

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

EASTERN MUNICIPAL WATER DISTRICT RECYCLED WATER SYSTEM PRESSURIZATION AND EXPANSION PROJECT

Mrs. NAPOLITANO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 30) to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in the Eastern Municipal Water District Recycled Water System Pressurization and Expansion Project.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 30

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Eastern Municipal Water District Recycled Water System Pressurization and Expansion Project".

SEC. 2. PROJECT AUTHORIZATION.

(a) IN GENERAL.—The Reclamation Wastewater and Groundwater Study and Facilities Act (Public Law 102-575, title XVI; 43 U.S.C. 390h et seq.) is amended by adding after section 16XX the following:

"SEC. 16XX. EASTERN MUNICIPAL WATER DISTRICT RECYCLED WATER SYSTEM PRESSURIZATION AND EXPANSION PROJECT, CALIFORNIA.

"(a) AUTHORIZATION.—The Secretary, in cooperation with the Eastern Municipal Water District, California, may participate in the design, planning, and construction of permanent facilities needed to establish operational pressure zones that will be used to provide recycled water in the district.

"(b) COST SHARING.—The Federal share of the cost of the project described in subsection (a) shall not exceed 25 percent of the total cost of the project.

"(c) LIMITATION.—Funds provided by the Secretary shall not be used for operation or maintenance of the project described in subsection (a).

"(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$12,000,000.

"(e) SUNSET OF AUTHORITY.—The authority of the Secretary to carry out any provisions of this section shall terminate 10 years after the date of enactment of this section."

(b) CLERICAL AMENDMENT.—The table of sections in section 2 of Public Law 102-575 is amended by inserting after the item relating to section 16XX the following:

"Sec. 16XX. Eastern Municipal Water District Recycled Water System Pressurization and Expansion Project, California."

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from California (Mrs. NAPOLITANO) and the gentleman from Colorado (Mr. LAMBORN) each will control 20 minutes.

The Chair recognizes the gentlewoman from California.

GENERAL LEAVE

Mrs. NAPOLITANO. Mr. Speaker, I ask unanimous consent that all Members may have 5 days to revise and ex-

tend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

H.R. 30, as introduced by our colleague, Mr. DARRELL ISSA from California, amends the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in the Eastern Municipal Water District Recycled Water System Pressurization and Expansion Project.

This legislation will provide limited financial assistance to the district for the expansion of the Eastern Municipal Water District pressure zone system, a critical part of their water recycling system. The legislation will help the district maintain a stable, secure water supply to strengthen the community's ability to attract business, sustain its economy, protect its environment, and deal with the community's needs.

I thank Mr. ISSA for his hard work on this legislation, and I urge my colleagues to join me in supporting H.R. 30.

Mr. Speaker, I reserve the balance of my time.

Mr. LAMBORN. Mr. Speaker, I yield myself such time as I may consume.

H.R. 30 recognizes the need to capture and treat waste runoff to meet growing water supply needs in arid Southern California. The water recycling project envisioned in this legislation will help drought-proof the region and reduce its dependence on imported water from the Colorado River.

I commend our colleague from California (Mr. ISSA) for his continued leadership and attention on developing new water supplies. I urge my colleagues to support this important legislation.

Mr. Speaker, I yield 3 minutes to the gentleman from California (Mr. ISSA).

Mr. ISSA. Mr. Speaker, this bill is not new. In fact, this is the second go-around for it, but that doesn't make it any easier. This bill, like many in the last Congress, died in the Senate.

That's going to be different this time thanks to Chairman RAHALL and Ranking Member YOUNG. They considered this, reviewed to see if there were any significant changes, and quickly reported it out of committee. I want to thank them for working on a bipartisan basis to do that early on.

This is important to the people of Southern California. As the gentlelady, who will speak, hopefully, next, will tell you, California has water. Unfortunately, we don't capture enough, and it isn't where we need it and when we need it.

H.R. 30 is designed to bring some of that availability by significantly increasing our use of recycled water, both helping maintain the aquifer and providing safe, clean water for a mul-

titude of uses for the people of Southern California. I urge the support of this bill, and I will not mention the other body again, except to say that I am looking forward to this early passage turning into an early signature by the President.

