STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. LEVIN (for himself and Mr. MCCAIN) (by request):

S. 2787. A bill to authorize appropriations for fiscal year 2009 for military activities of the Department of Defense, to prescribe military personnel strengths for fiscal year 2009, and for other purposes; to the Committee on Finance.

Mr. LEVIN. Mr. President, Senator MCCAIN and I are today introducing, by request, the administration's proposed National Defense Authorization Act for fiscal year 2009. As is the case with any bill that is introduced by request, we introduce this bill for the purpose of placing the administration's proposals before Congress and the public without expressing our own views on the substance of these proposals. As chairman and ranking member of the Armed Services Committee, we look forward to giving the administration's requested legislation our most careful review and thoughtful consideration.

By Ms. LANDRIEU:

S. 2790. A bill to amend title XVIII of the Social Security Act to provide for coverage of comprehensive cancer care planning under the Medicare program and to improve the care furnished to individuals diagnosed with cancer by establishing a Medicare hospice care demonstration program and grants programs for cancer palliative care and symptom management programs, provider education, and related research; to the Committee on Finance.

Ms. LANDRIEU. Mr. President, I am pleased today to introduce legislation, the Comprehensive Cancer Care Improvement Act, that holds the promise of empowering cancer survivors and improving the quality of cancer care. Each year, more than one million Americans join the ranks of cancer survivors. Overall, nearly 12 million Americans live as cancer survivors. The legislation I am introducing will provide these cancer survivors with vital tools to help them manage their cancer care during active treatment and in the period of survivorship that follows treatment.

Cancer survivors from the state of Louisiana and their physicians have explained to me in compelling fashion the assistance that cancer survivors need to understand and participate in

their treatment, address the side effects of therapy, and transition to cancer survivorship. I am sure that many of my Senate colleagues have heard incredible stories of survivorship from their own constituents. Management of treatment and its potentially serious side effects is a daunting task. The legislation I am introducing seeks to assist cancer survivors in receiving quality care from diagnosis through survivorship.

A dear friend and citizen of Louisiana, Tucker Melancon, has educated me about the necessity that all elements of cancer care be coordinated and that cancer patients be given assistance in managing cancer as a chronic disease. Judge Melancon and I have been friends for more than 20 years, and since 2001 he has demonstrated courage, strength, and good humor as he has undergone treatment for breast cancer. He has inspired me and many others, and it is with pleasure and humility that I introduce a bill that may help cancer survivors like Tucker receive cancer care of the highest quality.

The core provision of the Comprehensive Cancer Care Improvement Act is the establishment of Medicare payment for the development of cancer care plans and survivorship plans for beneficiaries who are diagnosed with cancer. The Institute of Medicine, IOM, in a series of reports issued between 1999 and 2006, has documented the benefits of written plans that explain to cancer survivors all of the elements of active cancer treatment, including the side effects of therapy, and that detail the steps required to monitor the side effects of treatment during survivorship.

What difference does a written plan of care make? Cancer survivors and their caregivers tell us that a written plan facilitates the coordination of care. That means that care plans provide cancer survivors the tools to receive therapy of the highest quality, accompanied by appropriate management of the side effects of treatment and the symptoms of cancer. Most people treated for cancer experience a range of side effects—including depression, pain, nausea, and vomiting—that can be debilitating and difficult to manage. Proper management of those side effects and symptoms can improve cancer survivors' quality of life and optimize their ability to complete treatment. The IOM has described patients who complete cancer treatment as "lost in transition," uncertain how they will receive health care, including essential follow-up care, after active treatment. A written survivorship plan that details all elements of treatment received by a cancer survivor and that provides a roadmap to care after active treatment eases the transition from cancer patient to cancer survivor.

For patients and health care providers, Hurricane Katrina caused significant interruptions in care. Cancer patients in the middle of treatment

were left to find their displaced physicians or to find new cancer care teams. In either case, they suffered from a lack of information about their ongoing treatment or about follow-up care plans. Enactment of the legislation I am introducing today would not address all of the health care delivery problems created by a natural disaster like Katrina, but it would at least put in the hands of patients critical information about their care. With that information, cancer survivors would be better able to continue their care without serious dislocation.

The U.S. Congress has provided its enthusiastic support to the National Institutes of Health for research to improve the treatment of cancer. By introducing the Comprehensive Cancer Care Improvement Act, I call on my colleagues to join me in a parallel effort to improve the quality of care for Medicare beneficiaries diagnosed with cancer. It is in our power to improve the quality of cancer care for Medicare beneficiaries. By improving Medicare, we set a standard of care for all Americans diagnosed with cancer.

I am pleased to lead the Senate effort to advance the Comprehensive Cancer Care Improvement Act. A companion measure has been introduced in the House by Representatives LOIS CAPPS and TOM DAVIS and already enjoys the support of more than 90 House cosponsors. I urge my colleagues to join me today in supporting legislation that will provide cancer patients a helping hand in obtaining quality cancer care.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:
