

HONORING FRANK HUMPERT OF
NAPA COUNTY, CALIFORNIA

HON. MIKE THOMPSON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 15, 2008

Mr. THOMPSON of California. Madam Speaker, I rise today to recognize Major General Frank Humpert, who is being honored by the Napa Valley College Foundation for his years of service to the students and citizens of Napa County and beyond.

Frank is a native of Napa whose life's work has been advancing educational opportunities for young people in the community. He is a graduate of Napa High School, Napa Valley College, the University of California, Berkeley, Troy State University and the Air Force War College. He served for 37 years in the United States Air Force, retiring with the rank of Major General.

Frank's contributions to Napa Valley College (NVC) have been particularly extraordinary. He served on the NVC Foundation Board of Directors for 20 years, retiring in 2007. During his 20 years on the board, Frank was instrumental in growing the endowed scholarship fund from \$387,000 to over \$2.6 million, helping thousands of students further their education and realize their dreams. He also established the Humpert Family Scholarship Fund, which he contributes to regularly.

Frank is also well known throughout the Napa Valley for his love of football. He played for UC Berkeley in the 1950 Rose Bowl. To this day, he is a constant presence on the Napa High School sidelines and has provided his wisdom, wit and guidance to nearly three generations of Napa High athletes.

Madam Speaker and colleagues, it is my distinct pleasure to recognize Frank Humpert for his many years of service. He has been a model citizen and leader in Napa County and his presence has enriched the lives of everyone in our community. I join his wife Analee, three children, nine grandchildren and four great grandchildren in wishing him continued success and fulfillment.

IN RECOGNITION OF THE 60TH ANNIVERSARY OF PENSACOLA JUNIOR COLLEGE

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 15, 2008

Mr. MILLER of Florida. Madam Speaker, it is an honor for me to rise today to recognize the 60th anniversary of Pensacola Junior College, the oldest public two-year college in Florida. The college has served the residents of Northwest Florida with distinction, and it is a privilege to recognize its 60 years of devoted service to the community.

Pensacola Junior College opened its doors in an old boarding house on the corner of Palafox and Cervantes Streets in downtown Pensacola on September 8, 1948. A total of 136 students attended the college that year. During the 2007–2008 academic year, PJC served almost 34,000 students. Today the college has full-service campuses in Pensacola, Warrington, and Milton, as well as a Down-

town Pensacola Center and a Pensacola Naval Air Station Center. The college is in the process of opening new locations in North Escambia County and South Santa Rosa County. Almost 40 percent of graduating seniors from local high schools begin college life at PJC.

Pensacola Junior College is widely recognized as one of the premier two-year colleges in America, offering more than one hundred majors and areas of concentration, along with the latest high-tech resources. The Mary Ek Dahl Smart Center for Patient Simulation Training & Research on the Warrington campus is one of the nation's outstanding nursing education centers. The Anna Lamar Switzer Center for Visual Arts and the Ashmore Center for the Performing Arts both serve as centers for the area's cultural community. The college's Public Broadcasting Service station, WSRE, provides area residents with quality programming, as well as an abundance of other educational services.

Accredited by the Southern Association of Colleges, PJC offers associate of arts degrees, associate of science degrees, and associate of applied science degrees, as well as a multitude of certificate programs. In addition, PJC offers excellent opportunities through its distance learning programs, adult basic education and continuing education departments, dual enrollment program, and adult high school.

PJC is led by an outstanding, local board of trustees, chaired by Mr. Vincent Andry, with Mr. John O'Connor as vice chairman. The college welcomed recently its sixth president, Dr. Ed Meadows. Almost 100,000 students have graduated from PJC over the past 60 years, and more than one million students have attended PJC during its 6 decades of service. It is a privilege to have this outstanding college as an integral part of the Northwest Florida community.

Madam Speaker, on behalf of the United States Congress, I am proud to recognize the 60th anniversary of Pensacola Junior College.

HONORING THE 30TH ANNIVERSARY OF THE ARMENIAN GENERAL ATHLETIC UNION AND SCOUTS-HOMENETMEN

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 15, 2008

Mr. SCHIFF. Madam Speaker, I rise today to recognize the 30th Anniversary of the Armenian General Athletic Union and Scouts-Homenetmen, Glendale Ararat Chapter. As an ardent believer in the strong mind in a strong body concept, Homenetmen provides young adults with scouting, moral, physical, health, social and cultural education. Established on December 15, 1978, by seven volunteer members, the Ararat Chapter has served over 14,000 members since its inception.

Ararat's main focus consists of developing and supervising balanced programs for our community's youth. A dedicated staff of eight, assisted by more than 300 volunteers, does a remarkable job of planning, implementing and overseeing year-round supervised after-school and weekend activities for more than 2,300 children, teenagers and young adults between the ages of 7 and 25.

