The gentlewoman from New York (Ms. VELÁZQUEZ) and the gentleman from Missouri (Mr. GRAVES) each will control 30 minutes.

The Chair recognizes the gentlewoman from New York.

Ms. VELÁZQUEZ. Mr. Chairman, I yield myself as much time as I may consume.

Mr. Chairman, I rise in support of this measure which will update and improve the SBA's ED programs. This bill is a bipartisan product and will not only strengthen small firms but will help them create new jobs for American workers.

This week, we are honoring our Nation's job creators, the entrepreneurs who generate roughly 70 percent of all new positions. As we celebrate Small Business Week this year, we find ourselves in a different place than in celebrations past. The economic landscape has changed considerably, and in the face of an historic recession, small firms cannot always go it alone. After all, starting and running a small business is no easy lift, even when times are good. That is why the Job Creation Through Entrepreneurship Act is so important. It revs up the engine of our economy, the entrepreneurs who are creating jobs and changing the way our country does business.

This bill gives small firms the tools they need to flourish. By enhancing SBA's entrepreneurial development programs, it will help existing businesses grow and allow aspiring entrepreneurs to get off the ground. These resources are critical. In fact, small firms that use them are twice as likely to succeed than those that don't. But unfortunately, many of these initiatives are outdated and underfunded. Today, we will take important steps to ensure they are running at full capacity.

Despite declines in corporate America, the entrepreneurial spirit is alive and well. Every month, 400,000 new businesses start up across the country. Imagine if each of those firms had access to resources like business development training. Through H.R. 2352 they will. This bill provides entrepreneurs with the tools they need to do everything from draft a business plan to secure equity capital. These services put small firms on a level playing field, allowing them to compete in virtually any sector, including the Federal marketplace.

Although most industries are struggling, the Federal marketplace is booming. With billions of stimulus dollars now in play, that sector presents

enormous opportunity for entrepreneurs. But before they can crack the industry, small firms will need to know its ins and outs. H.R. 2352 provides the training they need to do so. It also offers the necessary technology.

In order to adapt to new markets, many entrepreneurs will need to retool their operations. Through cutting-edge technology programs, this bill allows entrepreneurs everywhere to access the information they need. In doing so, it encourages entrepreneurship in places where it might not otherwise grow. For struggling rural regions and inner cities, H.R. 2352 will be an economic catalyst. It will also reflect the changing face of American business. More and more, women, veterans, and Native Americans are starting their own firms. For these people, entrepreneurship is more than a means of employment; it is a path to economic independence.

From rejuvenating rural regions to promoting entrepreneurship in under-represented communities, ED makes good economic sense. And in fact, every \$1 put into the program puts another \$2.87 into the Treasury. If you ask me, that's a pretty good return on investment. By modernizing and enhancing the program, the returns will only get better. Because at the end of the day, strengthening entrepreneurial development programs empowers small businesses, allowing them to grow and, perhaps most importantly, create new jobs for American workers.

I reserve the balance of my time.

Mr. GRAVES. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise today in support of H.R. 2352, the Job Creation Through Entrepreneurship Act of 2009. This legislation reauthorizes some of the SBA's most critical programs, those that prepare America's entrepreneurs to start and maintain successful small businesses.

The Small Business Administration, or the SBA, accomplishes this important mission through its Office of Entrepreneurial Development and its use of programs such as Small Business Development Centers, or SBDCs; the Women's Business Centers, WBC; the Service Corps of Retired Executives, or SCORE; the Office of Veterans Business Development; the Office of Native American Affairs; and its distance learning program. These programs have not been reauthorized in a comprehensive way in nearly 10 years, and given the changes in the economy, it is long overdue.

Starting and maintaining a successful business has always been a daunting task, fraught with unforeseen and unavoidable problems and pitfalls for American entrepreneurs. In the past, a solid business plan, a loan from friends or a banker that you knew and good old-fashioned hard work was a recipe for success. The entrepreneurial development programs at the SBA were available to assist fledgling and seasoned small business owners in navi-

gating the difficult entrepreneurial terrain of developing a business plan and growing their businesses.

However, times are more difficult now. Financing is harder to get. Competition does not just come from the business down the street but comes from businesses all around the world. In acknowledgment of these new challenges and their need for immediate attention, the Job Creation Through Entrepreneurship Act of 2009 addresses the changing climate for entrepreneurs and makes minor tweaks to programs that have a record of success.

These programs are even more critical today as the country's economy is more focused on small businesses. As more large corporations begin to close or downsize, many more Americans have chosen to go into business for themselves and are in need of the type of guidance the entrepreneurial development programs at the SBA provide.

But it is not just fledgling entrepreneurs and those downsized from large corporations who have the desire to run their own businesses. When the men and women who have chosen to serve their country honorably in the armed services leave, they are faced with beginning new careers. Often they choose to serve their country in another way. These Americans frequently choose to open up a small business and contribute to the growth of America's economy. For these great Americans, we must provide them with the very best training to make their transition to civilian life as equally secure.

This bill seeks to expand and improve the educational and training resources provided by the SBA to our veterans. Although the SBA currently runs a veterans outreach and education program, no such program is authorized under the Small Business Act. This legislation would correct that and expand the number of centers available to serve our veterans. It is a small price to pay for the sacrifice they have made for us.

Many aspiring entrepreneurs live in rural areas or work out of their homes. Neither may have access to physical locations at which the SBA and its partners offer education and training. Given today's technology, we can provide these entrepreneurs with appropriate education through quality distance learning programs. H.R. 2352 requires the SBA, working with private vendors, to develop online courses that will educate entrepreneurs about starting and expanding their businesses, including having the opportunity to obtain online counseling from other business owners.

Often forgotten are our Native Americans located in very remote areas of the country. They, too, can contribute to economic growth if they have access to education and training programs offered by the SBA. H.R. 2352 codifies the Office of Native American Affairs at the SBA and directs that office to expand its service to Native Americans through the use of Tribal Business In-

formation Centers. These centers will provide entrepreneurial education programs that meet the unique needs of Native Americans.

The broadest effort at entrepreneurial development is the Small Business Development Center program, a joint program between the SBA and institutions of higher learning. Changes in the bill modernize the management and establish, without risk to core funding, competitive grant programs designed to provide businesses with the best practices for things such as raising capital in constricted lending markets.

Half of all small business owners are women. Many small business owners who are women have benefited from training they have received at Women's Business Centers over the years and, as a result, have made great contributions to their communities. This bill makes several changes to the Women's Business Centers to ensure that they are functioning at their optimum level and reaching as many women as possible. In addition, the bill also makes provisions to ensure that the centers are on a sound path to self-sufficiency.

□ 1445

This will free up funds to allow new centers to open and serve areas not currently served by the Women's Business Centers.

These entrepreneurial programs frequently rely on the dedication of volunteers. Advice from executives, whether active or retired, proves invaluable to small business owners.

The SCORE Program at the SBA oversees a core of 11,000 knowledgeable volunteers willing to offer guidance to small business owners. It is an effective program that should offer more services. H.R. 2352 does just that by expanding the ability of SCORE to offer greater outreach and improved counseling to small business owners.

It is obvious that the SBA operates a number of entrepreneurial development programs. Many provide an overlapping service. While it is important to ensure that small businesses are receiving the necessary training, it is also important that these programs operate in the most efficient manner possible. And this bill before us requires the SBA to increase its oversight of these programs, improve coordination, eliminate waste and duplication.

Mr. Chairman, this legislation makes critical changes to vital programs at a critical time. And, in short, this bill sharpens already existing tools employed by the SBA to cultivate one of our Nation's greatest natural resources, its entrepreneurs. Mr. SHULER and my fellow Missourian, Mr. LUETKEMEYER, should be commended for their work on this bill. And I would like to thank the chairwoman very much for her bipartisan efforts in moving this key bill through the committee. I'd also like to thank Ms. FALLIN, Mr. BUCHANAN, Mr. SCHOCK and

Mr. THOMPSON for their vital contributions to this legislation. And I'd encourage my colleagues to support this important legislation with me.

Mr. SHULER. Mr. Chairman, I yield myself as much time as I may consume.

Mr. Chairman, I want to commend the chairwoman for her extraordinary leadership in the Small Business Committee, along with Ranking Member GRAVES, their hard work, their dedication and truly working in a bipartisan way. Far too often here in Washington, it's too much partisanship. But within this committee we're seeing the great leadership and the great work of Chairwoman VELÁZQUEZ.

Also I would like to congratulate the ranking member on the subcommittee, Mr. LUETKEMEYER, for his outstanding work and all the members and staff and their hard work and their dedication on this very important legislation that can help us get out of the recession through the work of our small businesses.

Mr. Chairman, as we observe Small Business Week, we have an opportunity to not only celebrate small businesses but to strengthen them.

Entrepreneurs are the beating heart of the American industry. They don't just create jobs, more jobs than big businesses, they unlock more new markets and create more products. Entrepreneurs generate 60 to 80 percent of all new positions and are the most effective drivers of the economic growth.

At a time when big companies are slashing their work force, we need to invest in businesses that are creating jobs, not cutting them. Entrepreneurial development programs or ED, do just that. And the benefits don't stop at small business community.

Every dollar spent on these initiatives drives another \$2.87 back into the economy. In 2008 alone, ED programs pumped \$7.2 billion into communities across the country. They also laid the groundwork for 73,000 new jobs.

Small businesses have a history of sparking recovery. The Job Creation Through Entrepreneurship Act will give them the tools they need to succeed. As the name suggests, the Job Creation through Entrepreneurship Act, or H.R. 2352, focuses on the job creators. It will give existing firms the tools necessary to succeed and allow new businesses to get off the ground.

That's important because small firms can pull us out of this recession. After all, they did it in the mid-1990s. At that time small firms created 3.8 million jobs, ushering in an era of prosperity.

Today, national unemployment is on the rise. By 2010, it is expected to reach 9.8 percent. In my home State of North Carolina, it's already 10.8 percent. That is why H.R. 2352 is so important. It incentivizes our job creators so they can put Americans back to work.

Small Business Administration ED programs are critical resources. Small firms that use these services are twice as likely to succeed. This legislation

takes important steps in strengthening ED. ED helps entrepreneurs do everything from draft business plans to access capital. It also encourages entrepreneurship within underrepresented groups and underserved communities.

H.R. 2352 includes language to encourage veterans and Native American business ownership. It modernizes SCORE, makes improvements to the Women's Business Centers and establishes distance learning initiatives.

As we celebrate Small Business Week, I can't imagine a better time to invest in entrepreneurs. They are all a very vital and very important part of our economic recovery, not only in this year but in decades to come. Small businesses have sparked recoveries in the past, and with the proper tools, will do it again in the future.

I strongly urge and support H.R. 2352. I reserve the balance of my time.

Mr. GRAVES. Mr. Chairman, I now yield such time as he may consume to the ranking member of the Finance and Tax Committee, Mr. BUCHANAN from Florida.

Mr. BUCHANAN. I want to thank the chairwoman and the ranking member for including my legislation, the bill to modernize SBA's SCORE Program, into the larger bill before us today.

For years, SCORE Program has been providing entrepreneurs with free, confidential and valuable small business advice. Nationwide, SCORE has 389 chapters throughout the United States, nearly 11,000 volunteers.

Locally, I know it has had a huge impact on our small business community. They do a lot to help them, especially with small business planning, which is critical to starting any kind of business today.

Small business creates 70 percent of all the new jobs, not only in our market, but throughout Florida. Their success is vital to our economy, and we need to do everything we can to ensure their success. And this bill helps that.

My legislation will help ensure that qualified SCORE volunteers are available to provide one-on-one advice and counsel to small business owners in Florida and across the country.

Again, I want to thank the chairwoman and the ranking member for giving me this opportunity today.

Mr. SHULER. Mr. Chairman, I yield 3 minutes to the gentlewoman from Pennsylvania (Mrs. DAHLKEMPER).

Mrs. DAHLKEMPER. Mr. Chairman, I rise today as a cosponsor and strong supporter of the Job Creation Through Entrepreneurship Act of 2009. And I want to thank the chairwoman, the ranking member and the subcommittee chair and Republican ranking member on the subcommittee for this bipartisan effort.

A strong small business community is critical to rebuilding our economy, to create the good-paying jobs that stay here in the United States. However, as a small business owner myself, I know firsthand that America's entrepreneurs often need assistance, wheth-

er it be accessing capital, procuring contracts or marketing their firms.

Entrepreneurial development programs have a proven track record of successfully providing businesses with this type of assistance. However, they have not been modernized in over a decade to meet today's small business needs. This is especially important for groups that are underrepresented in the business world, such as women, minorities, and veterans.

For example, the Veterans Business Outreach Program is designed to provide entrepreneurial development services, such as business training, counseling, mentoring, and referrals for eligible veterans owning or considering starting a small business.

It was my amendment in the Small Business Committee that will allow members of the National Guard and Reserve to also access this important program. As we have seen from the wars in Iraq and Afghanistan, these brave men and women can be deployed for months and then struggle when they return home to their business or job.

The Job Creation Through Entrepreneurship Act improves current programs. In this case, it gives all those who have bravely served our country in uniform the tools to start and grow their own business.

Mr. Chairman, we are here today because we understand that small business is critical, not only to creating jobs, but to driving our Nation's economic recovery. Small business development and growth is crucial to aiding our economic recovery in this Nation.

For this reason, in the middle of National Small Business Week, I urge my colleagues to join me in supporting the Job Creation Through Entrepreneurship Act.

Mr. GRAVES. Mr. Chairman, I now yield such time as she may consume to the gentlelady from Oklahoma (Ms. FALLIN).

Ms. FALLIN. Mr. Chairman, I too would like to offer my support for H.R. 2352, the Job Creation Through Entrepreneurship Act, and to thank Chairwoman VELÁZQUEZ and Ranking Member GRAVES for their work in crafting a bipartisan piece of legislation that incorporates several important pieces of small business legislation and work.

Especially at a time when our national economy is struggling, and the American people have asked us here in Congress to focus on economic recovery, this bill will provide important job creation opportunities for our Nation's entrepreneurs.

And I'd especially like to thank our chairwoman and our ranking member for allowing a piece of my legislation, H.R. 1838, the SBA Women's Business Centers Improvement Act, to be included in the Job Creation Through Entrepreneurship Act. This section of legislation adds accountability and transparency to the distribution of funding to Women's Business Centers to offer temporary assistance rather

than permanent dependency on the Federal Government.

The Women's Business Centers are an important part of the grant programs that are funded by the Small Business Administration. Today, Women's Business Centers all across the country are providing women entrepreneurs with much-needed technical assistance in starting and operating their own small businesses.

In the mid-1990s, the Federal Government began awarding grants to Women's Business Centers that were operating as nonprofit organizations in conjunction with institutions of higher learning. Originally these grants were intended to be awarded to business centers in their first 5 years, with the understanding that after this 5-year period had ended, the center would be financially self-sustaining. Although many of the Women's Business Centers did meet this goal, some did not, and for a variety of reasons. And, as a result, a greater percentage of the funding for this program has been consumed by the operating costs of the potentially unviable centers, rather than the intended purpose of establishing new women's business centers. The result has been a drag upon the system, and viable business centers that are not truly serving an unmet need in their community were allowed to continue on. And this has jeopardized the effectiveness and the viability of this entire program.

The SBA Women's Business Programs Act restores its original priorities held by the Federal Government when this program was originally enacted. By offering a three-tiered system of funding and lowered caps on spending for older business centers, we can assure a balanced percentage of the funding issues to support both new and existing business centers.

Modernizing the SBA entrepreneurial development programs will ensure small businesses have the opportunity to help lead our Nation out of this recession and into economic prosperity. The Job Creation Through Entrepreneurship Act is a huge step in the right direction and provides much-needed help to lend a helping hand to our Nation's small businesses.

And once again, in closing, I just would like to commend the chairwoman and the ranking member for working together in a bipartisan way to craft a piece of legislation that encompasses so many areas that will help our small businesses and our Nation, especially during the National Small Business Recognition Week.

Mr. SHULER. Mr. Chairman, I would like to inquire how much time is left on both sides.

The CHAIR. The gentleman from North Carolina has 19½ minutes remaining, and the gentleman from Missouri has 19 minutes remaining.

Mr. SHULER. I yield 3 minutes to the gentleman from Virginia (Mr. NYE).

Mr. NYE. Mr. Chairman, I rise today in support of H.R. 2352, the Job Cre-

ation Through Entrepreneurship Act of 2009. And I want to thank our chairwoman and our ranking member. I appreciate all your efforts to move this comprehensive package of legislation forward and especially want to thank our chairwoman for working with me on title I of the bill, the Veterans Business Centers Act, which will help our Nation's veteran entrepreneurs.

□ 1500

In my district, we have the second largest concentration of veterans of any congressional district in the country. My district is home to Norfolk Naval Base, the largest naval base in the world. In our community, there are countless veteran-owned businesses that are vital to the local economy.

The measure that we are considering today will give veteran entrepreneurs everywhere the support they need to launch new enterprises and to grow existing businesses. The cornerstone of this effort will be a new nationwide network of services dedicated to veteran entrepreneurs, called Veterans Business Centers, the first nationwide business assistance program for veterans. Establishing this network will provide veterans with dedicated counseling and business training, with access to capital and to securing loans and credit and with help in navigating the procurement process.

We know already, when they have access to the right tools, veterans can succeed in business, and I believe that we can build on what works and that we can expand access to these critical services. I strongly urge the passage of this bill.

Mr. GRAVES. Mr. Chairman, I now yield such time as he may consume to the gentleman from Illinois (Mr. SCHOCK), who is also the ranking member on the Contracting and Technology Subcommittee.

Mr. SCHOCK. Mr. Chairman, I rise today in support of H.R. 2352, the Job Creation Through Entrepreneurship Act.

