

eight grandchildren, Lonnie and Libby Williams are constantly active and reminded of their good fortune. The couple cites their faith as the center point of their relationship and advises that the secret to marital bliss is to "never go to bed angry."

Madam Speaker, on behalf of the United States Congress, I am proud to recognize Mr. and Mrs. Williams on their 50th wedding anniversary. They are truly an outstanding family and an asset to the First District of Florida.

EARMARK DECLARATION

HON. JOHN M. McHUGH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. McHUGH. Madam Speaker, I submit the following:

Requesting Member: Congressman JOHN M. McHUGH.

Bill Number: H.R. 6599.

Account: Military Construction, Army.

Legal Name of Requesting Entity: Congressman JOHN M. McHUGH.

Address of Requesting Entity: 2366 Rayburn House Office Building, Washington, DC 20515.

Provide an earmark of \$6.9 million for Project Number 57711 to construct a fire station at Fort Drum, New York. The entity to receive funding for this project is Fort Drum, located in Watertown, New York 13601. The funding will be used for military construction to help meet installation health and safety requirements.

CELEBRATING CARIBBEAN-AMERICAN HERITAGE MONTH

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. RANGEL. Madam Speaker, I rise today to recognize and celebrate Caribbean-American Heritage Month and the wonderful implications it has for how far this country has come. To have a month in which we solely celebrate the contributions of those who have been oppressed and were deemed unequal by the very country they helped to build is recognition by the Congress of the United States that this great country is better and brighter because of their presence. Caribbean-American Heritage Month has given us the opportunity as a nation to recognize the everyday heroes in the Caribbean community that bring their hope, joy, and immeasurable talents to America.

When celebrating Caribbean-American Heritage Month in June we have the opportunity to more clearly illuminate the great economic disparities that are a reality in the Caribbean. The inception of this special month-long celebration has created an exclusive platform to zero in on Caribbean-specific issues like economic development, health, and education.

Caribbean-American Heritage Month recognizes and celebrates the many wonderful people of Caribbean heritage who have gone unrecognized for their immense contributions to this wonderful country. For that, I salute Caribbean-American Heritage Month.

TRIBUTE TO ALLAN ATKINSON

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. LATHAM. Madam Speaker, I rise to recognize the retirement of Chief Administrative Officer of Winneshiek Medical Center, Allan Atkinson, and to express my appreciation for his dedication and commitment to the medical center and Northeast Iowa.

For 25 years, Allan has worked in healthcare administration, spending the last ten years at Winneshiek Medical Center in Decorah, Iowa. His long-term vision and teamwork approach has helped WMC grow and improve tremendously by offering an expanded range of services, experiencing a five-fold patient increase, and undertaking a \$17 million expansion and renovation project.

With his many years of experience in healthcare administration, Allan brought valuable knowledge and ideas to the table and credits the hospital's Board of Trustees for being such a great team. Their group effort has generated more quality healthcare options to Northeast Iowa, and I offer Allan and the Board my utmost congratulations and thanks.

I know that my colleagues in the United States Congress join me in commending Allan Atkinson for his service to WMC and Northeast Iowa. I consider it an honor to represent Allan in Congress, and I wish him a long, happy and healthy retirement.

BIRDSEYE QUASQUICENTENNIAL CELEBRATION

HON. BARON P. HILL

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. HILL. Madam Speaker, this year marks the 125th anniversary of the founding of the town of Birdseye, in Dubois County, Indiana. This rural community of approximately 500 citizens represents the epitome of Hoosier values and, like many small communities across the United States, forms the bedrock of our Nation.

The city's ceremonial observance of this anniversary will be held beginning Thursday, August 21, continuing through August 24. A number of celebratory events have been planned, including musical performances, a farm machinery show, a queen contest, parade and children's activities. I look forward to celebrating Birdseye's Quasquicentennial with its residents and supporting some of these events during the celebration.

The foundations of Birdseye began much like other frontier communities as a trading crossroads in the early 1800s. For many years, this crossroads did not have a formal name, but by 1846 migration west had produced enough settlers in this rugged wilderness area to necessitate a Post Office. Benjamin Goodman, a popular minister and postmaster in nearby Worth (later renamed Schnellville), was asked to help select the site for the new office. Upon finding a site he liked, he commented, "It suit Bird's eye to a T-Y-tee." The phrase so struck the other frontiersmen that they named the Post Office and community "Birdseye."

It wasn't until 1880, however, that the community took on a more formal appearance as a town. Seven property owners—Enoch and Martha Inman, Elbert and Mary Baxter, John and Sarah Pollard, and Scott Austin—gathered together and laid out a plat, each donating a portion of their land to divide into streets and lots.

This platting proved to be well timed. The expansion of the Louisville, New Albany, and St. Louis Airline Railroad through the community in 1882 created an economic boom, growing the small community's population. By 1883, the community incorporated and held its first town board meeting on December 26, with William Koerner serving as board President.