Homenetmen ensures that youngsters are taught civic and cultural values, volunteerism, teamwork, and leadership training in a family-oriented atmosphere, and are kept away from the negative influences of drugs, gangs and crime.

Homenetmen has always been an influential organization in the community. In accordance with their roots in civic duty, they have built close ties with other community and volunteer organizations. Some of Homenetmen's accomplishments include blood drives with the American Red Cross, drug awareness education programs with the Glendale Adventist Medical Center, preparation of holiday lunches and dinners in cooperation with the Salvation Army, graffiti cleanups, participation in cancer walks and visiting senior retirement homes.

Our community is grateful to Homenetmen and honors them as an important resource in shaping the lives of the children in the 29th Congressional District. I ask my colleagues to join me in congratulating Homenetmen, Glendale Ararat Chapter on their 30th anniversary.

HONORING ERNESTINE PIGG

HON. RON LEWIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 15, 2008

Mr. LEWIS of Kentucky. Madam Speaker, I rise today to pay tribute to Ernestine Pigg, a remarkable citizen from my congressional district. Ernestine recently marked her 45th consecutive year teaching citizenship classes for legal immigrants.

Ernestine Pigg began teaching citizenship classes at Fort Knox, KY in 1963. Her final class graduated in 2007. Through the years, Ernestine has remained exceptionally generous with her time as she's prepared more than 2,000 students to pass a Federal test to become United States citizens.

In addition to her work with immigrants, Ernestine has also volunteered her services and expertise in foreign languages as a teaching assistant at North Hardin High School in Radcliff, KY and at Armor Office Basic classes at Ft. Knox. She has also assisted Army JROTC students with various fundraising activities and community outreach projects.

It is my great privilege to honor Ernestine Pigg today before the entire United States House of Representatives. Her spirit of volunteerism and special commitment to the future success of her students is a portrait of outstanding citizenship worthy of our collective respect and appreciation.

INTRODUCTION OF NATIONAL INTEGRATED PUBLIC HEALTH SURVEILLANCE SYSTEMS AND REPORTABLE CONDITIONS ACT

HON. LEE TERRY

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 15, 2008

Mr. TERRY. Madam Speaker, I am pleased to join my colleagues, Congresswoman BALDWIN (WI-02) and Congressman TOWNS (NY-

10) on the introduction of the National Integrated Public Health Surveillance Systems and Reportable Conditions Act which addresses a critical aspect of our public health system in the United States: our science infrastructure at all levels of government.

That infrastructure, primarily applied epidemiology, laboratory science, and public health informatics, has greatly improved since the mid-1990s, but has not kept pace with the challenges we face today, such as increased foodborne disease outbreaks, emerging infections such as West Nile Virus, growing antimicrobial resistance, pandemic flu, and environmental health threats, particularly to clean air and water.

Many parts of the local-State-Federal disease surveillance system remain fragmented and paper-based, and have not fully benefited from new technologies that could improve the thoroughness and timeliness of reporting. Only two State public health laboratories have bidirectional data flow and can both send and receive laboratory messages, the gold standard for disease reporting. The potential for new pathogen discovery, rapid electronic exchange of public health information, national bacterial and viral databases for DNA "fingerprinting" of infectious disease organisms has not been fully realized.

Madam Speaker, we need a robust, universal, 21st century public health infrastructure that is strengthened at all levels of government to meet these challenges.

The bill we are introducing today will achieve that goal. It will require a very modest expansion of resources, renewed focus and mission, and new areas of special emphasis for several existing programs within the Centers for Disease Control and Prevention, which have never before been authorized. These programs will give public health institutions the capacity to identify and monitor the occurrence of infectious diseases and other conditions of public health importance. It will also improve the detection of new and emerging infectious disease threats, including laboratory capacity to detect antimicrobial resistant infections, identify and respond to disease outbreaks, and hire and train necessary professional staff.

The bill also focuses on improving electronic disease surveillance and reporting by requiring the Secretary, acting through the Director of the Centers for Disease Control to adopt, within 180 days of enactment, guidelines for public health entities to ensure that all State and local health departments and public health laboratories have access to receive, monitor, and report infectious diseases and other urgent conditions of public health importance. These guidelines will be coordinated with the office of the National Coordinator for Health Information Technology and the American Health Information Community.

Grant mechanisms for achieving complete, and updated electronic disease reporting by State and local health departments, and public health laboratories are also delineated and modestly enhanced to ensure the Nation has a seamless, rapid information flow of disease detection and reporting.

We are facing workforce shortages in many areas of our health and public health system. Three recent surveys conducted by the Council of State and Territorial Epidemiologists have established that the number and level of training of epidemiologists is perceived as se-

riously deficient in most States. The need to increase, well-trained, core public health science professionals is addressed in this bill. Fellowship training for key elements of the public health workforce, applied epidemiologists, laboratory scientists and public health informaticians, is authorized and modest funding targets provided.

