SEC. 314. REPORT ON CONTROL OF THE BROWN TREE SNAKE.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The brown tree snake (*Boiga irregularis*), an invasive species, is found in significant numbers on military installations and in other areas on Guam, and constitutes a serious threat to the ecology of Guam.

(2) If introduced into Hawaii, the Commonwealth of the Northern Mariana Islands, or the continental United States, the brown tree snake would pose an immediate and serious economic and ecological threat.

(3) The most probable vector for the introduction of the brown tree snake into Hawaii, the Commonwealth of the Northern Mariana Islands, or the continental United States is the movement from Guam of military aircraft, personnel, and cargo, including the household goods of military personnel.

(4) It is probable that the movement of military aircraft, personnel, and cargo, including the household goods of military personnel, from Guam to Hawaii, the Commonwealth of the Northern Mariana Islands, or the continental United States will increase significantly coincident with the increase in the number of military units and personnel stationed on Guam.

(5) Current policies, programs, procedures, and dedicated resources of the Department of Defense and of other departments and agencies of the United States may not be sufficient to adequately address the increasing threat of the introduction of the brown tree snake from Guam into Hawaii, the Commonwealth of the Northern Mariana Islands, or the continental United States.

(b) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a report on the following:

(1) The actions currently being taken (including the resources being made available) by the Department of Defense to control, and to develop new or existing techniques to control, the brown tree snake on Guam and to ensure that the brown tree snake is not introduced into Hawaii, the Commonwealth of the Northern Mariana Island, or the continental United States as a result of the movement from Guam of military aircraft, personnel, and cargo, including the household goods of military personnel.

(2) Current plans for enhanced future actions, policies, and procedures and increased levels of resources in order to ensure that the projected increase of military personnel stationed on Guam does not increase the threat of introduction of the brown tree snake from Guam into Hawaii, the Commonwealth of the Northern Mariana Islands, or the continental United States.

SA 2212. Mr. LEVIN (for himself and Mr. MCCAIN) submitted an amendment intended to be proposed by him to the bill H.R. 1585, to authorize appropriations for fiscal year 2008 for military

Subtitle D—Nuclear Terrorism Prevention
SEC. 3131. DEFINITIONS.

In this subtitle:

(1) The term “Convention on the Physical Protection of Nuclear Material” means the Convention on the Physical Protection of Nuclear Material, signed at New York and Vienna March 3, 1980.

(2) The term “formula quantities of strategic special nuclear material” means uranium-235 (contained in uranium enriched to 20 percent or more in the U-235 isotope), uranium-233, or plutonium in any combination in a total quantity of 5,000 grams or more computed by the formula, grams = (grams contained U-235) + 2.5 (grams U-233 + grams plutonium), as set forth in the definitions of

“formula quantity” and “strategic special nuclear material” in section 73.2 of title 10, Code of Federal Regulations.

(3) The term “Nuclear Non-Proliferation Treaty” means the Treaty on the Non-Proliferation of Nuclear Weapons, done at Washington, London, and Moscow July 1, 1968, and entered into force March 5, 1970 (21 UST 483).

(4) The term “nuclear weapon” means any device utilizing atomic energy, exclusive of the means for transporting or propelling the device (where such means is a separable and divisible part of the device), the principal purpose of which is for use as, or for the development of, a weapon, a weapon prototype, or a weapon test device.

SEC. 3132. FINDINGS.

Congress makes the following findings:

(1) The possibility that terrorists may acquire and use a nuclear weapon against the United States is the most horrific threat that our Nation faces.

(2) The September 2006 “National Strategy for Combating Terrorism” issued by the White House states, “Weapons of mass destruction in the hands of terrorists is one of the gravest threats we face.”

(3) Former Senator and cofounder of the Nuclear Threat Initiative Sam Nunn has stated, “Stockpiles of loosely guarded nuclear weapons material are scattered around the world, offering inviting targets for theft or sale. We are working on this, but I believe that the threat is outrunning our response.”

(4) Existing programs intended to secure, monitor, and reduce nuclear stockpiles, redirect nuclear scientists, and interdict nuclear smuggling have made substantial progress, but additional efforts are needed to reduce the threat of nuclear terrorism as much as possible.

(5) Former United Nations Secretary-General Kofi Annan has said that a nuclear terrorist attack “would not only cause widespread death and destruction, but would stagger the world economy and thrust tens of millions of people into dire poverty”.

(6) United Nations Security Council Resolution 1540 (2004) reaffirms the need to combat by all means, in accordance with the Charter of the United Nations, threats to international peace and security caused by terrorist acts, and directs all countries, in accordance with their national procedures, to adopt and enforce effective laws that prohibit any non-state actor from manufacturing, acquiring, possessing, developing, transporting, transferring, or using nuclear, chemical, or biological weapons and their means of delivery, in particular for terrorist purposes, and to prohibit attempts to engage in any of the foregoing activities, participate in them as an accomplice, or assist or finance them.

(7) The Director General of the International Atomic Energy Agency, Dr. Mohammed ElBaradei, has said that it is a “race against time” to prevent a terrorist attack using a nuclear weapon.

(8) The International Atomic Energy Agency plays a vital role in coordinating efforts to protect nuclear materials and to combat nuclear smuggling.

(9) Legislation sponsored by Senator Richard Lugar, Senator Pete Domenici, and former Senator Sam Nunn has resulted in groundbreaking programs to secure nuclear weapons and materials and to help ensure that such weapons and materials do not fall into the hands of terrorists.

SEC. 3133. SENSE OF CONGRESS ON THE PREVENTION OF NUCLEAR TERRORISM.

It is the sense of Congress that—

(1) the President should make the prevention of a nuclear terrorist attack on the United States of the highest priority;

(2) the President should accelerate programs, requesting additional funding as ap-

propriate, to prevent nuclear terrorism, including combating nuclear smuggling, securing and accounting for nuclear weapons, and eliminating, removing, or securing and accounting for formula quantities of strategic special nuclear material wherever such quantities may be;

(3) the United States, together with the international community, should take a comprehensive approach to reducing the danger of nuclear terrorism, including by making additional efforts to identify and eliminate terrorist groups that aim to acquire nuclear weapons, to ensure that nuclear weapons worldwide are secure and accounted for and that formula quantities of strategic special nuclear material worldwide are eliminated, removed, or secure and accounted for to a degree sufficient to defeat the threat that terrorists and criminals have shown they can pose, and to increase the ability to find and stop terrorist efforts to manufacture nuclear explosives or to transport nuclear explosives and materials anywhere in the world;

(4) within such a comprehensive approach, a high priority must be placed on ensuring that all nuclear weapons worldwide are secure and accounted for and that all formula quantities of strategic special nuclear material worldwide are eliminated, removed, or secure and accounted for; and

(5) the International Atomic Energy Agency should be funded appropriately to fulfill its role in coordinating international efforts to protect nuclear material and to combat nuclear smuggling.

SEC. 3134. MINIMUM SECURITY STANDARD FOR NUCLEAR WEAPONS AND FORMULA QUANTITIES OF STRATEGIC SPECIAL NUCLEAR MATERIAL.

(a) **POLICY.**—It is the policy of the United States to work with the international community to take all possible steps to ensure that all nuclear weapons around the world are secure and accounted for and that all formula quantities of strategic special nuclear material are eliminated, removed, or secure and accounted for to a level sufficient to defeat the threats posed by terrorists and criminals.

(b) **INTERNATIONAL NUCLEAR SECURITY STANDARD.**—In furtherance of the policy described in subsection (a), and consistent with the requirement for “appropriate effective” physical protection contained in United Nations Security Council Resolution 1540 (2004), as well as the Nuclear Non-Proliferation Treaty and the Convention on the Physical Protection of Nuclear Material, the President, in consultation with relevant Federal departments and agencies, shall seek the broadest possible international agreement on a global standard for nuclear security that—

(1) ensures that nuclear weapons and formula quantities of strategic special nuclear material are secure and accounted for to a sufficient level to defeat the threats posed by terrorists and criminals;

(2) takes into account the limitations of equipment and human performance; and

(3) includes steps to provide confidence that the needed measures have in fact been implemented.

