

safety: Safe Kids USA's inspection of more than one million car seats.

Since 1996, Safe Kids USA, a member of Safe Kids Worldwide, has partnered with General Motors to address one of the Nation's most significant public health issues: Motor vehicle crashes are the leading cause of death for children ages 2 to 14 and the leading cause of injury-related death for children under age 2.

Together with GM, Safe Kids USA has redefined how parents and caregivers learn about child passenger safety in order to prevent these injuries and deaths from happening in the first place. We know that when installed and used correctly, child safety seats and safety belts can prevent injury and save lives. Their initiative, Safe Kids Buckle Up, sponsors car seat checkup events, which are essential to show families the intricacies of how to properly use and install child safety seats.

At these events, trained child passenger safety technicians teach families how to safely transport their children and help to make sure everyone in a vehicle is buckled up correctly on every ride. On average, technicians spend about 30 minutes with each child. Most of these events are open to the public and are conducted by Safe Kids coalitions in central locations like Chevrolet and other GM dealerships, hospitals, community centers and shopping centers. Families who need child safety seats, but cannot afford them, are never turned away and children who are being transported in potentially dangerous, recalled car seats are given safe replacements. Parents and caregivers can have the peace of mind that their child will be safer for the simple fact that they participated in a Safe Kids Buckle Up event.

In addition, through the generosity of General Motors, Safe Kids coalitions have access to Mobile Car Seat Checkup Vans which serve communities across the Nation. The vans are specially designed, self-contained units that can turn any parking lot into a full-service car seat safety event site. The fleet was launched in 1999 with 51 vans; today there are 125 on the road with another 12 being added through 2008. There are also more than 400 permanent car seat inspection stations operated by Safe Kids coalitions in order for families to take advantage of trained technicians whenever they are needed.

To date, Safe Kids Buckle Up has reached more than 15 million people and there have been more than 45,000 events that bring much needed car seat inspection services and educational messages to families across the country. The program has also donated 365,000 seats to families in need. On June 12th, the one millionth car seat was inspected at an event in Los Angeles and it personally gratifies me to see the evolution of this outstanding program that serves children and their families.

While crash protection is the backbone of Safe Kids Buckle Up, the program has evolved to offer vehicle safety programs beyond car seats and booster seats. Children can be injured or killed by heat exposure in parked cars, by suffocation when they get stuck in a trunk or when struck in a non-traffic setting such as a driveway or a parking lot. Safe Kids Buckle Up has responded to these risks by introducing three new components to their programming efforts—Spot the Tot, Never Leave Your Child Alone and Preventing

Trunk Entrapment—in order to help prevent children from being left alone in or around a vehicle. I applaud Safe Kids Buckle Up for moving beyond crash protection and for addressing children's safety needs in all types of motor vehicle situations.

I was part of the launch of the Safe Kids—General Motors partnership in 1996 and I have been proud to lend my support over the years to Safe Kids in their efforts to raise public awareness of the serious problem of motor vehicle crashes. We have made considerable progress in child passenger safety but our work is not done. Every American must understand that there are proven ways to keep children safer in vehicles and we can prevent many injuries and deaths through proper safety precautions.

I encourage all of my colleagues to participate in a Safe Kids Buckle Up event in their districts to see firsthand how these safety precautions can make a difference in a child's life. Please join me in celebrating the achievements of Safe Kids USA, their remarkable 310+ coalition network and General Motors, whose combined efforts ensure that every child that visits a car seat safety event leaves safer than when he/she entered.

SEPTEMBER 13TH—DR. BERNARD LOWN DAY

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 19, 2008

Mr. FRANK of Massachusetts. Madam Speaker, I am very pleased to join with my colleague, the Senior Senator from Massachusetts (Mr. KENNEDY), in hailing the proclamation of September 13th, 2008 as Dr. Bernard Lown Day.

In fact Madam Speaker, it would be a more accurate representation of the dimensions of Dr. Lown's great career if we were to proclaim several Dr. Bernard Lown Days. He is a man who has made numerous extremely valuable contributions to humanity in a number of fields, because he combines intellectual ability of the first order, a deep commitment to improving the quality of life of his coinhabitants of the planet, a capacity to translate his unsurpassed understanding of the actual functioning of the human heart into treatments and instruments that have significantly advanced the fight against heart diseases, and finally, a characteristic not often joined to some of those I have just listed, an understanding of the political process and how to move it.

In his professional life as a cardiologist, Dr. Lown invented the defibrillator and the cardioverter, and he was the first to use the drug lidocaine. In these innovations, in his own practice of over 50 years, and the knowledge he's imparted to countless numbers of younger—and by now not so young—other doctors, Dr. Lown has put all of us in his debt for his contributions to our health.

In addition, he has been a leader in international cooperation in the medical field, and in humanitarian work in general, recognizing early on that the fight against disease and poor health must know no artificial political boundaries.