Mrs. NAPOLITANO. Mr. Speaker, I yield back the balance of my time.

Mr. LAMBORN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from California (Mrs. NAPOLITANO) that the House suspend the rules and pass the bill, H.R. 30.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

LOWER REPUBLICAN RIVER BASIN STUDY ACT

Mrs. NAPOLITANO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1025) to authorize the Secretary of the Interior to conduct a study to determine the feasibility of implementing a water supply and conservation project to improve water supply reliability, increase the capacity of water storage, and improve water management efficiency in the Republican River Basin between Harlan County Lake in Nebraska and Milford Lake in Kansas.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1025

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Lower Republican River Basin Study Act".

SEC. 2. REPUBLICAN RIVER BASIN FEASIBILITY STUDY.

(a) AUTHORIZATION OF STUDY.—Pursuant to reclamation laws, the Secretary of the Interior, acting through the Bureau of Reclamation and in consultation and cooperation with the States of Nebraska, Kansas, and Colorado, may conduct a study to—

(1) determine the feasibility of implementing a water supply and conservation project that will—

(A) improve water supply reliability in the Republican River Basin between Harlan County Lake in Nebraska and Milford Lake in Kansas, including areas in the counties of Harlan, Franklin, Webster, and Nuckolls in Nebraska and Jewel, Republic, Cloud, Washington, and Clay in Kansas (in this section referred to as the "Republican River Basin");

(B) increase the capacity of water storage through modifications of existing projects or through new projects that serve areas in the Republican River Basin; and

(C) improve water management efficiency in the Republican River Basin through conservation and other available means and, where appropriate, evaluate integrated water resource management and supply needs in the Republican River Basin; and

(2) consider appropriate cost-sharing options for implementation of the project.

(b) COST SHARING.—The Federal share of the cost of the study shall not exceed 50 percent of the total cost of the study, and shall be nonreimbursable.

(c) COOPERATIVE AGREEMENTS.—The Secretary shall undertake the study through cooperative agreements with the State of Kansas or Nebraska and other appropriate entities determined by the Secretary.

(d) COMPLETION AND REPORT.—

(1) IN GENERAL.—Except as provided in paragraph (2), not later than 3 years after the date of the enactment of this section the Secretary of the Interior shall complete the study and transmit to the Congress a report containing the results of the study.

(2) EXTENSION.—If the Secretary determines that the study cannot be completed within the 3-year period beginning on the date of the enactment of this Act, the Secretary—

(A) shall, at the time of that determination, report to the Congress on the status of the study, including an estimate of the date of completion; and

(B) complete the study and transmit to the Congress a report containing the results of the study by not later than that date.

(e) SUNSET OF AUTHORITY.—The authority of the Secretary to carry out any provisions of this Act shall terminate 10 years after the date of the enactment of this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from California (Mrs. NAPOLITANO) and the gentleman from Colorado (Mr. LAMBORN) each will control 20 minutes.

The Chair recognizes the gentlewoman from California.

GENERAL LEAVE

Mrs. NAPOLITANO. Mr. Speaker, I ask unanimous consent that all Members may have 5 days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

The purpose of H.R. 1025, as introduced by our colleague from Kansas (Mr. MORAN), is to authorize the Secretary of the Interior to conduct a feasibility study on the Republican River Basin between Harlan County Lake in Nebraska and Milford Lake in Kansas.

H.R. 1025 is a cooperative agreement between Nebraska, Kansas, Colorado, and the Federal Government that calls for a feasibility study of water resources of that river basin. The goal is to find new solutions to provide water reliability, increase the capacity of the current water storage, which is so important, and improve water management efficiency. This study is imperative to the responsible management of our water supplies.

I urge my colleagues to join me in supporting H.R. 1025.

Mr. Speaker, I reserve the balance of my time.

Mr. LAMBORN. Mr. Speaker, I yield myself such time as I may consume.

H.R. 1025, introduced by our colleagues JERRY MORAN and ADRIAN SMITH, implements the Republican River Compact Settlement as negotiated between the States of Colorado, Nebraska, and Kansas. This legislation serves as the first step to increase

water storage and water use efficiency to benefit those served by the waters of the Republican River.

