

the children. While the man does what he wants with money, the responsibility is left to the woman.

3. Lack of women's equality. One man, if he has the notion, can have one wife or two or more wives.

4. Lack of freedom for women even with their own private property; for example: money, gold, household pots and pans, and livestock.

5. Women are not allowed to make contact with people outside the community. For example: visiting neighbors, family, and friends. And women are not allowed [illegible] to travel far, and if he allows her, he does not give her money, and he tells her, "This trip is of your own accord."

6. Lack of acceptance of higher education and universities to enable women to get ahead.

7. Failure to encourage girls in the schools and leaving the responsibility to the mothers.

8. Failure of fathers to take responsibility for girls. If something happens, the mother is blamed, and they make her hear harsh words from the family, and sometimes divorce even takes place.

9. Outside chores, such as: [illegible], provisions, construction, and feeding livestock—that is, all physical demands—are the responsibility of the woman.

10. Failure to show confidence in women, such as leaving the house without the man's knowledge and he tells her, "You went out to commit adultery."

11. Failure to value the life of the woman. They only value her in bed. They like a lot of births, but they do not like raising sons and children.

12. Early marriage for girls and compulsory marriage without consent.

13. In the case of meetings, women do not have the freedom to speak at organizations; only men's statements are heard.

14. Women do not know how to submit their complaints—the place and the organization that is concerned about them.

Thank you. We hope to achieve freedom for women in the whole world.

More than sixty years after the adoption of the Universal Declaration of Human Rights, the women of the Farchana Camp challenge us to realize its long-promulgated ideals.

RECOGNIZING THE 25TH ANNIVERSARY OF FATHER FRANCIS P. FOLEY'S ORDINATION

HON. PATRICK J. MURPHY

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, June 15, 2009

Mr. PATRICK J. MURPHY of Pennsylvania. Madam Speaker, I rise today to honor Father Francis P. Foley on the 25th anniversary of his ordination.

In the spirit of John Cardinal O'Connor, who served both as a Philadelphia priest and as a U.S. Navy Chaplain, Father Foley has served his congregation and his country honorably. Father Foley attended St. Charles Borromeo Seminary in Wynnewood, Pennsylvania, just outside Philadelphia.

At the age of 23, Father Foley was so inspired by a mass at the Naval Academy in Annapolis that he decided to become a Navy Chaplain. He persevered in attaining the chaplaincy, despite the fact that it took him 5 years to convince the archdiocese to allow him to do so. He is a beacon of faith, kindness, and wis-

dom to all of those lucky enough to have come to know him in his 25 years of devoted service.

Ordained in May of 1984, Father Foley's first service was a mass of thanksgiving the very next day. On the 14th of this month, in tribute to his 25 years of unwavering dedication to his faith and his community, he will be honored during a Jubilee Mass at St. Athanasius in Philadelphia.

Madam Speaker, I am proud to recognize Father Francis P. Foley for his incredible service as a Navy Chaplain, and am extremely honored to serve as his Congressman.

HONORING DR. GEORGE SEIELSTAD

HON. EARL POMEROY

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Monday, June 15, 2009

Mr. POMEROY. Madam Speaker, I rise today to honor the long and distinguished career of Dr. George Seielstad who is retiring from the John D. Odegard School of Aerospace Sciences at the University of North Dakota (UND) where he was a leading figure in UND's aerospace and earth systems science curriculum. It has been my privilege to have known Dr. Seielstad since he first started at UND. Since that time I have seen first hand the workings of his remarkable mind, his commitment to advancing scientific thought, and his innovative leadership in developing real world applications for spatial technologies.

Dr. Seielstad's tenure at UND will be recognized by his many achievements as well as the many distinguished titles he has held. Upon his arrival in 1993, Dr. Seielstad served as Assistant Dean for Academic Affairs and Professor of Space Studies and was later named the Associate Dean of the Center for Aerospace Science and Director of the Earth System Science Institute. In 1997, he was named the first ever Oliver Benediktson Professor of Astrophysics. In recent years, Dr. Seielstad was appointed Senior Advisor to the President of UND and served in the position of Director for the Northern Great Plains Center for People and the Environment where he directs the Upper Midwest Aerospace Consortium (UMAC).

His cardinal accomplishment at UND came in founding and managing UMAC, which he established in 1994. UMAC is a preeminent research partnership between five universities in Montana, South Dakota, Idaho, and North Dakota working in collaboration in order to serve societal needs through the development of practical applications in Earth System Science information. UMAC has helped collect vital data on complex global environment and climate issues and has led to the development of real world products using satellite imaging, like Agriculture Cameral, which helps educate and bring about solutions for ranchers and farmers on a wide variety of agri-business issues. Multi-university consortiums are very rare because universities compete as much as they collaborate. The growth, success, and longevity of UMAC in large part is due to the vision, leadership, and commitment of Dr. Seielstad.

Even before his arrival at UND, Dr. Seielstad was a notable radio astronomer spending time at the University of Alaska, Caltech's Owens Valley Radio Observatory in Bishop, California, and the National Radio Astronomy Observatory at Green Bank, West Virginia. He graduated summa cum laude with a degree in Physics from Dartmouth College and received his PhD in Physics from the California Institute of Technology. More recently, he served as Chairman of the National Aeronautics and Space Administration's Deep

Space Network Working Group and was appointed by the Secretary of the Interior to serve on the National Satellite Land Remote Sensing Data Active Archive Advisory. He has had over 70 published articles and is the author of two books and the editor of two more.

On a personal level, I have been privileged to enjoy George and his wonderful wife, Delores, as friends. For someone of his distinguished scientific and academic achievements, I have also found George and Delores to be warm hearted, caring, down to earth individuals who shared an extraordinary commitment to make things better. At an earlier point in his career, George almost won a seat in Congress. When that avenue to effect change was not available, he redoubled his efforts in his own work leaving a legacy of accomplishment that is truly incredible.

His impact will be felt by generations to come, by the students he taught, the people that he worked with, and all those who have had the time to get to know him. I wish George and Delores, all their family, the very best and offer my hope for continued success and happiness in the coming years.

PERSONAL EXPLANATION

HON. JOHN H. ADLER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, June 15, 2009

Mr. ADLER of New Jersey. Madam Speaker, on Friday, June 12th, I was unable to vote on rollcall vote 335 because I was welcoming the New Jersey National Guard home from Iraq.

The pending matter was H.R. 1256, the Family Smoking Prevention and Tobacco Control Act, which grants the FDA authority over the advertising and marketing of tobacco products.

This legislation is important to my constituents in New Jersey's Third Congressional District because tobacco is the number one cause of preventable death in America.

Had I been present, I would have voted in the following manner.

Roll call vote 335 (Motion to Concur in the Senate Amendment to H.R. 1256) I would have voted "yes."
