

his willingness to work with the committee to resolve issues raised during the earlier consideration of this legislation. We have no objection to the passage of H.R. 603.

I reserve the balance of my time.

Mr. BISHOP of Utah. Mr. Speaker, I yield myself such time as I may consume.

Once again, I appreciate the kind words of the gentlelady from Guam. I also appreciate the help and assistance of the chairman of the full committee, Mr. RAHALL, and of the chairman of the subcommittee, Mr. GRIJALVA, in moving this bill forward.

This is another bill that was discussed in the last session and was passed over there. Part of it was actually incorporated into the one by the Senate. The other part was not. This needs to finish off the process. It has the support of the entire Utah delegation, which happens to be bipartisan this time. It was suggested by the Adjutant General of the Utah National Guard as well as by the Governor of the State of Utah. It deals with long-term growing pains of the Utah National Guard facilities, their Camp Williams headquarters in Utah.

As we discussed, part of the issue is that the State of Utah has outgrown the amount of land it owns within the camp for which there can be buildings. What we are asking in this land transfer is to make sure that the land would always stay where it is. It would be for military purposes, but land that belongs to the Bureau of Land Management would be transferred to the State for the building of facilities at the Utah National Guard, specifically for Utah National Guard purposes. It has to have that kind of purpose with it. This land transfer would allow the Utah National Guard to fulfill its military mission in land that is presently part of the camp, but technically not under the ownership of the State of Utah, for the sole purpose of building military infrastructure.

With that, I appreciate the kind words that have been said, and I reserve the balance of my time.

Actually, for the gentlewoman from Guam, I have no other speakers on this one. Do you have any other speakers?

Ms. BORDALLO. I have no further speakers.

Mr. BISHOP of Utah. Then I yield back the balance of my time.

Ms. BORDALLO. Mr. Speaker, I again urge Members to support H.R. 603, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 603.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Ms. BORDALLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Guam?

There was no objection.

Ms. BORDALLO. Mr. Speaker, I yield myself such time as I may consume.

The purpose of H.R. 637, as introduced by our colleague from California, Mr. CALVERT, is to authorize the Secretary, in cooperation with the Cities of San Juan Capistrano and San Clemente, California, to participate in the design, planning and construction of an advanced water treatment plant facility and recycled water system.

The continuing drought and the decrease in snow pack have led to a reduction in water supplies in many parts of the West. Water recycling projects can help communities protect against drought. H.R. 637 would authorize limited Federal financial assistance for two separate water recycling projects in southern California—one in San Juan Capistrano and the other in San Clemente.

□ 1615

Recycled water can satisfy many water demands.

The House favorably passed identical legislation in the 110th Congress. So I urge my colleagues to join me in supporting H.R. 637.

I reserve the balance of my time.

Mr. BISHOP of Utah. Mr. Speaker, I rise in support of H.R. 637. I yield myself such time as I may consume.

This was sponsored by the distinguished former chairman of the House Water and Power Subcommittee, Mr. CALVERT of California, and will help resolve water supply shortages in southern California by authorizing limited Federal assistance for water recycling projects in the Cities of San Clemente and San Juan Capistrano.

Historic drought and litigation to protect a three-inch fish will lead to decreased water deliveries in southern California, and as a result, less imported water will be recycled in the coming year. However, water recycling is a long-term necessity for southern California and other arid regions of the West. So all of these projects together will help ensure that there will be no such thing as wastewater.

So I urge my colleagues to support this bill. It deals with water, fish—and no swallows.

I reserve the balance of my time. However, I request once again of the gentlelady from Guam if she has other speakers.

Ms. BORDALLO. Mr. Speaker, I have no additional requests for time.

I reserve the balance of my time.

Mr. BISHOP of Utah. Mr. Speaker, I will simply yield back the balance of my time.

Ms. BORDALLO. I again urge Members to support the bill.

Mr. CALVERT. Mr. Speaker, the South Orange County Recycled Water Enhancement Act is a relatively modest, yet important step towards meeting the long-term water needs for the West.

Last week, Federal water managers said that they plan to cut off water, at least temporarily, to thousands of California farms as a result of the drought affecting the State. With the State and Federal reservoirs at their lowest levels since 1992, mandatory water rationing is just around the corner. In the midst of our dramatic economic downturn, the lack of water simply makes a bad economic situation worse. The passage of any legislation that enables communities in the West to be more drought-resistant could not be timelier.

The South Orange County Recycled Water Enhancement Act authorizes two water reclamation projects in the south Orange County portion of my district. South Orange County relies heavily on imported water from sources such as the Colorado River and Bay-Delta in northern California. Water reclamation projects, and other steps that reduce demand for imported water, benefit all regional water users.

The first project outlined in the legislation is the San Juan Capistrano Recycled Water System, which would enable the city of San Juan Capistrano to provide recycled water to users throughout the city and its neighboring communities. To meet the local demand, the city has developed a project that includes the construction of a water treatment facility as well as transmission infrastructure. I want to thank San Juan Capistrano Mayor Mark Nielsen and the rest of the city council for their dedication to this important project.

The second project is the San Clemente Reclaimed Water Project which would expand San Clemente's reclaimed water infrastructure by doubling its production capacity. When completed, San Clemente's Reclaimed Water Project will reduce the city's demand of domestic water by 3,300 acre-feet per year. I applaud San Clemente Mayor Lori Donchak and the entire city council for their continued commitment to water recycling.

Mr. Speaker, I think it is crucial that we recognize and assist communities that are working to reduce their reliance on imported water and I urge all of my colleagues to support the South Orange County Recycled Water Enhancement Act.

Ms. BORDALLO. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Guam (Ms. BORDALLO) that the House suspend the rules and pass the bill, H.R. 637.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BROUN of Georgia. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further

proceedings on this motion will be postponed.