I, too, wish to extend my appreciation to Chairwoman VELÁZQUEZ, to Ranking Member GRAVES, and specifically to the bill's sponsor, Mr. SHULER, for including not only my language in H.R. 1845 but also the proposals of five other Republican members on our committee. This is truly a bipartisan bill, and I think you'll see that the votes reflect it.

I introduced H.R. 1845, which seeks to modernize the Small Business Development Centers. Small Business Development Centers are commonly referred to as SBDCs. They provide emerging entrepreneurs with the tools they need to successfully take their business concepts into reality and also to provide existing small business owners with important financial and budgeting consulting to assist in long-term growth and management. Investments in the SBDC network provide a truly cost-effective way to help stimulate our economy while also enhancing American

companies and our competitiveness around the world.

With all of the talk today about how we should stimulate growth and create long-term economic growth here in our country, we shouldn't look any further than where half of all Americans get their paychecks—with small business.

The facts speak for themselves. A new business is opened by a Small Business Development Center client every 41 minutes. A new job is created in the United States by a Small Business Development Center client every 7 minutes. In the year 2007, SBDC clients created over 70,000 new full-time jobs. With the current economic condition, more and more small business owners are visiting their SBDCs, seeking the advice on how to best manage their resources during the economic downturn. The bill also works to make the money that we are appropriating to SBDCs more efficient, and it also rewards those who have better outcomes.

For these reasons and many more, I urge passage of this bill and the Small Business Development Center Modernization Act legislation that is included in it.

Mr. SHULER. I yield 3 minutes to the gentleman from Pennsylvania (Mr. ALTMIRE).

Mr. ALTMIRE. Mr. Chairman, I rise today to encourage my colleagues to support the Job Creation Through Entrepreneurship Act. This important piece of legislation will modernize and expand key economic development programs within the Small Business Administration.

As just one example, section 1 of this legislation establishes the Veterans Business Center program. Now, as many of my colleagues know, this is a program that is near and dear to my heart. Last session, I introduced legislation that was signed into law to help expand business opportunities for veterans and Reservists. The bill we are debating today builds upon my legislation, and it provides a dedicated funding stream to help ensure that our veterans and Reservists are afforded every opportunity for economic success at home.

So it is for this and for many other reasons that I encourage my colleagues to support this bill.

Mr. SHULER. Mr. Chairman, I reserve the balance of my time.

Mr. GRAVES. Mr. Chairman, I would yield such time as he may consume to the gentleman from Missouri (Mr. LUETKEMEYER). He is a subcommittee ranking member. Along with Mr. SHULER, they were the cosponsors of the bill.

Mr. LUETKEMEYER. Mr. Chairman, I would like to thank the gentleman from North Carolina (Mr. SHULER) for his hard work in crafting this much needed small business legislation, and I would like to thank Chairwoman VELÁZQUEZ and Ranking Member GRAVES for their hard work and for allowing this thing to expeditiously go through the full committee.

Small business accounts for 70 percent of our Nation's jobs, and it provides an invaluable source of innovation to our economy. As we try to revive the slumping economy and put people back to work, wouldn't it only make sense to provide relief to our Nation's most productive job creators?

As a small business man myself, I am pleased to sponsor a bill that will assist the many small owners and employees throughout my district and the country. Two out of every three jobs are created by a small business, and like every recession before, small business will lead the way out of this recession into economic growth again. Rather than relying so heavily on the government to spend our way out of this recession, we need to focus on ensuring that our small businesses are able to utilize all of the resources already available.

This bill beefs up support services in key entrepreneurial development programs, making these programs more effective and responsive to the needs of small businesses and ensuring that existing programs are being used effectively and that duplicative government programs are done away with.

To be sure, an investment in entrepreneurial development programs yields strong returns. In 2008, the SBA entrepreneurial development programs helped to generate 73,000 new jobs and to bring in \$7.2 billion to the economy. Some economists have estimated that every dollar invested in these initiatives returns \$2.87 to our economy and helps these small businesses thrive.

Given that the biggest challenge facing small businesses right now is their ability to access credit, I am particularly pleased to support a bill that strengthens Small Business Development Centers, one-stop assistance centers for current and prospective small business owners, designed to assist small firms in securing capital and credit.

This bill moved promptly through the full committee and to the House floor. I am pleased with the bipartisan support this bill has received in the committee. I want to thank my colleagues for their careful and timely attention to the legislation that will give our small business owners the opportunity to grow and expand.

Mr. SHULER. Mr. Chairman, again, I would like to commend Mr. LUETKEMEYER, the ranking member, for his hard work, for his dedication, and for his true leadership in a bipartisan way on the subcommittee.

At this time, Mr. Chairman, we have no further speakers. I will reserve the balance of my time.

Mr. GRAVES. Mr. Chairman, at this time, I would yield such time as he may consume to the gentleman from Pennsylvania (Mr. THOMPSON).

Mr. THOMPSON of Pennsylvania. Mr. Chairman, I rise today to lend my support for this measure, H.R. 2352, the Job Creation Through Entrepreneurship Act of 2009, and to express my sin-

cere appreciation and thanks to Subcommittee Chair SHULER, to Subcommittee Ranking Member LUETKEMEYER, to Committee Chairwoman VELÁZQUEZ, and to Ranking Member GRAVES for their leadership on this bill, for their ability to work through regular order, and for encouraging debate and input from the members of the Small Business Committee, particularly Subcommittee Chair SHULER and Ranking Member LUETKEMEYER.

Coming from a long line of small business owners myself, I can attest to the many challenges that these entrepreneurs face on a daily basis. Never mind the challenges a person faces to get a business off the ground, once that business is running, it is often an uphill battle day after day to keep the doors open and the employees paid. During this time of economic downturn, there are many entrepreneurs throughout America who are facing start-up challenges who do not have the resources or the networks to provide the advice or the assistance that is required for them to be successful.

H.R. 2352 will provide entrepreneurs from all walks of life and geographic locations the ability to harness tools that would otherwise not be available to them. This bill provides a Veterans Business Center program within the SBA to provide entrepreneurial training and counseling to veterans. It utilizes technology to provide distance learning and peer-to-peer networking for those in rural and underserved areas. It enhances entrepreneurial programs for Native American populations, and it broadens the scope of the SBA's Women's Business Center.

During this time of economic downturn, we have the power to arm America's entrepreneurs with the tools to provide real stimulus for our economy and to get the country back to work. I certainly encourage my fellow colleagues to support H.R. 2352, a real smart government solution.

Ms. VELÁZQUEZ. Mr. Chairman, I have no further speakers if the ranking member is prepared to close.

Mr. GRAVES. I have no further speakers. I yield back the balance of my time.

Ms. VELÁZQUEZ. Mr. Chairman, I would like to take this opportunity to commend the work of Mr. SHULER and Mr. LUETKEMEYER in putting together this bill. I would also like to commend the other members of the committee—Mr. NYE, Mr. BUCHANAN, Mr. SCHOCK, Mr. THOMPSON, Mrs. KIRKPATRICK, Ms. FALLIN, and particularly the ranking member, Mr. GRAVES—for all of their efforts and contributions in putting together this bipartisan product.

Entrepreneurs have much talent for job creation. In the last few months, much has been made of that ability and with good reason. As employment continues to climb, we need to be investing in the businesses that can put Americans back to work. The Job Creation Through Entrepreneurship Act of

2009 will do just that. That is why this bill is supported by groups as diverse as the American Legion, the Association for Enterprise Opportunity, the International Franchise Association, the National Association for the Self-Employed, the National Black Chamber of Commerce, the National Center for American Indian Enterprise Development, the U.S. Hispanic Chamber of Commerce, the U.S. Women's Chamber of Commerce, and the Veterans of Foreign Wars.

Already, the SBA's entrepreneurial development programs help small firms do everything from draft business plans to accessing capital. These services have been an invaluable resource for countless entrepreneurs, and they have led to the creation of hundreds of thousands of jobs. In fact, entrepreneurial development helped generate 73,000 new positions in 2008 alone.

Despite the program's inherent value, it is in sore need of modernization. Today, we are going to begin the process of turning it around. In doing so, we will ensure that small firms have the tools they need to spark a sustained recovery. What better time to reinforce the backbone of our economy than during Small Business Week. We can do more than celebrate our entrepreneurs. We can empower them and can help them play their unique role as an economic catalyst.

I will now yield to the gentlewoman from Illinois as much time as she may consume.

Mrs. HALVORSON. Mr. Chairman, thank you, and thank you, Mr. SHULER, for the opportunity to speak.

I rise today in support of H.R. 2352, the Job Creation Through Entrepreneurship Act.

Consideration of this legislation couldn't have come at a more critical time. During an economic downturn, many people start their own businesses because they are faced with few other options. They've lost their jobs; they can't find new employment, and they need to feed their families. Yet it is the start-up businesses that are most at risk for failure. The legislation we are considering today will give entrepreneurs and new business owners the tools that they will need to succeed.

As a member of both the Small Business and Veterans' Affairs Committees, I am especially pleased that this bill creates a new Veterans Business Center program under the SBA. I commend the gentleman from Virginia (Mr. NYE) for his hard work on this section of the bill.

