

status quo on our health care system. I think it's about right, I think we got it right.

Also, I think I also want to be against affordable college. I think I also want to fight against increases in Pell Grants and Stafford loans and all the rest. If I was that political consultant I might sort of look at my watch, look at my date book, and, you know, take a pass on that one.

You know why? It's not about Republicans or Democrats. It's what the American people are asking for; it's what the American people have been crying for. They want a new direction in Iraq. They want help with the cost of getting by every day, which certainly includes the cost of health care and college affordability. They want a place that is listening to them again instead of listening to the White House and the banks and everyone else that has had the run of this place for a while.

It will be another good week here, and I hope sooner rather than later some of our friends across the aisle join us in standing up for what the American people have been crying for for a real long time.

Mr. RYAN of Ohio. I think that is such a poignant argument to make. Our friends on the other side are basically saying we are against the minimum wage, we are against increases in the Pell Grants, we are for higher interest rates for students to take out loans to go to school, we are against stem cell research. We are against research in alternative energy. They were for offering amendments to cut the budget for all the increases we were making, instead of giving the money to the oil companies to put in alternative energy. They were offering amendments to cut that.

When we offered earlier on to strip the oil companies of the \$14 billion in corporate welfare they were getting, our friends voted against it, the extremists in their party. So you are exactly right. What are you for? What are you for?

I think we are quite clear as to what we are for on this side: lower student interest rates, more money for grants to go to college, higher minimum wage, focus on alternative energy, secure the country, 3,000 more Border Patrol agents in this country, technology to monitor biological chemical weapons on our ports, more funds for police and fire interoperability through the walkie-talkies, and able to talk and communicate with each other.

I mean, we have got a real agenda here.

Mr. MEEK of Florida. I am done. I just want to thank you and Mr. MURPHY for coming down tonight. I look forward to the next 48 hours, what kind of leadership will be shown on the minority side of the ball. We need them to be a part of this change in the new direction that we are moving in. But as the Democrats, with the slim majority that we do have, we are going to give

the American people what they want, and that is leadership.

Mr. RYAN of Ohio. I appreciate it, Mr. MURPHY, Mr. MEEK, Mr. PALLONE who was here earlier, any emails from our colleagues who may be up right now, at www.30somethingdems@mail.house.gov or www.speaker.gov/30something.