The bill also authorizes, for the first time, a process for determining a list of nationally notifiable diseases and conditions. The provisions are modeled on the existing process of collaboration between the States and the Centers for Disease Control and Prevention, but provide clarity and structure that enables Congress to monitor and support improvements as events and technology require.

Madam Speaker, the "National Integrated Public Health Surveillance Systems and Reportable Conditions Act" will enhance the Nation's public health capacity by strengthening its core science infrastructure and ensuring a seamless, rapid flow of information. It will help us meet the serious public health challenges of today and tomorrow. I urge my colleagues to consider the benefits of this bill and join as a cosponsor and support its enactment.

PERSONAL EXPLANATION

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, September 15, 2008

Mr. LEVIN. Madam Speaker, I was unavoidably absent on September 8, 9, 10 and 11 during rollcall votes 567 through 588. Had I been present, I would have voted "yea" on rollcall vote 567, "yea" on rollcall vote 568, "yea" on rollcall vote 569, "yea" on rollcall vote 570, "yea" on rollcall vote 571, "yea" on rollcall vote 572, "yea" on rollcall vote 573, "yea" on rollcall vote 574, "yea" on rollcall vote 575, "yea" on rollcall vote 576, "yea" on rollcall vote 577, "yea" on rollcall vote 578, "yea" on rollcall vote 579, "yea" on rollcall vote 580, "yea" on rollcall vote 581, "yea" on rollcall vote 582, "yea" on rollcall vote 583, "yea" on rollcall vote 584, "yea" on rollcall vote 585, "yea" on rollcall vote 586, "yea" on rollcall vote 587, and "yea" on rollcall vote 588.

HONORING THE ART INSTITUTE OF FORT LAUDERDALE

HON. RON KLEIN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 15, 2008

Mr. KLEIN of Florida. Madam Speaker, today, I rise to recognize the achievements of the Art Institute of Fort Lauderdale on its 40th anniversary. Since opening its doors in 1968, the Art Institute has helped countless students grow artistically and develop skills vital to the many industries that graduates of the Art Institute choose.

Just some of the notable Art Institute alumni include: three-time Pulitzer-prize winning photojournalist Carol Guzy, American fantasy artist Tony DiTerlizzi, and fashion designer and tennis world champion Venus Williams.

Currently, the Art Institute of Fort Lauderdale is composed of 15 art departments, two

applied-art schools, and the International Culinary School. The Art Institute of Fort Lauderdale continues to raise the bar in South Florida higher education.

The Art Institute works with Broward, Palm Beach, and Miami-Dade county high schools to help a broader range of students achieve their professional goals through art education. I would like to congratulate the Art Institute of Fort Lauderdale on its first 40 years of expansion and success and wish it all the best in the future.

HONORING THE WESTCARE FOUNDATION'S 35TH ANNIVERSARY

HON. SHELLEY BERKLEY

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 15, 2008

Ms. BERKLEY. Madam Speaker, I rise today to congratulate the WestCare Foundation, headquartered in Las Vegas, which is celebrating its 35th Anniversary this year.

The WestCare story begins in 1973, the same year that saw the launch of the Drug Enforcement Administration (DEA). In that year, a residential treatment program called Fitzsimmons House, or "Fitz House," was begun in Las Vegas. Adopting the therapeutic community treatment modality, Fitz House focused on long-term care for hard-core adult male heroin addicts. Within a few years, WestCare responded to the community's need for expanded substance abuse and mental health treatment and made available services to women and individuals abusing drugs other than heroin.

By 1981, the Fitz House program had expanded to include adult outpatient and day treatment services, as well as substance abuse education. Within 3 years, they acquired what is now known as the Youth Residential Program for Adolescents, and one year later they added a day treatment component for probationers and parolees. Collaboration with Juvenile Court Services and the Nevada Association of Counties led to the establishment of the Regional Family Resource Center in 1986 to provide crisis intervention, substance abuse assessments and referral/placement services for youth and families. In the following year the agency that began as Fitzsimmons House officially adopted the name of WestCare.

By 1992, WestCare had extended its focus on special populations to include school-based substance abuse education and prevention for Hispanic youth. Soon neighboring states were beginning to take notice. After meeting with a group of citizens from the tri-state region of Laughlin, Nevada/Needles, California/Bullhead City, Arizona, the Colorado River Region Youth Service Project (CRRYS) was established in Mohave County, Arizona to address gaps in services for youth corrections and child welfare referrals. Ironically, the program was based in a facility originally constructed to conceal a 10,000-square foot marijuana-growing operation shut down by the DEA.

That group of citizens from the tri-state region would become the first in a series of local boards which oversee WestCare's community-based agencies. That pattern was soon repeated in Fresno, California when WestCare assumed the fiscal and clinical management
