

and quality so you as a consumer can make a decision. I am for that. We need true insurance market reform so that instead of big health insurance companies taking 40 percent of the premium dollars you pay and keeping it through administration of profits, we actually put it into health care.

We need a change in the insurance industry, where a bureaucrat sitting at a computer, either at Medicaid, Medicare or an insurance firm, isn't denying your care because they have never put their hands on you to say you need this or not.

What we are talking about is giving individuals the freedom to handle their own health care, the freedom to choose, the security to know that through this tax credit, everyone will have access in this country, no matter who you are, no matter what you make. You are equal footing with everybody else.

When the majority whip comes out and says that is what he wants, my challenge to him is, sign on to the Burr-Corker bill. That is exactly what it does. It gives equal access to everyone. Instead of an additional 130,000 kids in Illinois, he will have all the kids covered. Instead of the adults who are not covered in Illinois, he will have them all covered. He would not raise taxes on a soul. Will it shift some? Sure.

The question is, are our kids worth it? That is the question that has been raised by the Finance Committee and Senator DURBIN and those who have spoken. I say they are. But if you go back to the numbers, which is \$3,950, and you apply that and you take the 4.2 million children, we could cover all of the uninsured children if we did it at the cost of the private sector right now. If we said we will take the same amount of money we are going to spend under the SCHIP program and we will buy them all a private policy, we can cover every kid who is not covered today because we spend 2.5 times more doing a government program than the same thing you can do on your own in the private sector. Why wouldn't we do that?

We wouldn't do that because this is the first step in moving toward universal, government-run, bureaucratic-controlled health care.

One other point I wish to make. We have a Medicaid program today. We have a SCHIP program today. There are 680,000 kids right now who are not covered who are eligible for those programs. Tell me how effective we are at covering those 680,000 kids. They are eligible, but we don't have them? That is because of the failure of the Government bureaucracy to fully get a benefit out to those who are deserving of the benefit. So what do we do? We are going to go in the opposite direction.

The other important point is, what SCHIP does is separate you from your family. If you make \$60,900 in this country—that is higher than the average family income in 21 of our States—

your child is going to be eligible for SCHIP. So your child is going to go on SCHIP. They will have a different insurance plan than you. They will have different doctors. There is not going to be a family doctor who cares for the whole family. The child will have one, and the parents will have a different one. We will separate them and divide them. We are going to totally separate them. Then guess what is going to happen. Parents are saying: I could put my kid on SCHIP, and I will get a decline in my premium. But it would not decline because we would not have done any insurance market reform. We will not have created a competitive market where they have to bid for your care. We will not have done what we need to do to fix health care.

So I welcome this debate. This is a debate we ought to have in this country. Health care is important, and it is one of the things that is limiting our competition. But the reason it is limiting competition is because we aren't investing in prevention and nearly \$1 out of every \$3 spent in health care does not go toward helping anybody get well. The reason it is that way is because we have the Government in the middle of the market. We are about to make that worse.

What we do know in this country is markets work. Individuals in this country figure out how to buy a car that is good for them. They figure out how to buy auto insurance. They figure out how to buy homeowners insurance. But we assume if we give everybody a level playing field, they are not capable. How arrogant of us. Markets work.

What we will see is this \$250 billion—this quarter of a trillion dollars in transfer payments, cost shifting—go completely out. The \$250 billion will drop everybody's insurance cost in this country by \$1,000 per person. So not only will we insure everybody who is not insured, we will lower their cost of insurance by \$1,000, by eliminating the cost shifting, and we are paying for that already. So we will have great benefits if, in fact, we move to a true competitive market.

The last thing I will say is, if we do a tax credit—a flat tax credit, a refundable tax credit—it keeps families together. It keeps mama and papa and brothers and sisters going to the same clinic, with the same doctors, with constancy of care, knowledge of their history, knowledge that is important in terms of giving great care.

I look forward to this debate. I plan on being on the floor. I plan on asking questions. The fact is, this is the issue this country is dealing with both in terms of how hard it is to get health care in this country and how expensive it is. There are two ways of solving it. One says the Government is going to run it and the bureaucrats are going to control it and we are going to control the costs by rationing the care. The other way says we are going to let vibrant markets create transparent information and competition that lowers

the cost and increases the quality for everybody. On the way, we are not going to be inefficient in the way we spend money, spending \$3,950 for \$1,500 worth of product. That is what we typically do up here. There is no reason we should do that again.

AMENDMENT NO. 2590 TO AMENDMENT NO. 2589

Mr. REID. Mr. President, I send a second-degree amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Nevada [Mr. REID] proposes an amendment numbered 2590 to amendment No. 2589.

The amendment is as follows:

In the amendment strike 3 and insert 1.

Mr. REID. Mr. President, I ask unanimous consent that the Senate continue consideration of H.R. 976.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COBURN. Mr. President, the majority leader asked unanimous consent to bring the ethics bill to the floor. He filled the tree, limiting amendments. I wish to spend a minute talking about that.

