STATEMENTS ON INTRODUCED  
BILLS AND JOINT RESOLUTIONS

## By Mr. HATCH:

S. 2072. A bill to authorize Western States to make selections of public land within their borders in lieu of receiving 5 percent of the proceeds of the sale of public land lying within said States as provided by their respective enabling Acts; to the Committee on Energy and Natural Resources.

Mr. HATCH. Mr. President, I rise today to introduce The Action Plan for Public Land and Education Act of 2007. This bill would restore some balance to the way education is funded in many of the western States, where a large pro-

portion of public land is owned by the Government. This bill would authorize the Secretary of the Interior and the Secretary of Agriculture to grant a small portion of these Federal lands to the states so they can generate the much needed education revenue.

I wonder how many of my colleagues know that 10 of the 12 States with the largest pupil-per-teacher ratios are in the West? These 10 western States also have the lowest growth in per-pupil expenditures. And these ratios will only grow worse as growth in the West continues to out-pace the rest of the country. In fact, three of the fastest growing counties are in Utah.

I would like to take a moment to discuss how the west has gotten into this situation. Let us take a look at Utah's history, which began when in July of 1894, the State Enabling Act was approved. This act allowed "the People of Utah to form a Constitution and State Government, and to be admitted into the Union."

However, Section 9 of the enabling act sets forth that "five percent of the proceeds of the sales of public lands lying within said State, which shall be sold by the United States subsequent to the admission of said State into the Union . . . shall be paid to the said State, to be used as a permanent fund, the interest of which only shall be expended for the support of the common schools within said State."

The Federal Government never followed through on its promise. Our bill, the APPLE Act, S. 2072, would direct the Government to deliver on that promise.

The Government's lack of follow-through on its promise is only exacerbated by the lack of a sales tax base in the west. Sales tax revenue, as we all know is generated on private lands. On average, the Federal Government owns 52 percent of the land located in the 13 western States, while the remaining States average just 4 percent Federal land ownership. Federal ownership in Utah is about 65 percent, second only to Nevada.

The problem is that sales tax is not being collected on these Federal lands, and public education is funded largely through sales tax revenues.

Some may say that the west's education funding deficit is due to a lack of commitment or effort by the States. This is not true.

The fact is that allocations to public education, by percentage, in the West matches or exceeds the rest of the Nation. In fact, western States pay on average 11.1 percent of their personal income to State and local taxes, whereas residents of the remaining States pay 10.9 percent.

I urge my colleagues to lend their support to addressing the west's education funding shortfall by helping me to pass the Action Plan for Public Land and Education Act of 2007.
