

Whereas Speaker Pelosi and Majority Leader Hoyer knowingly scheduled and began consideration of the President's veto of H.R. 2419, without regard to the serious and obvious constitutional questions and detrimental implications to the sanctity of the House and its process;

Whereas at the direction of the Republican Leader, senior staff contacted the Chief-of-Staff to the Speaker and the Floor Director for the Majority Leader, requesting that they immediately halt consideration of the veto message until the facts surrounding the errors could be sorted out and all Members could be notified;

Whereas the Democratic Leadership refused that request;

Whereas in the 109th Congress, the current Speaker, Nancy Pelosi, offered a privileged resolution, H. Res. 683, accusing the Republicans of concealment, incompetence, and corruption with respect to the enrollment error of the Deficit Reduction Act;

Whereas the Deficit Reduction Act was the subject of numerous lawsuits questioning its validity due to the enrollment error, including a lawsuit filed by several Democratic Members;

Whereas in a memorandum from the Clerk of the House to Speaker Nancy Pelosi entitled "Farm Bill Omission" and dated May 21, 2008, the Clerk stated "Enrolling Division staff expressed concern in receiving direct calls from Leadership and the Committee to accelerate the enrolling process."; and

Whereas the Democratic Leadership's repeated efforts to thwart the normal legislative process by cutting corners, ignoring requirements of the Constitution and House rules, and rushing through legislation with major errors, forces Members to vote on controversial legislation without thorough time for review and must be denounced:

Now, therefore, be it

Resolved, That—

(1) the Committee on Standards of Official Conduct shall begin an immediate investigation into the abuse of power surrounding the inaccuracies in the process and enrollment of H.R. 2419, Food and Energy Security Act of 2007, vetoed by the President on May 21, 2008; and,

(2) the Speaker, Majority Leader and other Members of the Democratic Leadership are hereby admonished for their roles in the events surrounding this enrollment error.

The SPEAKER pro tempore. The resolution qualifies.

MOTION TO TABLE

Mr. CARDOZA. Mr. Speaker, I move to lay the resolution on the table.

The SPEAKER pro tempore. The question is on the motion to table.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. BOEHNER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 220, nays 188, answered "present" 10, not voting 16, as follows:

(2) REQUIRED ACTION BY SECRETARY.—

(A) IN GENERAL.—The Secretary shall proportionately reduce base acres on a farm for covered commodities for land that has been subdivided and developed for multiple residential units or other nonfarming uses if the size of the tracts and the density of the subdivision is such that the land is unlikely to return to the previous agricultural use, unless the producers on the farm demonstrate that the land—

(i) remains devoted to commercial agricultural production; or

(ii) is likely to be returned to the previous agricultural use.

(B) REQUIREMENT.—The Secretary shall establish procedures to identify land described in subparagraph (A).

“(i) EFFECT OF SALE.—Subject to subparagraphs (E) and (F), if 1 or more factories of a processor of beet sugar (but not all of the assets of the processor) are sold to another processor of beet sugar during a crop year, the Secretary shall assign a pro rata portion of the allocation of the seller to the allocation of the buyer to reflect the historical contribution of the production of the sold 1 or more factories to the total allocation of the seller, unless the buyer and the seller have agreed upon the transfer of a different portion of the allocation of the seller, in which case, the Secretary shall transfer that portion agreed upon by the buyer and seller.

“(ii) APPLICATION OF ALLOCATION.—The assignment of the allocation under clause (i) shall apply—

“(I) during the remainder of the crop year for which the sale described in clause (i) occurs; and

“(II) during each subsequent crop year.

“(iii) USE OF OTHER FACTORIES TO FILL ALLOCATION.—If the assignment of the allocation under clause (i) to the buyer for the 1 or more purchased factories cannot be filled by the production of the 1 or more purchased factories, the remainder of the allocation may be filled by beet sugar produced by the buyer from other factories of the buyer.

“(I) assign an allocation for beet sugar to the new entrant that provides a fair and equitable distribution of the allocations for beet sugar so as to enable the new entrant to achieve a factory utilization rate comparable to the factory utilization rates of other similarly-situated processors; and

“(II) reduce the allocations for beet sugar of all other processors on a pro rata basis to reflect the allocation to the new entrant.

“(iii) ALLOCATION FOR A NEW ENTRANT THAT HAS ACQUIRED AN EXISTING FACTORY WITH A PRODUCTION HISTORY.—

“(I) IN GENERAL.—If a new entrant acquires an existing factory that has processed sugar beets from the 1998 or subsequent crop year and has a production history, on the mutual agreement of the new entrant and the company currently holding the allocation associated with the factory, the Secretary shall transfer to the new entrant a portion of the allocation of the current allocation holder to reflect the historical contribution of the production of the 1 or more sold factories to the total allocation of the current allocation holder, unless the new entrant and current allocation holder have agreed upon the transfer of a different portion of the allocation of the current allocation holder, in which case, the Secretary shall transfer that portion agreed upon by the new entrant and the current allocation holder.

“(II) PROHIBITION.—In the absence of a mutual agreement described in subclause (I), the new entrant shall be ineligible for a beet sugar allocation.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. PETERSON) and the gentleman from Ohio (Mr. BOEHNER) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota.

Mr. PETERSON of Minnesota. Mr. Speaker, I yield myself such time as I may consume.

The bill before the House is identical to the provisions of the conference agreement on H.R. 2419 as adopted by the House and the Senate, with the exception of the added provisions to ensure, number one, that the legislative history associated with H.R. 2419 is carried forward; and, number two, that the two bills do not have simultaneous force and effect. Otherwise, by passing this bill, we are giving ourselves another opportunity to send to the President exactly what the House and the Senate have already passed by large bipartisan votes.

