

nontoxic. It is threatened by NO_x and other toxin materials that come out of engines in cars and other sources. So if we only focus on CO₂, we will end up focusing on the wrong target.

What we need to do is make sure that we develop clean energy sources, not because of global warming but because of the health of our children. And also, we need to be independent of foreign sources. The fact is that foreign sources of oil, because we are not developing our own oil resources as a result of the dynamics created by the global warming juggernaut that we have been experiencing, the fact is that we have not drilled for our own oil. We have not focused on real alternatives to energy like nuclear energy. The fact is that we need to make sure right now that we do our very best not to be captured by this, what I consider to be one of the greatest hoaxes that I have seen in my lifetime, but instead focus our efforts on accomplishing something that is real and positive for the people of the world and the people of the United States of America. We should be drilling for oil so that the terrorists overseas are denied the revenue when we are forced to buy oil from countries that are allied with these terrorists.

We need to make sure that we develop better engines, and make sure that those engines are not putting pollutants into the air and forget about the CO₂, go to the pollutants.