The Veterans Business Centers will provide essential training and counseling to veteran business owners, including assistance in seeking Federal contracting opportunities. The bill includes an amendment I offered in committee to make surviving spouses of Armed Forces members and veterans eligible for assistance from the Veterans Business Centers.

As we celebrate Memorial Day next week, I can hardly think of a more fitting way to honor our men and women

who have served in uniform and to honor their families. I especially thank Chairwoman VELÁZQUEZ and Ranking Member GRAVES and Mr. SHULER for their strong, bipartisan leadership on this legislation.

I ask all of my colleagues to join me in supporting the Job Creation Through Entrepreneurship Act.

Mr. GENE GREEN of Texas. Mr. Chair, I rise today to show my support for the Credit Cardholder's Bill of Rights Act of 2009.

This bill is more important now than ever, because credit card practices have become a huge problem in our country.

Americans are saving less than they borrow on credit and the individual debt level is the highest it's been in decades.

Consumers should have as much information as possible when it comes to credit and finance policies and these policies should be easy to understand.

That is why I was an original cosponsor of the Credit Cardholders' Bill of Rights Act, which among other things, includes provisions to protect consumers against: arbitrary interest rate increases, early pre-payment penalties, due date gimmicks, and excessive fees.

It also provides better general oversight of the credit card industry.

This bill passed out of the House of Representatives on April 30, 2009 with my support and I am pleased to see that the Senate sent this bill back with even stronger consumer protections and moved its implementation date up 3 months.

I look forward to voting in favor of this bill, and I encourage my colleagues to do the same.

This is a chance for us to protect American consumers and rein in abusive credit card practices.

Mr. LANGEVIN. Mr. Chair, I rise in strong support of H.R. 2352, the Job Creation Through Entrepreneurship Act, which overhauls the Small Business Administration's entrepreneurial development programs and creates new services geared toward veterans and Native Americans. This legislation builds on SBA changes made in the American Reinvestment and Recovery Act, and it provides relief for small businesses and consumers who have been greatly affected by the credit crunch.

Small businesses are the backbone of America, and they are especially important to Rhode Island's economy. Now more than ever, Congress must support the growth of America's small businesses and help stimulate the real engine of our Nation's economy. In Rhode Island, there are many businesses that are passed down from generation to generation, and it is so important that these successful businesses have access to the tools they need to weather this economic downturn.

H.R. 2352 modernizes the Small Business Development Center Program by focusing on entrepreneurial development, broadens the Women's Business Centers Program by increasing counseling and training facilities, establishes the Veterans Business Center Program, formally establishes the Office of Native American Affairs, and improves the Service Corps of Retired Executives, a mentoring resource program.

This bill also creates a grant program specifically designed to assist small firms in securing capital such as the new small business

lending generated under the American Reinvestment and Recovery Act. This measure also establishes a green entrepreneurial development program, which will provide classes and instruction on starting a business in the fields of energy efficiency or green technology. It will also create a procurement training program to help local small firms find suitable contracts and technical assistance on the federal procurement process.

American prosperity depends on the success of small businesses and the innovative spirit of the American people. I am committed to bringing relief to Main Street and to the small businesses that are struggling in our state, and urge my colleagues to support this bill.

Mr. ETHERIDGE. Mr. Chair, I rise in support of H.R. 2352, The Job Creation Through Entrepreneurship Act of 2009.

The American spirit of entrepreneurship is one of the key values that have made our nation great. As a former small business owner, I believe it is essential that we nurture these ventures and increase opportunities for more Americans to start their own business. Small businesses employ millions of Americans, and help form the backbone of our economy. These small businesses play an even more important role in today's struggling economy.

H.R. 2352 takes several steps to bolster and expand opportunities for entrepreneurs. This bill modernizes the Small Business Administration's (SBA's) entrepreneurial development programs so that these businesses can survive the downturn and help move our economy forward by creating jobs. H.R. 2352 provides small businesses with new tools to address their changing needs by bolstering Small Business Development Centers across the country. H.R. 2352 also expands opportunities to our nation's veterans by authorizing \$10 million in FY 2011 and \$12 million in 2012. These funds will be used to increase outreach facilities across the country and establish specialized assistance programs targeted to veterans. H.R. 2352 also includes increased counseling and training initiatives designed to increase business opportunities for women.

I support efforts to foster the American spirit of entrepreneurship and I support The Job Creation Through Entrepreneurship Act of 2009. I urge my colleagues to join me in voting for its passage.

Ms. VELÁZQUEZ. Mr. Chairman, I yield back the balance of my time.

The CHAIR. All time for general debate has expired.

Pursuant to the rule, the amendment in the nature of a substitute printed in the bill shall be considered as an original bill for the purpose of amendment under the 5-minute rule and shall be considered read.

The text of the committee amendment is as follows:

H.R. 2352

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

The CHAIR. Pursuant to House Resolution 457, the gentlewoman from New York (Ms. VELÁZQUEZ) and a Member opposed each will control 10 minutes.

The Chair recognizes the gentlewoman from New York.

Ms. VELÁZQUEZ. Thank you, Mr. Chairman. I yield myself such time as I may consume.

The manager’s amendment makes technical and conforming changes to the underlying legislation. It also incorporates several important amendments offered by Ms. MARKEY, Mr. CARNEY, Mr. POLIS, Ms. PINGREE, and Mr. CARDOZA.

Across all areas of the legislation, these amendments sharpen the provisions, making them more effective in assisting our entrepreneurs. In particular, these amendments strengthen provisions dealing with veterans, rural entrepreneurs, women entrepreneurs, and green technology.

I would like to thank my colleagues who contributed these changes and allowed them to be included in the manager’s amendment. Ultimately, we have a manager’s amendment that will improve this legislation and, more importantly, foster entrepreneurship and job growth.

Mr. Chairman, I strongly encourage my colleagues to support this amendment.

I reserve the balance of my time.

Mr. GRAVES. Mr. Chairman, I rise to claim time on the gentlelady’s amendment.

The CHAIR. Without objection, the gentleman from Missouri is recognized for 10 minutes.

There was no objection.

Mr. GRAVES. Mr. Chairman, Chairwoman VELÁZQUEZ’s amendment makes very much needed technical changes to the bill. In addition, the amendments clarify and strengthen the ability of Reservists and veterans to access the full range of SBA training and education programs. I fully support those changes.

The amendments also provide for more detailed criteria in evaluating applications for the Women’s Business Center. These additional criteria will

help the SBA select the worthiest of the applicant pool.

I have to say, Mr. Chairman, I know there’s a lot of thank-yous going around today, but I do sincerely want to thank the gentlelady, Chairwoman VELÁZQUEZ, because she spent a lot of time working on issues facing rural America, and it’s kind of a hard area to understand in a lot of cases. And I appreciate that. I know a lot of people appreciate that. It doesn’t go unnoticed at all.

I yield back the balance of my time.

Ms. VELÁZQUEZ. I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentlewoman from New York (Ms. VELÁZQUEZ).

The amendment was agreed to.

AMENDMENT NO. 2 OFFERED BY MS. MARKEY OF COLORADO

The CHAIR. It is now in order to consider amendment No. 2 printed in House Report 111-121.

Ms. MARKEY of Colorado. As the designee for Mr. POLIS, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 2 offered by Ms. MARKEY of Colorado:

Page 27, line 1, insert after “concern” the following: “, including implementing cost saving energy techniques”.

The CHAIR. Pursuant to House Resolution 457, the gentlewoman from Colorado (Ms. MARKEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Colorado.

Ms. MARKEY of Colorado. Mr. Chairman, I rise in support of my colleagues’ amendment. I thank Representative SHULER, Representative VELÁZQUEZ, and members of the Small Business Committee and their staff for bringing forward this legislation that will promote entrepreneurship at a time when our Nation needs it most.

As a former small business owner, I know that starting a new business is an exciting experience. I know also that with the steep learning curve involved in managing and building a business, all too important details are left unattended. It is these details, however, that can determine whether a business will succeed or fail.

The educational and networking programs established by this bill will help small business owners attend to these details with the assistance of dedicated professionals.

Each community and each business presents a unique set of challenges and rewards. By creating specialized Small Business Development Centers, the modest funds we allocate in this bill will yield strong results through targeted counseling and training. This amendment simply adds training on reducing operating expenses through energy savings to the existing list of educational programs under this bill.

Entrepreneurs will greatly benefit from targeted training on energy use, a detail that represents 19 percent of the cost of running a small business. This high recurring cost can be inconsistent, unpredictable, and fluctuate seasonally.

High energy costs in periods of reduced revenue can be a frustrating challenge for a small business—but it’s also avoidable.

Many communities and utilities offer programs to help businesses reduce energy consumption and many also offer tax breaks and incentives to reduce energy use. Some of the incentive programs available include assistance in acquiring efficient office hardware and installing renewable energy projects, but they can also help business owners with simple solutions, such as installing fluorescent light bulbs, turning off unused equipment, and closing doors and windows.

