

At the end of the day, this crisis started with a housing catastrophe and disaster and continues because of it. It is up to us now to decide what we are going to do about it. We can rescue the folks at the top—that is what is being proposed—but we need to do a lot more than that. I think we need to set up a mechanism for those who are about to lose their homes to be protected.

Here is an interesting thing. If you face bankruptcy today and you have seven or eight homes and go into the bankruptcy court, they can renegotiate the terms of all your mortgages, except one. They cannot renegotiate the terms of the mortgage on your home. Why? If they can renegotiate the terms on my vacation home, my farm, my ranch, my property in some other place, why not my home? There is no good explanation. The fact that the bankruptcy court cannot renegotiate leads us, sadly, to the point where banking institutions and credit lenders and the others are not renegotiating terms. They would rather see people fail and face foreclosure. I think we have to do something to make sure the bankruptcy courts have that option. I think there should be incentives for those lending institutions to try hard to keep people in their homes.

Mr. President, 340,000 Americans were foreclosed on in the month of August. It is a record-breaking number. Not since the Great Depression have we seen that percentage of homeowners facing that kind of liability. So we have to keep the taxpayers in mind when we read this proposal of the Treasury. We have to keep homeowners in mind, and we ought to keep accountability in mind. At the end of the day, there is no branch of this Government above the law. When it comes to \$700 billion in taxpayers' dollars and money—and hard-earned money, I might add—they are not above the law.

One last point I wish to make. Senator McCain has made a name for himself in the Senate, calling himself a leading deregulator. He has been opposed to regulation. In fact, he teamed up with Senator Phil Gramm of Texas, who was his inspiration for years, and they voted together on many issues: to deregulate, get the Government out of the economy. Let a thousand flowers bloom. Let's let these forces of capitalism go to work. I am not going to diminish the power of the entrepreneurial spirit and the forces of capitalism, but they can get carried away. We saw it happen with the savings and loan crisis and we have seen it happen with the subprime mortgage crisis. We have seen it before. It might happen again if we don't learn a lesson.

I am disappointed that Senator McCain in the past took that position. I am troubled that, in a recent article in *Contingencies* magazine, he said about our health care market:

Opening up the health insurance market to more vigorous nationwide competition, as we have done over the last decade in banking, would provide more choices of innovative

products less burdened by the worst excesses of State-based regulation.

I don't know when Senator McCain wrote that. It couldn't have been recently because I have to tell my colleagues that if he is promising for the health insurance market what we now face in the banking market after deregulation, God help American families. I couldn't disagree more with Senator McCain's position on deregulation when it came to banking, and now his position on deregulation when it comes to health insurance companies.

If the Government doesn't set the rules, the insurance companies will. How would you like to throw yourself on the mercy of that insurance company adjuster, when it is your health or the health of one of your kids on the line? Insurers compete with one another, trying to avoid costly patients and avoid paying for procedures. We hear about it almost every day. According to Senator McCain, let a thousand flowers bloom. Let the market work. The market works pretty well if you are young and healthy or wealthy. It doesn't work very well if you are older, have a history of illness, and don't have much of an income. That is why we need sensible regulation.

This idea that we are going to move away from employer-based health insurance, as Senator McCain has said—well, I am sure there are some people who buy into that. Put each one of the customers in America out on their own buying health insurance instead of buying through pools where they work, and we know what will happen. The sickest people will have the toughest time finding insurance and paying for it. That isn't how it should work. We learned that, I am afraid, the hard way, and Senator McCain is stuck on that. I think he is wrong. I think we need a health insurance program in America which gives us all a fighting chance. Unfortunately, Senator McCain's approach does not. So we have to make sure that when it comes to banking or health insurance, Senator McCain's approach is not going to be our approach. This idea of deregulation may at one time have had wide subscription, but today it does not. We have to move forward with the concept that there is an appropriate role for Government—not to go too far but to provide enough protection, disclosure, transparency, and accountability to make sure we don't find ourselves in the crisis we find today with our banking institutions.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota is recognized.

Ms. KLOBUCHAR. Mr. President, first of all, I wish to thank the Senator from Illinois for his leadership. He has been an advocate for a long time for changing the way this administration has allowed these agencies to decay and to not be regulated—not just our financial market but our consumer market and the market for oil and other things. I thank the Senator from Illinois for his leadership and his far-sightedness during these last few years.

## UNANIMOUS-CONSENT AGREEMENT—RESOLUTIONS EN BLOC

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the relevant committees of jurisdiction be discharged and the Senate now proceed to the en bloc consideration of the following resolutions: S. Con. Res. 96, S. Res. 614, S. Res. 653, S. Res. 644, S. Res. 646, S. Res. 652, S. Res. 651, H. Con. Res. 163, S. Res. 648, S. Res. 502, S. Con. Res. 93, H. Con. Res. 296, S. Res. 634, and S. Res. 657.

I further ask unanimous consent that the Senate then proceed to a number of resolutions submitted earlier today:

S. Res. 670, S. Res. 671, S. Res. 672, S. Res. 673, S. Res. 674, S. Res. 675, and S. Res. 676, all en bloc.

The PRESIDING OFFICER. Is there objection?

The Chair hears none, and it is so ordered.

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the resolutions be agreed to, the preambles be agreed to, and the motions to reconsider be laid upon the table en bloc.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolutions were agreed to.

The preambles were agreed to.

The resolutions, with their preambles, read as follows:

S. CON. RES. 96

Whereas on May 12, 2008, Irena Sendler, a living example of social justice, died at the age of 98;

Whereas Irena Sendler repeatedly risked her life during the Holocaust to rescue over 2,500 Jewish children who lived in the Warsaw ghetto in Poland from Nazi extermination;

Whereas Irena Sendler was inspired by her father, a physician who treated poor Jewish patients, to dedicate her life to others;

Whereas Irena Sendler became an activist at the start of World War II, heading the clandestine group *Zegota* and driving an underground movement that provided safe passage for Jews from the Warsaw ghetto who faced disease, execution, or deportation to concentration camps;

Whereas Irena Sendler became 1 of the most successful workers within *Zegota*, taking charge of the children's division and using her senior position with the welfare department in Warsaw to gain access to and from the ghetto to build a network of allies to help ferry Jewish children from the Warsaw ghetto;

Whereas Irena Sendler was arrested by the Gestapo on October 20, 1943, tortured, and sentenced to death by firing squad;

Whereas Irena Sendler never revealed details of her contacts, escaped from Pawiak prison, and continued her invaluable work with *Zegota*;

Whereas in 1965, Irena Sendler was recognized as "Righteous Among the Nations" by the Yad Vashem Holocaust Memorial in Israel;

Whereas in 2006, Irena Sendler was nominated for the Nobel Peace Prize;

Whereas Irena Sendler was awarded the Order of the White Eagle, the highest civilian decoration in Poland;

Whereas "Tzedek: The Righteous", a documentary film, and "Life in a Jar", a play about the rescue efforts made by Irena Sendler, chronicle the life of Irena Sendler;

Whereas Irena Sendler, a woman who risked everything for the lives of others and

whose bravery is unimaginable to many, expressed guilt for not being able to do more for the Jewish people; and

Whereas the story of Irena Sendler reminds citizens of the United States and the world community not only of the horrible cruelty at the time of the Holocaust, but also the incredible difference 1 person can make: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring), That Congress—*

(1) mourns the loss of Irena Sendler, a woman whose bravery and heroic efforts saved over 2,500 Jewish children during the Holocaust;

(2) pays respect and extends condolences to the Sendler family;

(3) honors the legacy of courage, selflessness, and hope that Irena Sendler exhibited; and

(4) remembers the life and unwavering dedication to justice and human rights of Irena Sendler.