Mr. Speaker, I reserve the balance of my time.

Mr. BOEHNER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, yesterday the House voted to override a bill that the President vetoed, except that it wasn't the bill that the House and Senate had passed. And rather than stop, try to determine what the problem was and then to work toward an agreement as to how we proceed, it didn't happen. As a result, we are now stuck in this quagmire of trying to determine how best to get this bill enacted into law. Yet, once again, instead of stopping, sitting down and working in a bipartisan way to understand what happened and how we ought to resolve this, the majority is continuing to just move vehicles to the Senate, hoping that they can sort it out.

Now, my colleague and friend from Minnesota says that this 1,768-page bill is identical, with exceptions, to the bill that the House passed. If I could ask the gentleman from Minnesota, did you read all 1,768 pages of this?

Mr. PETERSON of Minnesota. Not this morning.

Mr. BOEHNER. Did anybody read all 1,768 pages of this?

Mr. PETERSON of Minnesota. My staff worked through this and assured me this is the exact same bill that passed the House and Senate and was sent to the President.

Mr. BOEHNER. Reclaiming my time, this bill, 1,768 pages, was introduced less than 1 hour ago. There are no Members who have read this. I doubt there is any staff that has read all of this, because you couldn't possibly have read all of this over the course of the last hour. 1,768 pages, \$300 billion over the next 5 years, \$600 billion over the next 10 years. Yet we are going to

expect Members to come down here and cast a vote on this, not knowing what is in here.

We thought that when we passed the farm bill, it was the bill that passed the House and the Senate. The President thought the bill sent to him was the bill that the House and Senate passed. We thought it was the bill the House and Senate passed. But, guess what? It wasn't. Now we are being asked to vote on a 1,768-page bill that spends nearly \$300 billion over the next 5 years, we have had the bill for less than an hour, and everybody is hoping, hoping, it is the same bill that we passed, except with some enrolling corrections. I think that is a real stretch.

I reserve the balance of my time.

Mr. PETERSON of Minnesota. Mr. Speaker, I reserve the balance of my time.

Mr. BOEHNER. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. I thank the gentleman for yielding.

You know, when we pass legislation like this, 1,700 pages, barely have time to print it, let alone read it, we are going to have problems like this. Let me just mention a couple of the problems and issues that have come up over the last couple of days when we have been trying to deal with this legislation.

Our office found out just a couple of days ago after the bill had already passed that there was another subsidy program actually added to the bill during the conference that was not part of the House bill and was not part of the Senate bill. This is potentially a massive, massive liability for the taxpayers. According to the Department of Agriculture, this could mean as much as \$16 billion, in addition to everything else in the bill, additional liability for the taxpayers annually.

We don't know much about this program at all. All we know is that for years now the farming community has been upset that they haven't been able to collect money off the counter-cyclical program and the loan deficiency payment program because prices have been so high. So this new program was put in so the threshold would be much higher at which subsidies kicked in.

The only way this could be scored by the CBO as being compliant with our budget rules is to baseline shop. What that means is instead of taking this year's baseline where we should benchmark our spending off of, it is to go back to last year's baseline. And I believe the information is correct that had we used this year's baseline instead of last year's baseline, CBO informs us that they would have scored this as a \$2 billion hit additionally, rather than being scored even, as it is in the bill. I mention this only because this is just another example of what we get when we move with haste like this, when we get a bill that virtually nobody has read.

Now, the things that we know well about the farm bill should give us pause enough. I mentioned before that we face tremendous problems going forward in terms of entitlements and unfunded liabilities. We are, according to USA Today, and we probably get better information there than what we say on this floor, when you include all of our unfunded liabilities and our debt that is out there, it means that every person in America has a debt of about \$500,000. Half a million dollars in debt is what we owe when you total unfunded liabilities and our debt.

We simply cannot go forward like this and add a \$300 billion bill that pays a farm couple that earns as much as \$2.5 million subsidies and continue to pay down the debt. We are simply adding more.

With that, I would urge rejection of this measure.

Mr. PETERSON of Minnesota. Mr. Speaker, this is, as I said earlier, the exact bill that was voted on and passed by the House and the Senate. The gentleman is wrong. The provision that he is referring to was in both the House bill and the Senate bill, and it was also an original idea from the White House that was in their original farm proposal. So this is not some new program that came about in the conference committee. It was in the bill that passed the House, it was in the bill that passed the Senate, and it was in the President's bill that they proposed. In fact, this was a reform that was suggested by the White House and the administration.

So you can make all kinds of outrageous assumptions and come up with outrageous charges, which has been done for some time on this bill. The idea that there is going to be anybody in this country that has \$2.5 million of adjusted gross income and is going to be able to collect farm payments is complete lunacy. That is not true. And whatever people they have been able to get to score this to come up with these numbers, nobody can verify that. These are more charges that we have dealt with.

This bill was filed on May 13. It has been available for everybody to read since May 13. It is exactly the same bill that has been out there all of this time. The error that was made was made by the Enrolling Clerk, not by this committee, and it is unfortunate. What we are trying to do here is fix the situation.

I am not sure that we need to do what we are doing here. But to try to accommodate some concerns on the part of the minority and others that have raised issues, what we are doing here is re-passing the bill exactly the way that it passed the House and the Senate, the way that it should have gone to the President, so that we can move this bill out of the House, the Senate can deal with it, the President can veto it, we can override it, and in the provisions we will vitiate the work that has been done with the House and

Senate overriding the veto of the current bill.

It is a messy process. It is something we would just as soon not go through. But it is where we are at. We are trying to deal with fixing a clerical error that was caused by the Enrolling Clerk, and we think this is an appropriate way to do that.

