Description of Request: I requested and received a Member priority request totaling \$300,000 for the McBean Regional Transit Center's (MRTC) park-and-ride facility project. This effort is a vital expansion of an intermodal, transportation hub that serves hundreds of local bus riders, commuters, carpools, and vanpools every day. This funding would be used to help construct a permanent park-and-ride lot (300 parking spaces), provide passenger loading areas, bus bays, and the infrastructure to service passengers using multimodal travel. These upgrades are necessary to accommodate the additional demand for transit service into the City of Los Angeles (a ridership that has increased 31% over the last six years), increase safety and efficiency, cut emissions, and provide economic development opportunities within the region.

#### RESTORE OUR AMERICAN MUSTANGS ACT

SPEECH OF

### HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, July 17, 2009

Mr. KUCINICH. Mr. Speaker, I rise in strong support of H.R. 1018. Current practices by the

Bureau of Land Management (BLM) to maintain the population of our nation's wild horses and burros have been ineffective, inhumane and expensive.

This bill will significantly curb the costly and inhumane practice of rounding up our nation's wild horses and burros into crowded short- and long-term holding pens. In their report, "Effective Long-Term Options Needed to Manage Unadoptable Wild Horses," the Government Accountability Office (GAO) confirmed that the bulk of budget shortfalls faced by the Bureau of Land Management have resulted from current management methods that move wild horses and burros from Herd Management Areas (HMA) to long- and short-term holding areas. The report affirms that BLM will face budget shortfalls if long-term corrections to current management practices are not put in place.

In the past, I have advocated for significant changes to current herd management practices to ensure that long-term reduction of wild horse and burro populations on public lands is not achieved by slaughter. Such concerns were expressed by the public and Members of Congress alike as recently as last summer.

The slaughter of these animals is an unacceptable solution that jeopardizes public trust and undermines congressional intent. The Bureau of Land Management (BLM) has never exercised its authority to slaughter wild horses and burros. Financial shortfalls are not sufficient reason to end the BLM's good record. As such, I strongly support the effective and humane actions this bill has taken to replace current practices.

Under this bill the Bureau of Land Management will identify appropriate public lands and sanctuaries for our nation's wild horses and burros. With passage of this bill, most of the beautiful and treasured wild horses and burros currently in holding pens will be released to roam on public lands. Additionally, the BLM's adoption program for wild horses and burros will be strengthened to improve efforts to increase adoption by qualified individuals. Furthermore, the bill wisely includes a provision that will help protect threatened and endangered species by requiring BLM to ensure a "thriving natural ecological balance" on public lands designated for wild horses and burros.

I strongly support this important bill and urge my colleagues to vote in favor.

### HON. HAROLD ROGERS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 23, 2009

Mr. ROGERS of Kentucky. Madam Speaker, pursuant to the House Republican standards on congressionally-directed funding, I am submitting the following information regarding funding included in H.R. 3288, the Transportation, Housing and Urban Development Appropriations Bill of 2010.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 3288

Account: Federal Aviation Administration—Facilities & Equipment

Legal Name of Recipient: Hazard-Perry County Airport Board—Wendell H. Ford Regional Airport

Address of Recipient: P.O. Box 420, Hazard, KY 41701

Description of Request: Provides directed funding of \$500,000 for an Instrument Landing System (ILS) at Wendell H. Ford Regional Airport in Hazard, KY. for precision azimuth and elevation guidance signals to aircraft. For the 12-month period ending September 21, 2006, the airport had 10,200 aircraft operations, an average of 27 per day: 85% general aviation, 14% air taxi and 2% military. This project will make a more secure environment for military and civilian operations and provide safer landings at this regional airport.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 3288

Legal Name of Recipient: Kentucky Communities Economic Opportunity Council (Gray, KY.)

Address of Recipient: 5448 US 25 East, Gray, KY 40734

Description of Request: Provides directed funding of \$250,000 for the construction of a health and wellness facility in Barbourville, KY., an area with a long history of high unemployment and high poverty. No such facility currently exists in the region, and this project would help combat serious health issues faced by residents as a result of the pervasive problems of obesity and diabetes—thereby greatly increasing the quality of life for local residents. This facility is being constructed through a partnership between the City of Barbourville, KY., Union College and KCEOC Community Action Agency.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 3288

Account: Department of Housing & Urban Development—Economic Development Initiatives

Legal Name of Recipient: Kentucky Blood Center

Address of Recipient: 3121 Beaumont Centre Circle, Lexington, KY 40513

Description of Request: Provides directed funding of \$500,000 for the construction of new donor center along US-27 in Somerset, Ky., which would allow for storage of a large volume of blood components. The Kentucky Blood Center (KBC) currently leases a smaller space, which has proved insufficient to accommodate the growth in blood donation and staffing in the area. According to the American Association of Blood Banks International Task Force on Domestic Disasters, the single greatest risk from a disaster is not a lack of blood—but a disruption of the blood delivery system. The new Somerset Center will allow KBC to develop a regional approach in meeting blood donation needs, increasing preparedness for a disaster or blood emergency. The project has already undergone development and design, and can be under construction within 90 days.

Requesting Member: Congressman HAROLD ROGERS

Bill Number: H.R. 3288

Account: Department of Transportation—Buses and Bus Facilities

Description of Request: Through the Kentucky Transportation Cabinet's Office of Transportation

Delivery, provide funding of \$1,000,000 for Hazard-based LKLP Community Action Council to construct a transit facility in West Liberty, Ky. A parking and transit structure would enhance the basic downtown infrastructure to support commuters and businesses, and this new transit facility will serve as an economic catalyst and hub for downtown revitalization in Morgan County, Ky. LKLP operates a number of federal Public Transportation programs including Section 5311, Section 5310, Section 5316 and Section 5317.

Requesting Member: Congressman HAROLD ROGERS

Address of Recipient: 200 Mero Street, Frankfort, KY 40622

Description of Request: Provide directed funding of \$750,000 to expand US-25 to 4 lanes near Corbin in Laurel County, Kentucky, which will greatly decrease congestion and increase safety in the area. Highway spending yields a 32% annual return on investments measured over decades, which far exceeds most other public or private investments. This important project is included in Kentucky's 2008 Highway Plan, as approved by the 2009 Kentucky General Assembly.
