EARMARK DECLARATION

HON. CHRISTOPHER JOHN LEE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 24, 2009

Mr. LEE of New York. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding an earmark I received as part of the FY10 Interior Appropriations bill.

Requesting Member: Congressman CHRISTOPHER LEE (NY–26)

Bill Number: H.R. 2996

Account: Environmental Protection Agency—STAG Water and Wastewater Infrastructure Project

Legal Name of Requesting Entity: Town of Pendleton, NY

Address of Requesting Entity: 6570 Campbell Boulevard, Lockport, NY 14094

Description of Request: Provide an earmark of \$500,000 for the sewer grinder pumps

project in order to convert the low pressure system to a gravity system and will provide residents with a higher level of services and alleviate flooding of homes and roads.

Of the total amount received, 100% is for the purchase of replacement units (as a cost of \$2,716 each). The Town of Pendleton will provide the labor to install each unit, which takes 4 hours and 4 laborers to complete.

The Town of Pendleton operates and maintains a sanitary sewer system on behalf of

Town sewer districts. These districts currently provide sanitary services to more than half of the Town residents. The sanitary system is primarily a low-pressure system, with the exception of several new subdivisions served by gravity systems. The low-pressure system was constructed during the 1970s and is comprised of approximately 14 miles of sewer mains and 453 pump stations. The pump stations are pre-assembled package stations that were installed within individual service laterals.

The stations grind residential waste and discharge it under pressure to the system. Years of harsh environmental conditions, improper waste products and normal wear and tear have caused significant deterioration in the pump stations. The stations are becoming increasingly problematic for the Town. System maintenance has steadily intensified with a current average of over 30 maintenance calls per month.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily

Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.
