

be similarly drastic. With the state's budget situation still in question due to negative trends in the national economy that threaten to overwhelm state efforts to restore growth, we clearly cannot replace the lost federal money; and

Whereas, as the federal government continues to grapple with the budget and economic growth measures, there is still time for Congress to correct the looming crisis in law enforcement efforts in the states. We know that cuts in funding now, when the economic picture is growing bleak, will make the need to effective law enforcement a victim assistance more important than ever. Congress must restore funding to the Byrne program to fiscal year 2007 levels through a supplemental appropriations act in order to prevent the curtailment or cancellation of key criminal justice programs; now, therefore, be it

Resolved by the Senate, That we memorialize the United States Congress to reverse cuts to the Edward Byrne Memorial Justice Assistance Grant Program; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

POM-346. A concurrent resolution adopted by the Legislature of the State of Louisiana urging Congress to take the actions necessary to ensure adequate funding for veterans' health care; to the Committee on Veterans' Affairs.

HOUSE CONCURRENT RESOLUTION NO. 23

Whereas, the United States Department of Veterans Affairs provides medical care to veterans who have risked their lives to protect the security of the nation; and

Whereas, the United States Department of Veterans Affairs has the largest integrated health care system in the United States; and

Whereas, the missions of the United States Department of Veterans Affairs include providing health care to veterans, educating and training health care personnel, conducting medical research, serving as backup to the United States Department of Defense, and supporting communities in times of crisis; and

Whereas, the United States Department of Veterans Affairs provides a wide range of specialized services to meet the unique needs of veterans, including treatment and care for spinal cord injury, blindness, traumatic brain injury, post traumatic stress disorder, amputation injuries, mental health issues, substance abuse, and conditions requiring long-term care; and

Whereas, federal discretionary funding for veterans' health care is controlled by the executive branch and congress through the budget and appropriations process; and

Whereas, the United States Governmental Accountability Office report in 2005 highlighted the lack of resources and staffing available to the United States Veterans Administration for processing an increasing backlog of veterans' claims; and

Whereas, discretionary funding for the United States Department of Veterans Affairs lags behind both medical inflation and the increased demands for services; and

Whereas, former United States Secretary of Veterans Affairs Anthony Principi has publicly stated that the United States Department of Veterans Affairs has been struggling to provide health care to the rapidly rising number of veterans who require health care; and

Whereas, it is imperative that the members of congress make funding health care for veterans a major priority. Therefore, be it

Resolved, That the Legislature of Louisiana does hereby urge and request the United States Congress to ensure adequate funding for veterans' health care. Be it further

Resolved, That the legislature does hereby express profound and enduring gratitude to veterans for sacrifices made while serving in the United States Armed Forces, particularly those who suffer as a result of injuries sustained during military service. Be it further

Resolved, That copies of this Resolution be transmitted to the president and vice president of the United States and to the members of Louisiana's congressional delegation.

POM-347. A concurrent resolution adopted by the Senate of the State of Louisiana urging Congress to adopt and implement the recommendations of the Veterans' Disability Benefits Commission; to the Committee on Veterans' Affairs.

SENATE CONCURRENT RESOLUTION NO. 28

Whereas, the Veterans' Disability Benefits Commission was established by the Congress of the United States in Public Law 108-136, the National Defense Authorization Act of 2004; and

Whereas, between May 2005 and October 2007, the commission conducted an in-depth analysis of the benefits and services available to veterans, service members, their survivors, and their families to compensate and provide assistance for the effects of disabilities and deaths attributable to military service; and

Whereas, the commission examined the appropriateness and purpose of benefits, benefit levels and payment rates, and the processes and purposes used to determine eligibility for such services; and

Whereas, the commission reviewed past studies on these subjects, the legislative history of these benefit programs, and related issues that have been debated repeatedly over several decades; and

Whereas, in federal fiscal year 2006, the Department of Veterans' Affairs expended over forty billion dollars on a wide array of these benefits and services for veterans, service members, their survivors and their families; and

Whereas, the commission identified eight principles that it believes should guide the development and delivery of future benefits for veterans, service members, and their families; and

Whereas, the following are those eight principles:

(1) Benefits should recognize the often enormous sacrifices of military service as a continuing cost of war, and commend military service as the highest obligation of citizenship.

(2) The goal of disability benefits should be rehabilitation and reintegration into civilian life to the maximum extent possible and preservation of the veterans' dignity.

(3) Benefits should be uniformly based on severity of service-connected disability without regard to the circumstances of the disability (wartime vs. peacetime, combat vs. training, or geographical location).

(4) Benefits and services should be provided that collectively compensate for the consequence of service-connected disability on the average impairment of earnings capacity, the ability to engage in usual life activities, and quality of life.

(5) Benefits and standards for determining benefits should be updated or adapted frequently based on changes in the economic and social impact of disability and impairment, advances in medical knowledge and technology, and the evolving nature of warfare and military service.

(6) Benefits should include access to a full range of health care provided at no cost to

service-disabled veterans. Priority for care must be based on service connection and degree of disability.

(7) Funding and resources to adequately meet the needs of service-disabled veterans and their families must be fully provided while being aware of the burden on current and future generations.

(8) Benefits to our nation's service-disabled veterans must be delivered in a consistent, fair, equitable, and timely manner; and

Whereas, with these principles clearly in mind, the commission has urged the nation to set a firm foundation upon which to shape and evolve a system of appropriate, and generous benefits for the disabled veterans of today and tomorrow. Therefore, be it

Resolved, That the Legislature of Louisiana memorializes the Congress of the United States to adopt and implement the recommendations of the Veterans' Disability Benefits Commission. Be it further

Resolved, That a copy of this Resolution shall be transmitted to the secretary of the United States Senate and the clerk of the United States House of Representatives and to each member of the Louisiana delegation to the United States Congress.