However, as common sense as it may seem to turn off a light when not in use, during the intense activity of starting a new business, ordering inventory, and hiring new employees, the lack of attention paid to an open window can quickly morph from a harmless oversight to an expensive habit.

Mr. Chairman, I want to remind my colleagues that 19 percent paid for energy is 19 percent that is not being reinvested in the business. That is 19 percent less cushion a business owner has in the event of an economic downturn. Nineteen percent may seem small, but it could be smaller.

Energy, of course, is a necessary expense. Compared to good employees and quality projects, however, this expenditure yields marginal returns. There is a reason that our utility companies call us valued customers and don’t call us wise investors. Imagine if that 19 percent could be 9 percent.

To put it a better way, what if we could offer entrepreneurs an additional 10 percent capital? That 10 percent of additional resources can be invested in aspects of the operation that generate revenue.

The accumulated cost savings from moving the thermostat just a few degrees and reinvesting those funds into the business over time can be the difference between new supplies, expanding, or hiring a new employee.

This amendment strengthens our investment in small businesses by helping them with low-cost ways to improve their operations and increase their profits. The most exciting aspect of small business is the spirit of entrepreneurship, but finding creative solutions to reduce costs and save energy are possible only when business owners are made aware of the opportunities available to them.

This amendment, by simply creating awareness of energy-saving techniques and programs, will help small businesses thrive. Reducing energy consumption is not only smart environmental policy, it is sound economic policy.

I ask my colleagues to support this amendment and this important bill. I once again thank Representative SHULER, Chairwoman VELÁZQUEZ, and members of the Small Business Committee

I reserve the balance of my time.

Ms. VELÁZQUEZ. Mr. Chairman, while not opposed to the amendment, I ask to claim the time in opposition.

The CHAIR. Without objection, the gentlewoman from New York is recognized for 5 minutes.

There was no objection.

Ms. VELÁZQUEZ. Mr. Chairman, as our Nation transitions to a green economy, America's entrepreneurs are leading the way. Entrepreneurs make up 90 percent of the renewable energy sector that is harnessing wind and solar power, as well as producing biofuels. Small companies are also dominant in the field of energy efficiency, and they're finding better, cleaner ways to use existing fuel sources.

The renewable energy and efficiency sectors are leading a new way for growth. They are expected to account for one out of every four jobs by 2030. Small businesses are also instrumental in efforts promoting energy efficiency in both existing and new buildings.

The amendment offered by the gentlelady from Colorado will build on this role. It clarifies that Women's Business Centers may utilize their resources to promote cost-saving energy techniques. That is a valuable change to the legislation, and I urge my colleagues to support this amendment.

I now yield to the gentleman from Missouri for any comments that he might have.

Mr. GRAVES. Mr. Chairman, I support the amendment.

Ms. VELÁZQUEZ. Mr. Chairman, I yield back the balance of my time.

Ms. MARKEY of Colorado. I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentlewoman from Colorado (Ms. MARKEY).

The amendment was agreed to.

AMENDMENT NO. 3 OFFERED BY MR. PAULSEN

The CHAIR. It is now in order to consider amendment No. 3 printed in House Report 111-121.

Mr. PAULSEN. I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 3 offered by Mr. PAULSEN:
At the end of title I, insert the following new section:

SEC. 103. COMPTROLLER GENERAL STUDY OF SMALL BUSINESS CONCERNS OWNED AND CONTROLLED BY VETERANS.

The Comptroller General shall carry out a study on the effects of this Act and the amendments made by this Act on small business concerns owned and controlled by veterans and submit to Congress a report on the results of such study. Such report shall include the recommendations of the Comptroller General with respect to how this Act and the amendments made by this Act may

be implemented to more effectively serve small business concerns owned and controlled by veterans.

The CHAIR. Pursuant to House Resolution 457, the gentleman from Minnesota (Mr. PAULSEN) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Minnesota.

Mr. PAULSEN. I yield myself such time as I may consume.

First of all, I'd like to thank the chair of the subcommittee. Mr. Chairman, growing small businesses must be a top priority in order to turn this economy around. Our military veterans that own businesses face their own unique challenges—and the government must ensure that the programs in place to assist these veterans are achieving their goals.

I recently took part in a Minnesota Defense Alliance event where I was briefed by several small-to-medium-sized businesses in Minnesota that do work related to defense issues. Many of these companies were veteran-owned.

One of the concerns that was raised by a few of the participants was that the programs currently available to veteran-owned businesses are not effective and do not meet their needs. Because of these concerns, I authored this amendment, which would require the GAO to study the effectiveness of the legislation in growing and assisting veteran-owned companies and businesses.

My amendment also requires the GAO to offer suggestions to Congress as to how we can better assist veteran-owned business.

The government needs to do a better job of spending our taxpayer money wisely. So one of the best things that we can do for any business right now is to increase the availability of capital for growth.

Small businesses have created two of every three net new jobs in the United States since the 1970s, and certainly all the members of the Small Business Committee know this. Small businesses are also responsible for roughly half of the privately generated GDP in the United States.

I support the underlying legislation, and I believe it will go a long way in assisting and growing small businesses at a time when our Nation's economy needs a boost. Specifically, I'm interested in the new grant program for Small Business Development Centers to develop programs which help local small firms in securing capital and repairing damaged credit.

I want to thank Mr. SHULER and the rest of the Small Business Committee for their work as well. I'm extremely pleased that this bill provides the assistance for veteran-owned business, and I urge my colleagues to vote "yes" for this amendment and "yes" on the underlying legislation.

I reserve the balance of my time.

Ms. VELÁZQUEZ. Mr. Chairman, while not opposed to the amendment, I ask unanimous consent to claim the time in opposition.

The CHAIR. Without objection, the gentlewoman from New York is recognized for 5 minutes.

There was no objection.

Ms. VELÁZQUEZ. I thank the gentleman from Minnesota for offering this amendment. All of us on both sides of the aisle want to make sure that these programs meet the needs of our entrepreneurs. I think we're doing good work with this legislation. But, as with many government programs, we must ensure there is sufficient oversight.

It is important that we carefully monitor how taxpayer dollars are spent and what effect they're having. Most of all, we must be sure that these programs accomplish what Congress intended.

The amendment in question will provide this oversight. It requires the Government Accountability Office to report on the effectiveness of ED programs for veterans.

I welcome this additional oversight. If Congress is going to ensure veterans are receiving the help they need from the SBA, we must make sure these new programs are functioning correctly. I will encourage my colleagues to vote for this amendment.

Now I yield to the gentleman from Missouri for any comments that he may have.

Mr. GRAVES. I appreciate the gentlelady from New York yielding me time. Mr. Chairman, I think this is a great amendment, and I support it.

□ 1530

Ms. VELÁZQUEZ. We are prepared to accept the amendment.

I yield back the balance of my time.

Mr. PAULSEN. We had one additional speaker, but I'm not sure if he's going to make it. So I just want to encourage support as well. I thank the gentlewoman for her support of the amendment and all the members of the Small Business Committee to truly help veteran-owned businesses grow and create jobs as well.

Mr. ROE of Tennessee. Mr. Chair, I rise in support of the amendment offered by my friend from Minnesota. As a veteran I support the underlying goal of this legislation to create opportunities for veteran-operated small businesses.

It is important in this global economy to train and provide guidance in business administration for our veterans. Veteran Business Centers and grant assistance should expand the economic playing field for these businesses.

However, if the Congress authorizes these programs it is our duty to the taxpayer to oversee their progress. This amendment calls for the Government Accountability Office to study and report on the effectiveness of these programs. We need to ask the question: "Is money spent on veteran owned small businesses helping these businesses?" "How can these programs be improved?"

I look forward to having those answers and thank the Gentleman from Minnesota for offering this amendment. I encourage my colleagues to support its adoption and yield back.

Mr. PAULSEN. I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Minnesota (Mr. PAULSEN).

The amendment was agreed to.

AMENDMENT NO. 4 OFFERED BY MR. BOCCIERI

The CHAIR. It is now in order to consider amendment No. 4 printed in House Report 111-121.

Mr. BOCCIERI. Mr. Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 4 offered by Mr. BOCCIERI: Page 7, insert after line 22 the following:

“(v) Developing specialized programs to assist unemployed veterans to become entrepreneurs.”.

Page 10, line 21, insert after “Director.” the following: “Such event shall include education and training with respect to improving outreach to veterans in areas of high unemployment.”.

The CHAIR. Pursuant to House Resolution 457, the gentleman from Ohio (Mr. BOCCIERI) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Ohio.

Mr. BOCCIERI. Thank you, Mr. Chair. I yield myself as much time as I may consume.

Mr. Chair, I rise today in support of my amendment to H.R. 2352, the Job Creation Through Entrepreneurship Act. I want to thank Chairwoman VELÁZQUEZ and Congressman SHULER for their vision in this landmark piece of legislation that will help restore our economy to what it has always been.

