

Rose still serves as the inspiration behind the enormously successful and ever growing Rosina Food Products, Inc. and the company regularly gives back to local organizations in the community.

I would like to congratulate Rose for reaching this important milestone. It is my pleasure to recognize Rose's many contributions to her family, friends and community. I wish Rose many more years of continued success and happiness.

EARMARK DECLARATION

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. GRAVES. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3326, the Department of Defense Appropriations Act, 2010:

Congressman SAM GRAVES (MO-6)

Department of Defense, Air Force, Operations and Maintenance ANG—\$465,000 for the 139th Airlift Wing, ANG for force protection and training equipment (705 Memorial Drive, St. Joseph, MO 64503-3388)

Federal funds will be used to purchase explosive/hazardous materials SABRE 4000 detection devices, procure training equipment, including UHF and Automated Access System, and reinforce defensive infrastructure. These funds will increase the 139th AW's capability for future missions, enhance effectiveness of current missions, and improve efficiency.

Congressman SAM GRAVES (MO-6)

Department of Defense, Army, Procurement of Ammunition—\$5,000,000 for the Lake City Army Ammunition Plan for small caliber ammunition production modernization (PO Box 1000, Independence, MO 64501)

Federal funds will be used for ammunition production and ballistic test range upgrades. Due to increased regulations by the EPA and DoD prohibiting the use of heavy metals in ammunition production and use, the DoD has undertaken an initiative to eliminate heavy metal compounds from priming mixtures as soon as an acceptable product is available. The federal funding obtained will be used to determine if the industry efforts made to find a new potential heavy metal free compounds can be applied to military requirements. This will reduce hazards to personnel engaged in small arms training and operation, enable DoD to utilize ranges that might otherwise not be available due to federal and local restrictions on heavy metal content in training ammunition, and supports training and readiness requirements.

EARMARK DECLARATION

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. SMITH of New Jersey. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2996: Making Appropriations for Interior and Environment for Fiscal Year 2010.

Requesting Member: Rep. CHRISTOPHER H. SMITH

Bill Number: H.R. 2996

Account: Save America's Treasures

Legal Name of Requesting Entity: Georgian Court University

Address of Requesting Entity: Georgian Court University, 900 Lakewood Avenue, Lakewood, NJ 08701

Description of Request: The \$200,000 in funding would be used to help preserve the Mansion at Georgian Court University, a building on both the State and National Registers of Historic Places. The building is used by over 23,000 New Jersey residents each year while attending various programs offered through the University's Department of Conferences and Special Events.

EARMARK DECLARATION

HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. SAM JOHNSON of Texas. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I, Sam Johnson, am submitting the following information regarding earmarks I received as part of H.R. 3326, the Department of Defense Appropriations Act of 2010.

(1) The entity to receive funding is Microfab Technologies, Inc., 1104 Summit Ave., #110, Plano, Texas 75094.

This \$1M request is funded through the Army RDT&E, Medical and Technology account. MicroFab Technologies Inc., located in Plano, is working to develop a portable bio-printer/skin printing system to repair life threatening battlefield burn injuries with biologic skin. This will allow military medical personnel to promptly respond and manage burn injuries on site using a printable allograft, a graft using cells from a variety of individuals.

(2) The entity to receive funding is L-3, 3414 Herman Drive, Garland, Texas 75041.

This \$3.8M request is funded through the Navy (Marine Corps), Marine Corps Ground Combat/Supporting Arms Systems account. Garland's L-3 Electro-Optical Systems Division employs 336 people at the Garland facility and 202 at the Dallas site. Currently, it is not possible for a Marine to use Night Vision Devices (NVDs) and Thermal Weapon Sights (TWSs) at the same time. This causes a decrease in awareness and puts the Marine at greater risk. Through research, the industry has developed technology to fuse the two systems, enabling a Marine to see a night scene and thermal imagery, targeting lasers and targeting information all through the helmet-mounted NVD. The RASOR program is developing a kit to retrofit the existing NVD that will enable the user to receive the imagery and targeting data from the thermal weapon sight.

(3) The entity to receive funding is Mustang Technology, 400 W. Bethany Dr., Ste 110, Allen, Texas 75013.

This \$1M request is funded through the Navy RDT&E, Power Projection Advanced Technology account. Mustang Technology Group, of Allen, aims to improve the radar

system for the Navy. The Navy lacks an all-weather airborne unmanned air vehicle (UAV) surveillance capability to detect and track high value targets that move, stop for a while, and then move again (Move Stop Move: MSM). Not having this capability allows terrorists that stop and plant mines and IEDs along the shoreline to evade surveillance. The MTI Scout radar hardware is designed to support MSM but requires additional work to develop, integrate, and test the MSM mode software. The light weight and low power of the MTI Scout radar make it ideal for many other airborne manned and unmanned surveillance platforms, like the Predator, Fire Scout, and MC-12W.

