#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. AKAKA:

S. 1315. A bill to amend title 38, United States Code, to enhance life insurance benefits for disabled veterans, and for other purposes; to the Committee on Veterans' Affairs.

Mr. AKAKA. Mr. President, today I introduce the Disabled Veterans Insurance Improvement Act of 2007.

The purpose of this legislation is to make certain improvements in the insurance programs available to service-connected disabled veterans. It has two main components.

First, this legislation would increase the maximum amount of Veterans Mortgage Life Insurance, VMLI, that a service-connected disabled veteran may purchase from the current maximum of \$90,000 to \$200,000. The VMLI program was established in 1971 and is available to those service-connected disabled veterans who have received specially adapted housing grants from VA. In the event of the veteran's death, the veteran's family is protected because the Department of Veterans Affairs will pay the balance of the mortgage owed up to the maximum amount of insurance purchased.

The need for this increase is obvious in today's housing market where, during February, the median sale price of

a home in the United States was estimated by the Bureau of Census to be \$250,000. My legislation would ensure that this important benefit, which helps secure the financial future of many veterans and their families, keeps pace with changes in the economy.

My bill would also establish a new program of insurance for service-connected disabled veterans that would provide up to a maximum of \$50,000 in level premium term life insurance coverage. This new program would be available to service-connected disabled veterans who are less than 65 years of age at the time of application.

Under the new program, eligible service-connected veterans would be able to purchase, in increments of \$10,000, up to a maximum amount of \$50,000 in insurance. Importantly, unlike existing life insurance programs, the premium rates for this program would be based on the 2001 Commissioners Standard Ordinary Basic Table of Mortality rather than the 1941 mortality table that the Service-Disabled Veterans Insurance, S-DVI, program is based upon.

When an insured veteran reaches age 70, two things would occur under this new program of insurance. First, the amount of insurance would be reduced to 20 percent of the amount of insurance in force prior to the veteran's 70th birthday. Second, the veteran would cease making premium payments. This means that during those years where the family's financial obligations would be commensurately higher because of children, mortgages, and the potential impact of any loss of income, the veteran's family would be able to purchase the maximum amount of term life insurance. At age 70, when resources are likely to be most restricted and the need for substantial insurance to take care of a family's needs after the veteran's death have lessened, the veteran would no longer have an obligation to continue to pay any insurance premiums.

My proposal provides that application for this insurance would need to be submitted by an eligible veteran within 2 years from the date on which VA establishes a service-connected disability to exist but not later than 10 years after a veteran's release from active duty. It would further provide that during the first year of the program, any eligible veteran who is presently insured under the S-DVI program could convert that insurance to a policy under this new program.

Both of the proposals contained in the legislation I am introducing today are compatible with the provisions of S. 643, the proposed Disabled Veterans Insurance Act of 2007, which I introduced on February 15 of this year.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:
