CONGRESSIONAL EARMARKS, LIMITED TAX BENEFITS, OR LIMITED TARIFF BENEFITS

Under clause 9 of rule XXI, lists or statements on congressional earmarks, limited tax benefits, or limited tariff benefits were submitted as follows:

OFFERED BY MRS. BONO MACK

Bill Number: H.R. 4841.

Account: Bureau of Indian Affairs, Indian Land and Water Claim Settlements.

Legal Name of Requesting Entity: Soboba Band of Luiseño Indians.

Address of Requesting Entity: P.O. Box 487, San Jacinto, CA 925816.

Description of Request: Within H.R. 4841, funding is authorized for the Soboba Band of Luiseño Indians (Tribe), as well as those that were party to the Settlement Agreement in the legislation, and overseen by Eastern Municipal Water District, as they will submit a plan to the Secretary of the Interior on behalf of the Water Management Plan. The Tribe is requesting the appropriation of \$10,500,000, as authorized by the legislation. Specifically, the Tribe requests \$5,500,000 to be appropriated in the FY 2010 budget to the

Soboba Band of Luiseño Indians Water Development Fund to pay or reimburse costs associated with constructing, operating, and maintaining water and sewage infrastructure, and other water-related development projects. The Tribe and other local cities and Water Districts also are interested in \$5,500,000 being appropriated in the FY 2010 Budget to San Jacinto Basin Restoration Fund to pay or reimburse the costs associated with constructing, operating, and maintaining the portion of the San Jacinto Basin recharge project. These Funds will be established and authorized for appropriation upon final approval of H.R. 4841.

H.R. 4841 was heard by the House Subcommittee on Water & Power on March 13, 2008. Based upon the strong testimony of Majel Russell, Principal Deputy Assistant Secretary of Indian Affairs, Department of the Interior and the statements made by Members of the Subcommittee, it is my hope that the legislation will be favorably reported by the Subcommittee and full Committee on Natural Resources.

Justification for Inclusion in FY 2010 Budget: There are several reasons why it is important that this authorization moves forward, so that funding could ideally be reflected in the 2010 Budget. First, the groundwater basin to which the settlement applies is in substantial overdraft. Second, this shortage is further aggravated by current severe drought conditions and by new environ-

mental restrictions on imports via the State Water Project and Colorado River Aqueduct. Finally, the Tribe, as well as the Water Districts and local communities, will incur substantial interest and opportunity costs by delays in appropriations.

CURRENT DROUGHT AND ENVIRONMENTAL RESTRICTIONS ARE IMPACTING WATER REPLENISHMENT

These current activities and situations in California will have an adverse impact on water replenishment to the region:

U.S. District Court Judge Oliver W. Wanger's May 25, 2007 determination on the inadequacy of the U.S. Fish and Wildlife Service Agency's Biological Opinion on the Delta Smelt (See Natural Resources Defense Council v. Dirk Kempthorne, 1:05-CV-01207 OWW);

Seven year drought at the Colorado River basin, according to the Bureau of Reclamation (See <http://www.usbr.gov/uc/feature/drought.html> (last visited March 20, 2008));

Observation of extensive Quagga Mussel growth in the Colorado River Aqueduct system, according to California Science Advisory Panel (See <http://www.dfg.ca.gov/invasives/guaggamussel/does/2007-SAP-Report.pdf>, last visited March 20, 2008);

Record low rainfalls in the San Jacinto Valley.

These combined occurrences have eliminated imported water replenishment into the San Jacinto Basin.

WATER DISTRICTS, LOCAL COMMUNITIES AND THE TRIBE WILL FACE SIGNIFICANT FINANCIAL AND OPPORTUNITY IMPACTS FROM A THREE-YEAR SCHEDULE

To meet the original December 31, 2007, contained deadline in the Settlement Agreement, Eastern Municipal Water District and Lake Hemet Municipal Water District, initiated discussions with the Cities of Hemet and San Jacinto to determine the equitable share of each local entity for the construction of the recharge facilities. Based on the discussions between these four local entities (which began several years ago) and the urgency to meet the December 2007 deadline set by the original Settlement Agreement, the local entities decided to initiate construction of recharge facilities in March of 2007. The local parties have been in negotiations for several years on how they would pay for these facilities. The project cost is currently estimated at \$23 million, in addition to the existing facilities that are already in place. The groundwater utilization as a water supply by the four local entities also requires the cities of Hemet and San Jacinto to pay for about one third of the costs related to this project. The timing of the project's financing is thus important to my Congressional District.