(4) The entity to receive funding is Raytheon, 2501 West University Drive, McKinney, TX 75071-2813.

This \$2M request is funded through the Army RDT&E, Combat Vehicle Improvement Programs account. Raytheon's Active Protection System division employs approximately 35 people full time in McKinney. APS is an externally mounted vehicle protection system that identifies, discriminates and intercepts rocket propelled grenades (RPGs), mortars, antitank guided missiles and artillery projectiles after they are launched toward a combat vehicle. It provides 360 degree surveillance and protection against multiple simultaneous threats. This funding will allow insertion of reduced cost electronics and modifications to the radar for Stryker integration, as well as software and hardware development for system command and control, including the human-machine interface.

(5) The entity to receive funding is SVTronics, 3465 Technology Drive, Plano, Texas 75074.

This \$3.4M request is funded through the Navy RDT&E, Medical Development account. SVTronics in Plano employs 120 people. The U.S. Marine Corps has been developing a lightweight, self-contained, Mobile, Oxygen, Ventilation, and External Suction (MOVES) system in support of the En Route Care System. The MOVES system uses ambient air to produce oxygen and then delivers the oxygen directly to the casualty. It has a ventilator that can ventilate a patient with up to 85% oxygen, and it also has suction capability. In addition, the MOVES system can monitor vital signs including blood pressure, heart rate, pulse oximetry, temperature, oxygen and carbon dioxide levels, and ECG. All of these capabilities are integrated in a single system that can run on its own power and easily connect to a patient litter for transport. MOVES reduces the cube and weight of the present En Route Care System by over 60%, and eliminates the hazards associated with pressurized oxygen cylinders in the field.

EARMARK DECLARATION

HON. JOHN FLEMING

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. FLEMING. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3326, the "Department of Defense Appropriations Act, 2010." I have requested

funding for the following projects in Fiscal Year 2010:

Nuclear Enterprise Surety Tracking, Account: RDTE, AF. Recipient: United States Air Force, Global Strike Command (Barksdale AFB, Louisiana). In support of AFGSC at Barksdale AFB, funds would support the Air Force's efforts to reinvigorate the Nuclear Surety Mission by combining a suite of technologies and applications on a bio-metrically secure handheld computing device to enable the real-time tracking of nuclear warheads and nuclear bombs across all USAF installations.

Reconstitution of B-52 Nuclear Capability Study, Account: RDTE, AF. Recipient: United States Air Force, Global Strike Command (Barksdale AFB, Louisiana). In support of the 2nd Bomb Wing and Headquarters, Eighth Air Force at Barksdale AFB, FY10 funds would provide for a comprehensive study of nuclear vulnerabilities to assure the B-52 bomber can meet its nuclear mission. Project will support the USAF/Global Strike Command mission to reinvigorate the Air Force nuclear enterprise. The goal is to produce a prioritized list of recommendations that will enhance the B-52 fleet's capability to execute its nuclear role in support of USSTRATCOM commitments.

Consistent with the Republican Leadership's policy on earmarks, I hereby certify that to the best of my knowledge, this request: 1) is not directed to an entity or program that will be named after a sitting Member of Congress, 2) is not intended to be used by an entity to secure funds for other entities unless the use of funding is consistent with the specified purpose of the earmark, and 3) meets or exceeds all statutory requirements for matching funds where applicable. I also hereby certify that neither I nor my spouse has any financial interest in this project.

EARMARK DECLARATION

HON. LEONARD LANCE

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. LANCE. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3326, The FY 2010 Department of Defense Appropriations Act:

Agency: Army
Account: RDT&E
Amount: \$3,150,000
Project: Conversion of Municipal Solid Waste to Renewable Diesel Fuel
Recipient: Covanta Energy 40 Lane Rd, Fairfield, NJ 07004

The purpose of this program is to convert military solid waste to diesel, resulting in >10% savings and stabilize the long-term cost of fuel. This conversion will also enable the military to exercise unprecedented control over raw material (waste feedstock) generation and supply.

Agency: Army
Account: RDT&E
Amount: \$2,000,000
Project: Dermal Matrix Research
Recipient: LifeCell Corporation, One Millenium Way, Branchburg, NJ 08876

The purpose of this program is to continue development of an off-the-shelf transplantable

graft from porcine tissue for combat casualties with full-thickness burns and other skin and dermal deficits prior to their evacuation from the theater of operation.