My amendment does two things, Mr. Chair. It allows veterans centers to receive grants to develop specialized programs that assist unemployed veterans, reservists and surviving spouses by becoming entrepreneurs. And it requires a Veterans Development Summit to provide training for veterans centers to improve their outreach to veterans in areas of high unemployment.

I strongly support the underlying bill and its creation of the Veterans Business Center program. By expanding assistance and training to veteran entrepreneurs, we can increase the number of successful small businesses and, thereby, create jobs, taking these highly skilled, highly trained individuals and helping them. Providing them with the opportunity to create jobs and create businesses is the right way to go.

The purpose of my amendment is to ensure that we are targeting outreach to unemployed veterans, reservists and surviving spouses.

Let's go over a few facts, Mr. Chair. While the economy continues to be tough for all Americans, it seems that young veterans are among the hardest hit. One out of nine Iraq and Afghanistan veterans are now out of work, and the total number of unemployed veterans of the two wars roughly averages about 170,000. It is about the same number as U.S. troops deployed to those wars, according to the Department of

Labor. The 11.2 percent jobless rate for veterans who served in Iraq and Afghanistan rose 4 percentage points in the past year. That's significantly higher than the corresponding 8.8 percent for nonveterans in the same age group. On the battlefield, we pledge to leave no soldier behind. As a Nation, it should be our pledge that when they return home, we leave no veteran behind, and that includes making sure that every veteran has a job when they return.

I reserve the balance of my time, Mr. Chairman.

Ms. VELÁZQUEZ. Mr. Chairman, while not opposed to the amendment, I ask unanimous consent to claim the time in opposition.

The CHAIR. Without objection, the gentleman from New York is recognized for 5 minutes.

There was no objection.

Ms. VELÁZQUEZ. I thank the gentleman from Ohio for his amendment. The legislation on the floor today places a high priority on helping veterans who wish to transition from the military to entrepreneurship. As I have noted, this bill for the first time creates a nationwide network of Veterans Business Centers. As our servicemen and -women return home from Afghanistan and Iraq, many of them will look to launch their own businesses as the next step in their careers. This network of Veterans Business Centers will aid them as they make that move. For many veterans, entrepreneurship is a logical next step. Already today, veterans comprise 14 percent of self-employed people. Service-disabled veterans make up 7 percent of small businesses. The underlying legislation would help these veterans who own their own firms as well as assist veterans seeking to start their own enterprises. The amendment before us helps to refine and improve the veterans provisions contained in this bill.

Specifically, the amendment requires that the new veterans centers offer specialized services to help unemployed veterans. In addition, the amendment will help the SBA improve outreach and education to veterans in high unemployment areas, and it would mean that the SBA will dedicate resources to assist those veterans who need help the most. In short, this amendment will do right by those who have served our Nation.

I now yield to the ranking member, the gentleman from Missouri, for any comments that he may have.

Mr. GRAVES. Thank you, Madam Chair, for yielding me time.

Mr. Chairman, the area where you are seeing a lot of veterans right now come back and, obviously, set up a lot of small businesses is a rapidly growing area. This provision in the bill is well overdue, in my opinion. It just goes along with the whole nature of the bill, to modernize so many of the SBA programs. I support the amendment.

Ms. VELÁZQUEZ. Mr. Chairman, I reserve the balance of my time.

Mr. BOCCIERI. Mr. Chairman, I recognize the gentleman from Ohio (Mr. DRIEHAUS) for as much time as he may consume.

Mr. DRIEHAUS. I thank the gentleman for his amendment and the underlying bill. I rise to support the amendment and the underlying bill.

We heard just a little while ago the gentlewoman from Colorado talk about the pitfalls in creating small businesses and the challenges that entrepreneurs face. This is about identifying those challenges and helping veterans, as they return, think through the issues of creating a viable business plan, assistance with product development, providing assistance in marketing, learning how to access capital necessary to make their businesses successful. In sum, this is about leveraging the skills that so many of our men and women have learned, so many of our men and women have utilized overseas so that when they return home, they can put those skills to work in terms of small business development, in terms of coming together and driving this economy and creating new jobs. This is the direction we should be heading.

I support the amendment.

Mr. BOCCIERI. Mr. Chairman, I reserve the balance of my time.

Ms. VELÁZQUEZ. If the gentleman is prepared to yield back, we are prepared to accept the amendment.

Mr. BOCCIERI. I yield back the balance of my time.

Ms. VELÁZQUEZ. I urge adoption of the amendment, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Ohio (Mr. BOCCIERI).

The amendment was agreed to.

AMENDMENT NO. 5 OFFERED BY MR. HIMES

The CHAIR. It is now in order to consider amendment No. 5 printed in House Report 111-121.

Mr. HIMES. Mr. Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 5 offered by Mr. HIMES:

Page 50, after line 16, add the following new title:

TITLE VIII—MICROENTERPRISE TRAINING CENTER PROGRAM

SEC. 801. MICROENTERPRISE TRAINING CENTER PROGRAM.

The Small Business Act (15 U.S.C. 631 et seq.) is amended by inserting after section 45, as added by section 301(b) of this Act, the following:

“SEC. 46. MICROENTERPRISE TRAINING CENTER PROGRAM.

“(a) ESTABLISHMENT.—The Administrator shall establish and carry out a microenterprise training center program for the purpose of providing low-income and unemployed individuals with training and counseling with respect to starting a microenterprise.

“(b) NUMBER AND LOCATION OF CENTERS.—In carrying out the program under subsection (a), the Administrator shall establish

10 microenterprise training centers, which, to the extent practicable, shall be located in a manner that promotes the geographic diversity of such centers. The Administrator shall give priority in locating such centers to areas with high proportions of low-income and unemployed individuals.

“(c) FUNCTION.—In carrying out the program under subsection (a), the Administrator shall ensure that microenterprise training centers provide training and resources to individuals seeking to start a new microenterprise, including through the provision of classes, one-on-one instruction, and other services the Administrator determines appropriate.

“(d) COORDINATION.—The Administrator shall coordinate the program established under subsection (a) with other programs of the Administration that may provide support to microenterprises.

“(e) DEFINITION OF MICROENTERPRISE.—In this section, the term ‘microenterprise’ means a business with not more than 6 employees and begun with an initial investment of not more than \$40,000.”

The CHAIR. Pursuant to House Resolution 457, the gentleman from Connecticut (Mr. HIMES) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Connecticut.

Mr. HIMES. Mr. Chair, I yield myself as much time as I may consume.

Entrepreneurship in low-income areas is hindered not just by a lack of capital but by a lack of skills and training. Business skills training in low-income communities works. A recent Center For Employment Training study of 5,000 workers showed an average income boost of \$7,500 to \$26,000 for individuals receiving 28 weeks of business training. My amendment directs the SBA to invest in 10 Microenterprise Training Centers to provide training and resources to individuals seeking to start new small businesses, including expert-led classes, group workshops and one-on-one instruction. It authorizes no specific amount of new funds. We will look to make a small addition to the SBA operating budget later in the appropriations process.

This amendment is about spurring job creation in low-income communities, those communities that need jobs, that need small businesses most. These are the communities that are hardest hit by economic downturns, the last to recover and, in many instances, the communities that, absent jobs, draw on the public purse for the kind of public support that they need. So in the spirit of this bill, and with the support of the Small Business Committee, I urge my colleagues' positive consideration of this amendment.

I reserve the balance of my time.

Mr. GRAVES. Mr. Chair, I rise to claim time in opposition to the gentleman's amendment.

The CHAIR. The gentleman from Missouri is recognized for 5 minutes.

Mr. GRAVES. Mr. Chairman, I certainly concur with the gentleman that it is important to make sure that individuals wishing to start a very small business have access to appropriate training and technical assistance. However, where I part company with the

gentleman is the need to create a program that duplicates services already available through the SBA. Microloan intermediaries are required by section 7(m) of the Small Business Act to provide counseling and training to individuals wanting to start microenterprises. In addition, such services also are available from Small Business Development Centers, Women's Business Centers, Tribal Business Centers and Veterans Business Centers. Nothing exists in the record before the committee that suggests individuals who are interested in starting microenterprises do not have access to necessary training and technical assistance. So creating another program that duplicates existing efforts through the SBA is not a sound use of scarce taxpayer dollars.

I yield back the balance of my time.

Mr. HIMES. I yield to the gentlelady from New York.

Ms. VELÁZQUEZ. Mr. Chairman, let me thank the gentleman from Connecticut for this great amendment.

We often hear discussion of the concept of “welfare to work.” Well, the amendment before us will move many Americans from “welfare to entrepreneurship.” Studies consistently demonstrate that entrepreneurship provides a path out of poverty for many Americans. In particular, we have seen that for many impoverished women, launching their own small business can mean a chance at a bright future. This amendment will provide entrepreneurial development resources to those communities that have been hardest hit by this recession by creating Microenterprise Training Centers. These centers will let Americans interested in starting a very small business, such as a home-based business, access valuable classes, one-on-one instruction and other guidance. These resources will help launch the smallest small businesses, those with six or less employees and that start with \$40,000 or less in capital. Under the amendment, the SBA will establish these training centers. The administrator is instructed to place them in parts of the country that have a high proportion of low-income and unemployed individuals.

