STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CORNYN:

S. 2852. A bill to provide increased accessibility to information on Federal spending, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. CORNYN. Mr. President, throughout my career, I have been working on the front lines of the battle for greater transparency and openness in our Government because I fundamentally believe the more the American people and my constituents in Texas understand about the Government and how it operates, the better accountability can take place, and people will once again feel they are in charge, which is absolutely the case. Knowledge is power, and transparency permits the accountability necessary for our system to work.

Just a few months ago, Senator PATRICK LEAHY, the chairman of the Senate Judiciary Committee, and I were successful in getting a bill signed which modernized and greatly improved our Freedom of Information laws for the first time in many years. Now it is my intent to try to accomplish that same thing with the Federal spending, and that is why today I am introducing the Federal Spending and Taxpayer Accessibility Act of 2008.

The first thing this bill would do would be to create an online earmark tracking system that taxpayers can use free of charge to search for specific earmarks by recipient, by appropriations bill, by State, and by Member, and to do so in a real-time frame of reference during the appropriations process.

Of course, earmarks are especially designated appropriations for particular projects in particular locations. There is a lot of controversy about earmarks, but I think greater transparency would limit the number of earmarks introduced because were they to be completely transparent, it would discourage the use of earmarks and make certain only meritorious ones are accepted by the Congress as part of the appropriations process.

Secondly, my legislation would direct the Internal Revenue Service to provide each taxpayer with a concise, easy-to-read personal record of the amount of taxes they have already paid and an estimate of the amount of taxes they will pay in the timeframe before they retire.

As you know, the Social Security Administration currently already mails out a similar statement, called a Social Security account statement, which gives taxpayers a record of the earnings on which they have paid Social Security taxes and a summary of their estimated future benefits. So this taxpayer account statement would be sort of the mirror image of the Social Security statement, and it would let people know how much taxes they have paid and what their tax obligation would likely be into the future.
