250TH ANNIVERSARY OF FRIENDS MEETING HOUSE AND CEMETERY ASSOCIATION

HON. RODNEY P. FRELINGHUYSEN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 29, 2008

Mr. FRELINGHUYSEN. Madam Speaker, I rise today to commemorate the 250th anniversary celebration of the Friends Meeting House and Cemetery Association of the Township of Randolph, County of Morris, NJ.

On October 11, 2008, the Friends Meeting House and Cemetery Association of the Township of Randolph will celebrate the 250th anniversary of the Friends Meeting House. The Meeting House is the oldest church in continuous use in Morris County and the oldest Quaker Meeting House in northern New Jersey.

In 1758, The Mendham Friends Meeting House and Cemetery was established by the Quakers, who migrated to the Mendham area of Morris County. The name was later changed to the Randolph Friends Meeting House, and the building was used for regular worship until 1865, when it was "laid down." From 1865–1898, the Meeting House was used only for memorial services and the occasional wedding or funeral, while the grounds and cemetery were kept by descendants of the original Quaker families.

In 1898, the Friends Meeting House and Cemetery Association of Randolph Township was formed to oversee the preservation of the Meeting House site. Membership was open to anyone whose ancestors had worshipped in the meeting house or was buried in the cemetery as well as to members of the Friends faith who had an interest in preservation of this important place.

In 1998, the Meeting House celebrated the 100th anniversary of the founding of the association in its current form. In 2007, Friends Meeting House and Cemetery Association was awarded a grant from the Morris County Historic Preservation Trust Fund. This grant will enable the association to fully renovate and preserve the Meeting House building, which has changed little since the 18th century.

Madam Speaker, I urge you and my colleagues to join me in congratulating Friends Meeting House and Cemetery Association of the Township of Randolph on the celebration of this special anniversary.

EARMARK DECLARATION

HON. HENRY E. BROWN, JR.

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 29, 2008

Mr. BROWN of South Carolina. Madam Speaker, I submit the following:

Requesting Member: Congressman HENRY E. BROWN, Jr.

Bill Number: H.R. 2638—Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009.

Account: RDT&E, Defense-wide.

Legal Name of Requesting Entity: GenPhar.

Address of Requesting Entity: 600 Seacoast Parkway, Mount Pleasant, SC.

Description of Project: Provide \$3.5 million to move the Marburg/Ebola vaccines to Phase I clinical trials, which will involve a clinical lot vaccine production for human injection, human safety trials, human dose escalation studies, non-human primate efficacy "bridging" studies, FDA applications, and eventual FDA licensure and approval for human use. The Multivalent Marburg, Ebola Filovirus Vaccine Program has developed novel vaccine technology to create vaccines against all deadly subtypes of Marburg and Ebola. Utilizing previous DoD funding, the program has worked with the Army to develop over 30 Marburg and Ebola vaccine candidates. These studies, conducted by the U.S. Army Research Institute for Infectious Diseases (USAMRIID), demonstrated that the multivalent vaccines were 100 percent effective in protecting monkeys from very high lethal dose challenges using three different strains of Marburg and two different species of Ebola. The Multivalent Marburg, Ebola Filovirus Vaccine Program will provide the DoD with a capability to counteract, in a quick and efficient manner, a biological weapon attack unleashed on U.S. forces or citizens.

Requesting Member: Congressman HENRY E. BROWN, Jr.

Bill Number: H.R. 2638—Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009.

Legal Name of Requesting Entity: Advanced Technology Institute.

Address of Requesting Entity: 5300 International Blvd, Charleston, SC.

Description of Project: Provide \$1.6 million to enable the integration of Navy systems with the VA's Center for Veteran's Enterprise. This would improve the ability to match Navy contracting opportunities with veteran owned small businesses. DoD is required by law to conduct a percentage of its contracts with veteran owned businesses, and the innovations funded under this effort will ensure that as many needs of our nation's military as possible can be met through helping veterans.

Requesting Member: Congressman HENRY E. BROWN, Jr.

Bill Number: H.R. 2638—Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009.

Address of Requesting Entity: 3860 Farber Place Drive, North Charleston, SC.

Description of Project: Provide \$1.6 million to develop and integrate advanced signals intelligence and electronic warfare capabilities into networked Joint Threat Warning System. Program will enable processing of intercepted enemy signals to provide commanders greater information about the battlefield. Project is an ongoing priority of the US Special Operations Command, and is considered by the NSA as a timely innovation.

Requesting Member: Congressman HENRY E. BROWN, Jr.

Description of Project: Provide \$800,000 to enable MUSC to work with the National Functional Genomics Center (NFGC) to develop new and improved cancer treatment through molecular genetics technology. Specifically, the treatment will allow for the extraction of specific genes in individual tumors to create the best chemotherapy mix for that individual tumor. NFGC was created in 2002 and is funded through the DoD Medical Advanced Technology Program. MUSC is a member of the NFGC and has received funding through this program in the past. FY09 funding will be used to purchase robot-screening tools, and the technology will be shared with all members of the Consortium.

Humvees are the backbone of the Army and USMC's tactical truck fleet; the development of the hull protection program will provide first-ever underbelly protection for Humvees, and the kit is able to be installed in the field.

Requesting Member: Congressman HENRY E. BROWN, Jr.

The Army estimates that they need, as a minimum, 120,000 containers to meet the needs of our troops; however, less than 50 percent have been purchased, limiting strategic mobility. Appropriation builds upon over \$10 million funded from FY05 to FY08 and on a current Army contract for these critically important containers.