Mr. Chairman, when economic downturns like the current one hit, those communities that are already hurting often carry the brunt of the pain. Those areas already struggling with high unemployment suffer the most when jobs become even more scarce. The amendment before us will provide additional options for Americans living in these communities. It will mean that those living in poverty will have a better chance to secure their economic independence and build a better life for themselves. The Microloans Program is a program that lends to businesses and those who want to start up a business. These are microenterprises that will provide technical assistance and guidance for those who want to start up a business. It's different.

I commend the gentleman for offering this amendment.

Mr. HIMES. I thank the gentlelady from New York for her statement and for her terrific leadership on this bill.

I would just note to my colleague from Missouri that he is absolutely right to be concerned about safeguarding taxpayer dollars and avoiding duplicative efforts. However, I would point out that this amendment creates a program targeted and tailored to low-income and unemployed individuals and, therefore, doesn't duplicate the SBA's currently existing programs, which are largely tied to the lending that is often not extended to lower income and unemployed individuals. In fact, there are very few Federal resources available for lower income individuals seeking to start a business. The Microloan Program that the gentleman refers to is built around loans and actually in previous budgets has been zeroed out. So I believe and feel this personally, having spent a year helping microbusinesses in the Bronx and seeing personally how very economically powerful small businesses can be in distressed communities, that we can find our way to support this amendment and make it part of a very good and useful bill.

I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Connecticut (Mr. HIMES).

The amendment was agreed to.

□ 1545

Mr. KRATOVIL. Mr. Chairman, I yield myself such time as I may consume.

I would like to congratulate the Small Business Committee chairwoman, Ms. VELÁZQUEZ, and lead sponsor, Congressman HEATH SHULER, for bringing H.R. 2352, the Job Creation Through Entrepreneurship Act of 2009, to the floor today. This legislation will arm small businesses and entrepreneurs, who are the lifeblood of our economy, to grow and prosper.

Investing in America's small businessmen and -women will help our economy recover. Small businesses create approximately four out of five new jobs. These small businesses are the backbone of the economy. They are the mom-and-pop stores on the Main Streets in small towns across America. But they are also individuals who are willing to take a risk and begin their own small high-tech companies.

I, like many Members of the House of Representatives, represent a largely rural district. A drive up and down Route 50 in my district reveals a landscape dotted with car dealerships that have closed their doors, restaurants that have gone out of business, empty hotel parking lots and store fronts with more vacancy than occupants. Although these images are not unique to rural areas, they deliver a much deeper blow to rural areas that rely on these small businesses for a greater percentage of local revenue and regional commerce than metropolitan and suburban areas.

For this reason, I have offered an amendment that would establish a rural entrepreneurship advisory council within the Small Business Administration. The council will be comprised of appropriate officials from the SBA, the rural development programs of the Department of Agriculture and the Department of Commerce, as well as representatives from the academic, small business, agriculture and high-tech sectors. The council is tasked with providing a report to Congress on rural entrepreneurship, specifically a report on entrepreneurship in rural communities

compared to urban communities, potential barriers for individuals in rural communities, effective Federal policies that are expanding entrepreneurship in rural communities, and recommendations for Federal policies to foster entrepreneurship in rural communities and to ensure that rural entrepreneurs have equal access to technical assistance, entrepreneurial opportunities and educational outreach.

The council will also provide ongoing advice to the SBA administrator on issues related to rural entrepreneurship and how to foster rural entrepreneurs, including the effective use of broadband technology. This is a simple, commonsense amendment that will ensure our Nation's rural entrepreneurs are not left behind.

I urge support of the amendment as well as the underlying bill.

I reserve the balance of my time.

Ms. VELÁZQUEZ. Mr. Chairman, while not opposed to the amendment, I ask unanimous consent to claim the time in opposition.

The CHAIR. Without objection, the gentlewoman from New York is recognized for 5 minutes.

There was no objection.

Ms. VELÁZQUEZ. Mr. Chairman, the amendment offered by the gentleman from Maryland will greatly expand the reach of entrepreneurial development programs. Too often small business owners or prospective entrepreneurs cannot access these programs because they live in a rural or remote area. For those small businesses in these parts of America, the nearest Small Business Development Center or Women's Business Center is often many miles away. This can prevent small businesses from accessing the services that we are improving and reauthorizing in the underlying bill.

The amendment offered by the gentleman from Maryland will further ensure that the SBA pays attention to the needs of rural America. Specifically, it creates a rural entrepreneurship advisory council at the Small Business Administration. Drawing from the expertise of the Department of Agriculture and the Department of Commerce, this panel will see to it that ED services provided by the SBA are effective for rural small businesses.

In many rural areas, many small businesses are particularly important. Often they are the community's largest employer. This amendment will ensure that the SBA's entrepreneurial development programs are meeting the needs of rural America.

I urge the adoption of the amendment.

And I now yield to the gentleman from Missouri for any remarks that he might have.

Mr. GRAVES. Mr. Chairman, I support the amendment, and I have no opposition. I thank the gentlelady.

Ms. VELÁZQUEZ. If the gentleman is prepared to yield back, we are prepared to accept the amendment.

Mr. KRATOVIL. I yield back the balance of my time.

Ms. VELÁZQUEZ. I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Maryland (Mr. KRATOVIL).

The question was taken; and the Chair announced that the ayes appeared to have it.

Mr. KRATOVIL. Mr. Chairman, I demand a recorded vote.

The CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Maryland will be postponed.

The CHAIR. Pursuant to House Resolution 457, the gentleman from New York (Mr. MURPHY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from New York.

Mr. MURPHY of New York. Mr. Chairman, I yield myself such time as I may consume.

Like so many other Members here today, I rise to speak in favor of this bill and in particular an amendment that I think will make it stronger. For many years, I have been a small business owner, a founder of small businesses, and for the last 8 years, I have been investing in small businesses all over New York. I have seen the challenges that small business people face, and I'm well aware of the needs that they have as they start these businesses. And in particular in this troubled economic time, what those of us that work in the small business world know is that many more entrepreneurs will turn to their own efforts to start small businesses. We will see a lot more small businesses founded by entrepreneurs in these troubled economic times as people can't find jobs and they are getting laid off from bigger companies.

In particular, you have got that combined with the veterans that are coming back from our efforts overseas. And as we draw down in Iraq, a large number of veterans will be coming back and mustering out looking for job opportunities. What they are going to need is help because they are going to go and try to start small businesses. And it is a difficult task.

My amendment would increase the funding for the Veterans Business Centers that are already contemplated in

this bill. Instead of \$150,000 for each of the first 5 years, they would be allocated up to \$200,000. And instead of \$100,000 thereafter for 3 additional years, they could go up to \$150,000. I think it is critical that we make sure that we have enough of these Veterans Business Centers, like the one that we already have in the Albany area near my district, to help as many veterans as we can when they come back.

There is a great need out there. I saw this myself. I started my first business when I was 24 years old. People ask me, What would you do differently if you did it again? And every time I say, The thing I would do differently is I would turn to get more advice from experienced people early on. That is exactly what these centers will provide for our veterans. And I ask that people support this amendment to make sure we have the funding for them.

And I reserve the remainder of my time.

Ms. VELÁZQUEZ. Mr. Chairman, while not opposed to the amendment, I ask unanimous consent to claim the time in opposition.

The CHAIR. Without objection, the gentlewoman from New York is recognized for 5 minutes.

There was no objection.

Ms. VELÁZQUEZ. Mr. Chairman, I thank the gentleman from New York for offering this amendment, as I believe it will help to improve the bill. As we all know, and we have seen and we heard that veteran entrepreneurship is on the rise, meaning that these services are in greater and greater demand.

The existing Veterans Business Outreach Centers have seen a 61 percent increase in veterans' requests for their services. Women's Business Centers report a 103 percent increase in veterans' requests. Clearly there is a hunger out there for these type of initiatives. And as more of our men and women return from Iraq and Afghanistan, the need for veterans' entrepreneurial development programs can be expected to grow.

By increasing the resources that are available for our former servicemen and -women, this amendment will help many of them launch their own businesses.

I will now yield to the gentleman from Missouri (Mr. GRAVES) for any comments that he wishes to make.

Mr. GRAVES. Mr. Chairman, I have no opposition to the amendment and support it; and I thank the gentlelady for yielding time.

Ms. VELÁZQUEZ. Mr. Chairman, if the gentleman is prepared to yield back, we are prepared to accept this amendment.

Mr. MURPHY of New York. I yield back.

Ms. VELÁZQUEZ. Mr. Chairman, I urge the adoption of this amendment, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from New York (Mr. MURPHY).

The amendment was agreed to.

Mr. NYE. Mr. Chairman, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 8 offered by Mr. NYE:
Page 12, line 15, strike "section 46" and insert "section 47".

Page 50, after line 16, add the following new title:

TITLE VIII—MILITARY ENTREPRENEURS PROGRAM

SEC. 801. MILITARY ENTREPRENEURS PROGRAM.

