

Mr. CARTER. I agree completely with what my friend Judge GOHMERT had to say. You have given a very good history of what has been the history of the Democrat Party when they were in the majority or where they were in control of the White House. They have a history of cutting and providing less than the necessary supplies for our military.

In fact, one of the great brags that Al Gore used to say is that he reduced the number of employees in the Federal Government by this huge amount. But if you looked at where they came from, they were United States soldiers. Members of the military made up the vast majority of the numbers of reducing the size of government that were taken credit for during the Clinton administration. They cut our Army down from multidivisions, down to where it is now.

But you know what? That is all water under the bridge. You had mentioned something that is very important to me: We took an oath.

We took an oath, and our colleague from Texas (Mr. NEUGEBAUER) got asked a question by one of his folks back home: Why do you feel so that you are doing the right thing by providing for these guys that are fighting over in Iraq?

He said, You know, it is easy to criticize. But when you become responsible, then you have really got to look at it. And he said, I am by my oath responsible to the American public to provide for the common defense.

It as a perfect answer. That is exactly what we all did, Republican and Democrat, is we took an oath to be responsible to the American people to provide protection for those people. And some of these are hard calls and hard votes. These are not for me. These are not for me nor for anyone in this room. But it is a hard vote for some. So it is just sad. And sometimes we have just got to remember why we are here.

I would like to mention one more thing because I know our time is getting late. But we talked about this \$392.5 billion tax increase that is coming down the road. Let me point out to folks that are paying gas prices. If you don't like \$3 a gallon gasoline, which, by the way, there was supposed to be an instant solution for that problem when the new majority came into power, but we haven't seen it. In fact, it has only been made worse, in my opinion.

But take that, and I looked at that long list of what it means to everybody's district for this tax increase, and everybody gets—at least \$2,000 it is going to cost the average family, At least \$2,000. So take that money that you are putting aside to pay for that gas and subtract \$2,000 a year from it. So the price of gas is going up. If nothing else, the price of gas is going up for the average American family by this tax increase, and it is something that will hurt our economy and turn us in the wrong direction.

I just wanted to mention that before we have to quit.

Mr. GOHMERT. And I appreciate the gentleman yielding back. It is a good note to finish on because people are paying too much for gasoline. And I go back to something I said in, January a few months ago, after the Democratic majority rammed another bill through that was going to cut the incentives for drilling, for refineries, some of the things that we have done in the last couple of years that we were here.

And I came to the well and I said then, and I will finish with this: If you are going to do things that make gasoline go up, at least have pride enough when the price goes up to come to the floor and say, "You bet you we are the Democratic majority, and we drove up the price of gas and we are proud of it."

SPECIAL ORDERS GRANTED
