

Mr. LOEBSACK. I thank the gentlewoman from New York for yielding, and I thank the gentleman from Florida for introducing this legislation.

I rise today to voice my strong support for the SBA's Veterans' Programs Act.

The SBA's Veterans' Business Outreach Initiative was established to facilitate business ownership among disabled veterans by providing one-stop assistance and counseling. Today's legislation will expand the success of this initiative.

As an exemplary public/private partnership, Veterans' Business Outreach Centers represent the comprehensive, cooperative and effective support that our Nation can and should provide our country's veterans.

This program provides greater opportunity to returning servicemembers and encourages economic development in communities across the country. Our troops fight for our country abroad, and we have a responsibility to provide for their future at home. Their sacrifice warrants our support. And they deserve every opportunity to succeed in business after their dedicated service to our country.

This bill provides veterans with the community and government support necessary to ensure their success, and I support its passage.

Mr. DAVID DAVIS of Tennessee. Mr. Speaker, I yield back the balance of my time.

Ms. VELÁZQUEZ. Mr. Speaker, veterans have not only been critical to the defense of our Nation, but with the increasing number of service men and women engaging in entrepreneurship, they have also been invaluable in helping our economy grow. These men and women have dedicated their lives to preserving our freedom. It is crucial that we show our appreciation for their service. The SBA Veterans' Programs Act of 2007 does just that.

I strongly urge my colleagues to vote for H.R. 2366, the SBA Veterans' Program Act of 2007. I urge its adoption.

Mr. WELLER of Illinois. Mr. Speaker, I rise in support of H.R. 2366, the SBA Veterans' Programs Act of 2007. This legislation will assist our soldiers when they return home with opportunities and information about starting a small business.

More than a million and a half (1,502,125) men and women have answered the call to serve their country since 2001. They interrupted their careers, put their families economic security at risk, and face big personal challenges upon returning home.

I recently visited Iraq and Afghanistan. That trip gave me an even greater appreciation for the significant sacrifices our soldiers must make and must cope with for the rest of their lives. If our soldiers faced mortal danger every day abroad, let us help them have economic security when they return home.

It isn't just the veteran who makes the sacrifice, their families do as well: their parents, their spouses, their children, girlfriends and boyfriends and siblings. They give up so much in defense of our country.

It is our job, as Members of Congress, to make sure that our Nation lives up to its com-

mitment to our veterans. It is a simple pact we have made with our troops—and one we are obligated to fulfill: after they have sacrificed to serve our country on the battlefield, we must do all we can to serve them here at home. The cost of any war must include caring for the warrior.

This legislation helps our veterans get started with business opportunities in their communities. It does so by providing grants, information services, and personal assistance to help veterans evaluate business opportunities; increasing the number of veteran business outreach centers around the country, and encouraging further assistance to women veterans.

Countless soldiers are returning from their tours of duty with new confidence and skills developed during their time in the military. This SBA program will help to ensure that those new abilities are put to good use when they return to civilian life.

This bill is the right thing to do for those who have given so much and it will directly impact Vermont and every State around the country. 97 percent of all Vermont firms are small businesses. My office has been involved in helping the Vermont Small Business Development Centers (SBDC) run business readiness classes for veterans. The Vermont SBDC is the primary small business assistance resource sought out by small business clients, lenders, government agencies and other economic development partners. The Vermont SBDC is the keystone in a statewide business assistance infrastructure tying together all appropriate resources and serving as a "one-stop" gateway and clearing house to serve small businesses' needs. Drawing on collaborative relationships among service providers, Vermont SBDC leverages economic development resources of all kinds for advancement of small businesses, growing the local economy.

Roughly 6 percent of deployed soldiers have small businesses depending on them. Veterans face a number of unique challenges, from increasing lengths and number of deployments overseas, to translating their military experience into business ventures. Yet, there is a lack of substantive programs to help these businesses survive through deployment, and to assist veterans returning home. This program is designed to meet current, real-time needs of people on active duty in business who now need to leave for protracted periods, or for those who have just come back and really "need" to do something new with their lives.

I urge all of my colleagues to support H.R. 2366.

Ms. BORDALLO. Mr. Speaker, I rise today in support of H.R. 2366, the Small Business Administration Veterans' Programs Act of 2007. I commend my colleague from Florida (Mr. BUCHANAN) for introducing this legislation.

