PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-291. A resolution adopted by the Board of Chosen Freeholders of the County of Monmouth of the State of New Jersey urging Congress to reverse the decision to close the United States Army Installation at Fort Monmouth; to the Committee on Armed Services.

POM-292. A collection of petitions forwarded by the Benefit Security Coalition relative to establishing a more equitable method of computing cost of living adjustments

for Social Security benefits; to the Committee on Finance.

POM-293. A resolution adopted by the Senate of the State of Michigan urging Congress to reject legislation that would preempt the authority of the Great Lake states to curb the release of ballast water; to the Committee on Commerce, Science, and Transportation.

SENATE RESOLUTION NO. 86

Whereas, Ballast water discharges from ships entering the Great Lakes are the leading pathway for the introduction of aquatic invasive species. Since the opening of the St. Lawrence Seaway in 1959, ocean-going ships have introduced more than 30 new species to the Great Lakes; and

Whereas, once introduced and established, aquatic invasive species are nearly impossible to eliminate and costly to control. Zebra mussels and other aquatic invasive species introduced from ballast water have irrevocably changed the Great Lakes and directly cost cities and industries—and indirectly cost Great Lakes residents—tens of millions of dollars per year to control; and

Whereas, current federal ballast water regulations designed to protect the Great Lakes are ineffective. At least eleven new aquatic invasive species have been introduced from ballast water since current requirements for ballast water exchange with open ocean water went into effect, including the recent introduction of viral hemorrhagic septicemia (VHS) that directly threatens the \$4.5-billion Great Lakes fishery; and

Whereas, the ocean-going shipping industry has shown little urgency over the last two decades to develop and install ballast water treatment technology, even as it introduced more and more aquatic invasive species to new regions. Rather, the industry has continuously fought efforts in the United States Congress, state legislatures, and the courts to require expeditious treatment of their ballast water. For every year treatment is not required for ballast water, an additional one to two new species, with unknown but potentially devastating impacts, make the Great Lakes their permanent home; and

Whereas, the state of Michigan has succeeded in identifying and requiring treatment technologies that would provide additional protection to the Great Lakes; and

Whereas, Michigan and other states bear primary responsibility for protecting the health and safety of their citizens and the integrity of natural resources for their citizens. The Congress of the United States acknowledged the authority for the Great Lakes states to act unilaterally to protect and preserve the waters of the Great Lakes Basin in the federal Clean Water Act and the National Invasive Species Act, as affirmed this past summer by the United States District Court for the Eastern District of Michigan; and

Whereas, Federal ballast water legislation, such as the Coast Guard Authorization Act of 2007 (H.R. 2830) and the Ballast Water Management Act of 2007 (S. 1578), would preempt Michigan's efforts to protect its waters from further degradation. Preempting state actions before strong federal treatment standards are in place would leave the Great Lakes vulnerable to future invasions and would trample on fundamental states' rights to protect their natural resources. This shortsighted approach undermines the millions of dollars and thousands of hours spent each year working to restore the Great Lakes to a healthy, self-sustaining system; and

Whereas, The Coast Guard Authorization Act of 2007 and the Ballast Water Management Act of 2007 would also set a precedent

for future federal actions that restrict state authority to protect essential natural resources. Clearly, Michigan and other states are best suited to make decisions that keep waters safe, clean, and healthy for its residents with regulations, when needed, above and beyond minimum federal requirements; now, therefore, be it further

Resolved by the Senate, That we memorialize the Congress of the United States to reject legislation that would preempt the authority of the Great Lakes states to curb the release of ballast water; and be it further.

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

POM-294. A resolution adopted by the House of Representatives of the State of Maine urging Congress to ensure funding for veterans' health care; to the Committee on Veterans' Affairs.

JOINT RESOLUTION

Whereas, the United States Department of Veterans Affairs provides medical care for all veterans of the United States Armed Forces; and

Whereas, the funding for this health care is passed each year by the United States Congress as part of the discretionary budget; and

Whereas, this health care is seriously underfunded; and

Whereas, this serious and now chronic shortfall affects the veterans' access to quality medical care services; and

Whereas, the United States Department of Veterans Affairs and our Nation have a duty to serve our veterans and have entered into a contract, absolute and irrevocable, to provide them with proper health care: Now, therefore, be it

Resolved, That We, your Memorialists, respectfully urge and request that full funding for health care for veterans of the United States Armed Forces be passed and that all parties involved do their utmost to see that those who served their Nation are given the health care they deserve; and be it further

Resolved, That suitable copies of this resolution, duly authenticated by the Secretary of State, be transmitted to the Honorable George W. Bush, President of the United States, to the President of the United States Senate, to the Speaker of the United States House of Representatives, to the Honorable James B. Peake, Secretary of Veterans Affairs, and to each Member of the Maine Congressional Delegation.
