STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. HARKIN:

S. 2173. A bill to amend the Elementary and Secondary Education Act of 1965 to improve standards for physical education; to the Committee on Health, Education, Labor, and Pensions.

Mr. HARKIN. Mr. President, today I am introducing the FIT Kids Act. That first word, FIT, is an acronym for "Fitness Integrated with Teaching". The FIT Kids Act encourages schools to provide children with quality physical education that can help them lead healthier lives.

Since the 1970s, the incidence of obesity has more than doubled for preschool children aged 2-5 years and for young people aged 12-19 years, and has more than tripled for children aged 6-11 years. There are many reasons of this public health crisis, and addressing this crisis will require multiple solutions as well. One critical place to start is in our schools. The Centers for Disease Control and Prevention has found that fewer than 10 percent of our public schools at all levels offer daily physical education or its equivalent for the entire school year for all students.

The FIT Kids Act would amend the No Child Left Behind Act to support quality physical education for all public school children through grade 12, and ensure they receive important health and nutritional information. As a senior member of the Senate Health, Education, Labor and Pensions Committee, I have been working with Chairman KENNEDY and my other colleagues to reauthorize the No Child Left Behind Act in a way that improves on existing law, and gives schools and educators the resources they need to succeed.

It is truly alarming to see the discrepancies in achievement between children in the United States and children abroad. Here in the U.S., we have a wide and persistent achievement gap that is leaving behind children of color, young people from disadvantaged backgrounds, and children with disabilities. I believe that the No Child Left Behind Act gives us a framework to reduce, and hopefully close, this achievement gap to ensure that children from all walks of life are achieving at high levels. I believe that we can and will reauthorize the No Child Left Behind Act in a way that preserves its essential reforms and continues the progress we have made over the nearly 6 years since the act became law.

Unfortunately, despite the law's lofty goals, many educators have come to see it as a burden and a hindrance to effective classroom practices. I admit I share many of their concerns. I am particularly concerned about reports of imbalances and distortions that have come about as various States and the Federal Government have pushed for higher standards and greater accountability. Earlier this year, the Center on Education Policy, here in Washington,