This bill would authorize the Small Business Administration (SBA) to award grants to Small Business Development Centers (SBDCs) for the establishment of programs that would improve outreach to veterans and veterans service organizations. Specifically, this bill would authorize SBDCs to use such grant funds to create a marketing campaign to promote awareness of the services made available to veterans through that SBDC, and to target the campaign toward veterans, disabled veterans, military units, federal agencies, and veterans service organizations. The bill would also au-

thorize SBDCs to utilize grant funds to develop and expand technology-assisted counseling and distance learning services designed to help veterans and members of the United States Armed Forces overcome barriers to entrepreneurship. This bill would further authorize SBDCs to facilitate and increase coordination among organizations that assist veterans, including through the integration of service providers and offerings into a one-stop point of contact for veterans who are entrepreneurs or small business owners.

This bill would further require that Veterans Business Outreach Centers (VBOCs) participate in the U.S. Department of Labor Technical Assistance Program (TAP). The Technical Assistance Program is offered in 173 locations throughout the United States and 53 locations internationally. H.R. 2366 would authorize VBOCs to provide grants to eligible entities located in TAP locations to make presentations on the opportunities available from the SBA for recently separated veterans. According to this bill such presentations must include, at a minimum, the entrepreneurial and business training resources available from the SBA. This bill would increase the number of authorized VBOCs by two in each of fiscal years 2008 and 2009.

Additionally, H.R. 2366 would direct the SBA to establish a Women Veterans Business Training Resource Program. This program would compile information on resources available to women veterans for business training, including resources for vocational and technical education, the development of general business skills, and business assistance programs. H.R. 2366 would direct that the SBA disseminate such information through VBOCs and women business centers.

Support for this legislation will help Congress fulfill its commitment to ensuring that our veterans and servicemembers receive the support they need upon separation from service. I support this legislation on behalf of all veterans and servicemembers, in particular those veterans and servicemembers from Guam. I urge my colleagues to support H.R. 2366.

Ms. VELÁZQUEZ. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CARDOZA). The question is on the motion offered by the gentlewoman from New York (Ms. VELÁZQUEZ) that the House suspend the rules and pass the bill, H.R. 2366.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

EXPANDING AND IMPROVING ASSISTANCE PROVIDED BY SMALL BUSINESS DEVELOPMENT CENTERS

Ms. VELÁZQUEZ. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2284) to amend the Small Business Act to expand and improve the assistance provided by Small Business Development Centers to Indian tribe members, Alaska Natives, and Native Hawaiians.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2284

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress finds the following:

(1) The rate for American Indians and Alaskan Natives living below 50 percent the poverty level is 11.2 percent, nearly double the rate of the general population.

(2) The unemployment rate for American Indians and Alaskan Natives 16 years and over is 13.6 percent, nearly double the rate of the general population.

(3) Indian tribe members and Alaska Natives own more than 201,000 businesses and generate more than \$26,000,000,000 in revenues. The construction industry accounted for 16 percent of these businesses and 22.5 percent of their total receipts. The next largest was the service industry (13.2 percent and 3.4 percent, respectively). The third largest was the health care and social assistance industry (12.1 percent and 4.6 percent, respectively).

(4) The Small Business Development Center program is cost effective. Clients receiving long-term counseling under the program in 2005 generated additional tax revenues of \$248,000,000, nearly 2.8 times the cost of the program to the Federal Government.

(5) Using the existing infrastructure of the Small Business Development Center program, small businesses owned by Indian tribe members, Alaska Natives, and Native Hawaiians receiving services under the program will have a higher survival rate than the average small business not receiving such services.

(6) Business counseling and technical assistance is critical on Indian lands where similar services are scarce and expensive.

(7) Increased assistance through counseling under the Small Business Development Center program has been shown to reduce the default rate associated with lending programs of the Small Business Administration.

(b) **PURPOSES.**—The purposes of this Act are as follows:

(1) To stimulate economies on Indian lands.

(2) To foster economic development on Indian lands.

(3) To assist in the creation of new small businesses owned by Indian tribe members, Alaska Natives, and Native Hawaiians and expand existing ones.

(4) To provide management, technical, and research assistance to small businesses owned by Indian tribe members, Alaska Natives, and Native Hawaiians.

(5) To seek the advice of local Tribal Councils on where small business development assistance is most needed.

(6) To ensure that Indian tribe members, Alaska Natives, and Native Hawaiians have full access to existing business counseling and technical assistance available through the Small Business Development Center program.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from New York (Ms. VELÁZQUEZ) and the gentleman from Tennessee (Mr. DAVID DAVIS) each will control 20 minutes.