#### S. RES. 614

Whereas over-the-counter and prescription medicines are extremely safe, effective, and potentially lifesaving when used properly;

Whereas the abuse and recreational use of over-the-counter and prescription medicines can be extremely dangerous and produce serious side effects;

Whereas in a recently sampled month, 7,000,000 individuals aged 12 or older reported using prescription psychotherapeutic medicines for nonmedical purposes;

Whereas abuse of prescription medicines, including pain relievers, tranquilizers, stimulants, and sedatives is second only to marijuana, the number 1 illegal drug of abuse in the United States;

Whereas recent studies indicate that 2,400,000 children, or 1 in 10 children aged 12 through 17, have intentionally abused cough medicine to get high from the ingredient dextromethorphan;

Whereas 4,500,000, or 1 in 5, young adults have used prescription medicines for non-medical purposes;

Whereas according to research from the Partnership for a Drug-Free America, more than ⅓ of teens mistakenly believe that taking prescription drugs, even if not prescribed by a doctor, is much safer than using more traditional street drugs;

Whereas the lack of understanding by teens and parents of the potential harms of these powerful prescription drugs makes raising public awareness about the dangers of the misuse of such drugs more critical than ever;

Whereas misused prescription drugs are most often obtained through friends and relatives;

Whereas misused prescription drugs are also obtained through rogue Internet pharmacies;

Whereas parents should be aware that the Internet gives teens access to websites that promote medicine abuse;

Whereas National Medicine Abuse Awareness Month promotes the messages that over-the-counter and prescription medicines should be taken only as labeled or prescribed, and that taking over-the-counter and prescription medicines for recreational uses or in large doses can have serious and life-threatening consequences;

Whereas National Medicine Abuse Awareness Month will encourage parents to become educated about prescription drug abuse and talk to teens about all types of substance abuse;

Whereas observance of National Medicine Abuse Awareness Month should be encouraged at the national, State, and local levels to increase awareness of the misuse of medicines;

Whereas some groups, including the Consumer Healthcare Products Association and the Community Anti-Drug Coalition of America, have taken important steps by creating educational toolkits, including “A Dose of Prevention: Stopping Cough Medicine Abuse Before it Starts”, which provides guides to educate parents, teachers, law enforcement officials, doctors and healthcare professionals, and retailers about the potential dangers of abusing over-the-counter cough and cold medicines;

Whereas the Partnership for a Drug-Free America and community alliance and affiliate partners have undertaken a nationwide prevention campaign utilizing research-based educational advertisements, public relations and news media, and the Internet to inform parents about the negative teen behavior of intentional abuse of medicines so that parents are empowered to effectively communicate the facts about this dangerous trend with teens and to take necessary steps to safeguard prescription and over-the-counter medicines at home; and

Whereas educating the public about the dangers of medicine abuse and promoting prevention is a critical component of what must be a multi-pronged effort to curb the disturbing rise in medicine misuse: Now, therefore, be it

*Resolved, That the Senate—*

(1) designates the month of August 2008 as “National Medicine Abuse Awareness Month”; and

(2) urges communities to carry out appropriate programs and activities to educate parents and youth about the potential dangers associated with medicine abuse.

#### S. RES. 653

Whereas, on September 6, 2008, The Ohio State University football team, known as the “Buckeyes,” achieved its 800th win, becoming the 5th major college football program to reach this mark;

Whereas the Buckeyes have an all-time record of 800 wins, 304 losses, and 53 ties in their 119 seasons;

Whereas, in 1890, the Buckeyes played their first game, and since have become a symbol of pride and tradition for the past and present members of The Ohio State University community;

Whereas The Ohio State University has the largest self-supporting athletics program in the country;

Whereas The Ohio State University continues to strive for academic excellence in sports, ranking first in the Big Ten Academic All-Conference Team for the 2007–08 academic year;

Whereas, there are 1,877 Buckeye All-Americans in the history of the program;

Whereas the Ohio State athletic program strives to improve the academic quality of The Ohio State University by donating key funding to renovate Ohio State’s academic facilities, including the recent donation to the William Oxley Thompson Memorial Library;

Whereas Ohio State strives for diversity at all levels and was commended nationally in 2007–08 for its National Collegiate Athletic Association academic progress rate, Overall Excellence in Diversity, and for ranking 2nd in the Degree Completion Program;

Whereas each year Ohio State student-athletes and coaches are involved in thousands of hours of community service;

Whereas each player, coach, and contributor to the team remained committed to ensuring that the Buckeyes achieved this historic accomplishment; and

Whereas all supporters of The Ohio State University are to be praised for their dedication to, and pride in, The Ohio State University football program: Now, therefore, be it

*Resolved, That the Senate—*

(1) congratulates The Ohio State University football team for achieving 800 victories in its 119-year-history;

(2) recognizes The Ohio State University athletic program for its accomplishments in both sports and academics; and

(3) requests the Secretary of the Senate to prepare an official copy of this resolution for presentation to—

(A) The Ohio State University for appropriate display;

(B) the President of The Ohio State University, Dr. E. Gordon Gee; and

(C) the head coach of The Ohio State University football team, Mr. Jim Tressel.

#### S. RES. 644

Whereas millions of children and youth in the United States represent the hopes and future of the United States;

Whereas numerous individuals, charities benefitting children, and youth-serving organizations that work with children and youth collaborate to provide invaluable services to enrich and better the lives of children and youth throughout the United States;

Whereas raising awareness of and increasing support for organizations that provide access to healthcare, social services, education, the arts, sports, and other services will result in the development of character and the future success of children and youth;

Whereas the President issued a proclamation on May 30, 2008, proclaiming June 1, 2008 as “National Child’s Day” to demonstrate a commitment to the youth of the United States;

Whereas September, as the school year begins, is a time when parents, families, teachers, school administrators, and communities increase their focus on children and youth throughout the United States;

Whereas September is a time for the people of the United States to highlight and be mindful of the needs of children and youth;

Whereas private corporations and businesses have joined with hundreds of national and local charitable organizations throughout the United States in support of a month-long focus on children and youth; and

Whereas designating September 2008 as “National Child Awareness Month” would recognize that a long-term commitment to children and youth is in the public interest, and will encourage widespread support for charities and organizations that seek to provide a better future for the children and youth of the United States: Now, therefore, be it

*Resolved, That the Senate designates September 2008 as “National Child Awareness Month”*—

(1) to promote awareness of charities benefitting children and youth-serving organizations throughout the United States; and

(2) to recognize efforts made by such charities and organizations on behalf of children and youth as a positive investment in the future of the United States.

#### S. RES. 646

Whereas the prevalence of running away from home and homelessness among youths is staggering, with studies suggesting that between 1,600,000 and 2,800,000 youths live on the streets of the United States each year;

Whereas running away from home is widespread, and youths aged 12 to 17 are at a higher risk of becoming homeless than adults;

Whereas youths who run away from home most often have been expelled from their homes by their families, have been physically, sexually, or emotionally abused at home, have been discharged by State custodial systems without adequate transition

plans, or have been separated from their parents by death and divorce, are too poor to secure their own basic needs, and are ineligible or unable to access adequate medical or mental health resources;

Whereas effective programs that support runaway youths and assist youths and their families in preventing youths from running away succeed because of partnerships created among families, community-based human service agencies, law enforcement agencies, schools, faith-based organizations, and businesses;

Whereas preventing youths from running away from home and supporting youths in high-risk situations are priorities for families, communities, and the Nation;

Whereas the future well-being of the United States is dependent on the opportunities provided for youths and families to acquire the knowledge, skills, and abilities necessary for youths to develop into safe, healthy, and productive adults;

Whereas the National Network for Youth and its members advocate on behalf of runaway and homeless youths and provide an array of community-based support to address their critical needs;

Whereas the National Runaway Switchboard provides crisis intervention and referrals to reconnect runaway youths with their families and to link youths to local resources that provide positive alternatives to running away from home; and

Whereas the National Network for Youth and the National Runaway Switchboard are cosponsoring National Runaway Prevention Month in November 2008 to increase public awareness of the life circumstances of youths in high-risk situations, the need for safe, healthy, and productive alternatives to running away, and the resources and support available for youths, families, and communities: Now, therefore, be it

*Resolved*, That the Senate recognizes and supports the goals and ideals of National Runaway Prevention Month.

#### S. RES. 652

Whereas the number of elderly and disabled citizens of the United States is increasing dramatically;

Whereas assisted living is a long-term care service that fosters choice, dignity, independence, and autonomy in the elderly and disabled across the United States;

Whereas the National Center for Assisted Living created National Assisted Living Week;

Whereas the theme of National Assisted Living Week 2008 is "Filling Life with Love"; and

Whereas this theme highlights the privilege, value, and responsibility of passing the legacies of the lives of the elderly and disabled of the United States down through the generations that care for and love them: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates the week beginning September 8, 2008, as "National Assisted Living Week"; and

(2) urges all people of the United States—

(A) to visit friends and loved ones who reside at assisted living facilities; and

(B) to learn more about assisted living services, including how assisted living services benefit communities in the United States.

#### S. RES. 651

Whereas the National Aeronautics and Space Administration was established on July 29, 1958;

Whereas on May 5, 1961, NASA successfully launched America's first manned spacecraft, Freedom 7, piloted by Alan B. Shepard, Jr.;

Whereas on February 20, 1962, John Glenn became the first American astronaut to orbit the earth;

Whereas in July of 1969 President John Kennedy's vision of landing a man on the moon and returning him safely to Earth was realized with the Apollo 11 mission, commanded by Neil A. Armstrong, Lunar Module Pilot Edwin "Buzz" Aldrin, Jr., and Command Module Pilot Michael Collins;

Whereas on April 12, 1981, NASA began a new era of human space flight and exploration with the launch of the first Space Shuttle Columbia, commanded by John W. Young and piloted by Robert L. "Bob" Crippen;

Whereas on June 18, 1983, Dr. Sally Ride became the first American woman in space as a crewmember of Space Shuttle Challenger for STS-7;

Whereas NASA has greatly expanded our knowledge and understanding of our planet and solar system through various unmanned vehicles utilized on numerous missions;

Whereas, during the Cold War, NASA's achievements served as a source of national pride and captured the imagination of the world by demonstrating a peaceful use of our technological capabilities;

Whereas NASA now serves as a model for international cooperation and American leadership through the International Space Station and other scientific endeavors;

Whereas thanks to NASA and the far-reaching gaze of the Hubble Space Telescope, we have seen further into our universe than ever before;

Whereas NASA space probes have landed on or flown by eight of the planets in our solar system;

Whereas the aeronautics research by NASA has led to great discoveries and advances in aircraft design and aviation;

Whereas the work done by NASA has expanded the scope of human knowledge, created new technologies, and inspired young men and women to enter scientific and engineering careers;

Whereas in the last fifty years, NASA has positively impacted almost every facet of our lives; and

Whereas, thanks to the heroism, courage, and supreme sacrifice of our astronaut corps over the last five decades, we are now able to live and work in space for the benefit of all humankind: Now, therefore, be it

*Resolved*, by the Senate That the Senate—

(1) honors the men and women of the National Aeronautics and Space Administration on the occasion of its 50th Anniversary;

(2) acknowledges the value of NASA's discoveries and accomplishments; and

(3) pledges to maintain America's position as the world leader in earth and space science, aeronautics and space exploration and technology.

#### H. CON. RES. 163

Whereas Dandy-Walker syndrome is the most common congenital malformation of the cerebellum and its causes are largely unknown;

Whereas between 10,000 and 40,000 people have Dandy-Walker syndrome in the United States;

Whereas the incidence of Dandy-Walker syndrome is at least 1 case per every 25,000 to 35,000 live births, however this is likely a significant underestimate because of difficulties diagnosing the syndrome;

Whereas the Metropolitan Atlanta Congenital Defects Program, Centers for Disease Control and Prevention reports that Dandy-Walker syndrome may affect as many as 1 in 5,000 live born infants;

Whereas approximately 70 to 90 percent of patients with Dandy-Walker syndrome have hydrocephalus;

Whereas Dandy-Walker syndrome accounts for approximately 1 to 4 percent of hydrocephalus cases;

Whereas patients with Dandy-Walker syndrome present with developmental delay, enlarged head circumference, or signs and symptoms of hydrocephalus;

Whereas Dandy-Walker syndrome affects males and females approximately equally;

Whereas seizures occur in 15 to 30 percent of patients with Dandy-Walker syndrome;

Whereas subnormal intelligence is manifested in 41 to 71 percent of patients with Dandy-Walker syndrome;

Whereas failure to diagnose Dandy-Walker syndrome with hydrocephalus in a Neonate or a child can cause serious neurologic complications;

Whereas Dandy-Walker syndrome is named after former University of New Mexico neurosurgeon and professor Arthur E. Walker (1907-1995) and Walter E. Dandy (1883-1941), who first described the disorder in 1914; and

Whereas there are 2 known researchers dedicated to Dandy-Walker Syndrome in the United States and additional investigators are needed: Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring)*, That—

(1) Congress commends the Director of the National Institutes of Health for working with leading scientists and researchers to organize the first National Institutes of Health conference on hydrocephalus in September 2005 and the Inaugural "Cerebellar Development: Bench to Bedside International Conference" in November 2006; and

(2) it is the sense of Congress that—

(A) the Director of the National Institutes of Health should continue the current collaboration, with respect to Dandy-Walker syndrome, among the National Human Genome Research Institute, the National Institute of Biomedical Imaging and Bioengineering, the National Institute of Child Health and Human Development, the National Institute of Neurological Disorders and Stroke, and the Office of Rare Diseases;

(B) further research into the epidemiology, diagnosis, pathophysiology, disease burden, and improved treatment of Dandy-Walker syndrome and hydrocephalus should be conducted and supported; and

(C) public awareness and professional education regarding Dandy-Walker research should increase through partnerships between the Federal Government and patient advocacy organizations, such as the Dandy-Walker Alliance and the Hydrocephalus Association.

#### S. RES. 648

Whereas the USS Nautilus (SSN 571), built and launched at Electric Boat in Groton, Connecticut, on January 21, 1954, was the first vessel in the world to be powered by nuclear power;

Whereas the USS Nautilus overcame extreme difficulties of navigation and maneuverability while submerged under the polar ice, and became the first vessel to cross the geographic North Pole on August 3, 1958;

Whereas the USS Nautilus continued on her voyage and became the first vessel to successfully navigate a course across the top of the world;

Whereas the USS Nautilus, having claimed this historic milestone and returned home to Naval Submarine Base New London, continued to establish a series of naval records in her distinguished 25-year career, including being the first submarine to journey "20,000 leagues under the sea";

Whereas the USS Nautilus completed these significant and laudable achievements during a critical phase of the Cold War, providing a source of inspiration for Americans and raising the hopes of the Free World;

Whereas the USS Nautilus was the first naval vessel in peacetime to receive the Presidential Unit Citation for its meritorious efforts in crossing the North Pole;

Whereas Commander William R. Anderson of the United States Navy was awarded the Legion of Merit for his role in commanding the USS Nautilus during its historic voyage;

Whereas the USS Nautilus and its contribution to world history was praised by a range of American Presidents, including President Harry Truman, President Dwight D. Eisenhower, President Lyndon B. Johnson, President Jimmy Carter, and President Bill Clinton; and

Whereas President Eisenhower described the voyage to the North Pole as a "magnificent achievement" from which "the entire free world would benefit": Now, therefore, be it

*Resolved*, That the Senate—

(1) recognizes the historic significance of the journey to the North Pole undertaken by the USS Nautilus;

(2) commends the officers and crew of the USS Nautilus on the 50th anniversary of their magnificent achievement;

(3) recognizes the importance of the USS Nautilus' journey to the North Pole as not only a military and scientific accomplishment, but also in confirming America's longstanding interest in this vital region of the world;

(4) commends the role of the USS Nautilus and the United States Submarine Force in protecting the interests of the free world during the Cold War; and

(5) supports the continuing role of the United States Submarine Force in defending our Nation in the 21st century.

S. RES. 502

Whereas, on March 21, 1983, the United States Space Foundation was founded by a small group of pioneering individuals in Colorado Springs, Colorado;

Whereas 2008 marks the 25th year of excellence and service of the Space Foundation;

Whereas the mission of the Space Foundation is to advance space-related endeavors to inspire, enable, and propel humanity;

Whereas the Space Foundation has become the leading nonprofit organization advancing the exploration, development, and use of space and space education for the benefit of all humankind;

Whereas the Space Foundation embraces all aspects of space including commercial, civil, and national security;

Whereas the current national security environment requires extensive use and advancement of space-based assets;

Whereas the Space Foundation has contributed to space education programs in all 50 States and also in Europe and Asia;

Whereas the Space Foundation is regarded internationally as a leading space advocacy organization, and is a member of the United States Delegation to the United Nations Committee on the Peaceful Uses of Outer Space; and

Whereas the Space Foundation hosts the National Space Symposium and Strategic Space and Defense, 2 of the top conferences for space professionals: Now, therefore, be it

*Resolved*, That the Senate—

(a) recognizes the contributions made by the Space Foundation; and

(b) commemorates the Space Foundation's 25 years of excellence and support to the Nation.

S. CON. RES. 93

Whereas sudden cardiac arrest is a leading cause of death in the United States;

Whereas sudden cardiac arrest takes the lives of more than 250,000 people in the United States each year, according to the Heart Rhythm Society;

Whereas anyone can experience sudden cardiac arrest, including infants, high school athletes, and people in their 30s and 40s who have no sign of heart disease;

Whereas sudden cardiac arrest is extremely deadly, with the National Heart, Lung, and Blood Institute giving the disease a mortality rate of approximately 95 percent;

Whereas to have a chance of surviving an attack, the American Heart Association states that victims of sudden cardiac arrest must receive a lifesaving defibrillation within the first 4 to 6 minutes of an attack;

Whereas for every minute that passes without a shock from an automated external defibrillator, the chance of survival decreases by approximately 10 percent;

Whereas lifesaving treatments for sudden cardiac arrest are effective if administered in time;

Whereas according to joint research by the American College of Cardiology and the American Heart Association, implantable cardioverter defibrillators are 98 percent effective at protecting people at risk for sudden cardiac arrest;

Whereas according to the American Heart Association, cardiopulmonary resuscitation and early defibrillation with an automated external defibrillator more than double the chances that a victim will survive;

Whereas the Yale-New Haven Hospital and the New England Journal of Medicine state that women and African-Americans are at a higher risk than the general population for dying as a result of sudden cardiac arrest, yet this fact is not well known to people at risk;

Whereas there is a need for comprehensive educational efforts designed to increase awareness of sudden cardiac arrest and related therapies among medical professionals and the greater public in order to promote early detection and proper treatment of this disease and to improve quality of life; and

Whereas the Heart Rhythm Society and the Sudden Cardiac Arrest Coalition are preparing related public awareness and education campaigns on sudden cardiac arrest to be held each year during the month of October: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring)*, That Congress—

(1) supports the goals and ideals of "National Sudden Cardiac Arrest Awareness Month";

(2) supports efforts to educate people about sudden cardiac arrest and to raise awareness about the risk of sudden cardiac arrest, identifying warning signs, and the need to seek medical attention in a timely manner;

(3) acknowledges the critical importance of sudden cardiac arrest awareness to improving national cardiovascular health; and

(4) calls upon the people of the United States to observe this month with appropriate programs and activities.

H. CON. RES. 296

Whereas heat stroke is a medical emergency that can be fatal if not properly and promptly treated, and 50 percent of those with heat stroke die from it;

Whereas children absorb more heat from a hot environment because they have greater surface area-to-body mass ratio than adults;

Whereas the smaller the child, the faster he or she can overheat;

Whereas children and adolescents may have a reduced ability to dissipate heat through sweating;

Whereas children and adolescents frequently do not have the physiological drive to drink enough fluids to replenish sweat losses during prolonged exercise;

Whereas youth athletes may be more easily distracted by teammates and spectators when given the opportunity to rest and rehydrate;

Whereas a recent study found that 70 percent of afterschool athletes arrive on the playing field already dehydrated;

Whereas heat-induced illness is one of the most preventable sports ailments and parents, young athletes, and coaches need to understand the physiological factors that increase the risk for heat-related illness and take steps to prevent it;

Whereas 13-year-old Kendrick Fincher from Rogers, Arkansas, collapsed during an August pre-season football practice, was rushed to the hospital, and for the next 18 days his family waited anxiously for him to regain consciousness, tragically never regained consciousness, and died on August 25, 1995, from multi-system organ failure as a result of heat stroke;

Whereas Kendrick's parents, Rhonda and Mike Fincher, founded the Kendrick Fincher Memorial Foundation in honor of their son, with the aim to raise awareness of the potentially deadly consequences of dehydration for student athletes and to provide schools with the information and equipment needed to ensure other students do not suffer from heat stroke;

Whereas the Kendrick Fincher Memorial Foundation has distributed more than 130,000 water bottles and heat illness prevention pamphlets to children and athletes throughout the United States;

Whereas the Kendrick Fincher Memorial Foundation oversees consultation with school district athletic programs to ensure they have procedures in place to prevent heat illness and dehydration;

Whereas the Kendrick Fincher Memorial Foundation provides heat stroke awareness and steps for prevention at local health fairs, community events, and the Annual Youth Run through "cool huts", misting stations, and free ice water;

Whereas Gatorade Company joined forces with the National Football League to lead a nationwide "Beat the Heat" campaign aimed at educating parents and football coaches about the importance of hydration in order to keep athletes safe in the hot summer months; and

Whereas Gatorade Company and the National Football League held Gatorade Donation Days at training camps to raise money to raise awareness of the Kendrick Fincher Memorial Foundation: Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring)*, That—

(1) it is the sense of Congress that—

(A) National Heat Stroke Awareness Month provides an opportunity to educate the people of the United States about heat stroke;

(B) the Kendrick Fincher Memorial Foundation should be applauded for its efforts in promoting awareness about heat stroke; and

(C) policymakers, parents, coaches, student athletes, not-for-profit organizations, and other members of the community should work to increase awareness and prevention of heat stroke; and

(2) Congress urges national and community organizations, businesses in the private sector, and the media, through National Heat Stroke Awareness Month to promote the awareness of heat stroke.

S. RES. 634

Whereas, on April 26, 1968, after viewing the CBS Emmy-award winning documentary "Hunger in America," Senator George McGovern introduced a resolution to establish a Senate Select Committee on Nutrition and Human Needs;

Whereas the resolution establishing the Select Committee on Nutrition and Human Needs was enacted on July 30, 1968;

Whereas Senator George McGovern served as the Chairman of the Select Committee on

Nutrition and Human Needs from 1968 to 1977;

Whereas July 30, 2008, marks the 40th anniversary of the enactment of the resolution establishing the Select Committee on Nutrition and Human Needs, which later became the foundation of the current Subcommittee on Nutrition and Food Assistance, Sustainable and Organic Agriculture, and General Legislation Jurisdiction of the Senate Committee on Agriculture, Nutrition, and Forestry;

Whereas Senator George McGovern was committed to exposing the failure of Federal food assistance programs to reach citizens lacking in adequate quantities and quality of food;

Whereas Senators George McGovern and Robert Dole worked tirelessly in their respective roles on the Select Committee on Nutrition and Human Needs to develop a bipartisan Federal response to hunger;

Whereas the Select Committee on Nutrition and Human Needs played a key role in educating Congress, the Federal Government, and the Nation at large about the magnitude of hunger in the United States;

Whereas the work of the Select Committee on Nutrition and Human Needs was vital to reforming the Federal food stamp program, culminating in the passage of the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.), which made the program more efficient and more accessible to those most in need by finally eliminating the requirement that Americans pay for a portion of their food stamps;

Whereas the work of the Select Committee on Nutrition and Human Needs was essential to expanding the school lunch program established under the National School Lunch Act (42 U.S.C. 1751 et seq.) and permanently establishing the school breakfast program under section 4 of the Child Nutrition Act of 1966 (42 U.S.C. 1773), the child and adult care food program under section 17 of the National School Lunch Act (42 U.S.C. 1766), and the summer food service program for children under section 13 of that Act (42 U.S.C. 1761);

Whereas the work of the Select Committee on Nutrition and Human Needs was instrumental in the establishment of the special supplemental nutrition program for women, infants, and children established by section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786) (WIC);

Whereas the Senate Committee on Agriculture, Nutrition, and Forestry remains committed to continuing the important work begun by Senators George McGovern and Robert Dole of providing a Federal response to hunger;

Whereas the Senate Committee on Agriculture, Nutrition, and Forestry provided a record-level amount of nutrition funding in the Food, Conservation, and Energy Act of 2008 (Public Law 110-246; 122 Stat. 1651) to reform and strengthen Federal nutrition assistance programs;

Whereas, through the Food, Conservation, and Energy Act of 2008 (Public Law 110-246; 122 Stat. 1651), the Senate Committee on Agriculture, Nutrition, and Forestry made key improvements to the food stamp program, including—

(1) increasing the food purchasing ability of low-income households by accounting for food cost inflation;

(2) increasing the minimum benefit;

(3) encouraging retirement and education savings; and

(4) allowing families to account for child care costs in calculating food assistance;

Whereas, through the Food, Conservation, and Energy Act of 2008 (Public Law 110-246; 122 Stat. 1651), the Senate Committee on Agriculture, Nutrition, and Forestry helped to

strengthen the domestic food assistance safety net by providing significant funding to increase commodity purchases for local area food banks;

Whereas, in 2008, more than 28,000,000 people in the United States participate in the food stamp program;

Whereas, in 2008, more than 17,500,000 low-income children receive free or reduced-price meals through the national school lunch program;

Whereas despite Federal food assistance programs, 35,500,000 people in the United States, including 12,600,000 children, continue to live in households considered to be food insecure;

Whereas children who live in households lacking access to sufficient food are more likely to be in poorer physical health than children from food secure households; and

Whereas children are particularly vulnerable to the effects of food insecurity because undernutrition can have adverse impacts on emotional health, behavior, school performance, and cognitive development: Now, therefore, be it

*Resolved*, That the Senate—

(1) recognizes July 30, 2008, as the 40th anniversary of the enactment of the resolution establishing the Senate Select Committee on Nutrition and Human Needs;

(2) recognizes the substantial contributions the Select Committee on Nutrition and Human Needs made in ensuring that effective and efficient Federal food assistance programs were accessible to those most in need;

(3) recognizes that hunger continues to be an issue plaguing the United States; and

(4) supports the continued efforts of Federal, State, and local governments and private non-profit organizations to eradicate hunger in the United States.

S. RES. 657

Whereas celiac disease affects approximately 1 in every 130 people in the United States, for a total of 3,000,000 people;

Whereas the majority of people with celiac disease have yet to be diagnosed;

Whereas celiac disease is a chronic inflammatory disorder that is classified as both an autoimmune condition and a genetic condition;

Whereas celiac disease causes damage to the lining of the small intestine, which results in overall malnutrition;

Whereas, when a person with celiac disease consumes foods that contain certain protein fractions, that person suffers a cell-mediated immune response that damages the villi of the small intestine, interfering with the absorption of nutrients in food and the effectiveness of medications;

Whereas those problematic protein fractions are found in wheat, barley, rye, and oats, which are used to produce many foods, medications, and vitamins;

Whereas, because celiac disease is a genetic disease, there is an increased incidence of celiac disease in families with a known history of celiac disease;

Whereas celiac disease is underdiagnosed because the symptoms can be attributed to other conditions and are easily overlooked by doctors and patients;

Whereas, as recently as 2000, the average person with celiac disease waited 11 years for a correct diagnosis;

Whereas ½ of all people with celiac disease do not show symptoms of the disease;

Whereas celiac disease is diagnosed by tests that measure the blood for abnormally high levels of the antibodies of immunoglobulin A, anti-tissue transglutaminase, and IgA anti-endomysium antibodies;

Whereas celiac disease can be treated only by implementing a diet free of wheat, barley,

rye, and oats, often called a “gluten-free diet”;

Whereas a delay in the diagnosis of celiac disease can result in damage to the small intestine, which leads to an increased risk of malnutrition, anemia, lymphoma, adenocarcinoma, osteoporosis, miscarriage, congenital malformation, short stature, and disorders of the skin and other organs;

Whereas celiac disease is linked to many autoimmune disorders, including thyroid disease, systemic lupus erythematosus, type 1 diabetes, liver disease, collagen vascular disease, rheumatoid arthritis, and Sjogren's syndrome;

Whereas the connection between celiac disease and diet was first established by Dr. Samuel Gee, who wrote, “if the patient can be cured at all, it must be by means of diet”;

Whereas Dr. Samuel Gee was born on September 13, 1839; and

Whereas, by designating September 13, 2008, as National Celiac Disease Awareness Day, the Senate can raise awareness of celiac disease in the general public and the medical community: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates September 13, 2008, as “National Celiac Disease Awareness Day”;

(2) recognizes that all people in the United States should become more informed and aware of celiac disease;

(3) calls upon the people of the United States to observe the date with appropriate ceremonies and activities; and

(4) respectfully requests the Secretary of the Senate to transmit a copy of this resolution to the Celiac Sprue Association, the American Celiac Society, the Celiac Disease Foundation, the Gluten Intolerance Group of North America, and the Oklahoma Celiac Support Group No. 5 of the Celiac Sprue Association.

