## MOTION TO RECOMMIT

Mr. SIMPSON. Mr. Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. SIMPSON. In its current form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Simpson moves to recommit the bill H.R. 3183 to the Committee on Appropriations with instructions to report the same back to the House forthwith with the following amendment:

Page 31, beginning on line 11, strike “Nuclear Waste Disposal” and all that follows through page 34, line 8.

Page 40, beginning on line 23, strike “Defense Nuclear Waste Disposal” and all that follows through page 41, line 3.

The SPEAKER pro tempore. The gentleman from Idaho (Mr. SIMPSON) is recognized for 5 minutes.

Mr. SIMPSON. Mr. Speaker, this motion to recommit strikes all funds for Yucca Mountain Geological Repository. I think it's time to get everyone on the record about where they stand.

This motion would fulfill the President's stated intention to “terminate” Yucca Mountain. It would support Speaker PELOSI's anti-nuclear stance, and it would probably make Senator REID very happy.

Some on the other side of the aisle may question the intent of this amendment, but there is no gimmick here. The motion does exactly what I described. Even more, it provides each of us with the opportunity to show where we stand on this critical issue of a permanent geological repository at Yucca Mountain.

Let me tell my colleagues what else this amendment would do.

First, most of our districts are either storing or producing spent nuclear fuel. Currently, 104 nuclear reactors provide 20 percent of the Nation's electricity needs. Spent nuclear fuel and radioactive waste is being stored on-site at 121 locations across 39 States, sites that were never intended for long-term storage. These are sites in your districts.

I personally know that this fuel is safe where it is today. However, the Secretary of Energy has admitted that even with his blue ribbon panel a permanent geological repository will be necessary.

By voting for this amendment, we would ensure that this material stays where it is for the next 25 to 50 years or perhaps longer. And it would add additional delays and costs to the development of a permanent geological repository to be built in any State other than Nevada.

Second, it would rob our constituents of potential jobs and tax revenue. For those of you who have metal workers or pipe fitters or welders or scientists in your districts, this amendment would curb their ability to gain and secure high-paying jobs operating nuclear power plants that can sustain 700 permanent jobs, while new plants generate as many as 2,400 construction jobs. Our constituents need these jobs, and our country needs the power these nuclear plants create.

As I said, 20 percent of the electricity is produced by nuclear power. What you may not know is 72 percent of the non-carbon emitting electricity is produced by nuclear power.

Third, killing Yucca Mountain would bring over \$22 billion of liability against the Federal Government; \$22 billion is just an estimate. Some have estimated as high as \$50 billion. This is money which the Federal Government will owe to the industry because we have failed to live up to our responsibilities.

We have signed contracts with these companies to take this waste off their hands. And because of political deals like that between the President and Senator REID, we have failed. As a result, the taxpayers will have to pay \$22 billion or more in fines and penalties.

Colleagues, these are the ramifications if you support killing Yucca Mountain. You see, the President and Senator REID's plan to kill Yucca Mountain has no alternatives. It is only a study, a blue ribbon commission. This project has been studied to death. We have spent \$10.5 billion on it, 1.5 million documents. Over 50 studies by the National Science Foundation have been done on this Yucca Mountain. We know it is scientifically sound.

The President's decision was a political bow to the Senate majority leader, not one based on good science or good policy.

I make this motion to recommit so that none of us here can claim that we don't know the facts. I want all of us to have the opportunity to be on record today. We can vote for this motion to fill the President's and Senator REID's plan to kill Yucca Mountain. This will keep nuclear waste scattered across the country for the foreseeable future, potentially costing taxpayers \$22 billion or more in liabilities, jeopardizing the stability of the electrical system, lose jobs and tax revenues in our districts, and kick the can down the road on the location of a permanent geological repository that will still have to be built. Or we can defeat it, supporting good policy and ensuring that science, not politics, rules the majority of our decisions here in Congress.

Mr. Speaker, in 2002 this body voted overwhelmingly in favor of approving the Yucca Mountain site location. I'm not here to urge you to vote for or against this motion to recommit. The choice is up to all of us, but none of us can or should remain on the sidelines.

Mr. Speaker, how much time remains?

The SPEAKER pro tempore. The gentleman has 15 seconds remaining.

Mr. SIMPSON. Mr. Speaker, I would yield 15 seconds to my friend from Nevada, Mr. HELLER.

Mr. HELLER. I appreciate the gentleman yielding, and I looked in the dictionary recently for what the definition of “boondoggle” was. It was a wasteful, impractical project or activity. It's a perfect, perfect understanding of what Yucca Mountain is.

I will tell you, I support the motion to recommit. I would urge my colleagues to do the same. We've spent billions and billions of dollars on a project over the last 20 years. We're going to spend billions and billions and billions more for projects that will never happen.

Boondoggle—“a wasteful or impractical project or activity”—Webster's Dictionary.

Government Accountability Office report on Yucca says: Gross mismanagement, faulty science and research, and contract mismanagement.

Major Issues Unresolved: Problems with the quality assurance program, implications that some U.S. Geological Survey employees falsified scientific data, hazardous and flawed design changes, transportation safety issues, likely groundwater contamination, and inadequate earthquake protection.

Congress finally needs to have a serious discussion about studying reasonable alternatives to Yucca, which is an uncertain and dangerous plan.

If you're concerned about the safety of American citizens and the wise stewardship of tax dollars, then join with me to finally end the Yucca Mountain project and support this Motion to Recommit.

Mr. PASTOR of Arizona. Mr. Speaker, I rise in opposition to this motion to recommit.

The SPEAKER pro tempore. The gentleman from Arizona is recognized for 5 minutes.

Mr. PASTOR of Arizona. With the indulgence of my colleagues, I'll take a few minutes to explain why we are in opposition.

Mr. Speaker, I want to correct a notion that was given to you by my dear friend from Idaho (Mr. SIMPSON). For those of us who support nuclear energy and wanted to see it pull forward, as the ranking member knows and I know, the Speaker allowed that this form of energy go forward and balance with other interests that we have in the formation of alternative energy, et cetera. So we're here with a balanced bill today because of the Speaker's leadership and willingness for us to go forward.

When the Secretary of Energy appeared before us, he told us that Yucca Mountain was off the table and that the administration wanted a blue ribbon committee to be formed that would not include Yucca Mountain. Well, this bill says that that blue ribbon committee will be formed, but Yucca Mountain will also be considered with any other site that's being considered.

I agreed with my friend from Idaho when the Secretary said that \$197 million that is used to continue the licensing for Yucca Mountain was not wanted. I wanted to zero it out because that way I would give my colleague from Arizona more floor time by giving him more earmarks. But the staff said no, and they persuaded me.

They said we need the \$197 million to be in this account so that we will not breach the contracts that we have, as my good friend MIKE SIMPSON told you, because then what we would do, we would probably increase the problem—we would increase the probability of billions of dollars being spent in liability, the likelihood the government would lose, so you would put this government further into deficit. It would provide an opportunity for all of us, including my Republican colleagues, to provide more opportunities for trial lawyers.

And so for those two reasons, I said let's keep the \$197 million to continue the licensing, continue pushing nuclear energy as a form that we need in this

country and that we protect Yucca Mountain to the extent that we don't create a greater deficit and we don't create a slush fund for more lawsuits.

So with that, I ask you to vote against the motion to recommit.

I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in the vote.

□ 1453

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## PERSONAL EXPLANATION

Mr. EDWARDS of Texas. Mr. Speaker, earlier this afternoon, on vote 576, I intended to vote “yes,” and on 577, my intention was to vote “no.”

## CONDEMNING THE ATTACK ON THE AMIA JEWISH COMMUNITY CENTER IN BUENOS AIRES, ARGENTINA

Mr. BERMAN. Mr. Speaker, I ask unanimous consent that the Committee on Foreign Affairs be discharged from further consideration of the concurrent resolution (H. Con. Res. 156) condemning the attack on the AMIA Jewish Community Center in Buenos Aires, Argentina, in July 1994, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The text of the concurrent resolution is as follows:

H. CON. RES. 156

Whereas, on July 18, 1994, 85 people were killed and 300 were wounded when the Argentine Jewish Mutual Association (AMIA) was bombed in Buenos Aires, Argentina;

Whereas extensive evidence links the planning of the attacks to the Government of Iran, and the execution of the attacks to Hezbollah, which is based in Lebanon, supported by Syria, sponsored by Iran, and designated by the Department of State as a Foreign Terrorist Organization;

Whereas, on October 25, 2006, the State Prosecutor of Argentina, an office created by the Government of Argentina, concluded that the AMIA bombing was “decided and organized by the highest leaders of the former government of . . . Iran, whom, at the same time, entrusted its execution to the Lebanese terrorist group Hezbollah”;

Whereas, on October 25, 2006, the State Prosecutor of Argentina concluded that the AMIA bombing had been approved in advance by Iran’s Supreme Leader Ali Khamene’i, Iran’s then-leader Ali Akbar Hashemi Rafsanjani, Iran’s then-Foreign Minister Ali Akbar Velayati, and Iran’s then-Minister of Security and Intelligence Ali Fallahjani;

Whereas, on October 25, 2006, the State Prosecutor of Argentina stated that the Government of Iran uses “terrorism as a mechanism of its foreign policy” in support of “its final aim [which] is to export its radicalized vision of Islam and to eliminate the enemies of the regime”;

Whereas, on October 25, 2006, the State Prosecutor of Argentina identified Ibrahim Hussein Berro, a Lebanese citizen and member of Hezbollah, as the suicide bomber who primarily carried out the attack on the AMIA;

Whereas, on November 9, 2006, Argentine Judge Rodolfo Canicoba Corral, pursuant to the request of the State Prosecutor of Argentina, issued an arrest warrant for Ali Akbar Hashemi Rafsanjani, a former leader of Iran and the current chairman of Iran’s Assembly of Experts and of Iran’s Expediency Council, for his involvement in the AMIA bombing and urged the International Criminal Police Organization (INTERPOL) to issue an international arrest warrant for Rafsanjani and detain him;

Whereas, on November 9, 2006, Argentine Judge Rodolfo Canicoba Corral, pursuant to