The Chair recognizes the gentlewoman from New York.

GENERAL LEAVE

Ms. VELÁZQUEZ. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York?

There was no objection.

Ms. VELÁZQUEZ. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, small businesses are responsible for creating three out of every four new jobs and account for almost half of all sales in this country. There is no question the impact they have on economic growth and the development and revitalization of countless neighbors.

Currently, the Native American population is one of the most impoverished. Their unemployment rate is nearly double that of the general population, with almost half of all residents living on a reservation unemployed.

Providing opportunities for business growth within the Native American sector will create jobs, generate revenue and ultimately benefit local economies across the country. The Native American Small Business Development Act of 2007, introduced by Representative UDALL, works to increase prospects for Native Americans through small business ownership.

While many in the Native American population are struggling, there is strong interest to engage in entrepreneurship. For these communities to have a growing small business sector, resources must be available locally and be culturally sensitive.

This legislation has enjoyed bipartisan support in the past and has passed the House in previous Congresses. It is designed to provide culturally tailored assistance for entrepreneurial development in some of the most disadvantaged areas of this country.

□ 1845

Not only will this bill help combat poverty and unemployment, but it will bring new services and opportunities to Native American communities. It is my hope that in the 110th Congress, H.R. 2284 can finally become law and expand the right to business ownership. I urge support of this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. DAVID DAVIS of Tennessee. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise in support of the request to suspend the rules and pass H.R. 2284, a bill to provide additional Small Business Development Center resources focused on Native Americans, Alaskan Natives and Native Hawaiians. The bill, the product and dedicated effort of the author, Congressman TOM UDALL, former Small Business Committee member, was passed without objection by voice vote.

I would like to thank Chairwoman VELÁZQUEZ for working in a cooperative and bipartisan manner to bring this matter to the House floor.

Mr. Speaker, I reserve the balance of my time.

Ms. VELÁZQUEZ. Mr. Speaker, I yield such time as he may consume to the gentleman from New Mexico (Mr. UDALL), the sponsor of the legislation.

(Mr. UDALL of New Mexico asked and was given permission to revise and extend his remarks.)

Mr. UDALL of New Mexico. Mr. Speaker, before I begin, I would like to thank the gentlewoman from New York (Ms. VELÁZQUEZ) and the gentleman from Ohio (Mr. CHABOT) for their work and commitment to expanding small business opportunities. I am especially grateful for their efforts to bring this bill to the floor today. I would also like to thank all my colleagues who supported this bill by joining me as cosponsors.

This important legislation before us today, H.R. 2284, allows Small Business Development Centers to apply for an additional SBA grant to provide specified services assisting small business start-ups and expansions owned by Indian Tribal Members, Alaskan Natives or Native Hawaiians. My bill ensures those seeking to create, develop and expand small businesses have full access to the counseling and technical assistance available through SBDCs. The

tools offered by the SBDCs can assist these entrepreneurs with the information and opportunity to build sustainable businesses in their communities.

H.R. 2284 also ensures participation of governing bodies of Indian tribes, Alaskan Native entities and Native Hawaiian organizations by requiring grant recipients to request their advice on how best to provide assistance. Our intent is to ensure that these business development tools are provided in a culturally sensitive way.

Small businesses create 75 percent of all new employment opportunities and make up 99 percent of all employers. They anchor our neighborhoods, provide jobs and contribute to the overall economic development of many communities. That is why it is so imperative that we take steps to help ensure that small business development reaches the places in this country where economic prosperity has yet to be fully realized.

I have the great honor of representing 14 Pueblos, the Jicarilla Apache Nation and a portion of the Navajo Nation. Many of these communities would greatly benefit by more economic development. It is clear we can do more to aid Native American entrepreneurs in my district and throughout the country. I hope to help rectify this situation with the passage of this legislation.

Mr. DAVID DAVIS of Tennessee. Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

Ms. VELÁZQUEZ. Mr. Speaker, in closing, with unemployment rampant on Native American reservations, legislation that not only fights poverty but fosters the development of job creation is critical. I strongly urge my colleagues to vote for H.R. 2284.

