

don't work directly on transportation issues in this Committee, we do have the opportunity to deal with how our nation's infrastructure is funded.

The Highway Trust Fund was established in 1956 to provide a dedicated source of federal support for highways and transit programs across the country. Unfortunately, the Highway Trust Fund's balance continues to diminish every year. First and foremost, the Highway Trust Fund is financed primarily through fuel taxes. Combined with high gas prices last year and greener living, people are driving less. This means there is less money going into the Trust Fund. Second, the projects funded out of the Trust Fund are more costly. Consequently fewer initiatives can be funded from the Trust Fund.

As you can see, Madam Speaker, since National Transportation Week was first created, our Nation's transportation and infrastructure has become much more complex—as has our economy. Jobs are created where there is good connectivity—roads, trains, bridges, public transit, walkable, bikable streets and communities. Before we tackle these larger issues, we can start with the basics. I urge all of my colleagues to support this very simple legislation.

CONGRATULATING CATERPILLAR,
INC.

HON. BILL FOSTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 13, 2009

Mr. FOSTER. Madam Speaker, I am submitting this statement to express congratulations to Caterpillar, Inc. for their receiving EPA's Clean Air Excellence Award.

Caterpillar was honored for developing its D7E, a revolutionary new bulldozer that consumes up to 30 percent less fuel and performs necessary construction operations 25 percent more efficiently. These impressive increases in

efficiency will allow construction workers, miners and other earthmoving workers to do their jobs while emitting significantly fewer carbon dioxide emissions.

After more than two years of research, the D7E represents exactly the kinds of new technology we need to move our country and our economy into the 21st Century. Its electric drive is a platform from which Caterpillar can begin exploring the possible use of alternative fuels to power American construction.

Production of these innovative tractors is set to begin later this year in my home state of Illinois. As a former small businessman myself, and one who worked to keep manufacturing jobs in the Midwest, I would like to further congratulate Caterpillar for its commitment to reinvest in the communities that have supported them for nearly 100 years.

It is my honor to represent the employees of Caterpillar's Aurora, Montgomery and Dixon manufacturing facilities, and I thank them for all their hard work.