The early settlers of Birdseye were a hardy bunch. The main source of power was the horse or mule and fields had to be cleared of timber, rocks and other natural debris. The soil, although fertile, was often "corned to death" by early farming practices, forcing settlers to use early fertilizers or let the field lay fallow. Citizens relied on each other to help harvest crops, build homes and storage buildings or care for one another in an emergency. Despite changes through the ages, this community spirit persists today and is the foundation of daily life in Birdseye.

The town's history, written and edited by L.L. Tussey for the Quasquicentennial and sponsored by the Birdseye Volunteer Fire Department and the Birdseye Park Board, recalls many of the town's more popular family and community stories. The book contains stories of small, one-room schools from the area and notes the common occurrence of baptisms in the nearby Anderson River. It recalls the annual Birdseye Reunion, when young boys would dress in their finest "church clothing" to present themselves to young ladies. They would often purchase tickets for their sweetheart to ride the steam swing—a version of our modern merry-go-round—at the event. An essay included in the book by Sereina Comstock remembers Birdseye's thriving sorghum industry. Known worldwide for its "smooth texture" and sweet taste, it was the town's fundamental cash crop at the turn of the 20th century. Farmers processed the sorghum into syrup, graded it according to color, and then sold the product both locally and abroad using the railroad as a distribution network.

Then there are stories like the one about Carl Neukam, written by his grandson Josh Neukam. A tribute to his grandfather, Josh wrote about Carl's service with the 151st Airborne Unit during the Korean War, his strong work ethic with companies such as Jasper Novelty, J.H. Hines, Jasper Desk, and Kimball International, and his love and dedication for his wife Helen Whaley. It tells his unique life stories, such as the time he worked for the State Highway Department and battled for 72 hours straight against a winter storm or his recollection of returning from Korea only to have his plane catch fire. Carl's life may never be highlighted in any history books or be made into a movie, but it is nonetheless a quintessential example of a true American story and of a regular American hero.

Birdseye has grown over the years and seen many changes and improvements to the town. The creation of a Volunteer Fire Department in 1968, the establishment of a municipal park in 1983, and the opening of a new town hall this year are representative of the town's growth and development.

Many more stories from Birdseye serve as a testament to its strong Hoosier values and warm community spirit. But the greatest treasure Birdseye possesses is the people of this small Indiana community. Regardless of the challenges they face or the difficulties that lay ahead of them, they illustrate the best qualities of rural America.

It is an honor and a privilege to represent this community in Congress. I want to congratulate Birdseye on its Quascentennial, and look forward to seeing how this unique and wonderful town thrives for decades to come.

INTRODUCTION OF THE SMITHSONIAN INSTITUTION FACILITIES AUTHORIZATION ACT OF 2008

HON. JAMES L. OBERSTAR

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. OBERSTAR. Madam Speaker, my colleagues and I join together today to introduce the "Smithsonian Institution Facilities Authorization Act of 2008".

I thank my colleagues, including Committee on House Administration Chairman BRADY and Ranking Member EHLERS, Committee on Transportation and Infrastructure Ranking Member MICA and Subcommittee Chairwoman NORTON, and the Congressional Regents of the Smithsonian Institution, Mr. BECERRA, Ms. MATSUI, and Mr. SAM JOHNSON of Texas, for their efforts to move this important legislation forward. I also thank the Smithsonian Institution for its effort on behalf of the legislation and welcome the new Secretary, Dr. G. Wayne Clough. I look forward to working with Secretary Clough as the Committee on Transportation and Infrastructure works to address the enormous repair and maintenance backlog of the Smithsonian Institution facilities and ensure that its facilities meet the highest standards of energy efficiency and conservation.

The bill authorizes the Board of Regents of the Smithsonian Institution to design and construct laboratory space to accommodate the Mathias Laboratory at the Smithsonian Environmental Research Center ("SERC") in Edgewater, Maryland. The bill also authorizes the Board of Regents to construct laboratory space to accommodate the terrestrial research program of the Smithsonian Tropical Research Institute ("STRI") in Gamboa, Panama. The Committee on Transportation and Infrastructure will consider the Smithsonian Institution Facilities Act on July 31. The Committee will also consider S.J. Res. 35, which provides for the construction of the Very Energetic Radiation Imaging Telescope Array System (VERITAS) project in Arizona. Earlier this year, the Committee on Transportation and Infrastructure reported H.R. 5492, to authorize the Board of Regents to construct a greenhouse facility at its museum support facility in Suitland, Maryland, favorably to the House, and the House passed the bill by voice vote on March 11, 2008. The Committee hopes to bring S.J. Res. 35 to the House in early September. With passage of these bills, the House of Representatives will have completed action on the Smithsonian Institution's construction program for this fiscal year.

