 is available until September 30, 2009, instead of \$7,800,000 as proposed by the House and \$25,000,000 as proposed by the Senate. The amount provided includes \$900,000 from the Information Technology Systems account which was erroneously transferred during the recent reorganization of information technology programs.

The conferees have provided \$28,191,000 in additional funding for the National Cemetery Administration to correct gravesite deficiencies at VA's national cemeteries, including those identified in the 2002 Millennium Act report to Congress. These repairs include gravesite renovation projects to replace turf, repair sunken graves, and raise, realign and clean headstones.

DEPARTMENTAL ADMINISTRATION

GENERAL OPERATING EXPENSES

The conference agreement appropriates \$1,605,000,000 for General Operating Expenses,

instead of \$1,598,500,000 as proposed by the House and \$1,612,031,000 as proposed by the Senate. The conference agreement provides not less than \$1,327,001,000 for the Veterans Benefits Administration, instead of \$1,324,957,000 as proposed by the House and \$1,329,044,000 as proposed by the Senate. Of the amount provided, \$75,000,000 is available for obligation until September 30, 2009, as proposed by both the House and the Senate.

The agreement also provides for a limitation on the purchase of passenger motor vehicles for use in operation by the Veterans Benefits Administration in Manila, Philippines.

The conference agreement does not include language as proposed by the House, which would have provided \$2,000,000 for the Advisory Committee on Women Veterans. This issue is addressed in the Departmental overview section of this statement of the managers.

Funding Increases.—The conferees agree to provide an increase of \$133,163,000 for General Operating Expenses when compared to the President's budget request. The conferees agree to provide \$124,219,000 for the hiring of additional claims processors. Based upon data provided by the Department to the Committees on Appropriations of both Houses of Congress in response to reporting requirements included in the report accompanying Public Law 110-28, the cost per new hire will enable the Department to hire more than 1,800 new claims processors with the funding provided. In addition, the conferees have provided \$2,000,000 for the leasing of office space to house these new employees. As the Department experiences an increase in the number of claims being filed, as well as an increase in the number of appeals, both the Board of Veterans Appeals and the Office of General Counsel will require additional personnel to handle these appeals. Therefore, the conferees have provided an increase of \$3,724,000 for the Board of Veterans Appeals and \$3,220,000 for the Office of General Counsel.

INFORMATION TECHNOLOGY SYSTEMS

The conference agreement appropriates \$1,966,465,000 for Information Technology Systems, instead of \$1,859,217,000 as proposed by the House and \$1,898,000,000 as proposed by the Senate. The conference agreement directs the Department to submit an expenditure plan to the Committees on Appropriations of both Houses of Congress within 30 days of enactment as proposed by the House, instead of 60 days of enactment as proposed by the Senate.

The amount provided includes a reduction of \$1,100,000 which has been transferred to the Office of Inspector General. The conferees have included an increase of \$39,683,000 for computers and other information technology needs associated with the increase in claims processors for the Veterans Benefits Administration and for increased staff in other offices related to claims processing. Additionally, the conferees agree to provide \$8,000,000 for an insurance card buffer system and \$8,000,000 for the Veterans Health Administration Chief Logistics Office information technology support. Both of these program shortfalls were identified by the Department subsequent to completion of the House and Senate action on their respective appropriations bills. The conferees have also included \$10,200,000 for the information technology costs associated with activation of new community based outpatient clinics, an expense that was underfunded in the budget submission.

On September 6, 2007, the Secretary of Veterans Affairs informed the Committees on Appropriations of both Houses of Congress of his intention to reorganize the information

technology development functions within the Department of Veterans Affairs. The budget request for Information Technology Systems included a consolidation of all payroll-associated costs for operations and maintenance under the Information Technology account. The conference agreement reflects this consolidation; however, the conferees direct the VA to track payroll and non-pay costs separately in future budget submissions. In addition, to further the Department's consolidation objective, the conferees have agreed to include an increase of \$42,465,000 to preclude the need to transfer funds from the General Operating Expenses, Medical Services, Medical Facilities, and Medical and Prosthetic Research accounts.

