#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. FEINSTEIN:

S. 2841. A bill to amend the Oil Pollution Act of 1990 and title 46, United States Code, to establish a marine emergency protocol and requirements for double-hulling of vessel fuel tanks; to the Committee on Commerce, Science, and Transportation.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce an important piece of legislation. The Marine Emergency Protocol and Hull Requirement Act will take two major steps in preventing oilspills.

First, the bill directs the United States Coast Guard to control and oversee a vessel's route and speed during dangerous conditions. This oversight is critical to protect our ships during an attack or in conditions of low visibility.

Second, the bill will keep dangerous oil and fuel out of our waterways by mandating that all large cargo ships reinforce their fuel tanks with double hulls. By doing so, many of the small mishaps that occur will not lead to major oilspills.

San Franciscans learned the hard way that further precautions and regulations are needed.

Last November, in my hometown, a large cargo ship carrying over 100,000 gallons of fuel, ran into the San Francisco Bay Bridge. The damaged ship poured 53,000 gallons of oil into the bay.

In the following hours and days there was confusion, it was difficult to obtain accurate information, and there was a general sense of frustration felt by Bay Area residents.