The Small Business Act (15 U.S.C. 631 et seq.) is amended by inserting after section 45, as added by section 301(b) of this Act, the following:

"SEC. 46. MILITARY ENTREPRENEURS PROGRAM.

"(a) ESTABLISHMENT.—The Administrator shall establish and carry out a program to provide business counseling and entrepreneurial development assistance to members of the Armed Forces to facilitate the development of small business concerns.

"(b) LIAISON.—In carrying out the program described in subsection (a), the Administrator shall establish a liaison to facilitate outreach to members of the Armed Forces with respect to business counseling and entrepreneurial development assistance.

"(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administrator to carry out this section \$1,000,000 for fiscal years 2010 and 2011."

The CHAIR. Pursuant to House Resolution 457, the gentleman from Virginia (Mr. NYE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Virginia.

Mr. NYE. Mr. Chairman, I rise today in support of the Job Creation Through Entrepreneurship Act. In fact, I authored title I, the Veterans Business Centers provision, and I am in strong support of the title as it is. Today, however, I would like to make a minor addition to that bill, the Military Entrepreneurs Program.

Mr. Chairman, it takes a special kind of person to be an entrepreneur. Small business ownership takes leadership. And in times like these, it takes resilience. So it is not surprising that, as they reenter civilian life, many of our returning servicemembers decide to launch their own enterprises. After all, these are the same attributes that they have exhibited while serving our Nation.

Our veterans leave the military with valuable skills and experience. But they often don't have the resources to apply those skills to the challenge of starting and running a small business. This bill will make sure our veterans have the support they need to launch successful small businesses. And by supporting our veterans and our small businesses, we will help create jobs and get our economy going again.

The cornerstone of this effort will be a new nationwide network of services dedicated to veteran entrepreneurs

called Veteran Business Centers. Establishing this joint public-private network will provide veterans with the dedicated counseling and business training they need to launch new enterprises or grow existing businesses. By creating a new program to assist veterans in accessing capital and securing loans and credit, we will help them overcome some of the most significant hurdles blocking them from becoming successfully self-employed.

By creating a new program to help our veterans to navigate the procurement process, they will be able to compete more effectively in the Federal marketplace.

The Recovery Act is expected to create work in many sectors that are veteran dominated, like engineering, telecommunications, project management and construction. This bill will help veteran entrepreneurs take advantage of these opportunities.

In coordination with these new Veteran Business Centers, this amendment, the Military Entrepreneurs Program, will direct the SBA to provide servicemembers transitioning to civilian life entrepreneurial information, training and financial guidance, the things they need to start up a business.

This amendment specifically targets young entrepreneurs and proactively reaches out to them, letting them know the immense resources that are available to them. This ensures our returning warfighters have the know-how to land firmly on their feet after they have honorably served our country.

Our veterans made every sacrifice necessary to defend liberty, justice and American values; and they deserve every chance at a fair shot at the American Dream. For that reason, the Veteran Business Centers provision has the support of both the American Legion and the Veterans of Foreign Wars.

I strongly urge passage of this amendment and the bill.

And I reserve the balance of my time. Ms. VELÁZQUEZ. Mr. Chairman, while not opposed to the amendment, I ask unanimous consent to claim the time in opposition.

The CHAIR. Without objection, the gentlewoman from New York is recognized for 5 minutes.

There was no objection.

Ms. VELÁZQUEZ. Mr. Chairman, let me start by saying that the gentleman from Virginia has been enormously helpful in crafting this legislation. He authored the bill on which title I is based. That measure establishes a portfolio of entrepreneurial development services for our Nation's veterans.

The amendment that he is now offering will go even further. As we have already noted, members of our Armed Forces are natural candidates for entrepreneurship. They exhibit the dedication, resolve and leadership skills that it takes to launch a new enterprise. In many cases, they make excellent Federal contractors as they are familiar with the procurement process or are in fields in high demand by the government.

This amendment takes a very proactive approach by reaching out to members of the military before they are discharged easing their transition back into civilian life.

Today, too many Americans who have worn the uniform of our Nation find themselves unemployed after separating from the service. With this amendment, we create another option, another career path for members of our military.

I thank the gentleman from Virginia for offering this amendment and for all of his work on this bill.

And I now yield to the ranking member from Missouri for any comments that he might have.

Mr. GRAVES. Mr. Chairman, I have no opposition to the amendment. I support it. I thank the gentlelady for yielding.

Ms. VELÁZQUEZ. If the gentleman is prepared to yield back, we are prepared to accept the amendment.

Mr. NYE. I yield back.

Ms. VELÁZQUEZ. I urge the adoption of the amendment, and I yield back the balance of my time.

The CHAIR. The question is on the amendment offered by the gentleman from Virginia (Mr. NYE).

The amendment was agreed to.

Mr. SCHAUER. Mr. Chair, I have an amendment at the desk.

The CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment No. 9 offered by Mr. SCHAUER: Page 50, after line 16, add the following new section:

“(5) AUTHORIZATION.—There is authorized to be appropriated not more than \$2,500,000 for the purposes of carrying out this subsection for each of the fiscal years 2010 and 2011.”

The CHAIR. Pursuant to House Resolution 457, the gentleman from Michigan (Mr. SCHAUER) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Michigan.

Mr. SCHAUER. Thank you, Mr. Chair. I yield myself such time as I may consume.

Mr. Chair, I rise to offer an amendment to address a pressing need in my community and in many communities around the country. We need to help small businesses succeed in this difficult economy. It's not enough to simply survive this downturn; we need to expand and grow jobs, and small businesses are the best way to do that. I'm so pleased that this bill has been brought forward. I thank the chair for her leadership and the sponsor of this bill to address these pressing needs.

In Michigan, we've been fighting this economic fight for 9 years. One of the bright spots in our fight has been the Small Business Development Center program. In my State, our SBDC has a great record of achievement. In 2007, more than 11,000 businesses were served by this program, and these companies created more than 3,000 jobs. In 2008, more than 12,000 businesses were assisted through SBDCs. These businesses included 515 veteran-owned businesses, 2,200 female-owned businesses, and 2,500 startups. Counseling provided by SBDCs helped create more than 3,400 new jobs in Michigan, despite the economic turmoil that my State has been facing.

Clearly, this program works, and my amendment grows this program to help small manufacturers that have been pummeled by this recession. Specifically, Mr. Chair, my amendment creates a \$2.5 million pool of funds to establish a grant program. It's a new section in the Small Business Act to create the Small Manufacturers Transition Assistance Program to provide technical assistance and expertise to small manufacturers that are seeking opportunities in different industrial sectors.

For example, if a small machine shop wants to shift from automotive contracting to aviation or aerospace contracting, my amendment provides

funding for Small Business Development Centers to provide help with that transition.

And this isn't just a hypothetical situation. This is a very real one in my State where struggling manufacturers are looking to new opportunities to survive and grow.

The SBDCs have had real success in this area, but more resources are needed during these tough times for American manufacturing. That is why I offer this amendment to create the Small Manufacturers Transition Assistance Program. Mr. Chair, these are services that 11,000 to 12,000 businesses a year use in my State, and they're desperately needed at this time. I hope my colleagues will support this amendment.

I reserve the balance of my time.

Ms. VELÁZQUEZ. Mr. Chairman, I am not opposed to the amendment. I ask unanimous consent to claim the time in opposition.

The CHAIR. Without objection, the gentlewoman from New York is recognized for 5 minutes.

There was no objection.

Ms. VELÁZQUEZ. The amendment offered by the gentleman from Michigan is a well-thought-out proposal. In fact, earlier this month, the House Small Business Committee conducted a hearing regarding how small parts suppliers and manufacturers are coping given the current problems in the automobile industry. What we heard is troubling. Experts predict that half of the Nation's auto suppliers will be shut down by 2012. Many have already closed their doors.

These factories are vital not just to the automotive sector but to our overall economy. Parts suppliers alone employ 3.2 million workers. We know that the three big car manufacturers are suffering, but these are the smaller of the smaller, and they need our help. So it is very important what this amendment will do.

In the past, these manufacturers have supplied the American automobile industry, and I believe they can continue to have a bright future. By modernizing their facilities and entering new markets, they can keep offering good-paying jobs to millions of Americans while maintaining a strong manufacturing base in this country.

If we have learned any one thing from the current economic crisis, it is that economic stability starts from the bottom up, not the other way around. By stabilizing small manufacturers and part suppliers, we can help the larger firms in the automotive industry. In that process, we will protect millions of jobs. The amendment before us will further this goal.

I urge its adoption, and I yield to the gentleman from Missouri (Mr. GRAVES) for any comments he wishes to make.

Mr. GRAVES. Mr. Chairman, I have no opposition to the amendment. I associate myself with the remarks of the gentlelady from New York.

Ms. VELÁZQUEZ. If the gentleman is prepared to yield back.

Mr. SCHAUER. I thank my colleagues for their support.

I yield back the balance of my time. Ms. VELÁZQUEZ. I urge adoption of the amendment, and I yield back the balance of my time.