The conferees are in agreement that the Department should take all steps necessary to ensure that the entire information technology reorganization has no negative impact on providing vital services to veterans, nor should it impede the ability of health care providers and researchers in carrying out their duties.

Electronic Medical Record.—The conferees direct the Departments of Defense and Veterans Affairs to issue a joint report to the Committees on Appropriations of both Houses of Congress (subcommittees on Defense and Military Construction/Veterans Affairs) by April 1, 2008, detailing the actions being taken by each Department to achieve an interoperable electronic medical record (EMR) system. The report should include, but not be limited to, a detailed spending plan for the use of funding provided in the Joint Incentive Fund as well as identify all other ongoing and planned projects and programs within each Department addressing interoperability, including funding provided. The report should clearly identify the Departments' goals for interoperability and how these projects and programs will address those goals.

OFFICE OF INSPECTOR GENERAL

The conference agreement appropriates \$80,500,000 for the Office of Inspector General, instead of \$76,500,000 as proposed by the House and \$88,700,000 as proposed by the Senate. Of the amount provided, \$5,000,000 is available for obligation until September 30, 2009, instead of \$3,630,000 as proposed by both the House and the Senate.

The conference agreement includes an additional \$7,901,000 above the budget request for the Office of Inspector General. The additional funding includes \$1,100,000 for information technology systems unique to the Office of Inspector General, as well as additional funding for new positions so that the Inspector General can expand and improve its independent oversight in critical areas, including transitional health care for veterans returning from the wars in Iraq and Afghanistan and Department of Veterans Affairs information technology programs.

CONSTRUCTION, MAJOR PROJECTS

The conference agreement appropriates \$1,069,100,000 for Construction, Major Projects, instead of \$1,410,800,000 as proposed by the House and \$727,400,000 as proposed by the Senate. The conference agreement includes a provision proposed by the House which places a limitation on the use of funds related to 18 facilities on the Capital Asset Realignment for Enhanced Services list requiring further study. The Senate bill contained no similar provision.

The conferees are aware that the Department's budget request of \$40,285,000 for the Advanced Planning Fund will not be sufficient to address projects on the Department's 5-Year Capital Plan for fiscal years 2009 through 2012. Therefore, the conferees have included an additional \$9,200,000 in funding to begin the preliminary planning

process to address identified construction needs.

Additionally, the conferees agree to provide \$322,500,000 for allocation to previously appropriated major construction projects, including necessary cost adjustments. The Department is directed to provide the Committees on Appropriations of both Houses of Congress with a detailed list of how these funds will be allocated, within 60 days of enactment of this Act.

New Orleans Veterans Medical Center.—The conferees direct the Secretary of Veterans Affairs to report to the Committees on Appropriations of both Houses of Congress not later than October 1 and April 1 of each year, on the current status of the reconstruction of the Department of Veterans Affairs Medical Center in New Orleans, Louisiana. Each report shall include the status of any ongoing environmental assessments, the status of any current construction, and an assessment of the adequacy of funding necessary to complete the reconstruction. If reconstruction of the Medical Center is subject to any major delay, the report shall include a description of each such delay, an explanation for each such delay, and a description of actions being taken or planned to address the delay. Additionally, within 60 days of enactment of this Act, the Department shall report to the Committees on Appropriations of both Houses of Congress as to whether the New Orleans Medical Center should be designated as a Level I polytrauma rehabilitation center or a polytrauma network site.

which would have established reprogramming procedures for this account. Of the amount provided, the conferees agree that not less than \$75,000,000 shall be used for gravesite expansion and infrastructure improvements for the National Cemetery Administration and not less than \$8,000,000 shall be for minor construction for the Veterans Benefits Administration. In addition, the conferees agree that the Department should begin an effort to modernize and upgrade research facilities. **COMPLIANCE WITH RULE XXI, CL. 9 (HOUSE) AND
WITH RULE XLIV (SENATE)**