(c) **INTERNATIONAL EFFORTS.**—In furtherance of the policy described in subsection (a), the President, in consultation with relevant Federal departments and agencies, shall—

(1) work with other countries and the International Atomic Energy Agency to assist as appropriate, and if necessary, work to convince, the governments of any and all countries in possession of nuclear weapons or formula quantities of strategic special nuclear material to ensure that security is upgraded to meet the standard described in

subsection (b) as rapidly as possible and in a manner that—

(A) accounts for the nature of the terrorist and criminal threat in each such country; and

(B) ensures that any measures to which the United States and any such country agree are sustained after United States and other international assistance ends;

(2) ensure that United States financial and technical assistance is available as appropriate to countries for which the provision of such assistance would accelerate the implementation of, or improve the effectiveness of, such security upgrades; and

(3) work with the governments of other countries to ensure that effective nuclear security rules, accompanied by effective regulation and enforcement, are put in place to govern all nuclear weapons and formula quantities of strategic special nuclear material around the world.

SEC. 3135. ANNUAL REPORT.

(a) IN GENERAL.—Not later than September 1 of each year, the President, in consultation with relevant Federal departments and agencies, shall submit to Congress a report on the security of nuclear weapons, formula quantities of strategic special nuclear material, radiological materials, and related equipment worldwide.

(b) ELEMENTS.—The report required under subsection (a) shall include the following:

(1) A section on the programs for the security and accounting of nuclear weapons and the elimination, removal, and security and accounting of formula quantities of strategic special nuclear material and radiological materials, established under section 3132(b) of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (50 U.S.C. 2569(b)), which shall include the following:

(A) A survey of the facilities and sites worldwide that contain nuclear weapons or related equipment, formula quantities of strategic special nuclear material, or radiological materials.

(B) A list of such facilities and sites determined to be of the highest priority for security and accounting of nuclear weapons and related equipment, or the elimination, removal, or security and accounting of formula quantities of strategic special nuclear material and radiological materials, taking into account risk of theft from such facilities and sites, and organized by level of priority.

(C) A prioritized diplomatic and technical plan, including measurable milestones, metrics, estimated timetables, and estimated costs of implementation, on the following:

(i) The security and accounting of nuclear weapons and related equipment and the elimination, removal, or security and accounting of formula quantities of strategic special nuclear material and radiological materials at such facilities and sites worldwide.

(ii) Ensuring that security upgrades and accounting reforms implemented at such facilities and sites worldwide using the financial and technical assistance of the United States are effectively sustained after such assistance ends.

(iii) The role that international agencies and the international community have committed to play, together with a plan for securing contributions.

(D) An assessment of the progress made in implementing the plan described in subparagraph (C), including a description of the efforts of foreign governments to secure and account for nuclear weapons and related equipment and to eliminate, remove, or secure and account for formula quantities of strategic special nuclear material and radiological materials.

(2) A section on efforts to establish and implement the international nuclear security standard described in section 3134(b) and related policies.

(2) United States access to space is dependent upon our ability to defend our space assets.

(3) China has an aggressive mission to gain space power, and on January 17, 2007, China successfully conducted an anti-satellite (ASAT) weapons test that successfully destroyed an inactive Chinese weather satellite.

SA 2241. Mr. MCCONNELL proposed an amendment to the bill H.R. 1585, to authorize appropriations for fiscal year 2008 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; as follows:

At the end of the bill add the following:
SEC. 1535. SENSE OF THE SENATE ON THE CONSEQUENCES OF A FAILED STATE IN IRAQ.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) A failed state in Iraq would become a safe haven for Islamic radicals, including al Qaeda and Hezbollah, who are determined to attack the United States and United States allies.

(2) The Iraq Study Group report found that “[a] chaotic Iraq could provide a still stronger base of operations for terrorists who seek to act regionally or even globally”.

(3) The Iraq Study Group noted that “Al Qaeda will portray any failure by the United States in Iraq as a significant victory that will be featured prominently as they recruit for their cause in the region and around the world”.

(4) A National Intelligence Estimate concluded that the consequences of a premature withdrawal from Iraq would be that—

(A) Al Qaeda would attempt to use Anbar province to plan further attacks outside of Iraq;

(B) neighboring countries would consider actively intervening in Iraq; and

(C) sectarian violence would significantly increase in Iraq, accompanied by massive civilian casualties and displacement.

(5) The Iraq Study Group found that “a premature American departure from Iraq would almost certainly produce greater sectarian violence and further deterioration of conditions. . . . The near-term results would be a significant power vacuum, greater human suffering, regional destabilization, and a threat to the global economy. Al Qaeda would depict our withdrawal as a historic victory.”

(6) A failed state in Iraq could lead to broader regional conflict, possibly involving Syria, Iran, Saudi Arabia, and Turkey.

(7) The Iraq Study group noted that “Turkey could send troops into northern Iraq to prevent Kurdistan from declaring independence”.

(8) The Iraq Study Group noted that “Iran could send troops to restore stability in southern Iraq and perhaps gain control of oil fields. The regional influence of Iran could rise at a time when that country is on a path to producing nuclear weapons.”

(9) A failed state in Iraq would lead to massive humanitarian suffering, including widespread ethnic cleansing and countless refugees and internally displaced persons, many of whom will be tortured and killed for having assisted Coalition forces.

(10) A recent editorial in the New York Times stated, “Americans must be clear that Iraq, and the region around it, could be even bloodier and more chaotic after Americans leave. There could be reprisals against those who worked with American forces, further ethnic cleansing, even genocide. Potentially destabilizing refugee flows could hit Jordan and Syria. Iran and Turkey could be tempted to make power grabs.”

(11) The Iraq Study Group found that “[i]f we leave and Iraq descends into chaos, the long-range consequences could eventually require the United States to return”.

(b) **SENSE OF THE SENATE.**—It is the sense of the Senate that—

(1) The Senate should commit itself to a strategy that will not leave a failed state in Iraq; and

(2) the Senate should not pass legislation that will undermine our military’s ability to prevent a failed state in Iraq.

SA 2242. Mr. BIDEN (for himself, Ms. CANTWELL, and Mr. WHITEHOUSE) submitted an amendment intended to be proposed by him to the bill H.R. 1585, to authorize appropriations for fiscal year 2008 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of title XV, add the following:
SEC. 1535. POLICY AGAINST THE ESTABLISHMENT OF PERMANENT BASES IN IRAQ.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) According to a September 2006 poll conducted by the Program for International Policy Attitudes at the University of Maryland, 97 percent of Sunni Arabs and 77 percent of all Iraqis believe that the United States intends to maintain permanent bases in Iraq.

(2) General John Abizaid testified before Congress in March 2006 that the United States “must make clear to the people of the region we have no designs on their territory or resources”.

(3) Iraqi Prime Minister Nuri al-Maliki, in an April 13, 2007, interview with al-Arabiya Television, said, “When we see that our forces are built, and that we are prepared to take full responsibility for the security issue, we will ask the international forces to leave the country.”

(4) The Iraq Study Group recommended that “the United States can begin to shape a positive climate for its diplomatic efforts, internationally and within Iraq, through public statements by President Bush that reject the notion that the United States seeks to control Iraq’s oil, or seeks permanent military bases within Iraq”.

(5) President George W. Bush has not adequately publicly stated that the United

States does not seek permanent military bases in Iraq.

(6) A declaration that the United States does not seek permanent military bases in Iraq should not be taken as a sign of a precipitous military redeployment from Iraq.

(7) United Nations Security Council Resolution 1546 (2004) resolves that United States and Coalition forces in Iraq are present at the request of the Government of Iraq and that the mandate of these forces shall be reviewed at least every 12 months and will terminate at the request of the Government of Iraq.

(b) SENSE OF THE SENATE.—The Senate calls upon the President—

(1) to communicate a message to the people of Iraq that the United States neither seeks to control Iraq's oil resources nor seeks permanent United States military bases in Iraq; and

(2) to direct the United States Permanent Representative to the United Nations to work with other Members of the Security Council and the Government of Iraq to craft in a timely manner a Security Council Resolution to update the mandate of the Multi-National Force-Iraq.

(c) REPORTS.—Not later than 90 days after the date of the enactment of this Act, and every 180 days thereafter until January 1, 2009, the Secretary of Defense shall submit to Congress an unclassified report, with classified annexes as necessary, on the status of United States military installations in Iraq, which shall include the following elements:

(1) Information on military installations that have been transferred to Iraqi control, that remain under United States control, and that have been decommissioned.

(2) A schedule on plans to turn over the remaining military installations to Iraqi control.

(3) Information on negotiations towards a status of forces agreement between the United States and the Government of Iraq.

(4) Specific information on the following military installations:

(A) Camp Al Asad (Anbar governorate).

(B) Logistics Support Area Anaconda (Salah ad Din governorate).

(C) Contingency Operating Base Speicher – Al Sahra Airfield (Salah ad Din governorate).

(D) Camp Victory (Anbar governorate).

(E) Camp Adder at Tallil Airbase (Dhi Qar governorate).

(F) Camp Korean Village at Al-Walid Airbase (Anbar governorate).

(G) Forward Operating Base Endurance at Qayyarah Airbase West (Ninewah governorate).

(H) Convoy Support Center Scania (Qadisiyah governorate).

Mr. AKAKA submitted an amendment intended to be proposed by him to the bill H.R. 1585, to authorize appropriations for fiscal year 2008 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

(f) **FOCUS ON IMPROVING INTERAGENCY COOPERATION IN POST-CONFLICT CONTINGENCY RELIEF AND RECONSTRUCTION OPERATIONS.**—

(1) **FINDINGS.**—Congress makes the following findings:

(A) The interagency coordination and integration of the United States Government for the planning and execution of overseas post-conflict contingency relief and reconstruction operations requires reform.

(B) Recent operations, most notably in Iraq, lacked the necessary consistent and effective interagency coordination and integration in planning and execution.

(C) Although the unique circumstances associated with the Iraq reconstruction effort are partly responsible for this weak coordination, existing structural weaknesses within the planning and execution processes for such operations indicate that the problems encountered in the Iraq program could recur in future operations unless action is taken to reform and improve interdepartmental integration in planning and execution.

(D) The agencies involved in the Iraq program have attempted to adapt to the relentless demands of the reconstruction effort,

but more substantive and permanent reforms are required for the United States Government to be optimally prepared for future operations.

(E) The fresh body of evidence developed from the Iraq relief and reconstruction experience provides a good basis and timely opportunity to pursue meaningful improvements within and among the departments charged with managing the planning and execution of such operations.

(F) The success achieved in departmental integration of overseas conflict management through the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (Public Law 99-433; 100 Stat. 992) provides precedent for Congress to consider legislation designed to promote increased cooperation and integration among the primary Federal departments and agencies charged with managing post-conflict contingency reconstruction and relief operations.

(2) INCLUSION IN STUDY.—The study conducted under subsection (a) shall include the following elements:

(A) A synthesis of past studies evaluating the successes and failures of previous interagency efforts at planning and executing post-conflict contingency relief and reconstruction operations, including relief and reconstruction operations in Iraq.

(B) An analysis of the division of duties, responsibilities, and functions among executive branch agencies for such operations and recommendations for administrative and regulatory changes to enhance integration.

(C) Recommendations for legislation that would improve interagency cooperation and integration and the efficiency of the United States Government in the planning and execution of such operations.

(D) Recommendations for improvements in congressional, executive, and other oversight structures and procedures that would enhance accountability within such operations.