Agency: Army
Account: RDT&E
Amount: \$2,000,000
Project: Printed and Conformal Electronics for Military Applications

Recipient: FlexTech Alliance, 84 W. Santa Clara St., Suite 630 San Jose, CA 95113

The funding would be used to develop and manage a supply chain and prototype development program for printed and conformal electronics.

Agency: Army
Account: RDT&E
Amount: \$2,500,000
Project: Standard Ground Station—Enhancement Program

Recipient: Sarnoff Corporation, 201 Washington Road, Princeton, NJ 08540-6449

The purpose of this program is to allow the Standard Ground Station (SGS) to be used in other locations outside of Iraq by developing methodologies that can be applied to, and deployed in, multiple terrains and topographies—coastal, mountainous, forested—to extend the SGS's geographic primacy and protect Joint Warfighters as they prosecute the global war on terror.

Agency: Army
Account: RDT&E
Amount: \$1,000,000
Project: Tactical Metal Fabrication (TacFab)
Recipient: SeaBox, Inc., 450 Black Horse Lane, No. Brunswick, NJ 08902

The purpose of this program is to provide a containerized, mobile foundry to the U.S. Army, allowing deployed forces to produce spare and replacement parts in the field. This cuts the order time from weeks or months to 24 hours.

Agency: Air Force
Account: RDT&E
Amount: \$3,000,000
Project: Planar Lightwave Circuit Development for High Power Military Laser Application
Recipient: LGS Innovations, 15 Vreeland Road, Florham Park, NJ 07932

The purpose of this program is to meet the High-Energy Laser Joint Technology Office (HEL-JTO) need for revolutionary high power, high efficiency, electrically-driven laser technology that can be turned into a ruggedized system for use by all branches of the military.

Agency: Defense-wide
Account: RDT&E
Amount: \$2,000,000
Project: Secure, Miniaturized, Hybrid, Free Space, Optical Communications
Recipient: LGS Innovations, 15 Vreeland Road, Florham Park, NJ 07932

The purpose of this program is to provide a fully operational secure, miniaturized, RF optics hybrid wireless communications system meeting the specific volume, weight, and power constraints required for secure, covert defense-related communication applications for the Department of Defense.

EARMARK DECLARATION

HON. DOC HASTINGS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. HASTINGS of Washington. Madam Speaker, to provide open disclosure, I am

submitting the following information regarding projects that I support for inclusion in H.R. 3326 the Department of Defense Appropriations Act, 2010.

Amount: \$3 million
Account: Army Research, Development, Test and Evaluation

Entity receiving funds: Army and General Dynamics located at 9256 Randolph Road NE, Moses Lake, WA 98837.

Description: The U.S. military has stated that it needs a compact, low-cost accuracy kit to place on existing mortar and rockets. This funding will be used to develop this technology for the U.S. military.

Amount: \$1.5 million
Account: Army National Guard, Operations and Maintenance

Entity receiving funds: Army National Guard and the HAMMER facility, located at 2890 Horn Rapids Road, Richland, WA 99354.

Description: These funds will be used to ensure that Army National Guard units receive the training needed to respond to weapons of mass destruction attack.

Amount: \$1 million
Account: Army Research, Development, Test and Evaluation

Entity receiving funds: Army and Infirnia, located at 6811 West Okanogan Place, Kennewick, WA 99336.

Description: These funds will be used to provide the Army with a small, efficient, reliable way to equip American troops with both electricity and hot water.

Amount: \$2 million
Account: Research, Development, Test and Evaluation Defense Wide

Entity receiving funds: Battelle Northwest located at 902 Battelle Boulevard, Richland, WA 99352 and Heritage University located at 3240 Fort Road, Toppenish, WA 98948.

Description: These funds will be used to provide a security protected collection of technical reports, scientific studies, and reference documents on chemical and biological warfare available to the U.S. intelligence community. This supports the intelligence community's mission to make all relevant documents available to intelligence analysts.

EARMARK DECLARATION

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. GERLACH. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3326 the Department of Defense Appropriations Act, 2010.

Analytical Graphics, Inc. (AGI) COTS Technology for Space Command and Control, Exton, PA—\$2 million to refine existing COTS technologies to make them completely applicable for space command and control programs. The funds will enable development and demonstrations of various COTS technologies for integrated space command and control.

Arkema, King of Prussia PA—\$2 million to develop lightweight, breathable clothing resistant to chemical and biological agents.

Bally Ribbon Mills, Bally PA—\$3 million to develop a technology and machine to produce