The following list is submitted in compliance with clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, which require publication of a list of congressionally directed spending items (Senate), congressional earmarks (House), limited tax benefits, and limited tariff benefits included in the conference report, or in the joint statement of the managers accompanying the conference report, including the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a re-

quest to the Committee of jurisdiction for each item so identified. Congressionally directed spending items (as defined in the Senate rule) and congressional earmarks (as defined in the House rule) in this division of the conference report or joint statement of the managers are listed below. Neither the conference report nor the statement of the managers contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

The following list is also submitted in compliance with House Resolution 491, which requires a listing of congressional earmarks in the conference report or joint statement

of the managers that were not committed to the committee of conference by either House, not in a report on a bill committed to conference, and not in a Senate committee report on a companion measure. All items on the following list technically meet that definition, because this division deals with legislation that was not committed to this committee of conference. Items on the following list have been marked with an asterisk if they were not in either the House or Senate version of the fiscal year 2008 Military Construction and Veterans Affairs and Related Agencies Appropriations bill or the accompanying Committee reports.

THE IMPORTANCE OF NATIONAL BIBLE WEEK

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Michigan (Mr. WALBERG) is recognized for 5 minutes.

Mr. WALBERG. Mr. Speaker, I rise to offer a few thoughts as regarding the importance of National Bible Week as well. It has been thrilling to hear my colleagues from both sides of the aisle refer to the importance of Scripture, and especially encouraging to hear the distinguished Representative from Illinois (Mr. RUSH), who represents the district I was born in. I appreciate the sincerity of your message this evening.

As a pastor in a previous life myself, I can unequivocally say that the Bible has deeply influenced my life every day in every way. Sadly, I haven't followed it every day in every way. But when it has been followed, it has influenced to the good.

The Bible is the best selling book of all time. It is a book that has touched countless numbers of lives. Along with being the main influence, many decisions have been made of by the billion, most importantly and most personally, my life and my faith in my Savior.

In 1940, a group of business and professional leaders got together and founded the nonprofit, independent, educational National Bible Association. Their goal was to encourage Americans to read the Bible in every sector of society, regardless of religious or political distinction. Every year since 1941, the National Bible Association has sponsored National Bible Week as a time to remind us of the importance of the Bible in our daily life.

Our Nation's traditions lie in the principles set out in the Bible. In 1951, an amazing book was published by the National Education Association and it was entitled, "The American Citizens Handbook." The book's author and publisher said that "This volume should be in every home library and on every teacher's desk. It may well be used as a text or reference book in the schools," and it was.

In fact, in that book, it had a grade-by-grade chart that included the following:

Second graders were to memorize the Lord's prayer: "Our father, who art in heaven, hallowed be Thy name."

Third graders were to memorize Psalm 23: "The Lord is my shepherd, I shall not want."

Seventh graders were to memorize the Beatitudes: "Blessed are the poor in spirit, the merciful, the hungry in spirit."

Ninth graders were to memorize Psalm 1, that beautiful Psalm that says, "Happy is the man who walks not in the counsel of the ungodly, nor stands in the way of sinners, nor sits in the seat of the scornful. But his delight is in the law of the Lord; and in his law he meditates day and night. And he shall be like a tree planted by the rivers of water, that brings forth fruit in his season. His fruit shall not wither."

Those are principles that were put forth in this book. High school seniors were to memorize the entire chapter of Romans 12, which begins by saying, "I beseech you therefore brethren by the mercies of God to present your bodies a living sacrifice, holy and acceptable unto God."

Those were patterned after the Founders of our country. Fifty-two of the 55 signers of the Declaration of Independence were deeply committed Christians, and the other three believed in a God who personally intervened in the lives of mankind. The same Continental Congress formed the American Bible Society, of all things, and purchased 20,000 copies of Scripture for the people of the Nation.

Patrick Henry's famous "give me liberty or give me death" speech actually
