

(1) The United States is the world's largest market for pharmaceuticals, yet consumers still pay the world's highest prices.

(2) In 2000, Congress took action to legalize the importation of prescription drugs from other countries by United States wholesalers and pharmacists, and before such a program can go into effect, the Secretary of Health and Human Services (HHS) must certify that the program would have no adverse impact on safety and that it would reduce costs for American consumers.

(3) Since 2000, no Secretary of HHS has made the certification required to permit the implementation of a program for importation of prescription drugs.

(4) In July 2006, the Senate approved by a vote of 68-32 an amendment to the Department of Homeland Security Appropriations Act, 2007, that prohibits Customs and Border Protection from preventing individuals not in the business of importing prescription drugs from carrying them across the border with Canada.

(5) In July 2007, the Senate adopted language similar to the 2007 amendment in the Department of Homeland Security Appropriations Act, 2008.

(6) In October 2007, the Senate adopted language in the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2008, that prohibits anti-reimportation activities within HHS.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) the leadership of the Senate should bring to the floor for full debate in 2008 comprehensive legislation that legalizes the importation of prescription drugs from highly industrialized countries with safe pharmaceutical infrastructures and creates a regulatory pathway to ensure that such drugs are safe;

(2) such legislation should be given an up or down vote on the floor of the Senate; and

(3) previous Senate approval of 3 amendments in support of prescription drug importation shows the Senate's strong support for passage of comprehensive importation legislation.

Whereas a person can live weeks without food, but only days without water;

Whereas every 15 seconds a child dies from a water-borne disease;

Whereas Congress passed and the President signed into law the Senator Paul Simon Water for the Poor Act of 2005 (Public Law 109-121), which was intended to "elevate the role of water and sanitation policy in the development of U.S. foreign policy and improve the effectiveness of U.S. official programs": Now, therefore, be it

Whereas the majority of children are born with cerebral palsy, although it may not be detected until months or years later;

Whereas 75 percent of individuals with cerebral palsy also have 1 or more additional developmental disabilities including epilepsy, intellectual disability, autism and visual impairments, or blindness;

Whereas the Centers for Disease Control and Prevention recently released information indicating an increase in the prevalence of cerebral palsy and that the rate is now about 1 in 278 children;

Whereas 800,000 Americans are affected by cerebral palsy;

Whereas, while there is no current cure for cerebral palsy, some treatment will often improve a child's capabilities and scientists and researchers are hopeful that breakthroughs will be forthcoming;

Whereas researchers across the Nation are conducting important research projects involving cerebral palsy; and

Whereas the Senate is an institution that can raise awareness in the general public and the medical community of cerebral palsy: Now, therefore, be it

Resolved, That the Senate—