Finally, he has been a leader in the effort to avert nuclear disaster and to promote a hu-

mane and sensible approach to international conflict. In recognition of these latter activities, Dr. Lown was a Nobel Peace Prize Laureate in 1985 for his work in co-founding the International Physicians for the Prevention of Nuclear War and the work he had done—and of course continues to do—opposing the proliferation of nuclear weapons and promoting world peace.

It is sometimes said that people who try to do too many different things can diminish their ability to do any one thing. Bernard Lown's life is an example of exactly the opposite: the many areas of important human activity in which he has excelled have not detracted from each other but rather have reinforced each other, contributing to a life's work that has been a model of how one takes his very considerable talents and puts them at the service of others.

Senator KENNEDY and I are delighted to have been given the privilege of representing Dr. Lown in the Congress of the United States and we are very proud to join here today in observing September 13th as Dr. Bernard Lown Day.

TRIBUTE TO MR. BOB MCCLELLAN

HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 19, 2008

Mr. SHIMKUS. Madam Speaker, I rise today to honor the achievements of Bob McClellan. Mr. McClellan has, since 1994, served as President and CEO of Hortica Insurance, formerly Florists Mutual, headquartered in Edwardsville, Illinois. He had been employed at Hortica from 1987–1994 in several senior management positions. Prior to his time at Hortica, Bob McClellan served as an adjunct faculty member at Southern Illinois University Edwardsville from 1978–1985 and as Management Information Services Director from 1976–1978. It was at SIUE that Mr. McClellan received a B.S. and M.B.A. in 1974 and 1976, respectively.

Bob McClellan's most admirable achievements come not from his professional life, but his personal life. Mr. McClellan has continually dedicated himself to the betterment of his community and the preservation of educational institutions. Mr. McClellan has been a member of the Executive Board of the Boy Scouts of America Trails West Council, for example. In 1996, he worked with Edwardsville High School administrators to develop and implement a technology plan that allowed the school to provide modern instruction to its students. In 2005, Bob worked to bring a Hortica donation to SIUE when he personally carried plants and flowers to a celebration on campus. Clearly, Mr. McClellan gives freely of his time and professional expertise.

Mr. McClellan has received numerous awards in his lifetime, including the Rotary International's Four-Way Test Award for Business Ethics in 2007 and the Business Partnership Award from Ameren and the Illinois Development Council in 2005. I wish to honor him today with my words of appreciation. Men like Mr. McClellan deserve deep gratitude and respect. His unwavering enthusiasm for community development, coupled with his keen business sense, is both unusual and exceptionally commendable. As Bob McClellan retires from his post as President and CEO of

Hortica Insurance, I have no doubt that his commitment to community will continue unabated for years to come. For the past years of service, and for those to come, I offer my utmost thanks to Mr. Bob McClellan of Edwardsville, Illinois. Enjoy your retirement, Bob.

IN RECOGNITION OF MR. AND MRS.
ROBERT MILLER

HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 19, 2008

Mr. ROGERS of Alabama. Madam Speaker, I respectfully request the attention of the House today to pay recognition to an important day in the lives of two constituents of mine, Mr. and Mrs. Robert Miller.

On June 28th, the Millers will celebrate their 50th wedding anniversary. The couple will gather with friends and family at the Townsend's Warehouse on the 28th to commemorate this special occasion.

I would like to congratulate Robert and Patricia for reaching this important milestone in their lives. They are shining examples of love and dedication for us all, and I wish them and their family all the best at this important occasion.

IN HONOR OF THE 140TH ANNIVERSARY OF THE YPSILANTI DISTRICT LIBRARY

HON. JOHN D. DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 19, 2008

Mr. DINGELL. Madam Speaker, I rise today to honor the Ypsilanti district library and to commemorate its 140 years of service to the Ypsilanti community. In 1868, only 31 years after Michigan became a State, a group of three women who were committed to promoting reading and literacy founded the library in the small room of a building on Huron St. It began with only 175 books, and today has expanded to three branches with a collection of over 300,000 volumes.

In addition to this impressive collection of reading material, the library provides other outstanding services to the community. It offers classes on computer skills and specific software programs, which provide participants with the tools they need to succeed in this technology-driven world. Last year, the library ran over 1,000 youth-oriented programs, which reached over 24,000 people in the Ypsilanti area. The Ypsilanti Library's "Tumblebooks" program provides animated picture books online for young children, which promotes early reading skills. Such services are invaluable in Michigan, as they help combat illiteracy while sparking a child's imagination and desire to continue learning.

Libraries offer themselves as a tremendous resource to those who are learning to read and those who love to read. Without libraries many young children would not have access to new books or computers with access to the Internet. I have always believed that teaching children to read provides them with an impor-

tant lifelong tool. The Ypsilanti district library should be commended for what it has done to further this cause.

I am proud of the Ypsilanti library's many contributions to Michigan's 15th Congressional district and ask my colleagues to join me in congratulating the library on 140 wonderful years of service.

CONGRESS MUST ACT TO HELP
SHRIMPERS

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 19, 2008

Mr. PAUL. Madam Speaker, the American shrimp industry is a textbook example of a great American business crippled by foolish government policies. Congress and the federal bureaucracy have burdened shrimpers with needless regulations and laws that dramatically raise shrimpers' cost of doing business while subsidizing American shrimpers' overseas competitors. Unless Congress soon reverses course and repeals these destructive government policies, many shrimpers will be forced out of business.

Congress's refusal to take any constructive action to address skyrocketing fuel costs has, in particular, hurt shrimpers. Some shrimpers are so desperate to lower their fuel costs that they are going to Mexico in search of affordable fuel. Think about this, Madam Speaker it is cheaper for shrimpers to travel to Mexico to buy gas than to obtain gas in the USA. Yet, Congress still refuses to take reasonable actions, such as expanding offshore drilling or repealing federal laws that delay the production of refineries, to expand oil supply and thus reduce the price of fuel.

The federal government has also imposed numerous regulations on shrimpers dealing with use of items such as bycatch reduction devices and turtle excluder devices (TEDS). Madam Speaker, it is common to speak of the negative effects of regulations as "unintended consequences." However, it is difficult to speak of the effects of the TEDS on shrimpers as unintended consequences when the National Marine Fisheries Service heard industry representatives and representatives of communities whose economies rely on a thriving shrimping industry present first-hand testimony on how these TEDS regulations would harm shrimpers.

The problems shrimpers face are compounded by foreign competitors who are taking advantage of the government-created vulnerabilities in the American shrimp industry. Adding insult to injury, the federal government is forcing American shrimpers to subsidize their competitors through international agencies such as the Overseas Private Investment Corporation, the Export-Import Bank, and the International Monetary Fund! In fact, United States taxpayers have provided over \$16,500,000,000 to the home countries of the leading foreign competitors of American shrimpers since 1999.

In order to stop the federal government from punishing shrimpers with unfair regulations and forcing them to subsidize their major competitors, I introduced the Shrimp Importation Financing Fairness Act. This legislation would place a moratorium on any restrictive regula-

tions negatively impacting the shrimp industry and prevent any taxpayer money from going to any country that exported more than 20 million pounds of shrimp to the United States in the previous six months. However, Congress chose not to even take these simple steps to help the American shrimp industry.

Of course, American shrimpers, like all American businesses that compete in the global marketplace, also suffers from the weak U.S. dollar. Congress's fiscal irresponsibility is a major cause of the weakening U.S. dollar.

Madam Speaker, it is still not too late or Congress to help the shrimp industry. Congress should immediately end subsidies to American shrimpers' foreign competitors, place a moratorium on harmful regulations imposed on the shrimp industry, and take action to reduce fuel prices by expanding the supply of oil. I urge my colleagues to join me in working to fix the misguided government policies that are harming America shrimpers.

RECOGNIZING SEAN WARREN OF
VIRGINIA BEACH

HON. THELMA D. DRAKE

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 19, 2008

Ms. DRAKE. Madam Speaker, I rise to recognize the outstanding achievements of Sean Warren of Virginia Beach, and to commend him on becoming a Congressional Award Gold Medalist. This recognition by the United States Congress is the highest honor bestowed upon America's youth. It serves as a testament to Sam's strength of character and commitment to our national values of dedication to public service and the cherished qualities of personal growth, initiative, and achievement, all of which are cornerstones of the Congressional Award.

Sean's volunteer efforts are tremendous, speaking very highly of him and his level of commitment to the community and to public service. In earning the rank of Eagle Scout, Sean worked with the Lynnhaven Baseball Fields Executive Board to provide a children's playground area onsite. In addition, he continues to be active within the Boy Scouts of America (BSA) Tidewater Council, serving as Junior Assistant Scoutmaster and Senior Patrol Leader, completing the Venturing Scout program, receiving the BSA Tidewater Council Venturing Leadership Award, and participating in the Physical Fitness QUEST and Fitness for Life programs.

Sean has devoted time and energy to excellence in physical fitness, improving his running and weightlifting capacity for the Navy Junior Reserve Officers Training Corps (NJROTC) and football at Princess Anne High School. He has engaged in opportunities also for advanced leadership experience, including his position as Cadet Athletic Commander for his NJROTC unit and as a member of the 2006 COPE Program. Sean has balanced the challenges of public service with his own personal welfare and developed a well-rounded persona.

Sean has become a role model not only his peers and teammates, but for the large community around him. Upon receiving the Congressional Medal, he joins a most elite group of our Nation's youth who have set and