S. RES. 670

Whereas millions of Americans have benefited from the courageous service of first responders across the United States;

Whereas the police, fire, emergency medical service, and public health personnel (commonly known as “first responders”) work devotedly and selflessly on behalf of the people of the United States, regardless of the peril or hazard to themselves;

Whereas in emergency situations, first responders carry out the critical role of protecting and ensuring public safety;

Whereas the men and women who bravely serve as first responders have found themselves on the front lines of homeland defense in the war against terrorism;

Whereas first responders are called upon in the event of a natural disaster, such as the tornados in Florida and the blizzard in Colorado in December 2006, the flooding in the Northeast in April 2007, the flooding in the Midwest in June 2008, and the wildfires in the West in July 2008;

Whereas the critical role of first responders was witnessed in the aftermath of the mass shooting at the Virginia Polytechnic Institute and State University, when the collaborative effort of police officers, firefighters, and emergency medical technicians to secure the campus, rescue students from danger, treat the injured, and transport victims to local hospitals undoubtedly saved the lives of many students and faculty;

Whereas 900,000 police officers, 1,100,000 firefighters, and 891,000 emergency medical technicians risk their lives every day to make our communities safe;

Whereas these 900,000 sworn police officers from Federal, State, tribal, city, and county law enforcement agencies protect lives and property, detect and prevent crimes, uphold the law, and ensure justice;

Whereas these 1,100,000 firefighters, both volunteer and career, provide fire suppression, emergency medical services, search and rescue, hazardous materials response, response to terrorism, and critical fire prevention and safety education;

Whereas the 891,000 emergency medical professionals in the United States respond to and treat a variety of life-threatening emergencies, from cardiac and respiratory arrest to traumatic injuries;

Whereas these 2,661,000 "first responders" make personal sacrifices to protect our communities, as was witnessed on September 11, 2001, and in the aftermath of Hurricane Katrina, and as is witnessed every day in cities and towns across the United States;

Whereas, according to the National Law Enforcement Officers Memorial Fund, a total of 1,671 law enforcement officers died in the line of duty during the past 10 years, an average of 1 death every 53 hours or 167 per year, and 181 law enforcement officers were killed in 2007;

Whereas, according to the United States Fire Administration, from 1996 through 2005 over 1500 firefighters were killed in the line of duty, and tens of thousands were injured;

Whereas 4 in 5 medics are injured on the job, more than 1 in 2 (52 percent) have been assaulted by a patient and 1 in 2 (50 percent) have been exposed to an infectious disease, and emergency medical service personnel in the United States have an estimated fatality rate of 12.7 per 100,000 workers, more than twice the national average;

Whereas most emergency medical service personnel deaths in the line of duty occur in ambulance accidents;

Whereas thousands of first responders have made the ultimate sacrifice;

Whereas, in the aftermath of the terrorist attacks of September 11, 2001, firefighters, law enforcement officers, and emergency medical workers in the United States were universally recognized for the sacrifices they made on that tragic day, and should be honored each year as these tragic events are remembered;

Whereas there currently exists no national day to honor the brave men and women of the first responder community, who give so much of themselves for the sake of others; and

Whereas these men and women by their patriotic service and their dedicated efforts have earned the gratitude of Congress: Now, therefore, be it

*Resolved*, That the Senate designates September 25, 2008, as "National First Responder Appreciation Day" to honor and celebrate the contributions and sacrifices made by all first responders in the United States.

#### S. RES. 671

Whereas the University of Maryland School of Medicine was established in 1807, making it the first public and the fifth oldest medical school in the United States;

Whereas, in 1823, the University of Maryland School of Medicine became the first teaching hospital in the Nation with the construction of the Baltimore Infirmary and became the first medical school in the United States to institute a residency training program;

Whereas the School of Medicine was the founding school of the University of Maryland and is an integral part of the 11-campus University System of Maryland;

Whereas, at the Baltimore campus of the University of Maryland, the School of Medicine serves as the foundation for a large academic health center that combines medical education, biomedical research, patient care, and community service;

Whereas the University of Maryland School of Medicine is dedicated to providing

excellence in biomedical education, basic and clinical research, quality patient care, and service to improve the health of the people of Maryland and the United States;

Whereas the University of Maryland School of Medicine is committed to the education and training of M.D. and Ph.D. students in fields including physical therapy, rehabilitation science, and medical research technology;

Whereas the University of Maryland School of Medicine has played a crucial role in helping to meet the health care needs of the people of Maryland and continues to recruit and develop faculty to serve as exemplary role models for students; and

Whereas the University of Maryland School of Medicine has developed a legacy of academic excellence, outstanding patient care, and ground-breaking research: Now, therefore, be it

*Resolved*, That the Senate—

(1) congratulates the University of Maryland School of Medicine on its 200th anniversary; and

(2) recognizes the achievements of the University of Maryland, Baltimore, and the School of Medicine in providing outstanding service to, and in training leaders for, the local community, the State of Maryland, and the world.

#### S. RES. 672

Whereas negative images, stories, and influences in the day-to-day lives of Americans can detrimentally affect their emotional well-being, interactions with others, and general demeanor;

Whereas a group of teenagers participating in a leadership forum at Harding University in Searcy, Arkansas, identified a lack of encouragement as one of the greatest problems facing young people today;

Whereas the youth of our Nation need guidance, inspiration, and reassurance to counteract this negativity and to develop the qualities of character essential for future leadership in our country;

Whereas a National Day of Encouragement would serve as a reminder to counterbalance and overcome negative influences, and would also provide much-needed encouragement and support to others;

Whereas, following the events of September 11, 2001, thousands of people of the United States made sacrifices in order to bring help and healing to the victims and their families, inspiring and encouraging the Nation; and

Whereas the renewed feelings of unity, hope, selflessness, and encouragement that began on September 12, 2001, are the same feelings that the National Day of Encouragement is meant to recapture and spread: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates September 12, 2008, as "National Day of Encouragement";

(2) acknowledges the importance of encouragement and positive influences in the lives of all people; and

(3) urges the people of the United States to encourage others, whether it be through an act of service, a thoughtful letter, or words of kindness and inspiration, and to thereby boost the morale of all.

#### S. RES. 673

Whereas comprehensive, culturally sensitive health promotion within the workplace is essential to maintain and improve the health of American workers;

Whereas employees who improve their health also reduce their probability of chronic health conditions, lower their out-of-pocket medical and pharmaceutical costs, reduce pain and suffering, have greater levels of energy and vitality, and experience increased satisfaction with their lives and jobs;

Whereas health care costs in the United States doubled from 1990 to 2001 and are expected to double again by 2012;

Whereas employee health benefits are the fastest growing labor cost component for employers, thus posing a serious and growing challenge to business in the United States;

Whereas business leaders are struggling to find strategies to help reduce the direct costs of employer-provided health care, as well as the indirect costs associated with higher rates of absenteeism, disability, and injury;

Whereas an effective strategy to address the primary driving force of soaring health care costs requires an investment in prevention;

Whereas some employers who invest in health promotion and disease prevention have achieved rates of return on investment ranging from \$3 to \$15 for each dollar invested, as well as a 28 percent average reduction in sick leave absenteeism, an average 26 percent reduction in health care costs, and a 30 percent average reduction in workers' compensation and disability management claims costs;

Whereas the Healthy People 2010 national objectives for the United States include the workplace health-related goal that at least ¾ of United States employers, regardless of size, will voluntarily offer a comprehensive employee health promotion program that includes—(1) health education and programming which focuses on skill development and lifestyle behavior change along with information dissemination and awareness building, preferably tailored to employees' interests and needs; (2) supportive social and physical environments, including an organization's expectations regarding healthy behaviors, and implementation of policies that promote health and reduce risk of disease; (3) integration of the worksite wellness programs into the organization's structure; (4) linkage to related programs like employee assistance programs (EAPs) and programs to help employees balance work and family; and (5) screening programs, ideally linked to medical care to ensure follow-up and appropriate treatment as necessary;

Whereas employers should be encouraged to invest in the health of employees by implementing comprehensive worksite health promotion programs that will help achieve our national Healthy People 2010 objectives;

Whereas business leaders that have made a healthy workforce a part of their core business strategy should be encouraged to share information and resources to educate their peers on the issue of employee health management through initiatives such as the Leading by Example CEO-to-CEO Roundtable on Workforce Health and the United States Workplace Wellness Alliance;

Whereas the employers that provide health care coverage for more than 177,000,000 Americans have the potential to exert transformative leadership on this issue by increasing the number, quality, and types of health promotion programs and policies at worksites across the Nation;

Whereas, for workplace wellness efforts to reach their full potential, chief executive officers of major corporations, company presidents of small enterprises, and State governors should be encouraged to make worksite health promotion a priority; and

Whereas Congress supports the National Worksite Health Promotion goal as stated in Healthy People 2010 and encourages public employers to increase their awareness of the value of corporate investments in employee health management to help our Nation achieve this goal: Now, therefore, be it

*Resolved*, That the Senate calls on private and public employers to support workplace wellness and implement voluntarily worksite health promotion programs to help

maximize employees' health and well being and lower health care costs.

S. RES. 674

Whereas older adults value their independence and a fall can significantly limit their ability to remain self-sufficient;

Whereas falls are the leading cause of death from unintentional injuries among older adults in the United States;

Whereas older adults are by far the population at greatest risk for falling unintentionally, with more than 1/3 of all people 65 years or older falling each year;

Whereas older adults who fall once are 2 to 3 times more likely than adults who have not fallen to fall again;

Whereas, in 2000, the Bureau of the Census reported that more than 34,800,000 adults older than the age of 65 live in the United States, and that number is expected to grow to almost 55,000,000 by 2020;

Whereas 20 to 30 percent of older adults who fall suffer moderate to severe injuries, such as bruising, hip fractures, and head traumas;

Whereas, in 2005, falls resulted in nearly 1,800,000 older adults being treated in emergency departments and more than 433,000 older adults being hospitalized;

Whereas, in 2005, nearly 16,000 people aged 65 and older died from injuries related to unintentional falls;

Whereas the Centers for Disease Control and Prevention report that the mortality rate from falls among older adults increased 45 percent between 2000 and 2004;

Whereas the total in direct costs associated with both fatal and non-fatal falls is more than \$19,000,000,000 annually for hospitalization, emergency department visits, and outpatient care;

Whereas the Centers for Disease Control and Prevention estimate that if the rate of increase in falls is not stemmed, annual direct treatment costs will reach \$43,800,000,000 by 2020, with an annual cost under the Medicare program of \$32,400,000,000;

Whereas evidence-based programs show promise in reducing falls and facilitating cost-effective interventions, such as comprehensive clinical assessments, exercise programs to improve balance and health, management of medications, correction of vision, and reduction of home hazards;

Whereas, on April 23, 2008, the Safety of Seniors Act of 2007 (Public Law 110-202) was enacted, amending the Public Health Service Act (42 U.S.C. 280b et seq.) to create a national education campaign aimed at older adults, their families, and healthcare providers, and injury prevention programs that focus on the reduction and prevention of falls among older adults; and

Whereas the Falls Free Coalition Advocacy Work Group, its numerous supporting organizations and all other supportive organizations, should be commended for their efforts to raise awareness and to promote greater understanding, research, and pilot programs to prevent falls among older adults: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates September 22, 2008, as "National Falls Prevention Awareness Day";

(2) commends the National Falls Free Coalition and all other supportive organizations for their efforts to promote awareness about preventing and reducing falls among older people in the United States;

(3) encourages the private sector, the public health community, healthcare providers, advocacy organizations, and Federal, State, and local governments to work together to increase education and awareness about the prevention of falls; and

(4) urges national and community organizations, businesses, individuals, and the

media to use National Falls Prevention Awareness Day to promote awareness of this important public health problem in an effort to reduce the incidence of falls among older people in the United States.

S. RES. 675

Whereas there are approximately 510,000 children in the foster care system in the United States, approximately 129,000 of whom are waiting for families to adopt them;

Whereas 61 percent of the children in foster care are age 10 or younger;

Whereas the average length of time a child spends in foster care is over 3 years;

Whereas, for many foster children, the wait for a loving family in which they are nurtured, comforted, and protected seems endless;

Whereas the number of youth who "age out" of foster care by reaching adulthood without being placed in a permanent home has continued to increase since 1998, and more than 26,000 foster youth age out every year;

Whereas every day loving and nurturing families are strengthened and expanded when committed and dedicated individuals make an important difference in the life of a child through adoption;

Whereas a 2007 survey conducted by the Dave Thomas Foundation for Adoption demonstrated that though "Americans overwhelmingly support the concept of adoption, and in particular foster care adoption . . . foster care adoptions have not increased significantly over the past five years";

Whereas, while 4 in 10 Americans have considered adoption, a majority of Americans have misperceptions about the process of adopting children from foster care and the children who are eligible for adoption;

Whereas 71 percent of those who have considered adoption consider adopting children from foster care above other forms of adoption;

Whereas 45 percent of Americans believe that children enter the foster care system because of juvenile delinquency, when in reality the vast majority of children who have entered the foster care system were victims of neglect, abandonment, or abuse;

Whereas 46 percent of Americans believe that foster care adoption is expensive, when in reality there is no substantial cost for adopting from foster care and financial support is available to adoptive parents after the adoption is finalized;

Whereas both National Adoption Day and National Adoption Month occur in November;

Whereas National Adoption Day is a collective national effort to find permanent, loving families for children in the foster care system;

Whereas, since the first National Adoption Day in 2000, more than 20,000 children have joined forever families during National Adoption Day;

Whereas, in 2007, adoptions were finalized for over 4,200 children through more than 260 National Adoption Day events in all 50 States, the District of Columbia, and Puerto Rico; and

Whereas the President traditionally issues an annual proclamation to declare November as National Adoption Month, and National Adoption Day is on November 15, 2008: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the goals and ideals of National Adoption Day and National Adoption Month;

(2) recognizes that every child should have a permanent and loving family; and

(3) encourages the citizens of the United States to consider adoption during the

month of November and all throughout the year.

S. RES. 676

Whereas the Red Ribbon Campaign was established to commemorate the service of Enrique "Kiki" Camarena, an 11-year special agent of the Drug Enforcement Administration who was murdered in the line of duty in 1985 while engaged in the battle against illicit drugs;

Whereas the Red Ribbon Campaign has been sponsored by the National Family Partnership and nationally recognized since 1988 to preserve Special Agent Camarena's memory and further the cause for which he gave his life, and is now the oldest and largest drug prevention program in the Nation, reaching millions of young people each year during Red Ribbon Week;

Whereas the Drug Enforcement Administration, committed throughout its 35 years to aggressively targeting organizations involved in the growing, manufacturing, and distribution of controlled substances, has been a steadfast partner in commemorating Red Ribbon Week;

Whereas the Governors and Attorneys General of the States, the National Family Partnership, Parent Teacher Associations, Boys and Girls Clubs of America, the Drug Enforcement Administration, and more than 100 other organizations throughout the United States annually celebrate Red Ribbon Week during the period of October 23 through October 31;

Whereas the objective of Red Ribbon Week is to promote the creation of drug-free communities through drug prevention efforts, education, parental involvement, and community-wide support;

Whereas drug abuse is one of the major challenges that the Nation faces in securing a safe and healthy future for families in the United States;

Whereas drug abuse and alcohol abuse contribute to domestic violence and sexual assault and place the lives of children at risk;

Whereas, although public awareness of illicit drug use is increasing, emerging drug threats and growing epidemics demand attention, including the abuse of methamphetamines, inhalants, and prescription medications, the second most abused drug by young people in the United States;

Whereas, between 1996 and 2006, the percentages of admissions to substance abuse treatment programs as a result of the abuse of methamphetamines, prescription medications, and marijuana each significantly rose;

Whereas drug dealers specifically target children by marketing illicit drugs that mimic the appearance and names of well known brand-name candies and foods; and

Whereas parents, youths, schools, businesses, law enforcement agencies, religious institutions, service organizations, senior citizens, medical and military personnel, sports teams, and individuals throughout the United States will demonstrate their commitment to healthy, productive, and drug-free lifestyles by wearing and displaying red ribbons during this week-long celebration: Now, therefore, be it

*Resolved*, That the Senate—

(1) supports the goals and ideals of Red Ribbon Week;

(2) encourages children and teens to choose to live drug-free lives; and

(3) encourages the people of the United States to promote the creation of drug-free communities and to participate in drug prevention activities to show support for healthy, productive, and drug-free lifestyles.