I reserve the balance of my time.

Mr. BOEHNER. Mr. Speaker, I am pleased to yield 3 minutes to the ranking Republican on the House Agriculture Committee, the gentleman from Virginia (Mr. GOODLATTE).

Mr. GOODLATTE. I thank the leader for yielding and for all of the effort that he and virtually every Member of this House put into this legislation now. If some of us are experiencing a sense of *deja vu*, it is because we are considering the exact same bill that we passed with overwhelming bipartisan support last Wednesday. The Senate also passed the bill by a significant margin.

However, yesterday it was determined that somewhere between the House and Senate passage of the farm bill, while the bill was being enrolled, title III, the trade title, was accidentally omitted from the enrolled bill that was then sent to the President. To avoid future uncertainty or constitutional questions about the bill omitting the trade title, we are presenting the same farm bill that we passed last week to both chambers and running it back through the necessary procedures to ensure the whole bill becomes law.

While the substance and content of the bill is the exact same as we passed last week, three technical items have been added to reflect the technical corrections necessary. The technical changes to correct the clerical error include, one, a slight change to the long title in order to distinguish the bill from H.R. 2419; a provision that deems the conference report on H.R. 2419 to be the legislative history of this new bill; and a provision that prevents duplication of the identical sections on H.R. 2419 upon adoption. This would prevent double spending if the Senate overrides the veto and 14 titles are in law when this new bill is enacted.

Other than those technical corrections, we are simply redoing the farm bill to correct the error.

Let me say that while it was an unfortunate error, it also was an egregious error. This is a very serious problem that has been created, and we are seeing that reflected in the fact that we are taking several different approaches to try to make sure that the farm bill which had that strong bipartisan support is indeed enacted into law. So it is with some disappointment that I see the majority table the privileged resolution offered by the Republican leader and not look into this in greater detail. I think it certainly deserves that attention, and it would be my hope that the majority would reconsider that approach and bring that privileged resolution to a vote so we

can get to the bottom of all the considerations that need to be made regarding this and how this can be avoided in the future, but also to find out exactly what indeed did happen in the past few days that led to the unfortunate situation we find ourselves in today of again finding it necessary to pass this legislation, which I urge my colleagues to again adopt, as they already have voted for it once and have subsequently voted to override the President's veto, so we can indeed do what America's farmers and ranchers seek, and that is to have a new farm bill that is forward looking and that does address the concerns that have been brought to the attention of the committees.

Mr. PETERSON of Minnesota. Mr. Speaker, I reserve the balance of my time.

Mr. BOEHNER. Mr. Speaker, I reserve the balance of my time.

Mr. PETERSON of Minnesota. Does the gentleman have further speakers?

Mr. BOEHNER. Just myself. I will be happy to close.

Mr. PETERSON of Minnesota. Okay. We will give the minority leader the opportunity to close. I will just make some brief comments, and then yield back my time.

At this point I will reserve my time.

□ 1300

Mr. BOEHNER. So I can assume that the gentleman only has himself to close.

Let me yield 1 minute to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. I thank the gentleman for yielding.

I just wanted to respond to the statement that was made that we were wrong on the ACRE program in terms of what bills it was in. The ACRE program was not in the House-passed bill. It was in the conference report that passed the House later, is my understanding. It may have been in the Senate bill, but it wasn't a version that ended up in the bill itself.

Mr. PETERSON of Minnesota. If the gentleman will yield, we had an optional ACRE in our bill that passed the House.

Mr. FLAKE. That is not the information that I had.

And the point that I made with regard to the scoring by CBO stands. If you use an earlier baseline, it affects it tremendously. If you use the baseline that we should be using under the budget rules adopted by this House, by this majority, then the program would not score as it did; it would score as a big hit to the taxpayer rather than something else.

Mr. PETERSON of Minnesota. Would the gentleman yield?

We had an option to ACRE in the House bill that was different than the Senate. We had a national trigger, they had a State trigger. So it was in both bills.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. BOEHNER. I yield the gentleman 1 additional minute.

Mr. FLAKE. I would like to see it. My information was that it was not in the House bill; and, that if it was in the Senate, it was considerably different than what came over here.

But I think one thing we know is it was not appropriately vetted, because USDA was completely surprised at the numbers that came out. They are the ones, when they are saying all these numbers are flying around, the \$16 billion in exposure is from the USDA. It is not pulled from some outside group or some other group, it is the USDA that is saying that this could cost us an additional \$16 billion. And that should be considered, and it wasn't in this House; it simply was swept under the rug. That is what happens when you deal with a bill this big this quickly.

Mr. BOEHNER. Mr. Speaker, I yield myself the balance of our time.

Most of my colleagues know that I opposed the farm bill when it originally came up, and I opposed it because it was filled with earmarks. There was a \$250 million earmark for a ranch in Montana, there was an earmark for \$170 million for salmon fisheries on the West Coast, and a number of other earmarks in the bill. And as has been pointed out, the more that this bill has lain around, the more that we have found other provisions in the bill that Members, let's say, it may have not caught their eye when it went through the House or the Senate.

The point that I am making is that given the commodity prices that we have in America, we can do better with this farm bill.

I understand the need for a farm bill and a need to ensure that America's farmers and ranchers have the kind of program that will ensure that America has a sufficient food supply and, frankly, a sufficient supply of food to export to many countries around the world.

But having said that, when we have over \$5 a bushel corn, over \$13 a bushel for soybeans, wheat in double digits, to be spending some \$287 billion on this program I think is unwarranted. As I said when we considered the conference report on the farm bill last week, we can do better. This is the same old-same old that we have been doing for some 50 years.

