

has been done on a state by state basis. More than 100 research projects are currently underway in an attempt to find scientific answers to greening/HLB, the ACP and Canker. A new federal ARS research initiative could ultimately provide long-term solutions to these invasive pests and diseases. This new approach has become necessary to help protect U.S. citrus production and mitigate the impact of these exotic pest and diseases. Scientists are confident that intensive and sustained research can solve the Greening/HLB, ACP and Canker puzzles once and for all.

Requesting Member: Representative MARIO DIAZ-BALART (FL-25)

Bill Number: H.R. 2997

Account: CSREES

Name of Requesting Entity: University of Miami

Address of Requesting Entity: 142 Collegiate Loop, Tallahassee, FL, 32306

Description of Request: I have secured \$2,494,000 for the Southeast Climate Consortium. This funding will be used to characterize the impacts of ENSO-related climate variability (a global coupled ocean-atmosphere phenomenon producing the most prominent known source of inter-annual variability in weather and climate around the world) on agricultural commodities and specialty crops. Explore alternative management responses to realistic climate scenarios and quantify expected outcomes. Establish communications process that can rapidly disseminate climate information and decision support tools regularly while gleaning user feedback on the usefulness and relevance of the provided analyses via agricultural stakeholders and state extension services. Study the agricultural impact of water managers' decisions in response to climate variability. Weather and climate significantly affect agriculture; year-to-year climate variability (e.g., flooding, droughts) can dramatically impact agricultural productivity. Climate forecast information for a relatively small regional group of agricultural decision-makers has proven useful. By expanding efforts into Georgia and Alabama via new collaborations with universities there, we enhance our understanding and predictive abilities as we tailor information for a wider range of Southeast agricultural decision makers.

EARMARK DECLARATION

HON. HOWARD COBLE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. COBLE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information for publication in the CONGRESSIONAL RECORD regarding earmarks I received as part of H.R. 2996, the Interior, Environment and Related Agencies Appropriations Act of 2010.

Requesting Member: Congressman HOWARD COBLE

Bill Number: H.R. 2996

Account: Land and Water Conservation Fund

Legal Name of Requesting Entity: Uwharrie Trail, Randolph County, North Carolina.

Address of Requesting Entity: U.S. Forest Service, 160 Zillico Street, Suite A, Asheville, NC 28801

Description of Request: The bill provides \$500,000 for land acquisition to complete the second portion of the Uwharrie Trail in Randolph County, NC. The Uwharrie National Forest is located in the Piedmont area of central North Carolina. It is located in a rural but developing area 40 miles from Charlotte (more than 1.3 million in population), and almost as near to the Research Triangle cities of Greenville/Raleigh and Durham, NC. At 50,189 acres, the Uwharrie is the smallest National Forest with the most fragmented ownership in North Carolina, owning only 23% of lands within the forest boundary. Land acquisition offers the best opportunity to consolidate this scattered ownership pattern and will also improve plant and wildlife habitat, reduce the threat to endangered species, increase recreation opportunities, and improve water quality in the Uwharrie River watershed. The Uwharrie National Recreation Trail currently runs north from a trailhead on Highway 24/27 near Wood Run Hunt Camp in Montgomery County through lands along the north portion of the Uwharrie National Forest in Randolph County. The current trail is 20.4 miles in length and provides views of the surrounding countryside containing a mixture of oak, hickory, maple and conifer tree communities.

EARMARK DECLARATION

HON. PHIL GINGREY

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 7, 2009

Mr. GINGREY of Georgia. Madam Speaker, pursuant to the Republican Leadership standards on earmarks as well as in accordance with Clause 9 of rule XXI, I am submitting the following information regarding earmarks I received as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010.

Requesting Member: Congressman PHIL GINGREY

Bill Number: H.R. 2997

Account: Department of Agriculture; Natural Resources Conservation Service, Watershed and Flood Prevention Operations

Legal Name of Requesting Entity: Paulding County (GA) Board of Commissioners

Address of Requesting Entity: 240 Constitution Boulevard, Dallas, GA 30132

Description of Request: The project will be a pump-fill reservoir located within the upper reaches of Richland Creek in northern Paulding County, Georgia. The funding granted in H.R. 2997 is to be used for engineering and design services for the dam structure and appurtenances, raw water withdrawal station, raw water pipeline, and for mitigation purposes.

Richland Creek Reservoir is a public water supply reservoir that is being proposed to fulfill Paulding County's water supply needs for the next 50 years. As Richland Creek has a small drainage basin, a raw water intake structure and pipeline must be constructed on the Etowah River to supply water to the 4.4 billion gallon reservoir. According to our 50-year water needs projections, Paulding County will need approximately 62 million gallons per day (MGD). Currently, Paulding County purchases 100% of its potable water from Cobb County-Marietta Water Authority (CCMWA). CCMWA has in its long-term plan to be able to supply Paulding with up to 27 MGD leaving an unmet need for Paulding County of 35 MGD. Richland Creek Reservoir is expected to fulfill the unmet water supply need of 35 million gallons per day (MGD) for Paulding County.

The \$100,000 added to H.R. 2997 will be used in its entirety for Surveying, Engineering Studies & Permitting for the reservoir to help fulfill the water needs of Paulding County.
