

steamroll over anybody who is in opposition and wanted to ask some questions. They want nobody to ask questions about their theory about man-made global warming because they believe men and women, people, need to be controlled. That is part of their theory of government. It will make it a whole new, more benevolent world. Unfortunately, a lot of the government they are talking about is not the American Government. We are talking about international mandates from unelected bodies that we will then pass on power and authority to, which is supported by many of the people right here in this Congress.

For example, in the future, we are going to face all kinds of mandates and controls from the Federal Government and the internationalcy. Some of these would be, for example, mandated increases in parking fees. Do they tell you that now? All your local communities are going to have to raise your parking fees. And there will be major impediments to the private use of automobiles. And then, of course, they've got to end frequent flyer miles and they've got to end discount air travel because, believe it or not, and nobody has ever been telling you this, they believe that airplanes are the biggest CO₂ footprint of all. That's right. Your frequent flyer miles and your discount tickets have got to go. Of course, the elite will be able to fly around in their private planes giving a donation by supposedly planting trees somewhere and thus they can fly in their private planes. But the rest of us cannot go to see our sick relatives on a discounted ticket. No one has heard about this. Nobody has heard about these types of controls that are going to be mandated on our own people by the United Nations perhaps. What has been the purview of local government will be transferred to much higher authorities. Local government will be required to follow international guidelines, climate guidelines, when it comes to building, zoning, even local planning.

This is part of our liberty. Where we live, what we eat, how we run our lives, this is what is at stake. It's called liberty. This is a fight between the globalists, who found a vehicle to try to gain power and grab power, and those people who do believe in liberty and justice. We call them patriots. We call them people around the world who do believe in these Western values of dignity for the individual and freedom and justice.

Yes, even our diet has been targeted by those claiming that animal flatulence and deforestation make meat the enemy of climate. We aren't even going to be able to have barbecues in our backyard, much less have hamburgers. Now, these are one of those things that people will laugh that no one could ever go that far. What is going on here is laying the foundation for extensive controls that now are up to the individual or up to the local government being given to a central government.

If you aren't frightened by this, you should be. We have a fanatical movement of steely-eyed zealots who cannot admit they made a mistake, who always attack the other person rather than trying to have honest discussions of issues. Couple that with self-serving interests, and there are many self-serving interests who are involved in this. They now have joined in a political coalition that believes they have the right to run the economy, run business, run local schools, and run our lives. They have been looking for an excuse to assume power.

Now, the left has always wanted to have power. Leftists have always wanted it. They believe that they can do better and make humankind over and make it a better world by having absolute power over the choices of the people who live in this world. Well, they have found a calamity. They can threaten the people of the world with a calamity in order to stampede them into a monstrously horrific policy, and that's what we are on the edge of here in Washington.

In this last 8 months here in Washington, hundreds of billions, even trillions of dollars have been shoveled into the coffers, and no one knows where the heck this money has gone to. There have been looters from all over the world in our financial system and everyone who has benefited from that. The American people know that this Congress was stampeded into giving away trillions of dollars because we were told there was going to be an economic calamity. I'm very proud I never succumbed to that hysteria that was perhaps the greatest rip-off in history. Well, the global warming stampede is designed to cover up the biggest power grab in history, and it too will be costly.

Wake up, America. Wake up, America. We should not be giving our power and our liberty, not to the central government in Washington, D.C., certainly not to the United Nations, which is composed of countries who are governed by crooks and kooks. And the United Nations having power to set regulations over our lives in the name of saving this world from a climate catastrophe would itself be a catastrophe to the freedom of liberty and justice in this country and to the freedom-loving people of the world.

Well, even Al Gore must be a bit embarrassed now that he has to use the words "climate change" rather than "global warming." It's an inconvenient truth for him. The fact is it's no longer warming. He must think that we are stupid if he thinks that we have not noticed that it's now "climate change" instead of "global warming" and that we haven't noticed that there are large numbers of scientists that are opposing what is being proposed. And he must think we are stupid if he thinks that these taxes and regulations and draconian laws that are being proposed are things that we will just accept because we have been frightened into submission.

Wake up, America. We need to save our country and future generations and we need to save the world from this incredible power grab, the greatest power grab and worst power grab in history.