Section 2 of the bill authorizes the Board of Regents to design and construct laboratory

and support space to accommodate the Mathias Laboratory at the Smithsonian Environmental Research Center in Edgewater, Maryland. The bill authorizes \$41 million to design and construct the facility. SERC is a global leader in the study of ecosystems in the coastal zone. The 52,000-square-foot replacement laboratory will be connected to the existing structure to provide an operationally efficient and environmentally sustainable laboratory facility for SERC's research programs. The project will eliminate the use of temporary, unsafe trailers, address substandard, inefficient laboratory facilities, and will substantially reduce the facility's energy use and maintenance costs.

Section 3 of the bill authorizes the Board of Regents to construct laboratory space to accommodate the terrestrial research program of the Smithsonian Tropical Research Institute in Gamboa, Panama. The bill authorizes \$14 million to construct the 53,283-square-foot facility. STRI is the principal United States organization devoted to research in tropical biology. Tropical biology is critical to finding untapped resources to add to the important supply of food, pharmaceuticals, and fiber of tropical regions. STRI has outgrown the space available at its current facilities and this bill provides for construction of a new lab in Gamboa, Panama, on the east bank of the Panama Canal. Gamboa is protected by geography from the encroachment of civilization and pollution. The terrestrial research program is critical to understanding the role that tropical plants and soils play in global climate change models and for enriching knowledge of tropical biodiversity.

I urge my colleagues to join me in supporting the "Smithsonian Institution Facilities Authorization Act of 2008", and I look forward to working together with my colleagues on these and other Smithsonian Institution issues.

EARMARK DECLARATION

HON. KAY GRANGER

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Ms. GRANGER. Madam Speaker, I submit the following:

Requesting Member: Congresswoman KAY GRANGER.

Project name (as it appears in the bill): Security Forces Building/Combat Arms Addition. Amount received: \$5 million. Bill number: H.R. 6599.

Account: Air National Guard.

Legal name and address of entity receiving earmark: 136th Airlift Wing, Texas Air National Guard, JRB NAS Fort Worth, 200 Hensley Avenue, Fort Worth, Texas 76127-1672.

Description of how the money will be spent and why the use of federal taxpayer funding is justified: The Air Force has increased its need for Security Forces personnel. That has resulted in an increase of Security Forces personnel at the 136th Airlift Wing. Current space and facilities are inadequate (the building is less than 50 percent of the authorized and required size). The project is programmed for FY11 but needs to be constructed earlier to accommodate the training and readiness of the 136th Airlift Wing's growing force of Security Personnel and their role in the Global War on Terror. According to the Future Year De-

fense Plan, 96 percent of the amount received would go toward contract costs while the remaining 4 percent accounts for contingency, supervision, overhead, and inspection costs.

Description of matching funds: Matching funds are not required for Military Construction projects.

TRIBUTE TO THE HUMBOLDT PUBLIC LIBRARY

HON. TOM LATHAM

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. LATHAM. Madam Speaker, I rise today to congratulate the Humboldt Public Library on its 100th year anniversary. The Humboldt Public Library serves over 4,500 residents of Humboldt, Iowa as well as a number of residents of the surrounding areas in Humboldt County.

In 1908, the city of Humboldt completed its public library with the assistance of an Andrew Carnegie grant. From 1912 to 1963, Mrs. Nellie Pinney served 51 years as the longest serving librarian. At the time of her retirement, the library was circulating 3,500 books a year. Forty-five years later, the Humboldt library has expanded its circulation to 85,000 items to better serve the diverse interests of its citizens and the advanced technology of modern times.

Throughout the many years the Humboldt Public Library staff has thrived to meet the needs of the people in the area by providing excellent information, educational resources and encouraging citizens to read. I congratulate the Humboldt Public Library on this historic anniversary. It is an honor to represent Library Director Nikki Ehlers, the library board of trustees, and all of the Humboldt Library staff in the United States Congress, and I wish the Humboldt Public Library continued success well into the future.

EARMARK DECLARATION

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 29, 2008

Mr. LEWIS of California. Madam Speaker, I submit the following: H.R. 6599—The Military Construction and Veterans Affairs FY09 Appropriations bill. Mr. JERRY LEWIS (CA-41): Madam Speaker, pursuant to Republican earmark guidance, I am submitting for the record the following project that has been included in H.R. 6599, the Military Construction and Veterans Affairs FY09 Appropriations bill. This project was authorized in H.R. 5658—the National Defense Authorization Act for Fiscal Year 2009.

Requesting Member: Congressman JERRY LEWIS

Bill Number: H.R. 6599

Account: Military Construction—Navy

Legal Name of Requesting Entity: Marine Corps Base Twentynine Palms

Address of Requesting Entity: 73549 29 Palms Hwy., Twentynine Palms, CA 92277.

Description of Request: Phase I of the Life Long Learning Center (LLLC) project at the
