The Big Thicket National Preserve is one of America's ecological treasures. It is an unusually shaped preserve whose boundaries include land once owned by major timber companies. This request enables the National Park Service to acquire critical land within the congressionally authorized boundary of the Big Thicket National Preserve to diversify the economic potential of southeast Texas through increased tourism opportunities. This project works only with voluntary, "willing-seller" landowners.

The \$5,000,000 included in this bill for this project combined with previous funding will allow the National Park Service to purchase over 2500 acres of land on 23 tracts acquired from willing sellers or by voluntary donation. When funded in full, this request represents the final year in a seven-year land acquisition program.

Mr. SIMPSON. Madam Speaker, in accordance with the policies and standard put forth by the House Appropriations Committee and the GOP Leadership, I would like to place in the RECORD a listing of the congressionally-directed project I requested in my home state of Idaho that is contained in the report of HR 2892, the FY2010 Homeland Security Appropriations bill.

The project entails collaboration with leading universities and other National Laboratories to leverage ongoing research at these institutions and advance the state-of-the-art in building resilience into infrastructure systems. The funding will be used to obtain full-scale systems in sectors of interest to DHS for testing of vulnerabilities, identification of protection strategies, and evaluation of resilient designs; partner with universities and National Laboratories to develop resilient control systems; and establish a program that develops new protection schemes. The INL is uniquely placed to carry out this program, which leverages its ongoing work in this area sponsored by DOD, DHS, and Intelligence Agencies and its established relationships with industry, universities, and National Laboratories.

I appreciate the opportunity to provide a list of the Idaho project that has received funding in the FY2010 Homeland Security Appropriations bill and provide an explanation of my support for it.

*Wednesday, June 24, 2009*

Mr. MICA. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2892, legislation that makes appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010. I have received \$350,000 in the FY2010 FEMA, Emergency Operations Center account for a new EOC in Palm Coast, FL. The entity to receive funding for this project is the City of Palm Coast, 160 Cypress Point Parkway Suite B-106, Palm Coast, FL 32164. The FY 2010 funding will assist in the construction of an Emergency Operations Center in Palm Coast. The new EOC will replace the 36 year old obsolete facility. The new location of the replacement facility will better serve the community by having its location in a central area of the City.