Ms. BORDALLO. Mr. Speaker, I rise today in support of H.R. 2284, a bill to amend the Small Business Act to expand and improve the assistance provided by Small Business Development Centers to Indian tribe members, Alaska Natives, and Native Hawaiians. I commend the gentleman from New Mexico (Mr. UDALL) for introducing this important legislation to address poverty and unemployment amongst these disadvantaged and underserved communities. I also thank my colleague from New York (Ms. VELÁZQUEZ), Chairwoman of the Committee on Small Business, and the members of the Committee on Small Business for their continued leadership toward helping strengthen our country's small businesses and in addressing the socio-economic challenges faced by our indigenous communities.

H.R. 2284 will enable small business development centers to assist Native American communities in the areas of job creation and economic growth. This bill helps individuals to utilize their own valuable business skills so that their small businesses, and in turn their community, may prosper.

This is a strong bill. But I believe that it can be strengthened by expanding the eligible grant recipients to include small business development centers that work with the indigenous populations of the territories, particularly in

Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa. Pacific Islanders from the territories endure economic adversity similar to that experienced by Native Americans, Alaska Natives, and Native Hawaiians. I look forward to working with my colleagues to ensure that either in conference on this legislation, or on a similar proposal, that we take action to address the small business development needs of the indigenous peoples of the U.S. territories.

This bill, if enacted, would provide for valuable federal assistance for Native Americans, and I urge my colleagues to support its passage and to support economic development for all indigenous communities throughout the United States.

Ms. HIRONO. Mr. Speaker, I rise in support of H.R. 2284, which will amend the Small Business Act to improve the assistance provided by Small Business Development Centers to Indian tribe members, Alaska Natives and Native Hawaiians.

This bill will provide management, technical and research assistance to small businesses owned by Indian tribe members, Alaska Natives and Native Hawaiians and ensure them full access to existing business counseling and technical assistance available through the Small Business Development Center program.

Mr. Speaker, in a recent report by the distinguished Visiting Senior Fellow at the East-West Center and Emeritus Professor at the University Hawaii, Dr. Seiji Naya, the poverty rate for Native Hawaiians was 15 percent in 2005 while the state average was 9.8 percent. Native Hawaiians accounted for 27 percent of the total State population in poverty. The per capita income for Native Hawaiians was only 67 percent of the state average. In terms of per capita income, 32 percent of Native Hawaiians earned less than \$10,000 in 2005 compared to only 18 percent for Non-Native Hawaiians.

Native Hawaiians are committed to changing these statistics through innovative educational and entrepreneurial programs. One of the most promising government programs that will enable them to do this is the Small Business Act, particularly Section 8(a) which has given Native Americans an opportunity to participate in the economy of this country by providing a fair chance to obtain federal contracts. As a result, hundreds of Native American, Alaska Native and Native Hawaiian entrepreneurs have been given the opportunity to demonstrate their business capabilities, while providing valuable services and products to the government and the private sector.

The Native Hawaiian organizations that have taken advantage of the 8(a) program have provided hundreds of new well-paying jobs for Native Hawaiians and Non-Native Hawaiians alike. Many Native Hawaiians have received training in new marketable skills. The profits from these enterprises have been plowed back into the Native Hawaiian communities to provide essential social, health and cultural benefits traditionally funded by government or not at all.

H.R. 2284 will provide the necessary assistance to help make sure that these worthy programs continue to grow and expand as much as possible by providing needed assistance and business expertise. I urge unanimous approval of this measure.

Ms. VELÁZQUEZ. Mr. Speaker, I yield back the balance of my time, and encourage adoption of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from New York (Ms. VELÁZQUEZ) that the House suspend the rules and pass the bill, H.R. 2284.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. GOHMERT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this question will be postponed.

SBA WOMEN'S BUSINESS PROGRAMS ACT OF 2007

Ms. VELÁZQUEZ. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2397) to reauthorize the women's entrepreneurial development programs of the Small Business Administration, and for other purposes.

The Clerk read the title of the bill.

GENERAL LEAVE

Ms. VELÁZQUEZ. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from New York?

There was no objection.

Ms. VELÁZQUEZ. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, there is no question that the face of small business is changing in this country. Women entrepreneurs now account for 50 percent of all small business owners and are growing at a phenomenal rate. The SBA Women's Program Act of 2007, sponsored by Congresswoman FALLIN, works to enhance opportunities for women by increasing access to in-depth outcome-oriented counseling and training. It strengthens SBA's Women's Business Centers to ensure that they continue to serve the important role of assisting small business owners.

While many have taken advantage of the services Women's Business Centers offer, not all budding entrepreneurs are getting the resources they need to successfully start and own a business. A significant gap exists between the