I honestly believe we are never going to have the problems fixed in Washington until we have absolute and complete transparency on earmarks. Senator DEMINT and I have both, numerous times, asked for unanimous consent that what we voted on 96 to 0 in the Senate be the order of the day when it comes to transparency on earmarks. That was rejected. We had a Democratic conference, and what we actually did—and I am not saying this partisanship at all; this is not a partisan issue—but what we did is gutted the transparency portion of the earmark reform. If you think the problems are going to stop with the ethics bill that is going to be coming up, we have another thought coming.

What the leadership has done, the majority leader along with those in the other body, they have cleaned the outside of the cup to what looks like is a good deal for the American public, but when you look over the edge of the cup, what you see is filth, what you see is a lack of integrity, what you see is a planned method to skirt transparency. The only thing Americans should believe is the only way they are going to know everything is on the up and up in this body is with 100 percent transparency. Anything less than that will not get you the accountability, will not solve the ethical problems that are out there. We need to be about that.

I am going to work hard to talk about that more. I think it is unpromising what we are seeing done at this time to pull the wool over the eyes of the American people when it comes to earmarks. That is not a partisan issue. I am against earmarks, especially if they are not 100 percent transparent. But if you look at every ethical lapse that has happened in this body, it always goes back to earmarks. When they are transparent, and fully transparent to where the American people can see it, you are going to start getting good Government again. Until then, you are not.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota is recognized.

Ms. KLOBUCHAR. Thank you, Mr. President.

I am here today to talk about the State Children's Health Insurance Program. I, first, do wish to say I am very pleased we are advancing an ethics bill in the Senate. I am very pleased with the work the majority leader has done on this bill. As a freshman class, we came in with some energy, and we came in with a commitment that we cannot do business as usual in Washington.

This ethics bill, as many outside groups have stated, is the most sweeping ethics reform we have seen since Watergate. It is about banning gifts and free meals. It is about not allowing people to take advantage of corporate jets. It is about bringing transparency to the earmark process.

I am very glad this advanced. I did not agree with a few of our Members who tried to block this from going to conference committee. I am glad we found a way procedurally to bring this legislation to the Senate. I am very hopeful it will pass the Senate, as it passed the House today.

SMALL BUSINESS TAX RELIEF ACT OF 2007—Continued

Ms. KLOBUCHAR. Mr. President, I am here today to talk about health care. Today, 45 million Americans are living without access to affordable health care. In a nation of such tremendous wealth and opportunity, with such a strong belief in science and research and medical advancement—we certainly have that in our State, the State of Minnesota—one wonders how so many of our fellow citizens can be burdened with the daily worry of what to do should a health disaster strike themselves or a loved one.

Health insurance premiums have skyrocketed into orbits unreachable by an increasing number of middle-class families. We have seen this in our State, where we actually have a fairly high level of people covered. But health care premiums for the middle class are so many times out of reach. We have seen nearly a 100-percent increase in the last few years in our State.

The foundations of employer-based health insurance are buckling under enormous cost pressures. The result is that ever more Americans are squeezed by health care costs and face awful decisions about delaying or forgoing needed medical treatment and care.

I, in fact, woke up this morning trying to decide when my daughter would get her braces because of the health insurance policy we got that makes you wait 2 years to get that kind of care. Well, we are lucky to be able to even have that insurance because so many kids in this country do not have it.

In fact, nearly 9 million of the uninsured in America are children. Kids without access to health care are at an

enormous disadvantage as they grow up and start to make their life in this world. Children without health coverage are less likely to get basic preventive care, less likely to see a doctor regularly, and less likely to perform well in school. Children without health coverage are also more likely to show up at the hospital sicker and more likely to develop costly chronic diseases.

Currently covering 6 million children, the Children's Health Insurance Program succeeded in improving their lives by giving them access to the health care services they need. It is a successful program that deserves to reach even more children. This is important because, first of all, it is the decent thing to do for America's children who, through no fault of their own, are growing up in families that cannot otherwise get affordable health insurance. But this is also important because it is something that is good for all of us.

That is because insuring our children is a smart investment. It is a smart investment to make sure America's children get preventive medical care. It is a smart investment to help America's children grow up as healthy as they can be. It is a smart investment to have America's children in school focused on learning rather than distracted by a sickness or an injury that has gone untreated. It is a smart investment to have America's children get medical care through a sensible system of health insurance rather than having them end up in a hospital emergency room as their health care provider of last resort, increasing the bill for the rest of us.

I have seen the direct impact at the local level. For 8 years, I was the county attorney. As county attorney, my office represented the largest safety net hospital in Minnesota. That is the Hennepin County Medical Center in Minneapolis. It is one of the Nation's premier public teaching and research hospitals. It has a nationally recognized level 1 trauma center with the largest emergency room in our State.

The hospital serves patients regardless of their ability to pay. As a result, in 2006, the Hennepin County Medical Center's level of uncompensated care added up to \$38 million—almost double what it was in the year 2000. That is because the emergency room was these people's doctor. People say: Well, they do not have insurance. They cannot get a doctor. Well, they have a doctor. It is the emergency room. The taxpayers are paying for it, and it is the most expensive place to get health care. It is the clinic of last resort for the uninsured, whether it is for minor illnesses or for more serious conditions that went untreated or could have been prevented.

Both in the short run and over the long term, expanding health insurance coverage offers a better deal for our Nation's health and for our continued prosperity. The people of my State