While I appreciate the work that my colleagues put into it, I have worked closely with Mr. PETERSON and Mr. GOODLATTE for an awful long time, 18 years with my friend Mr. PETERSON, 16 years with my friend Mr. GOODLATTE. We have been through a lot of farm bills together and a lot of agriculture issues together. But at some point the American people look up and say, whoa, Washington, you are broken. And my point has been is that this farm bill is just another example; that at a time when we have got the highest food prices in the history of the country, we have the highest commodity prices we have ever had, we are continuing to go down the same old path.

The point that Mr. FLAKE brings up, something that I was unaware of in the

bill, something I think most Members were unaware of in the bill, is this new revenue assurance program that allows American farmers over the next 2 years to lock in at today's prices for the future.

Now I think that is the best deal in the world. How many Americans wouldn't like to say, I am going to lock my salary in for the next 5 years, guaranteed. No chance they would ever lose their job, no chance that their pay will ever get cut. Let me tell you, when it is too good to be true, it usually is.

Now if the farm bill isn't bad enough, the process that we are going through to try to rectify an error is—again, remember we have had this bill just over an hour. I am hurrying my back trying to lift this thing, 1,768 pages, and just over 1 hour ago we got this.

I know the intent of the gentleman from Minnesota, the chairman, is that this be identical to the conference report that we passed. But nobody knows. Nobody has read it. Nobody has had a chance to read it. I urge my colleagues to vote "no."

I yield back the balance of my time. Mr. PETERSON of Minnesota. Mr. Speaker, I have a copy of the House-passed bill, and in our bill we had a countercyclical revenue assurance program that was a national trigger, as I said earlier.

This is an idea that came about from the White House, and it is not something that is going to be given to people just automatically. This is reviewed as a reform and it was sold as a reform by the White House, and I was skeptical of it.

But you have to give up 20 percent of your direct payments in order to get into this program. You have to lower your loan rate 30 percent. And this works not only going up, it works going down. So people are taking a risk by getting involved in this program as well as opportunity on the other side.

So you can have your arguments about it, but this is something that we are trying out as an option. It is something we are going to see how it works between now and 2012. There are a lot of people, including the administration, that think that this is a better way to go than the current target priced countercyclical marketing loan situation that we have. We will see. I have been skeptical of it. But there are people in the Senate and other places that were thinking that this is a good reform.

Now this idea that was just put forward by the minority leader that somehow or another this \$287 billion goes to farmers, we have editorial writers saying the same thing around this country. The reality is that what actually goes to farmers under this bill is less than 9 percent of the bill, the traditional crop supports. 73.5 percent of the 10-year bill goes to nutrition. And if you add in crop insurance and the new disaster program, which is paid for, for the first time, you are up to about 15 percent of the total bill going to farmers.

So this idea that \$287 billion is going to farmers is not true. All of the new money in this bill is going to nutrition, going to conservation, going to fruits and vegetables, going to energy. The reality is that what is in this bill for farmers is less than it was in the old law. This bill is less than the total cost of the 2002 bill. This bill is less than what passed the House and the Senate. And this bill is exactly what we passed in the House, exactly what we passed in the Senate, and was sent to the President. What we are trying to do here today is fix this problem. I encourage my colleagues to support this bill, and let us get this farm bill finally resolved.

Mr. BERMAN. Mr. Speaker, I rise in strong support of the nutrition title of the pending bill. It includes many urgently needed improvements to our food assistance programs for low-income people.

As a senior member of the Judiciary Committee, I am particularly pleased to see this title includes language to correct a couple of problems that have arisen relating to the enforceability of the Act and to ensure that no further problems exist.

The Food Stamp Act has long been recognized as fully enforceable on behalf of active and prospective participants. This history of enforceability is comparable to that of securities regulations, which the courts have long accepted. When, many years ago, a panel of the Fifth Circuit found no private right of action under the Food Stamp Act in a case brought by a pro se plaintiff, several other circuits, and ultimately the Fifth Circuit en banc, rejected that conclusion. Had they not done so, I have no doubt we would have intervened.

Recently, a couple of Federal courts cast doubt on this long-held principle, one by finding the Department's regulations on bilingual service unenforceable and another by forcing plaintiffs to meet the high standards for supervisory liability when suing a State to enforce the act and regulations against local agencies. I am pleased that this legislation overrules both of those decisions.

More broadly, the legislation recognizes that lawsuits by individual households or classes of household to enforce their rights under the act and regulations are an important part of the program. There now should be no doubt, if there ever was any, that all provisions of the act and regulations that help individuals get food assistance, or that protect them from burdens in their pursuit of food aid, are intended to create enforceable rights, with corrective injunctions or back benefits (the latter subject to the limitations in the act) as appropriate.

The act does not require States or the Department only to exercise reasonable efforts or to substantially comply with its requirements and those in the regulations: it gives each individual a right to be treated as the act and rules provide. The act and regulations have an unmistakable focus on the benefited class of participants and prospective participants, they are written in mandatory, not precatory terms, and they are concerned with the treatment of individuals as much as they are with aggregate or system-wide performance.

I cannot imagine how Congress could be any clearer in this regard. I anticipate that we will have no further confusion concerning the enforceability of the act and regulations.

Mr. BACA. Mr. Speaker, the nutrition title in the Conference Report for the 2008 Farm Bill is a monumental achievement for the millions of Americans who struggle to put enough healthy, nutritious food on the table. I know it's not always easy to make ends meet and to put food on the table each day. I've walked in those shoes, and I've sat at that table. But with this bill we start to fulfill our responsibility to our neighbors. We have improved and strengthened food stamps and other important nutrition programs for our children and seniors. I want to take a few minutes to expand upon some of the accomplishments that are in this nutrition title.

