#### TEXT OF AMENDMENTS

**SA 2270.** Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill H.R. 1585, to authorize appropriations for fiscal year 2008 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title I, add the following:

##### **SEC. 115. M4 CARBINE RIFLE.**

(a) FINDINGS.—Congress makes the following findings:

(1) The members of the Armed Forces are entitled to the best individual combat weapons available in the world today.

(2) Full and open competition in procurement is required by law, and is the most effective way of selecting the best individual combat weapons for the Armed Forces at the best price.

(3) The M4 carbine rifle is currently the individual weapon of choice for the Army, and it is procured through a sole source contract.

(4) The M4 carbine rifle has been proven in combat and meets or exceeds the existing requirements for carbines.

(5) In recent months, government testing and surveys of commercially available small arms have identified alternative rifles and carbines that, like the M4 carbine, meet or exceed existing performance and maintenance requirements for the Armed Forces.

(6) The Army Training and Doctrine Command is conducting a full Capabilities Based Assessment (CBA) of the small arms of the Army which will determine whether or not gaps exist in the current capabilities of such small arms and inform decisions as to whether or not a new individual weapon is required to address such gaps.

(b) REPORT ON CAPABILITIES BASED ASSESSMENT.—Not later than August 31, 2007, the Secretary of the Army shall submit to the congressional defense committees a report on the Capabilities Based Assessment of the small arms of the Army referred to in subsection (a)(6).

(c) COMPETITION FOR NEW INDIVIDUAL WEAPON.—

(1) COMPETITION REQUIRED.—In the event the Capabilities Based Assessment identifies gaps in the current capabilities of the small arms of the Army and the Secretary of the Army determines that a new individual weapon is required to address such gaps, the Secretary shall procure the new individual weapon through one or more contracts entered into after full and open competition described in paragraph (2).

(2) FULL AND OPEN COMPETITION.—The full and open competition described in this paragraph is full and open competition among all responsible manufacturers that—

(A) is open to all developmental item solutions and nondevelopmental item (NDI) solutions; and

(B) provides for the award of the contract or contracts concerned based on best weapon performance in light of the capabilities identified to be required in the Capabilities Based Assessment.

(d) TERMINATION OF SOLE SOURCE CONTRACT FOR M4 CARBINE RIFLE.—In the event the Capabilities Based Assessment does not identify gaps in the current capabilities of the small arms of the Army or the Secretary of

the Army determines not to procure a new individual weapon to address such gaps, the Secretary shall—

(1) terminate the sole source contract for the M4 carbine rifle effective June 1, 2009; and

(2) satisfy all current requirements for the carbine as of that date through one or more contracts entered into thereafter after full and open competition.

**SA 2271.** Mr. INHOFE submitted an amendment intended to be proposed by him to the bill H.R. 1585, to authorize appropriations for fiscal year 2008 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

**SEC. 358. CONTINUITY OF DEPOT OPERATIONS TO RESET COMBAT EQUIPMENT AND VEHICLES IN SUPPORT OF WARS IN IRAQ AND AFGHANISTAN.**

(a) FINDINGS.—Congress makes the following findings:

(1) The United States Armed Forces, particularly the Army and the Marine Corps, are currently engaged in a tremendous effort to reset equipment that was damaged and worn in combat operations in Iraq and Afghanistan.

(2) The implementing guidance from the Under Secretary of Defense for Acquisition, Technology, and Logistics related to the decisions of the 2005 Defense Base Closure and Realignment Commission (BRAC) to transfer depot functions appears not to differentiate between external supply functions and in-process storage functions related to the performance of depot maintenance.

(3) Given the fact that up to 80 percent of the parts involved in the vehicle reset process are reclaimed and refurbished, the transfer of this inherently internal depot maintenance function to the Defense Logistics Agency could severely disrupt production throughput, generate increased costs, and negatively impact Army and Marine Corps equipment reset efforts.

(4) The goal of the Department of Defense, the Defense Logistics Agency, and the 2005 Defense Base Closure and Realignment Commission is the reengineering of businesses processes in order to achieve higher efficiency and cost savings.

(b) REPORT.—

(B) a description of the completeness of the business plan in addressing part reclamation and refurbishment;

(C) the estimated cost of the implementation and what savings are likely to be achieved;

(D) the impact of the transfer on the Defense Logistics Agency and depot hourly rates due to the loss of budgetary control of the depot commander over overtime pay for in-process parts supply personnel, and any other relevant rate-related factors;

(E) the number of personnel positions affected;

(F) the sufficiency of the business plan to ensure the responsiveness and availability of

Defense Logistics supply personnel to meet depot throughput needs, including potential impact on depot turnaround time; and

(G) the impact of Defense Logistics personnel being outside the chain of command of the depot commander in terms of overtime scheduling and meeting surge requirements.

(3) GOVERNMENT ACCOUNTABILITY OFFICE ASSESSMENT.—Not later than September 30, 2008, the Comptroller General of the United States shall review the report submitted under paragraph (1) and submit to the congressional defense committees an independent assessment of the matters addressed in such report, as requested by the Chairman of the Committee on Armed Services of the House of Representatives.

report entitled “The Thin Green Line: An Assessment of DoD’s Readiness and Environmental Protection Initiative to Buffer Installation Encroachment”, Congress makes the following findings:

(1) Development and loss of habitat in the vicinity of, or in areas ecologically related to, military installations, ranges, and airspace pose a continuing and significant threat to the readiness of the Armed Forces.

(2) The Range Sustainability Program (RSP) of the Department of Defense, and in particular the Readiness and Environmental Protection Initiative (REPI) involving agreements pursuant to section 2684a of title 10, United States Code, have been effective in addressing this threat to readiness with regard to a number of important installations, ranges, and airspace.

(3) The opportunities to take effective action to protect installations, ranges, and airspace from encroachment is in many cases transient, and delay in taking action will result in either higher costs or permanent loss of the opportunity effectively to address encroachment.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the Department of Defense should—

(1) develop additional policy guidance on the further implementation of the Range and Environmental Protection Initiative (REPI), to include additional emphasis on protecting biodiversity and on further refining procedures;

(2) give greater emphasis to effective cooperation and collaboration on matters of mutual concern with other Federal agencies charged with managing Federal land;

(3) ensure that each military department takes full advantage of the authorities provided by section 2684a of title 10, United States Code, in addressing encroachment adversely affecting, or threatening to adversely affect, the installations, ranges, and military airspace of the department; and

(c) **REPORTING REQUIREMENT.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall review Chapter 6 of the initial report submitted to Congress under section 2684a(g) of title 10, United States Code, and report to the congressional defense committees on the specific steps, if any, that the Secretary plans to take, or recommends that Congress take, to address the issues raised in such chapter.

(e) REQUIREMENTS FOR DEPLOYMENT OF UNITS.—Each unit of the Armed Forces deploying in support of Operation Iraqi Freedom or Operation Enduring Freedom, including the International Security Assistance Force Afghanistan, should meet a baseline C1 readiness standard before such deployment.