I commend Mr. MORAN and Mr. SMITH for their leadership on this important matter. I urge my colleagues to support this legislation.

Mr. Speaker, I yield 3 minutes to the gentleman from Nebraska (Mr. SMITH).

Mr. SMITH of Nebraska. I thank the gentleman for yielding me time and bringing this bill forward today.

Mr. Speaker, H.R. 1025 would authorize one of the requirements of the Republican River Compact Settlement negotiated between the States of Nebraska, Kansas and Colorado and approved by the Supreme Court in 2003. It is not only necessary to ensure the States remain in compliance with this agreement, but to make certain the agriculture, industrial and domestic use of the water is carried out in the most efficient and effective manner possible.

The Lower Republican River Basin Study will examine how to better utilize opportunities to increase water storage in the river basin. I am hopeful the results of this study will lead to an increase in water availability while we continue to encourage more efficient water use.

As many of you know, especially those from the Midwest, the current water shortage has made this a very critical issue for my congressional district. So if we can, through this study, allocate more water, allocate water more effectively, it will help farmers, ranchers, municipalities both in Nebraska and Kansas in the long term.

I want to thank Mr. RAHALL, Mr. YOUNG, and the Natural Resources Committee staff for bringing forth this bill. I appreciate the cooperation on both sides of the aisle. I urge Members of Congress to approve this legislation.

Mr. MORAN of Kansas. Mr. Speaker, I rise in support of H.R. 1025, the Lower Republican River Basin Study Act. I would like to thank Chairman Rahall and the Resources Committee for helping to bring this legislation before the House today.

The timing of this legislation is significant, not only for farmers in Kansas who have dealt with successive years of drought and decreased water supplies, but because the respective states have already appropriated funds for the current fiscal year to conduct the feasibility study authorized by this legislation.

H.R. 1025 is a product of the Republican River Compact Settlement. That settlement resulted from litigation filed by the State of Kansas against the States of Nebraska and Colorado in 1998 because required amounts of water were not reaching Kansas under the Republican River Compact terms. In 2003, the Republican River Compact Settlement brought that litigation to an end.

The Settlement was signed not only by the party States, but also administration officials and was subsequently approved by the United States Supreme Court in 2003. As part of that Settlement, the Parties agreed to have the Secretary of the Interior conduct a study to determine the feasibility of implementing water supply and conservation projects in the Republican River Basin below Harlan Reservoir.

In accordance with the Settlement Agreement, H.R. 1025 provides that the cost of the study will be shared between the Federal Government and the States of Kansas and Nebraska.

As of today, the States have done their part under the settlement agreement. In fact, my home State of Kansas has already appropriated funds for the current fiscal year. I also understand that Mr. Smith's State of Nebraska has done the same.

Mr. Speaker, all that remains is for the Federal Government to meet its obligation under the settlement agreement. The feasibility study is desperately needed to increase water availability and encourage more efficient water use and delivery systems.

The Lower Republican Basin has a history of periodic droughts and water shortages. The upper third of the Kansas Bostwick Irrigation District, which lies above Lovewell Reservoir, received limited water allocations in 2003 and no water allocations in 2004 and 2005.

Producers in the lower two-thirds of the Kansas Bostwick Irrigation District have also experienced water shortages since 2003. Irrigators in this portion of the District have only received half of the base supply they were supposed to receive. The project facilities in the Lower Republican River Basin are over 50 years old. Changed hydrological conditions and aging facilities require better utilization of limited water supplies.

Mr. Speaker, the feasibility study authorized by H.R. 1025 is not only necessary to ensure the states remain in compliance with an interstate compact, but also to ensure the economic viability of the rural communities that rely on delivery of a consistent supply of water, and I urge Members to approve this legislation.

Mr. LAMBORN. Mr. Speaker, I yield back the balance of my time.

Mrs. NAPOLITANO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from California (Mrs. NAPOLITANO) that the House suspend the rules and pass the bill, H.R. 1025.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mrs. NAPOLITANO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

ALASKA WATER RESOURCES ACT OF 2007

Mrs. NAPOLITANO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1114) to require the Secretary of the Interior, acting through the Bureau of Reclamation and the United States Geological Survey, to conduct a study on groundwater resources in the State of Alaska, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1114

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