First off, we have updated the name of the program. The new name will be SNAP: The Supplemental Nutrition Assistance Program. We needed a new name because there are no places left in this country where food stamps actually are "stamps." Instead, like with other modern transactions, people swipe their cards at the store to access their benefits. This has been a huge success for reducing fraud and stigma in the program. We hope and expect that the new name and new image for the program will help us to continue to chip away at the stigma that keeps some proud people, especially senior citizens, from signing up for help in paying for their groceries and puts them at risk of hunger.

The name reflects the fact that the program provides a "supplement" to help people afford an adequate diet when their own resources are not quite enough. We also say "nutrition," instead of "food," because the program is about more than just food. It has got a vibrant nutrition education component to help our low-income population learn about healthy diets and make the choices that will improve their health status over their lifetimes. So I'm very proud of this new name for food stamps: an established program that is one of the best government programs we've got. Let me be clear, however, that in changing the name and eliminating food stamp coupons we did not intend to make any other policy changes to the program.

I think the biggest single accomplishment in the nutrition title is to end the decades of erosion in the value of food stamp benefits. We're all aware of the rising gas and food prices of recent months and the bite they've taken out of the pocketbooks of most Americans. But for many low-income Americans the squeeze has been getting tighter for decades, as the value of their food stamps has been able to purchase less and less food with each passing year. Food stamp benefits average only \$1 per person per day. It's not easy to purchase a healthy, nutritious diet on such a limited amount.

So in this bill we have addressed this problem. We made critical improvements, and, for the first time in the program's history, we have ensured that, in every aspect, the food stamp program keeps its purchasing power over time. We raise the standard deduction from \$134 to \$144 and index it for inflation. That is an important accomplishment. It helps about 10 million people afford more food—families, seniors, people with disabilities—all types of low-income food stamp recipients are helped by this change. We raise the minimum benefit, and index it for inflation. We uncap the dependent care deduction so that families can deduct the full cost of the child care they so desperately depend on to hold down their

jobs. And we index the asset limits. We don't know what the future will hold. Hopefully, the high inflation of the past months will shortly subside as the country gets back on track. But we now can rest assured, as never before, that if there is substantial inflation our low-income families and senior citizens won't lose out on food.

For me what this bill really is about is people. It's about our senior citizens who have worked hard their whole lives and deserve better than to face the fear of hunger in their last years. It's about children, who come home from school and look to their parents to put a nutritious meal on the table.

One of the groups that will be most helped are our Nation's senior citizens. We were able to increase the minimum benefit, which goes predominantly to senior citizens, from \$10 to about \$14 a month. This is the first increase in almost 30 years in the minimum benefit. I would have liked to have increased it even more, but this change will help make it worthwhile for some of our seniors who qualify for a low benefit to participate in the program. We did this by setting the minimum benefit at 8 percent of the thrifty food plan for a single person. Because USDA adjusts the thrifty food plan every year for increases in food prices, so too will the minimum benefit now adjust. In addition, because of higher food prices in some places, like Alaska, Hawaii, and some of the territories, seniors in these places will now also see a modestly higher minimum benefit. For example in some parts of Alaska, the minimum benefit will be as high as \$25 per month.

In this bill we've also excluded retirement accounts from assets and indexed the asset limits to inflation. These changes will help seniors and working families to save for the future. It makes no sense to require people who fall on hard times to virtually liquidate all of the savings they've managed to put away in order to get help paying for groceries for themselves and their families. Our seniors, especially, may have no ability to replace these savings, and as a result, no cushion to deal with unexpected expenses. And a working family who is forced to spend down savings now will be that much closer to poverty in their older years. So this is an important change for the long-term ability of low-income individuals to move toward financial independence and for our senior citizens to be able to retain an ability to support themselves in their retirement.

But I also want to reaffirm that we did not take away, as President Bush proposed, the State option in the food stamp program to design a more appropriate asset test at the State level. In my home State of California the legislature and Governor have been working together to design an "expanded categorical eligibility" program that will revise the asset limit for many food stamp recipients and make it easier for them to save for the future. I hope that other States consider this option, and I urge USDA to work with other States to promote this important policy.

In another major improvement for senior citizens, we have expanded to seniors a State option from the 2002 farm bill that dramatically reduces paperwork requirements. This policy is known as "simplified reporting" and it will allow seniors to participate without filing paperwork for 12 month periods, unless they have a major increase in their income that makes them ineligible for food stamps. I urge

USDA to make this option as simple and streamlined for seniors and States as possible, and to find ways to insulate food stamp benefits from interactions with other programs that low-income seniors participate in, particularly Medicaid.

Finally, we have heard reports that despite the overwhelming success of the electronic benefits, some seniors can find the technology confusing. For those at the minimum benefit who receive maybe only \$10 to \$20 a month, we've heard concerns that if they don't use their benefits fast enough those benefits can be taken away—or moved "offline"—sometimes in as short a period as 3 months, with the senior citizen not understanding why this has occurred. I don't think this is a very common problem, but it is understandable that a senior citizen might want to store up small benefits to use at one shopping trip every few months, rather than have to keep track of the card every month. This bill allows States to move benefits off-line after 6 months of inactivity, but requires them to notify the household and restore the benefits within 48 hours upon request. This benefit reinstatement should be a simple process, and States should aim to help seniors navigate it, so we don't have our seniors being bounced around an EBT call center trying to figure out what happened to their food stamp benefits.

For children and families, the biggest change we make is the increase and indexing of the standard deduction which will significantly boost the ability of low-wage workers to afford food for their families, especially over time. More than \$5 billion of the nutrition title's 10-year investment go to this change, which primarily benefits families with children.