# NATIVE AMERICAN HERITAGE DAY ACT OF 2008

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 926, H.J. Res. 62; that the committee amendment be agreed to, the resolution be read the third time, passed, and the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senate proceeded to consider the joint resolution (H.J. Res. 62) to honor the achievements and contributions of Native Americans to the United States, and for other purposes, which had been reported from the Committee on Indian Affairs, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

## SECTION 1. SHORT TITLE.

*This Act may be cited as the "Native American Heritage Day Act of 2008".*

## SEC. 2. FINDINGS.

*Congress finds that—*

(1) *Native Americans are the descendants of the aboriginal, indigenous, native people who were the original inhabitants of the United States;*

(2) *Native Americans have volunteered to serve in the United States Armed Forces and have served with valor in all of the Nation's military actions from the Revolutionary War through the present day, and in most of those actions, more Native Americans per capita served in the Armed Forces than any other group of Americans;*

(3) *Native Americans have made distinct and significant contributions to the United States and the rest of the world in many fields, including agriculture, medicine, music, language, and art, and Native Americans have distinguished themselves as inventors, entrepreneurs, spiritual leaders, and scholars;*

(4) *Native Americans should be recognized for their contributions to the United States as local and national leaders, artists, athletes, and scholars;*

(5) *nationwide recognition of the contributions that Native Americans have made to the fabric of American society will afford an opportunity for all Americans to demonstrate their respect and admiration of Native Americans for their important contributions to the political, cultural, and economic life of the United States;*

(6) *nationwide recognition of the contributions that Native Americans have made to the Nation will encourage self-esteem, pride, and self-awareness in Native Americans of all ages;*

(7) *designation of the Friday following Thanksgiving of each year as Native American Heritage Day will underscore the government-to-government relationship between the United States and Native American governments; and*

(8) *designation of Native American Heritage Day will encourage public elementary and secondary schools in the United States to enhance understanding of Native Americans by providing curricula and classroom instruction focusing on the achievements and contributions of Native Americans to the Nation.*

## SEC. 3. IMPLEMENTATION OF NATIVE AMERICAN HERITAGE DAY.

*Congress—*

(1) *designates Friday, November 28, 2008, as "Native American Heritage Day"; and*

(2) *encourages the people of the United States, as well as Federal, State, and local governments, and interested groups and organizations to observe Native American Heritage Day with appropriate programs, ceremonies, and activities, including activities relating to—*

(A) *the historical status of Native American tribal governments as well as the present day status of Native Americans;*

(B) *the cultures, traditions, and languages of Native Americans; and*

(C) *the rich Native American cultural legacy that all Americans enjoy today.*

The amendment was ordered to be engrossed and the joint resolution to be read a third time.

The joint resolution (H.J. Res. 62) was read the third time, and passed.

Ms. MIKULSKI. Mr. President, I rise today to applaud the passage of the resolution congratulating the University of Maryland School of Medicine on its 200th anniversary. I am proud to introduce this resolution that recognizes the outstanding contributions the University of Maryland School of Medicine has made in the last 200 years to the medical community, Maryland community, and entire world.

The University of Maryland School of Medicine is the first public medical school in the country and is the fifth oldest medical school. Since 1789, it has been a leader in medical education—the first medical school in the country to build a teaching hospital for clinical instruction, the first to establish a medical library, and the first school to offer courses in preventive medicine.

Today, the University of Maryland School of Medicine is home to 25 academic departments, 7 research centers, and treats over 1 million patients a year. I commend the contributions the school has made over the past 200 years. I know the University of Maryland School of Medicine will continue to blaze trails in the future as a leader in medical research, patient care, education, and community service.

Ms. MURKOWSKI. Mr. President, I rise today in support of a resolution that commemorates the Annual Red Ribbon Campaign. I am honored to again seek the Senate's continuing support and recognition of Red Ribbon Week, which is October 23 through October 31.

In 1985, Special Agent Enrique "Kiki" Camarena of the Drug Enforcement Administration was kidnapped, tortured, and murdered in the line of duty by drug traffickers. Shortly after Agent Camarena's death, Congressman DUNCAN HUNTER and high school friend Henry Lozano launched "Camarena Clubs" in the Agent's hometown of Calexico, CA. In honor of Agent Camarena, hundreds of club members wore red ribbons and pledged to lead drug-free lives. The campaign quickly gained statewide and then national prominence. In 1988, what is now the National Family Partnership organized the first National Red Ribbon Week, an 8-day event proclaimed by the Congress and chaired by then President and Mrs. Reagan.

This campaign is now the oldest and largest drug prevention program in the Nation, reaching millions of youth through Red Ribbon Week events. Red Ribbon Week memorializes Agent Camarena, and all those who have lost their lives in the war on drugs, by educating young people about the dangers of drug abuse, promoting drug-free ac-

tivities, and supporting everyone who has stood strong against illicit drugs. The Red Ribbon that we will wear during Red Ribbon Week is a symbol of zero tolerance for illegal drug use and our commitment to help people, especially children, make the right life-decisions.

In Alaska, Red Ribbon Week is a statewide celebration involving thousands of school children and other supporters. On October 27, the Alaska Red Ribbon Coalition, in conjunction with the municipality of Anchorage, will host a Red Ribbon Week kickoff. The Red Ribbon Coalition is comprised of the Anchorage School District, the Alaska State Troopers, the Anchorage Police Department, the U.S. Drug Enforcement Administration, and the U.S. Department of Justice. Forty-three Boys & Girls Clubs across Alaska will help other Alaskan communities celebrate Red Ribbon Week throughout the State.

In addition, this year, the Red Ribbon Coalition, the Alaska National Guard, and the Iditarod Trail Committee are sponsoring the first ever Anchorage School District Idol whereby every junior high and high school in Anchorage will hold local talent competitions and select one act to move to a final competition. The acts will be judged based, among other things, on their drug-free themes, and the final competition will be held as part of the Iditarod Sled Dog Race festivities in March 2009. The plan is to broadcast the event to the students in all 50 States and across the globe who participate in the Iditarod Education Program, thus extending the reach of the 2008 Red Ribbon Week into 2009, and sharing Anchorage's Red Ribbon Week antidrug message and celebrations with the Nation and the world.

As we stand together against drugs, I thank my colleagues for joining me in what hopefully will be a continuation of the tradition of congressional support and recognition of Red Ribbon Week.

The PRESIDING OFFICER. The Senator from Minnesota is recognized.

## FINANCIAL CRISIS

Ms. KLOBUCHAR. Mr. President, I stand here today to highlight my grave concerns about our financial system and the American economy—a disaster that has been building for months and, in fact, years and last week quickly hit the breaking point.

The latest crisis seemed to come so suddenly, it moved so fast, it spread so far, and went straight to the heart of the global financial system. There is no doubt we are seeing now the biggest financial challenge since the Great Depression, and we are also witnessing the most remarkable degree of Government involvement into our financial system since the 1930s.

It is truly remarkable. Consider the list: Bear Stearns, Fannie Mae, Freddie Mac, Lehman Brothers, Merrill Lynch,
