STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ENSIGN:

S. 1869. A bill to amend the Help America Vote Act of 2002 to require new voting systems to provide a voter-verified permanent record, to develop better accessible voting machines for individuals with disabilities, and for other purposes; to the Committee on Rules and Administration.

Mr. ENSIGN. Mr. President, in the November 2004 elections, Nevadans entered a new frontier for casting their votes. We became the first State in the Nation to require that voter-verified paper audit trail printers be used with touch-screen voting machines.

Despite what critics of these machines might tell you, Nevada's elections were a success. The machines worked well and were well-received by voters. During a post-election audit, Nevada compared 60,000 electronic ballots with their corresponding voter-verified paper record and found that they matched with 100 percent consistency. As a result, all Nevadans who used these machines can be confident that their votes were counted accurately.

I understand better than most the importance of the integrity of the ballot box. I was at the mercy of a paperless-machine election in my 1998 race for the U.S. Senate. When the votes were tallied with a difference of only a few hundred, I asked for a recount in Clark County, the only county at the time using electronic voting machines. The result of the recount was identical to the first count. That is because there was nothing to recount. After rerunning a computer program, the computer predictably produced the same exact tally.

I conceded that race and was elected to Nevada's other Senate seat in 2000. But that experience made me realize the importance of ensuring Americans that their votes will count, it is absolutely fundamental to our democracy.

That is why I led the fight for voter verification paper trails in the Help America Vote Act, known as HAVA, which President Bush signed into law in 2002. When Congress passed HAVA, we expressed our commitment to the principle of "one person, one vote." One important component of HAVA provided States with funds to replace aging voting machines which had a tendency to malfunction. A voting machine that fails to record a vote properly affects voters in the same way as