We also lift the limit on the dependent care deduction. This change will help about 100,000 families who pay out-of-pocket child care costs above \$175 per child per month (or \$200 for infants), by recognizing that money that is needed to pay for child care so that a parent can work is not available to purchase food. On average, families who are helped will receive an additional \$40 a month (or \$500 a year), according to the Congressional Budget Office. The dependent care cap has not been raised since the early 1990s, despite the increases in the costs of safe, reliable child care. Families incur all types of costs in order to secure child care for their children, and USDA should continue to allow all of these expenses to count toward the deduction—such as transportation costs to and from day care and the cost of informal care. Finally, as states roll this out to the 100,000 families currently on the program, it's important that they make it easy for eligible families to claim the new deduction. Families shouldn't have to make extra trips to the food stamp office or be at risk of losing benefits if they fail to claim a new higher deduction. A household should never have its benefits cut or reduced because of a failure to document child care expenses, but should be given a full opportunity to receive the higher deduction if they have expenses above the current capped amounts.

We hear all the time that despite the importance and success of the food stamp program, for most families the benefits run out before the end of the month. That is why it is so important that we provide more than \$1.2 billion in this farm bill for additional food purchases for emergency food organizations, like church food pantries and soup kitchens, to feed our

families and seniors. We provide \$50 million in additional funds this year to help meet food banks needs in light of rising food costs. And, we increase the basic The Emergency Food Assistance Program annual funding level to \$250 million. That amount will be adjusted for inflation in future years to insure that this program does not lose any of its food purchasing power.

Another important provision for our children is a provision that ensures that children who receive food stamps can automatically, or "directly" be certified as eligible for free meals. The eligibility rules for the two programs overlap: virtually every child who receives food stamps is eligible for free meals. So making that connection in an automated way can save the family from falling through the cracks or from having to file duplicative paperwork. Unfortunately, too many States and schools don't currently make the connection adequately. So this bill requires USDA to report to Congress annually on each State's progress in directly certifying food stamp recipients for free school meals, and asks for USDA to report on best practices among the various States and school districts. This is a provision that is about good government—there is no reason the government can't make these connections, instead of requiring school administrators and families to be responsible for duplicative paperwork.

In addition to my role as the Agriculture's Subcommittee Chair on Operations, Oversight, Nutrition, and Forestry, I also have the great pleasure to assess this bill from the perspective of my role as the chairman of the Congressional Hispanic Caucus. More than 5 million Latinos, or more than 10 percent of the Latino population, receive food stamps each month. Food stamps constitute 25 percent of total monthly income for a typical Latino family that participates in the food stamp program. All of the changes that I have just described will benefit low-income Latinos who rely upon this program.

I must take one moment to express my deep personal disappointment that we were not able to restore food stamp benefits to all legal immigrants who are currently ineligible for the program. Keeping food assistance from hard-working immigrants with whom we live side by side is simply wrong and I will not stop fighting until we fully repeal the benefit cuts to legal immigrants enacted in 1996.

In spite of this major setback, we have achieved a number of important improvements for the Latino community. First, USDA will conduct a study on the possibility of bringing the Commonwealth of Puerto Rico back into the national food stamp program. Since 1982 Puerto Rico has received a fixed block grant amount for food assistance, rather than be a part of the U.S. program like the 50 States, District of Columbia, Guam, and the Virgin Islands. This block grant does not take into account changes in economic or demographic conditions, such as unemployment or the number of people who are in need of food assistance.

The poverty rate in Puerto Rico (45 percent) is more than three times the national poverty rate. However, because of the block grant, Puerto Rico cannot afford to provide benefits to all households poor enough to qualify for benefits using food stamp program standards. Instead they have been forced to impose rigid eligibility criteria. For example, a family of four

with net income above about \$600 a month (or 34 percent of the Federal poverty level) cannot get any food assistance in Puerto Rico. The same family living in California, or any other State on the mainland, could have almost three times as much income and still be eligible for food assistance. An elderly person living alone faces an income limit of \$192 per month—just 23 percent of the poverty level.

Clearly, some of our most vulnerable American citizens are at risk of being denied food assistance they greatly need. It seems just plain wrong to knowingly leave some Americans with insufficient food. With this study we hope to get a better understanding of what the local conditions are in Puerto Rico, in terms of food costs, poverty and other programmatic factors so that we can figure out how to address the issue in the next farm bill, or earlier if possible.

Another important achievement of the bill is to ensure that both Federal statute and regulations have the full force of law, ensuring that clients who do not receive adequate service under these rules and standards may bring suit. Recently, a district court in Ohio dismissed a case brought against the State to enforce the Department's regulations for serving people whose primary language is not English. I can't speak to whether the case had any merit, but my colleagues and I were surprised and disturbed to learn about the court's dismissal. We felt that it was critical to clarify in this bill that it has always been Congress's intent that the program's regulations should be fully enforceable and fully complied with to the same extent as the statute. The farm bill, therefore, clarifies that the Department's rules on serving non- and limited-English speaking people have the force of law and create rights for households.

Beyond the issue of bilingual access rules, this legislation makes clear that the Department's civil rights regulations are among those which have the full force of law and which households have the right to enforce. Discrimination is not acceptable in any form or at any point in the food stamp certification process. Households should not be assisted, or not assisted, approved or denied for any reason other than an individual assessment of their need for help or their eligibility by the State. I am pleased to be playing a role in making clear that the committee and the Congress wish the program to be administered in compliance with the Food Stamp Act and its regulations.

I'd like to also talk about a somewhat related matter that we did not manage to agree to include in this farm bill, much to my disappointment. I worked hard to include in the House bill, and shepherd through the conference negotiations, a provision that would have strengthened the long-standing policy in the food stamp program that certification and eligibility decisions should be done by State employees, rather than private companies. We would have added to the traditional restrictions around merit systems and provided specific exceptions for certain activities, such as outreach. In recent years the Bush Administration has let two States, Texas and Indiana, experiment with using private companies to collect and review food stamp applications and conduct the sensitive eligibility interview. In my view, these projects are not consistent with current law or good sense. These experiments have been disastrous to the States' treasuries

but, more importantly, to the vulnerable families and senior citizens who rely on food stamps and found their applications delayed or improperly denied. Some people even had their private, personal information shared inappropriately. The activities involved in determining eligibility—and ineligibility—for food stamps should be public functions and should not be governed by profit motive or a company's responsibility to its shareholders.

While the House voted to include this provision in the conference agreement, the Senate did not because of opposition from the other party and a veto threat from President Bush. I regret this outcome and I am determined to not drop this issue until we have restored the proper balance to food stamp administration.

But I urge my colleagues to not forget, that separate from this "privatization" issue, in recent years States have been experimenting with a wide variety of changes to food stamp policies and practices that incorporate new technologies and modern business practices. For example, some States are using technology to create new pathways to apply for and retain benefits such as food stamps, health insurance, and child care, including online applications, online program redetermination or recertification, phone interviews, and call centers where changes in circumstances can be reported.

On the one hand, creating ways for families to participate in these programs without having to travel to a human service office can expand access and save time and money for States and families alike. In fact, in this bill we've created a new option for States to accept food stamp applications over the telephone. No doubt technology offers numerous opportunities for improved customer service and simpler application and retention processes.

On the other hand, if these processes are not well-designed, evaluated, and implemented, then families can face new access barriers. Moreover, some States are exploring these options at the same time that they are reducing human service staffing and closing local welfare offices. These steps can create new access barriers for certain groups of families and need to be carefully monitored. And I am concerned because neither States nor USDA appear to be asking the important questions about what has been the effect of these technological changes on access for food stamp households, particularly vulnerable populations like seniors, people with physical or mental disabilities, or people who do not speak English proficiently. The Government Accountability Office (GAO) last year published a report that found that USDA has not sufficiently monitored the States' "modernization" efforts in terms of their effects on program access, payment accuracy, or administrative costs.

So in this bill we have included several provisions to require that States that are eager to pursue modernized systems are pausing to ask the necessary questions about how to ensure that the new systems are designed in such a way that they are effective tools for connecting eligible families to benefits. In this bill we require USDA to establish standards for when States are making major changes in program operations and to monitor the effects on households, especially the types of households I just mentioned. I urge USDA to do this in a way that yields useful information so that States can refine and improve their systems to

make them as accessible as possible to all clients.

Another provision requires States to adequately pilot test new computer systems before they go full-scale. This responds to situations where States have implemented new computer systems without adequate testing. This occurred even though some at USDA knew that there were weaknesses in the system and that serious benefit delays and errors were likely to occur. We also included a provision the Administration suggested to require States, instead of households, to repay any over-issuances that occur because of one of these preventable major systems failures.

Finally, in light of all of the modernization changes and the potential access to sensitive information that new players may have, we strengthened the act's privacy protections to ensure that anyone receiving confidential information for appropriate program purposes cannot then share that information with a third party. In addition to our fears that too many people may have access to private food stamp information as a result of new technology, we were also concerned that clients have not been able to access their private records. We heard about clients in Texas who had their benefits cut off, or who never were able to obtain benefits, and could not get access to their case records in order to pursue a claim against the State. That is unacceptable. We also clarified that despite all of the changes in how States are storing and maintaining client records, clients can access these records in litigation. These changes are not in conflict because confidential records would continue to be unavailable to the general public and others not having a legitimate reason relating to program administration.

Another concern I have is about two new provisions that would disqualify certain people from food stamps for misusing their benefits. One relates to situations where a recipient of food stamps intentionally uses food stamp benefits to buy a product, like water, that is in a disposable container that can be redeemed for cash, then discards the product and redeems the container in order to obtain the cash deposit. The other new disqualification addresses individuals who intentionally purchase food with food stamp benefits in order to resell the food for a cash profit. I agree that both of these practices are contrary to the purposes of the food stamp program in assisting people in obtaining an adequate diet and it's appropriate to address them in this bill. However, I caution USDA to implement them in a way that ensures that only those who intended to defraud the system in these manners be disqualified. I do not want to see innocent people—who may simply have bought groceries for a neighbor or relative—be caught up as somehow engaging in fraud under this provision.

My concerns here are not completely without precedent. In this bill we are revisiting and clarifying a different disqualification rule that was enacted in 1996, and that has, in fact, ensnared innocent people and denied food stamp benefits in inappropriate ways. The intent of the law was to aid law enforcement and prevent criminals who are fleeing to avoid prosecution from receiving food stamps. Unfortunately, in practice, the provision has disqualified innocent people who had their identities stolen, or who have outstanding warrants for minor infractions that are many years old

and where the police have no interest in apprehending and prosecuting the case.

So in this bill we direct USDA to clarify that people should only be subject to disqualification if they are actively fleeing law enforcement authorities who are, in fact, interested in bringing them to justice.

In addition to the very important changes we have made to the food stamp program and new funding for food banks through TEFAP, the bill would expand and improve the Fresh Fruit and Vegetable Program under the Richard B. Russell National School Lunch Act. This program has been receiving \$9 million a year in mandatory funds and operates in 14 States. (Three Indian tribes also operate the program.)

Under the conference agreement, mandatory funding would increase to \$40 million for the 2008–2009 school year and continue to grow. By 2012, the program would be funded at nearly 8 times its current size: \$150 million each year, with annual adjustments for inflation in years after that.

In addition to providing increased funding, the conference agreement takes important steps to target program funds to elementary schools with a significant share of low-income children. Our goal is to provide free fresh fruits and vegetables to all elementary schools in the country where more than half of the children are eligible for free or reduced price school meals. This program should expose a whole new generation of children to a healthy way of eating.

To sum up, I am extremely proud of the work that our committee and our Congress have undertaken in the nutrition title of the farm bill. With these changes, we are building a healthier better fed population. As a result, we are taking a few important steps towards a stronger future for our children and our communities.

Mr. ETHERIDGE. Mr. Speaker, I rise again today, in strong support of the 2008 Farm Bill.

Mr. Speaker, because of a technical glitch, this Farm Bill will have a new number, but this is the same bill.

This is the same bill that was passed on a bipartisan vote in the House of Representatives, and an overwhelming vote in the other body, and it is still, as it was last week, one of the most important pieces of legislation this Congress has passed this year.

Mr. Speaker, it is critical that we have a stable farm policy in this Nation, for our farmers, and for every child who participates in a nutrition program. This is legislation that affects every citizen in this country.

Again, this is a bill we can all be proud of. I urge my colleagues to support this legislation.

Mr. KUCINICH. Mr. Speaker, although my colleagues have worked hard to provide meaningful reform, this bill maintains agriculture policies that are driving several underlying problems. For example, the single biggest share of subsidies under this bill goes to corn, which drives up food prices through corn based ethanol incentives and which contributes to obesity and diabetes through the overproduction of High Fructose Corn Syrup.

The bill short-changes conservation programs that can reduce global warming pollution. It continues to encourage factory farms where our antibiotics are rendered weak or useless because of overuse on cattle, where cattle are treated inhumanely, where toxic run-

off contributes to contaminated drinking water, and where employees suffer the highest rates of workplace injuries of almost any other industry.

Finally, this Farm Bill maintains massive giveaways to corporate agribusiness instead of helping the vanishing family farmer.

The president has declared his intent to veto this bill because it does not contain adequate reform. Instead, he asserts that Congress should pass a one year extension of the status quo and come back with a farm bill containing more meaningful reform. I agree that the bill falls far short. In voting against the previous version of the Farm Bill, my hope was that Congress would take the last remaining opportunity to construct a farm bill that did not exacerbate the obesity and diabetes epidemics, that was good for the environment, and that favored family farmers over corporate agribusiness.

However, there are now no other opportunities to improve the bill in the near future. At the same time, this Farm Bill contains provisions that give immediate relief from hunger caused by rising food costs. Northeast Ohio, where the situation is particularly urgent, simply cannot wait another year for relief.

Portions of my district, including Lakewood, Fairview Park and Parma, have experienced a 74% increase in participation in the Food Stamp Program between 2002 and 2007. Participation in the food stamp program has increased over the last several years, with an additional 1.3 million people participating in the program in the last year alone.

An unprecedented \$10.4 billion over 10 years has been included in the Nutrition Title of the Farm Bill. Proper nutrition is vital to human life and a basic human right. Funding for the Nutrition Title will have an important impact on preventing domestic hunger by increasing the Food Stamp Program's minimum monthly benefit and The Emergency Food Assistance Program's mandatory funding level.

There are over 35 million people in our nation who face hunger, 12.5 million of whom are children. Hunger centers in Cleveland, Ohio and around the nation report that demand for food assistance has risen by 15 to 20 percent over the last year. Increasingly, middle-class families are turning to food banks to meet their basic nutritional needs. In a recent survey, 83 percent of food banks reported that they are experiencing difficulty in meeting the needs of their communities. The bill increases assistance to food banks by \$1.25 billion. This is an important step to curbing hunger in our nation and upholding the dignity of our citizens.

I will continue to work with my colleagues to achieve the necessary reform to make certain that our citizens have access to wholesome and nutritious foods while preserving our family farms, improving public health and protecting our environment. But the immediate needs of the people of Northeast Ohio, combined with the lack of opportunity to craft a more sustainable alternative, leave me no choice but to vote for this Farm Bill.

Mr. PETERSON of Minnesota. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. PETERSON) that the House suspend the rules and pass the bill, H.R. 6124.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BOEHNER. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

Pursuant to clause 8 of rule XX, this 15-minute vote on the motion to suspend the rules on H.R. 6124 will be followed by a 5-minute vote on the motion to suspend the rules on H. Res. 1194.

The vote was taken by electronic device, and there were—yeas 306, nays 110, not voting 19, as follows:

□ 1333

Mr. BACHUS changed his vote from “yea” to “nay.”

Messrs. WELLER of Illinois, BUYER, HALL of Texas, MILLER of North Carolina, PEARCE, Ms. GINNY BROWN-WAITE of Florida, and Mr. TURNER changed their vote from “nay” to “yea.”

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. CARTER. Mr. Speaker, on rollcall No. 353, On Motion to Suspend the Rules and Pass H.R. 6124, to provide for the continuation of agricultural and other programs of the Department of Agriculture through the fiscal year 2012, and for other purposes, I was unavoidably absent due to a family medical emergency. Had I been present, I would have voted “yea.”

REAFFIRMING SUPPORT FOR THE GOVERNMENT OF LEBANON UNDER PRIME MINISTER FOUAD SINIORA

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 1194, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New York (Mr. ACKERMAN) that the House suspend the rules and agree to the resolution, H. Res. 1194.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 401, nays 10, answered “present” 2, not voting 21, as follows:
