

limit coverage, and they reap billions in excessive salaries, profits, and bonuses.

Look at the facts: United Health earned \$2.9 billion last year. WellPoint reported profits of \$2.5 billion. For CEO pay, United Health Group's Stephen Hemsley made \$3.2 million. WellPoint's Angela Braly made \$9.8 million. It doesn't stop there. Former United Health Group's CEO, Bill McGuire, left his job in 2006 and still took home \$1.1 billion. That's a lot of zeros.

Who are we kidding, Mr. Speaker? This is all about money—campaign contributions, CEO salaries, millions in advertising to kill reform, and billions in profits. That's what's at stake here.

It's time to stop this nonsense and enact real reform that includes a public insurance option based on Medicare rates and with a network of providers to lower costs and to provide quality care.

THE SEVEN DIRTY WORDS WE CAN'T USE

(Mr. DANIEL E. LUNGREN of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANIEL E. LUNGREN of California. Mr. Speaker, this year, we lost a comedian of some note named George Carlin. One of the marks of his career was when he challenged the FCC with the seven dirty words. We're now engaged in a debate on health care, and we've been told that there are a number of phrases that we can't use because we're attempting to speak truth to power, power being the Democratic leadership here in the House.

What are these dirty words or phrases we can't use to describe the leading Democratic health care proposal?

We can't call it "government-run" even though that's what it's going to be inevitably. We can't call it "single-payer" even though that's where they're going. We can't call it "socialized medicine." I don't know why not, but we can't. We can't call it "ObamaCare." We can't call it "rationed care" even though rationing is an absolutely essential element to their plan. We can't call it the "government mandate care" even though it's full of mandates. The word "shall" appears, I believe, 100 times in the bill. "Shall" means "must," which means a mandate. You can't call it "keep your change care" because, frankly, there won't be any change for you to keep.

The seven dirty words we can't use.

THE URGENCY OF HEALTH CARE REFORM

(Mr. CARSON of Indiana asked and was given permission to address the House for 1 minute.)

Mr. CARSON of Indiana. Madam Speaker, I rise today to speak to the urgency of health care reform. I want to share the story of Holly, an Indian-

apolis woman who has courageously fought and won two bouts with breast cancer. Thankfully, Holly's medical costs were largely covered by insurance. While she praises the care and treatment she received, Holly is rightly worried about the future.

Due to her history of recurring cancer, Holly will be uninsurable if she ever loses her job and, with it, her employer-based health insurance plan. Holly and thousands of people across my district know that the status quo will leave millions more uninsured, in some cases even fighting for their lives.

We must push forward with overhauling our health care system, not only for the 47 million who are uninsured but for the millions more who will be added to these rolls unless we act. Now is not the time for fear-mongering. Now is not the time for political posturing or for narcissistic behavior. We must be Representatives in the true sense of the word and act on behalf of the American people.

HONORING ST. ANN'S 150TH ANNIVERSARY

(Mr. LANCE asked and was given permission to address the House for 1 minute.)

Mr. LANCE. Madam Speaker, I rise this morning in honor of the 150th anniversary of St. Ann's Roman Catholic Church in Hampton, Hunterdon County, New Jersey.

St. Ann's was officially established in 1859, and Father Claude Rolland of France was named its first resident pastor.

Throughout its history, St. Ann's has faithfully fulfilled its mission while, at the same time, helping to establish eight other Catholic churches in Hunterdon and Warren Counties. Due to its contribution to the history of our State in 2003, the church was designated by New Jersey as a Site of Historical Note. Today, St. Ann's Parish is enjoying a period of significant growth under the leadership of its current pastor, Father Michael Saharic.

I congratulate St. Ann's Church for its 150 years of service to the communities of Hampton, Glen Gardner and surrounding areas and as a pillar of faith.

NOTICE OF INTENTION TO OFFER RESOLUTION RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. BROWN of Georgia. Madam Speaker, pursuant to clause 2(a)(1) of the IX, I hereby notify the House of my intention to offer a resolution as a question of the privileges of the House. The form of my resolution is as follows:

Whereas the gentleman from Georgia, Mr. Brown submitted an amendment to the Committee on Rules to H.R. 3326, Department of Defense Appropriations Act, 2010;

Whereas that gentleman's amendment would have required that none of the funds

made available in this Act be used to standardize the design of future ground combat uniforms across the military branches;

Whereas defense appropriations have typically been used to provide funding for various types of equipment such as uniforms;

Whereas the gentleman's amendment complied with all applicable Rules of the House for amendments to appropriations measures and would have been in order under an open amendment process, but regrettably the House Democratic leadership has dramatically and historically reduced the opportunity for open debate on this floor; and

Whereas the Speaker, Ms. Pelosi, the Democratic leadership, and the chairman of the Committee on Appropriations, Mr. Obey, prevented the House from voting on the amendment by excluding it from the list of amendments made in order under the rule for the bill: Now, therefore, be it

Resolved, That H. Res. 685, the rule to accompany H.R. 3326, be amended to allow the gentleman from Georgia's amendment to be considered and voted on in the House.

The SPEAKER pro tempore (Ms. EDWARDS of Maryland). Under rule IX, a resolution offered from the floor by a Member other than the majority leader or the minority leader, as a question of the privileges of the House, has immediate precedence only at a time designated by the Chair within 2 legislative days after the resolution is properly noticed.

Pending that designation, the form of the resolution noticed by the gentleman from Georgia will appear in the RECORD at this point.

The Chair will not at this point determine whether the resolution constitutes a question of privilege. That determination will be made at the time designated for consideration of the resolution.

DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore. Pursuant to House Resolution 685 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 3326.

□ 1031

IN THE COMMITTEE OF THE WHOLE

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Pennsylvania (Mr. MURTHA) and a Member opposed each will control 10 minutes.

The Chair recognizes the gentleman from Pennsylvania.

Mr. MURTHA. This amendment provides \$60,199,000 to be made available for a joint POW/MIA account, \$2 million additional funding for the Fisher House, for a total of \$12 million, for redirecting \$368,800 otherwise available for advanced procurement of additional F-22 aircraft spare parts. Let me explain—well, some money shifting from the health program and some chemical agents and so forth. In other words, some amendments we couldn't get to in the floor.

The major difference is that I had advanced funding for the F-22 in the bill, and obviously the Senate, in its wisdom, defeated the possibility of the F-22 passing. So what I've done is say, okay, if we're not going to have an F-22, let's at least fund the original 187 airplanes at the fullest robust level. And that's the only difference, actually, that we have between myself and Mr. YOUNG.

So with that, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Chairman, I claim the time in opposition to the manager's amendment.

The Acting CHAIR. The gentleman from Florida is recognized for 10 minutes.

Mr. YOUNG of Florida. Mr. Chairman, as Chairman MURTHA suggested, we basically support this manager's amendment. We have no opposition, and in fact, support it except for the one item that has to do with the air superiority aircraft, the F-22.

We support the original position that Chairman MURTHA offered to the subcommittee and the subcommittee agreed to, and that was to be able to keep the production line open for the F-22. We're just really concerned that 187 aircraft cannot guarantee that we will control the air over the battlefield if that situation develops.

I now include a chart that I discussed yesterday in general debate on the number of aircraft, fighter aircraft, that we have bought over the years, and how many of them we have lost through attrition, through accidents, and through actual combat.

AIRCRAFT HISTORY

F-4: Production: 1958 to 1979 by McDonnell Douglas; Built: 4,138 (2,874 USAF; 1,264 Navy and MC); Lost: 71 combat losses plus 54 lost in accidents (3%).

F-14: Production: 1970 to 1992 by Northrop Grumman; Built: 679; Lost: 121 (18%); Retired in 2007.

F-15: Production: 1974 to 1985 by McDonnell Douglas/Boeing; Built: 1,118; Destroyed: 117 (10%); Active Today: 618.

F-16: Production: 1978 by General Dynamics/Lockheed Martin; Built: 2,230; Destroyed: 334 (15%); Includes 25 destroyed due to battle damage; Active Today: 1,167.

F-18: Production: 1983 by McDonnell Douglas/Boeing; Built: 1,048; Lost in accidents: 170

(includes 2 shot down in Gulf War); Stricken for maintenance and exceeding life limits: 246 (40%); Active Today: 632.

F-22: Production: 2001 to 2009 by Lockheed Martin; Building: 187; Projected losses: 6, leaving only 181 (3% like the F-4); 19, leaving only 168 (10% like the F-15); 28, leaving only 159 (15% like the F-16); 34, leaving only 153 (18% like the F-14); 75, leaving only 112 (40% like the F-18).

187 just doesn't really, in my opinion, doesn't guarantee that we will have what we need. Hopefully, we'll never need them, but we just don't know that we might not need them. And if we need them and don't have them, where are we and where is the soldier on the ground? If we need them and don't have them, somebody else's airplane may be over that battlefield.

So it would have been better if we could have had a straight up-or-down vote on the F-22 issue, and I requested of the Rules Committee to make such an amendment in order, and they chose not to do so.

So I will vote against this manager's amendment—again, not because we're opposed to the manager's amendment, but we think that we are threatening the future security of air control and air superiority over the battlefield.

I reserve the balance of my time.

Mr. MURTHA. I yield myself 2 minutes.

I certainly agree with what the gentleman said. I have a great concern about air superiority, but the problem is we need 292 votes in the House. The President is hard over on this issue. We need 66 votes in the Senate, and there is no chance of us getting that kind of a vote.

So what I'm trying to do is make sure that that is robustly funded, the ones that are there, because the very thing Mr. YOUNG mentioned, the fact that these airplanes have high maintenance, they cost about \$50,000 an hour to maintain, and it's very expensive and very burdensome. So I want to make sure they have the spare parts they need, the engines they need in order so the ones we have, have what they need.

With that, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Chairman, I yield now to a very distinguished member of the subcommittee, the gentleman from New Jersey (Mr. FRELINGHUYSEN) for 3 minutes.

Mr. FRELINGHUYSEN. I thank the gentleman for yielding.

I rise in opposition to the amendment authored by our chairman. I don't quarrel with many of the provisions of the Murtha amendment. He's absolutely right on in most regards. But, Mr. Chairman, I ask my colleagues to remember one day, April 15, 1953. On that date is the last time a U.S. soldier, sailor or marine was killed by an attack from the air. It's nearly 60 years ago, during the Korean War.

Air dominance has been the game changer that has allowed our ground troops to execute their missions. We

have air dominance today. Our job here is to make sure we have it tomorrow, and certainly the committee is going to do that. But air dominance is fragile and could slip away quickly. As we gather here today, the Russians are producing advanced fighter aircraft. We know that. The Chinese are apparently working to reverse engineer some of those advanced fighters for their own use, and we know certain countries are producing and selling very sophisticated air defense systems; more accurate, more lethal, more mobile, more difficult to neutralize than any systems our Air Force and Navy has ever faced. Hence, the need for the F-22.

The Air Force has 187 F-22 Raptors. It does not have 187 for combat deployment. We would like that to be the case. About 130 or so are ready, what we call combat coded with the full package, and they're ready for those missions. Approximately 60 are maintained, as I understand, for training and testing purposes.

And the question, of course, arises—and I support the F-25 Joint Strike Fighter. It's on its way, but when and how soon. The Joint Strike Fighter, as we know, is not the Raptor, doesn't have those capabilities. I think we need to keep the F-22 assembly line alive and warm. Once it's shut down, there is virtually no prospect that we can bring it back again. You can't flip the switch to bring the Raptor back into production.

So I rise in reluctant opposition to the amendment. I respect the chairman's desire to sort of keep the line open, have spare parts, but I do oppose the amendment.

Mr. MURTHA. I reserve.

Mr. YOUNG of Florida. I will yield to the gentleman from Georgia (Mr. KINGSTON), a member of the subcommittee, for 2 minutes.

Mr. KINGSTON. I thank the gentleman from Georgia and the gentleman from Pennsylvania.

I wanted to speak about the F-22 issue because, as we know, the Senate has cut off funding for it, but I do have some concerns about our fighter fleet.

Currently, the military inventory is 3,500 fighter aircraft. That's 2,400 for the Air Force, 1,100 for the Navy and the Marine Corps. Most of these aircraft were purchased at high annual rates during the 1980s. These aircraft will reach the end of their service in the next 10 years.

So what we're talking about is something that maybe could be more important in the next decade or within the next decade than might be to people today, but the Air Force will replace the A-10, the F-16, and the F-15 with the F-22 and the F-35 Joint Strike Fighter.

To give you an idea of some of these ages, there are 350 A-10s with an average age of 28 years, 470 F-15s with an average of 26 years, 220 F-16s with an average of 17 years, 1,200 F-16-S's with an average of 20 years. We have rough-

ly 140 Raptors to replace the fleet and have no F-35-S's and will not have them until 2013. And of course the F-22 production line will end in 2011. That's the Air Force.

Now, as respects the Navy, the Navy will replace the carriers and F/A-18 Hornets with Super Hornets and the F-35-Js, Joint Strike Fighters. The reason they're doing this is to have 125 carriers with an average age of 14 years each, 620 Hornets with an average age of 19 years.

The Acting CHAIR. The time of the gentleman has expired.

Mr. YOUNG of Florida. I yield the gentleman from Georgia 1 additional minute.

Mr. KINGSTON. I thank the gentleman.

What I will do, I will submit some of these statistics for the record. But I guess the bottom line is that we're very concerned with the need to replace the aging fleet in the Navy and in the Air Force, and I believe keeping the F-22 line open resolves some of this.

The Defense Committee has worked very hard on this. There's been a lot of good bipartisan dialogue. I know both sides care about it, whether you're for or against this amendment, but I think that at this time we need to go on this very cautiously and very slowly.

I appreciate the chairman's and the ranking member's leadership on this issue and look forward to continue working with you.

Mr. MURTHA. I just want to reiterate what I said.

The political climate has changed substantially. We're in a situation where the President's hard over, and we are doing the best we can to have robust funding for the fleet. That's what I intend to do, or I hope, when this amendment passes, that's what we'll have done.

With that, I reserve the balance of my time.

□ 1045

Mr. YOUNG of Florida. Mr. Chairman, I now yield 1 minute to the distinguished gentleman from Utah (Mr. BISHOP).

Mr. BISHOP of Utah. I appreciate the difficulty we're in; but once again, to have air superiority requires two things: technical superiority, which the F-22 provides, as well as numerical superiority, which was why originally we were going to build 750. Up until last year, 381 was the minimum. Everyone from Air Combat Command, to Air National Guard, to every study says 243 is the number. There is no data that says 187 is the correct number, other than the Secretary. If the Russians are going to build a new generation and sell 200 to 300 at the same time we cut 250 legacy planes from our Air Force, at the same time we stop the F-22, at the same time the F-35 is not going to be available until 2014 at the earliest and still has problems, we may find ourselves on the wrong side of history

if we do not stand up for the F-22. If we can spend \$5 billion on ACORN but complain about \$2 billion for 18,000 jobs to continue on a plane that we need, there is something in our prioritization that needs to be reviewed.

I appreciate the position of the gentleman from Pennsylvania, but here is the time we need to make a statement that the future is essential.

Mr. MURTHA. I yield myself 1 minute.

I will say to the gentleman, as I have said before, we're doing the best we can with what we have. Politically, it's changed so dramatically that we just have no alternative than to make sure that what we have is robustly funded.

With that, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Chairman, can I inquire as to how much time I have remaining?

The Acting CHAIR. The gentleman from Florida has 2 minutes remaining. The gentleman from Pennsylvania has 7 minutes remaining.

Mr. YOUNG of Florida. Mr. Chairman, I yield myself the balance of the time.

I want to say and to make sure that Members understand that I know that Mr. MURTHA is not opposed to the F-22 and that he supports it because it was in his original mark that he presented to the subcommittee. And I understand the change in political mode that we have experienced. But you know, from the time that I came here, we were fighting about the F-14. There were those who didn't want to do the F-14, which was a very important aircraft for our fleet protection. Most of our new aircraft have been opposed by certain quarters in the country. The M1 tank, which is by far the world's best tank, was opposed by certain groups of people. Well, we cannot afford to allow an enemy to control the air over our troops. It's as simple as that. We have never sent our soldiers into battle with only 187 fighter aircraft in our inventory that have the capability to control the air over the battlefield. So yes, it's expensive. Freedom doesn't come free. I'm not really opposed to this amendment, but I'm going to vote against it because of the F-22 issue.

I yield back the balance of my time.

Mr. MURTHA. I yield back the balance of my time and call for an affirmative vote on the amendment.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Pennsylvania (Mr. MURTHA).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. YOUNG of Florida. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Pennsylvania will be postponed.

PART A AMENDMENT NO. 2 OFFERED BY MR. CONAWAY

The Acting CHAIR. It is now in order to consider amendment No. 2 printed in part A of House Report 111-233.

Mr. CONAWAY. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part A amendment No. 2 offered by Mr. CONAWAY:

Page 8, line 11, after the dollar amount, insert the following: "(increased by \$1,000,000) (reduced by \$1,000,000)".

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Texas (Mr. CONAWAY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

Mr. CONAWAY. I thank the Chair. I appreciate that, and I will endeavor to not use all the 5 minutes.

Mr. MURTHA. Will the gentleman yield?

Mr. CONAWAY. I yield to the gentleman from Pennsylvania.

Mr. MURTHA. We're willing to accept the amendment.

Mr. CONAWAY. Mr. Chairman, thank you for accepting the amendment.

Mr. YOUNG of Florida. Will the gentleman yield?

Mr. CONAWAY. Yes, sir, I will.

Mr. YOUNG of Florida. Mr. Chairman, we support this amendment and are happy to accept it.

Mr. CONAWAY. Thank you very much.

Let me briefly explain what it does because on the surface, it looks like it's just an in-and-out with no real issue. I will be quick. The issue allows me to talk about financial management, internal controls, and clean audits at the Department of Defense. This is, as it should be, a high priority that is reflected in the priorities set by the Secretary of Defense himself. It's not really up to the Appropriations Committee to find these funds. These funds ought to come out of hide. It's important they do that.

Yesterday or the day before, the Secretary announced a \$60 billion savings search for the Department of Defense. He can't find that money without good internal controls. The authorization committee has said this is now a priority. We've accelerated the movement by 4 years, the point at which the Department of Defense needs to have clean, audited financial statements. Sarbanes-Oxley made that function of internal control a high priority when it was passed. Businesses had to do what was referred to as section 404 reviews. It was difficult, it was painful, and it was expensive. But almost every one of those publicly held companies will tell you today that after they put those new controls in place, that they are better. Their financial statements are better. Their decisions based on financial information are better. The same

thing would apply to the Department of Defense if they would make this a priority. It has to be a priority for the Secretary of Defense, the appropriations committee and the authorization committee.

Mr. MURTHA. Would the gentleman take yes for an answer?

Mr. CONAWAY. I did. I just want to get this on record. I did take yes for an answer. The importance of financial statement auditing is important. It needs to be a priority.

I yield back the balance of my time.

The Acting CHAIR. Does any Member seek time in opposition?

If not, the question is on the amendment offered by the gentleman from Texas (Mr. CONAWAY).

The amendment was agreed to.

PART A AMENDMENT NO. 3 OFFERED BY MR. FLAKE

The Acting CHAIR. It is now in order to consider amendment No. 3 printed in part A of House Report 111-233.

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk designated as No. 596 in part A.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part A amendment No. 3 offered by Mr. FLAKE:

Page 35, line 2, after the dollar amount, insert "(reduced by \$160,000,000)".

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. I thank the Chair. Before I start with this amendment, I want to say that I support the part of the manager's amendment that the gentleman from Pennsylvania offered with regard to the F-22 program. I'm glad that we're doing what we're doing there, and I commend the committee for sticking with what the President wanted there. I think we've done the right thing.

This amendment would remove \$160 million in funding for the U.S.-made first responder radios for use by Mexico's police force. This request is not classified as an earmark but is programmatic funding, and it came to my attention last week when it was featured in a story by the Washington Post. According to the article, 12 Members of Congress requested this funding which is to be used for radios with certain specifications. The article goes on to say that while no specific company is named in the bill, Motorola, which makes radios that fit the parameters set forth in the bill and which is based in Illinois, home to seven of the requesting Members, appeared to be the intended beneficiary of this funding. At the same time, the article points out that because this request is not considered to be an earmark, the Members who requested it are not required to publicly report it. Typically they have

to sign a certification saying they have no financial interest in the earmark, and that was not the case here.

Mr. Chairman, if it looks like an earmark, sounds like an earmark, I think it's an earmark. It ought to be disclosed under House rules, and it isn't here. Even if we accept that funding directed to a nameless company based on a certain set of requirements that only one company could provide is not an earmark, then we're met with an inconvenient problem: Why bother to make the earmark process more open and transparent when it would be just as easy to request the funding—in this case, funding that is several times more expensive than the average earmark—by calling the beneficiary a program and tailoring its description to suit the needs of one company? It's bad enough that this bill includes over 500 earmarks directed at private companies. The sponsors of those earmarks are all required to disclose their requests on their Web sites; and they even certify, as I mentioned, that they have no financial interest. But that is not the case here. They write letters, but it doesn't show up as an earmark.

The Post article quotes Bill Allison, senior fellow at the Sunlight Foundation, as saying, "It kind of makes a mockery of the disclosure requirements we have. They will disclose the little things, the \$1 million projects; but when you have big-ticket items, you don't have Members willing to take responsibility for those." I agree with Mr. Allison's assessment. If we truly want to drain the swamp and make the earmark process more transparent, we can't continue to allow private companies to be funded outside the current House rules.

I urge support for my amendment and reserve the balance of my time.

Mr. MURTHA. I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from Pennsylvania is recognized for 5 minutes.

Mr. MURTHA. I reserve the balance of my time.

Mr. FLAKE. I would inquire of the gentleman on the subcommittee if he believes that this is an earmark; and if it is, why Members aren't required to certify that they have no financial interest if they're requesting money for it?

I yield the gentleman time to respond.

Mr. MURTHA. I will use my own time.

Mr. FLAKE. May I inquire as to the time remaining?

The Acting CHAIR. The gentleman from Arizona has 1½ minutes remaining.

Mr. FLAKE. I will reserve the balance of my time.

Mr. MURTHA. I have the right to close, and I reserve my time.

Mr. FLAKE. We have a process here that I think over the years has been abused severely. We see that whenever we pick up the paper. We see examples

of earmarks that have gone out of this place in prior years with no notice at all. Last year we didn't even have any opportunity to offer any amendments. The Appropriations Committee didn't even mark up the Defense bill. We see story after story from prior years of what happens when we don't have adequate disclosure and transparency. I would submit that that's what we're continuing here. We have a programmatic request that 12 Members signed a letter. Seven of those Members represent the State in which the recipient of the earmark clearly will receive a huge contract, and yet we don't have to file the disclosure requirements that we do for regular earmarks. I would say that we should not fund this programmatic request, which is really a stealth earmark, and get back to the process that we at least pretend to follow here, where we have disclosure and accountability. I would urge support of the amendment.

I yield back the balance of my time.

Mr. MURTHA. I rise in opposition to the amendment. I am trying to figure out what the gentleman is trying to do. This was in the table from the White House, from the administration, the Defense Department. This would delete \$160 million in drug interdiction and counter-drug activities which go to Mexico, Afghanistan and Colombia. The Defense Department has the authority to train and equip foreign governments for counter-drug activities since Congress enacted section 1004 of the '91 National Defense Authorization Act. This funding will enable the Department of Defense to provide digital communication equipment to our allies in order to fight the increasing drug trade and execute this funding at the discretion of the Department of Defense.

I mean, I can't imagine anything that's more important to us and our troops in Afghanistan than the amount of money that we're putting in for anti-drug interdiction. So I would urge the Members to vote against this amendment.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART A AMENDMENT NO. 4 OFFERED BY MR. SESSIONS

The Acting CHAIR. It is now in order to consider amendment No. 4 printed in part A of House Report 111-233.

Mr. SESSIONS. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part A amendment No. 4 offered by Mr. SESSIONS:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. 1001. Not later than 60 days after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on the use of hyperbaric oxygen therapy (in this section referred to as "HBOT") under the Secretary of Defense. Such report shall include the following:

(1) The number of members of the Armed Forces, veterans, and civilians being treated with HBOT.

(2) The types of conditions being treated with HBOT and the respective success rates for each condition.

(3) The current inventory of all hyperbaric chambers being used by the Secretary of Defense (including the locations, the purposes, and the rate of use of such chambers).

(4) Any plans for expanding the use of HBOT for treatment.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Texas Mr. (Sessions) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Texas.

□ 1100

Mr. SESSIONS. Mr. Chairman, thank you very much, and I appreciate the opportunity for you to recognize me.

Mr. YOUNG of Florida. Mr. Chairman, would the gentleman yield?

Mr. SESSIONS. I would yield to the gentleman.

Mr. YOUNG of Florida. Mr. Chairman, we are very familiar with this amendment. We know of the great work Mr. SESSIONS has done relative to the hyperbaric chambers for treatment of all types of wounds and diseases, and we are very pleased to accept this amendment.

Mr. SESSIONS. I thank the gentleman, and I appreciate his help.

Mr. MURTHA. If the gentleman would yield, I agree with the amendment.

Mr. SESSIONS. I thank the gentleman, the chairman of the committee, Mr. MURTHA.

Mr. Chairman, I would just like to say that this committee, as well as the Rules Committee, has been very open to receiving information about the current status of hyperbaric oxygen treatment as an opportunity for us to learn more about how we will help our returning veterans and those who have been injured in conflicts around the globe.

This body has worked very closely with not only Secretary Gates, General Casey, the Chief of Staff of the United States Army, but also with their designee, General Lori Sutton, who is working very closely with the Congress to make sure that we pay attention to the head trauma injuries of our soldiers as they engage in trying to help the United States win the war on terror.

I want to personally thank not only the gentleman, Mr. YOUNG, and the

gentleman, Mr. MURTHA, but also the appropriators, Mr. WAMP and Mr. EDWARDS. I would also like to thank the chairwoman of the Rules Committee, Ms. SLAUGHTER, for not only making this amendment in order, but also the words of support that have been expressed on behalf of the Armed Services Committee, but also the Rules Committee.

I thank both these gentlemen for accepting my amendment.

I yield back my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Texas (Mr. SESSIONS).

The amendment was agreed to.

PART A AMENDMENT NO. 5 OFFERED BY MR. TIERNEY

The Acting CHAIR. It is now in order to consider amendment No. 5 printed in part A of House Report 111-233.

Mr. TIERNEY. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part A amendment No. 5 offered by Mr. TIERNEY:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in title IV under the heading "Research, Development, Test and Evaluation, Defense-Wide" shall be available for the Kinetic Energy Interceptor program, and the amount otherwise provided under such heading is hereby reduced by \$80,000,000.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Massachusetts (Mr. TIERNEY) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Massachusetts.

Mr. TIERNEY. Mr. Chairman, I yield myself 1 minute.

Mr. Chairman, my colleague, Congressman HOLT, and I are offering this amendment striking \$80 million that's in the bill for the Kinetic Energy Interceptor program. Mr. HOLT and I believe that the Kinetic Energy Interceptor program no longer warrants Congress' support, and we are not alone in that assessment.

The Bush administration made the initial decision to terminate the KEI program in its fiscal year 2010 Program Objectives Memorandum last fall. Then, President Obama did not include funding for it in his budget proposal, and both the House Armed Services Committee and the Senate Armed Services Committee did not specify funding for it in their respective authorization bills.

Secretary Gates has testified that "the missile's 38 or 39 feet long. It weighs 12 tons. There's no extant ship we can put it on. We would have to design a new ship."

The head of the Missile Defense Agency, Lieutenant General O'Reilly, has said that the KEI program is being

terminated because "its capability is inconsistent with the missile defense mission to counter rogue nation threats."

The KEI program was intended to be a 5-year development program that is now a 16-year development program.

Mr. Chairman, I reserve the balance of my time.

Mr. MURTHA. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman from Pennsylvania is recognized for 5 minutes.

Mr. MURTHA. I reserve my time.

Mr. TIERNEY. Mr. Chairman, I would just like to say the majority leader is fond of saying that it is never too late to do the right thing, and here is our opportunity to do the right thing.

We have to, at some point in time, start looking at all of our budgets, and that includes the Defense budget, to make sure that we're not putting money out that needs to be put towards other priorities.

Here you have the Missile Defense Agency's director itself saying that this program should be terminated. You have the Secretary of Defense in two administrations saying the program should be terminated. You have, from what I can hear from people, the silence of those that say they are against this amendment, not arguing that in fact this is a program that should move forward.

With that, Mr. Chairman, I reserve the balance of my time.

Mr. MURTHA. I continue to reserve.

Mr. TIERNEY. Mr. Chairman, I yield 1 minute to my colleague from New Jersey (Mr. HOLT).

Mr. HOLT. Mr. Chairman, I thank my friend from Massachusetts.

Almost no one believes that the Kinetic Energy Interceptor program is necessary or that it will be completed successfully. The Director of the Missile Defense Agency, the Secretary of Defense, and the President have all called for the termination of the program. House and Senate Armed Services Committees have supported that position.

I understand the desire of the chairman of the subcommittee (Mr. MURTHA) to get something of value from all the money that has been already spent, but stringing this program along is not the answer. Even after the removal of this money there will be plenty of funding to learn from the mistakes of the program.

Mr. Chairman, even if the KEI were successful, it will never work well enough to change our strategy. Missile defense systems must be perfect to achieve their professed goals, and we can never get that perfection.

The fact that we don't need them against our friends and that they will only encourage our enemies to build more offensive systems to get around, this so-called shield are the arguments against this missile defense. The best this flawed system could ever provide

is a provocative, yet permeable defense. I urge my colleagues to adopt the amendment.

Mr. MURTHA. Mr. Chairman, I continue to reserve.

Mr. TIERNEY. I am happy, I guess, to keep on talking. I think that the desire to have the final word without any rebuttal is somewhat indicative of the strength of an argument, but if that is the gentleman's choice, certainly you are able to do that.

I would note that the administration urges the Congress to support the President's initiative to terminate or reduce programs that fund narrowly focused activities and duplicate existing programs and that have outlived their usefulness. It particularly mentions the Kinetic Energy Interceptor program as one of those, indicating that we can better target scarce resources and redirect funds to programs with a greater potential for results. And that, of course, is in the Statement of Administration Policy with respect to this bill.

Let me, if I can, Mr. Chairman, just read what the Director of the Missile Defense Agency says about this, and he said this on May 21, 2009:

"The original KEI mission grew from a boost phase only mission to a boost and mid-course mission. The development schedule grew from 5½ years to 12 to 14 years (depending on spirals), program cost grew from \$4.6 billion to \$8.9 billion, and the missile average unit production cost grew from \$25 million to over \$50 million per interceptor. Technical issues delayed the first booster flight test date (established in 2007) by over a year," and this year any further testing is highly unlikely.

"Given the above and that 15 percent of the \$8.9 billion worth of work on contract till 2018 has been accomplished, the KEI program was terminated."

And further, you have the Secretary of Defense, Mr. Gates, indicating that this is one decision that he didn't have to make or take credit for. The Missile Defense Agency itself, under the Bush administration, essentially eliminated the Kinetic Energy Interceptor, or thought that it had.

First of all, he said this has been a 5-year development program that now looks like it's about to be a 16-year development program. There has not been a single flight test. There has been little work on the third stage of the kill vehicle, which is obviously critical. A big part of the program is that it needs to be close to the launch site to be able to be effective, and the 38- or 39-foot size of the instrument and the weight of 12 tons means that we have no extant ship that could actually be used to get close enough. It would be virtually of limited or no use against Iran or Russia or the Chinese. It has very limited capability, and that is why this is not a productive way to proceed on this matter.

There may be some argument by some here—and we will never know

until after we're finished talking, of course—that we want to keep some of this money in for research purposes. Let me suggest to my colleagues that there is a significant amount of money in research, development and testing within the entire Department of Defense budget as well as within the budget for the Missile Defense Program.

I urge my colleagues to support this motion and thank the chairman for the time.

Mr. MURTHA. I rise in opposition to the amendment. It will strike \$80 million out of the Kinetic Energy Interceptor program.

In my estimation, what I said to the Defense Department over and over again, all at once, after all these years of no oversight in the Defense Department, they get nothing from the program. We've got the same thing in the Presidential helicopter. We've got the same thing in many of these other programs. What I'm trying to convince them is they have to have oversight earlier in a research program.

Now, the Under Secretary tells me that in the new research programs he is going to try to have a cost cap or some kind of effectiveness so that they measure it, benchmarks of some sort so that they can measure these earlier.

We may have to adjust this in conference if this amendment doesn't pass, but I ask the Members to vote "no" on this amendment, and we will see what we can work out. The program has already spent \$1 billion, and we ought to get something out of it.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Massachusetts (Mr. TIERNEY).

The question was taken; and the Acting Chair announced that the nos appeared to have it.

Mr. TIERNEY. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Massachusetts will be postponed.

It is now in order to consider amendments printed in part B of House Report 111-233.

PART B AMENDMENT NO. 1 OFFERED BY MR. FLAKE

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk designated as No. 1 in part B.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 1 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in this Act shall be available for Enhanced Navy Shore Readiness Integration.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Let me just state, since the gentleman wouldn't yield time at the end of his statement for me to ask, with the last earmark amendment I had, the only information we have from the committee says that the money is to go to Mexico for a program in Mexico, for radios for Mexico. Afghanistan was never mentioned. If it is covered, we don't know that.

But when the Appropriations Committee takes 18 minutes to mark up the bill and then brings it to the floor and then the chairman of the subcommittee won't answer a question about it, to just say, Well, it's for Afghanistan as well, that doesn't help with this process at all. And I think that will be the pattern today, whether to simply reserve time and then not yield any so we can have any kind of colloquy to find out what really is at the heart of these earmarks or what these are really for.

So I hope that changes. I hope we have a real discussion here because we didn't get it in the Appropriations Committee. Remember, 18 minutes to approve a bill unanimously, with more than 1,000 earmarks in it that nobody in the full body had seen, and we only got a copy of days before the bill came out. Eighteen minutes.

Anyway, this amendment would prohibit \$5 million from going to fund Enhanced Navy Shore Readiness Integration. The earmark is going to Concurrent Technologies. Now, most people who have been following this process will know that name and know it well because Concurrent has drawn considerable attention due to its proclivity for earmarks. According to Taxpayers for Common Sense, Concurrent received more than \$200 million in earmarks between 2001 and 2006.

Concurrent technically is a nonprofit organization, with revenues in the hundreds of millions of dollars. And it is receiving earmark after earmark after earmark after earmark, although questions are raised all over the place. According to the Center for Responsive Politics, Concurrent Technologies' employees have donated more than \$113,000 to current members of the House Defense Appropriations Subcommittee since 1998.

Let me just use a chart here. This chart kind of explains the phenomenon that we will see over and over and over again. And with every earmark amendment I am offering today, this pattern exists where Members of Congress will earmark dollars; the earmark spending goes to the earmark recipient; the earmark recipient will then turn around; and lobbying firms representing the earmark recipient, PACs there, executives from the lobbying firm, executives from the company itself, con-

tribute handsomely to Members of Congress, and it recycles again and again and again. Circular fund-raising, that's what we're talking about here.

Now, I will point out that when Members of Congress request an earmark, they are forced to sign a certification letter saying that they have no financial interest. This kind of circular fund-raising is not illegal, and that's not what I'm alleging at all. But is it right? And should we, as Members of Congress, tolerate it again and again and again when these companies like Concurrent Technologies are in the news for having problems explaining what they've done with the earmark money that they've received again and again? And here we go saying, Now we have transparency and accountability, and we've changed the earmark process, and yet here we are again appropriating more money through an earmark to Concurrent Technologies.

Mr. Chairman, I reserve the balance of my time.

Mr. DICKS. Mr. Chairman, I rise in opposition.

The Acting CHAIR. The gentleman from Washington is recognized for 5 minutes.

Mr. DICKS. I reserve my time.

Mr. FLAKE. Mr. Chairman, when we were discussing earmarks earlier in the appropriation cycle, one Member defending his earmark came to the floor and said he was getting an earmark for a university. Based on things I've read in the papers, this college does not have a lobbyist, either a Federal or State lobbyist. No one from the school has donated to my campaign; nothing at the school is named after me or is proposed to be named after me. To my knowledge, the school has never received an earmark of any sort from the Federal Government prior to this.

I would ask the gentleman, the sponsor of the earmark, if he can make the same statement with regard to this earmark. Have moneys come back from the recipient of the earmark?

And I would yield him time to do so.

□ 1115

Mr. DICKS. Mr. Chairman, I reserved my time and I will answer this on my own time.

Mr. FLAKE. Roll Call has noted that PMA, and we will get to another PMA earmark a little later, has been—well, let me step back just a bit. Sunlight Foundation has noted that Concurrent Technologies paid PMA \$320,000 in lobbying fees in 2008 and received more than \$14 million in earmarks sponsored by five Members, including the sponsor of this amendment. This signifies an impressive 4,463 percent return on investment. It's no wonder this process of circular fund-raising continues.

According to the Center for Responsive Politics, the sponsor of this earmark is reportedly among the five top recipients of PMA contributions. Roll Call noted that PMA has been the largest source of campaign contributions since 2001 and PMA and its client have

provided the sponsor of this earmark with nearly \$200,000 in campaign contributions since 2001.

The Acting CHAIR. The time of the gentleman has expired.

Mr. DICKS. Mr. Chairman, I rise in strong opposition to this amendment offered by Mr. FLAKE.

In addressing my colleagues, I want to begin by clarifying what the funds designated for Enhanced Navy Shore Readiness Integration are directed to.

Several years ago the Navy adopted a significantly different approach to managing all of its installations on U.S. soil. The commander of Navy Installations Command operates an \$8 billion enterprise for the Nation. Now, you can imagine that when making changes in such a vast enterprise, its leaders want to explore innovative options; but they need to carefully evaluate ideas to find the best ones. They also need to test out an idea as a pilot project, and that's exactly what happened here.

The Concurrent Technologies Corporation is a nonprofit. In fact, they just had a competitive bid which they won a few months ago. They do great work for the United States Navy. The Navy often matches the money that Congress puts up because the work is of such high quality. And this company is located in Bremerton, Washington, one of its branch offices. They do great work for Navy Region Northwest.

I don't have anything named after me. My family has no interest in this in any way, shape, or form. This is a good, solid program; and this company this year has no one representing it. It doesn't have a lobbying firm. Well, the gentleman wants to make various insinuations, but I still funded it because it was quality work. It was work that was meritorious. And Congress has the right to do this.

Congress also has the right to review national programs. National programs should be considered by Congress. We can either increase the funding for them or decrease the funding for them. We have the right to do that. Congress has the power of the purse, and we can't give it away because it's in the Constitution. And this is an important issue.

Now, all I can tell my colleagues here is that this is a good operation in Bremerton. They're doing fine work for the United States Navy, and I urge a "no" vote.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the yeas appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART B AMENDMENT NO. 258 OFFERED BY MR. FLAKE

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk designated as No. 258 in part B.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 258 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in this Act shall be available for Reduced Manning Situational Awareness.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Mr. Chairman, before I get to the substance of the amendment, if people out there want to know why members of the Appropriations Committee, and particularly the Defense Subcommittee, are loathe to talk about these earmarks and to talk about this process and why the markup in the full committee took a full 18 minutes, this might explain it.

If you look here to the left of this chart, 33 percent of the dollar value of the earmarks in the Defense Appropriations bill go to just under 4 percent of the Members of this body. One-twenty-fifth of the Members in this body take home 33 percent of the earmarked dollars in this appropriations bill. So I don't blame them for wanting to get through this quickly, for having an 18-minute markup where nobody really talks about anything; you just shove it on through and it's a unanimous vote. If you want to know why, here it is.

But this Congress, the rest of the body, the rank-and-file Members who aren't on that committee ought to be concerned, particularly when over and over again there are press stories that are unflattering about what happens when earmarks go in this fashion. The Washington Post's top story above the fold today is another one, talking about how Members are loathe to get rid of these pork projects in the bill or these earmarks.

So I would submit that if anybody out there is wondering why this process goes so quickly and Members are so disinclined to debate, why not? If you can do it, do it. If 4 percent of the Members in this body can take home 24 percent of the earmarks, that's a pretty good gig. But the rest of us ought to be concerned, and I think the country is concerned, certainly the press is reporting that there is an issue there.

This amendment would remove \$5 million for funding for the Reduced Manning Situational Awareness program. According to the sponsor of this program, it's a command and control system with smart sensors, 3-D visual-

ization, video analytics, and bandwidth management.

I'm not here to argue the merits of the program. I frankly don't have much knowledge in that area. But what we see here again is an earmark going to a private company. Sometimes Members will say, I'm just working for my district; I'm just getting earmarks for economic development in my district. In this case the company is not even located in the sponsor's district.

Mr. Chairman, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Chairman, I rise to claim time in opposition to the amendment.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. YOUNG of Florida. Mr. Chairman, I am not going to talk about the amendment because the gentleman has conceded that the program it would fund is essential to force protection, and that is the case.

But I think the point that I want to make is there has been a lot of misleading information suggested here, not necessarily intentionally and I don't think with any attempt to besmirch anyone's character. We have heard on the cap-and-trade bill "read the bill." We have heard on the health bill, if we ever see one, "read the bill." And I agree with all of that. We ought to be reading the bills.

I don't think my friend from Arizona has read this bill, and it is not nearly as big as the cap-and-trade bill was or the health bill will be. But had he read the bill, he would have found on page 113, section 8115(a) that it says: "Those which are considered congressional earmarks for purposes of rule XXI of the House of Representatives, when awarded to a for-profit entity, shall be awarded under full and open competition."

Mr. Chairman, I yield back the balance of my time.

Mr. FLAKE. Mr. Chairman, I'm glad the gentleman brought up this phrase in the bill that it should be opened to full competition. The reason for the earmark is to get around competition. We all know that. Now we can have language in the bill that requires that. But I had a meeting with some Defense Department procurement officials and the Comptroller General a while ago, and I asked the Defense Department officials, What is your process with these earmarks? And they said, We subject them to full competition, basically except when we don't. So I asked them, Can you do a random sample of earmarks in the 2009 or 2008 Defense bill and come back to me and let me know how many went to the intended recipient for the earmark?

Mr. DICKS. Will the gentleman yield?

Mr. FLAKE. I yield.

Mr. DICKS. The gentleman obviously hasn't read the bill because it's in the bill that you have to compete these projects if it is done by a for-profit

company. Congress has passed a law saying you have to compete these. So the gentleman is wrong in so many ways, but on this one you are really wrong.

Mr. FLAKE. I thank the gentleman for trying to clarify that. But I would submit that that is the process that the Defense Department says that they follow now. So they will take this language and say that's what we do already, except when we don't. And when they don't subject it to full competition, they simply issue what's called a J&A. And the J&A is the justification for why that earmark was not subject to competition.

I have asked for months and months and months, and I'm still waiting for some of those J&As. But we know with uncanny precision these earmarks end up with the intended recipient and simply putting in language in here, which my guess is will be taken out in the Senate anyway, though it doesn't mean much in the first place, it will not likely survive the Senate; but if it does, the Defense Department will say we do that anyway.

If it's subject to full competition, the gentleman mentioned with Concurrent Technologies that they had won in open competition for another pot of money. Well, great. If they're so good, why do we have to earmark money for them? Why don't we say compete on your own like everybody else? That is the purpose of these earmarks, to get around competition. That is the purpose of it. So to say, well, we inserted language in it and that will solve it all, it simply doesn't because the Defense Department knows who butters their bread. They know that they need to follow with uncanny precision the intended recipient.

The Acting CHAIR. The time of the gentleman has expired.

The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART B AMENDMENT NO. 315 OFFERED BY MR. FLAKE

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 315 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in this Act shall be available for Body Armor Improved Ballistic Protection, Research and Development.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Mr. Chairman, let me just finish the thought I had before.

President Bush a couple of years ago said that earmarks that end up in the report language and not in the bill itself, like these earmarks, that he would instruct the Federal agencies to ignore them and to simply openly compete contracts out there. This Appropriations Committee inserted language after the President did that and said that the President or the Federal agencies should have to follow the language in the report even though it wasn't legislative language.

So if we're all keen on competition here, why in the world, until the public started to focus on it, did we instruct the Federal agencies and say you have to take the language that's in the report as if it were law?

Anyway, let's get to this amendment. This amendment would remove \$2.2 million in funding for KDH Defense, for a Body Armor Improved Ballistic Protection.

I have not come here to debate the merits of the earmark. Again, I'm not an expert in improved ballistic protection defense. But I should say again I think people in our military are and the Pentagon is and that they should probably make this decision rather than a single Member of Congress.

As reported by Roll Call earlier this week, KDH Defense has received millions in earmarks to produce an underwater swimmer detection sonar system for the Navy to be used to protect its docks and ships. KDH's expertise lies in sewing bulletproof vests, but reportedly this earmark project was the first product to be delivered by KDH Electronic Systems, a startup company affiliated with KDH.

After several years and a series of botched agreements with subcontractors, KDH has yet to deliver this product. Based on the statements made by the president of KDH, it doesn't appear as though they ever will. And yet we are here today again ready to provide KDH with millions more in taxpayer dollars.

I would ask why are we doing this when we already have information that some of the individuals or companies that will be associated with this earmark haven't exactly done well in the past, haven't produced what they said they would, in some cases have little expertise in the area that they say they do in order to get the earmark?

Mr. Chairman, I reserve the balance of my time.

□ 1130

Mr. MURTHA. Mr. Chairman, I rise in opposition.

The Acting CHAIR. The gentleman from Pennsylvania is recognized for 5 minutes.

Mr. MURTHA. I reserve my time.

Mr. FLAKE. Mr. Chairman, again, here we have the same pattern of circular fund-raising. Again, I am not alleging any illegal activity here. This is legal. It is unfortunate, but it is legal for Members to sign a certification that they have no financial interest in the earmark. But our same Ethics Committee issues guidance to the Members saying campaign contributions do not necessarily reflect or constitute financial interest.

That, I would submit, Mr. Chairman, is the wrong approach, and we are going to continue to see story after story where earmark recipients simply don't have the capability or the inclination to deliver on the product that they said they would deliver on, and yet they still continue, even in this environment with investigations swirling around all over, to receive these same earmarks.

By now, my colleagues are familiar with the PMA scandal that has plagued this body for months. There is an investigation, at least they are looking into it, we are told, by our own Ethics Committee here.

I am unconvinced that the PMA scandal will be the last scandal we see in this body. I am convinced that there will be earmarks that we approve today that later investigation will determine were not aboveboard, that these companies receiving these earmarks simply weren't delivering, because we have seen that again and again and again, and yet we go through this same process as if nothing were amiss.

I reserve the balance of my time.

Mr. MURTHA. I reserve my time.

Mr. FLAKE. Mr. Chairman, an editorial in The New York Times, entitled "Political Animal 101," referred to the "relationship between campaign dollars and the customized appropriations they are fed by grateful lawmakers" as "the ultimate in symbiotic survival and cynical influence trading."

That is The New York Times. There have been editorials in the Washington Post. They have been in Roll Call and The Hill and just about everywhere. The mainstream media has done a great job investigating this and showing that this process leaves a lot to be desired.

Again, it doesn't have to be illegal to be something that Members of this body should stand up and say, you know, our House should have a higher standard here. We ought to have a higher standard than whether we can survive an investigation going on by the Justice Department right now, that we ought to leave some confidence with the public that we are doing things right here. And I would submit when you have more than 1,000 earmarks, more than 500 of which represent no-bid contracts to private companies like this one, then we have got a problem.

I urge support of the amendment.

The Acting CHAIR. The gentleman's time has expired.

Mr. MURTHA. Let me read again to the gentleman from Arizona. "With respect to the list of specific programs, projects and activities contained in the tables entitled Explanation of Project Level Adjustment in the report of the Committee on Appropriations of the House of Representatives, those which are considered Congressional earmarks for purpose of rule XXI of the House of Representatives, when awarded for a profit entity, shall be awarded under full and open competition."

Now, let me tell you, you talk about old awards. KDH was awarded on 14 July 2009, a competitive \$39.4 million contract for 65,000 vests for the Army and Air Force. They must be doing a good job or they wouldn't have been made that award.

I went to Iraq. They were short—would the gentleman, I know the staff has a lot of information for him, but I would like him to listen to what I am saying.

I went to Iraq and I found with the First Division a 44,000 shortage of armor. The biggest complaint I get from the troops in the field—I don't know how often you visit the field, Mr. FLAKE. I don't know how often you come to the people that do this work.

When I go in the factories, their sons and daughters are working in this place. They love the work that they do. They know they are doing work that is under very specific guidelines set by the government.

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR. The Chair would remind Members to address their remarks in debate to the Chair.

Mr. MURTHA. You are absolutely right. I am sorry, Mr. Chairman.

Mr. Chairman, I want you to know that when I go to visit these plants and I see these people working, whose sons and daughters are fighting, they know how important these vests are. They know how important the work that they do is for the Defense Department.

I remember 20 years ago when I brought defense companies into my district and I had 24 percent unemployment. We didn't have the specifications. We didn't have any small business that could do the work. We didn't get any awards. Once we learned the ISOs, once we were able to perfect it, once we were able to compete—the people of my district are hardworking—we got the unemployment down to below the national level and diversified the economy.

All I can do is bring people in. I can't direct them where to do the business of the Defense Department. They do it on their own. They are the ones that award the contracts. I visit those plants and I see those hardworking people. I see what they do for this great country. Not only the troops serving in Iraq and Afghanistan, but the public who work in these defense organizations do everything they can to help this great country.

We put money into the budget. We have an obligation to take care of our

district. We have an obligation to take care of this great country. And the people working in my district work hard.

I visit these plants and these bases all the time. I visit the troops and I ask them, What are your biggest problems? The biggest problem is employment, Mr. Chairman. The biggest problem is the fact that the vests are too heavy for Afghanistan. They are working on trying to get vests that aren't so heavy.

I just went out to the hospital the other day. I don't know how often Mr. FLAKE goes to the hospital. I am sure he goes quite often. Every week he probably goes to the hospital. But I will tell you this. I go to the hospital.

I saw a young fellow who was wounded two years ago. His organs were outside of his body for 10 days. He had a bag for about 6 months. He got rid of the bag. They did another operation.

This goes on continuously. Nobody has done more work for the medical profession, putting earmarks in for breast cancer, ovarian cancer, all of those things, because we feel so strongly about it.

We want a great defense in this country, and the people working in the defense industry do a great job. We don't appropriate this money for anybody except the people that do the work, and if they do the work, they are awarded the contracts. And they are competitive contracts, and it is very clear in our bill, and it doesn't come out of the bill. It has been in title X of the bill ever since I can remember. They have to be competitive if they are pro-profit.

With that, I yield back the balance of my time and ask for a "no" vote on the amendment.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The amendment was rejected.

PART B AMENDMENT NO. 389 OFFERED BY FLAKE

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk designated as No. 389 in part B.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 389 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. __. None of the funds provided in this Act shall be available for Gulf Range Mobile Instrumentation Capability.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Mr. Chairman, I want to respond a little to what the chairman of the Defense Subcommittee said.

He mentioned some of the horrible things that are happening in Iraq and Afghanistan. I have attended funerals

myself of members who were killed by an IED or some other measure out there that they need greater protection from. But that is not what we are talking about here.

The reason we are here and the reason I offered the last amendment is it is going to a firm that, according to press reports, doesn't have the expertise to do what they intend to do and in the past have not delivered on the promises that were made before.

We see stories again and again and again on that same theme, that earmarks go to such companies. In fact, there is a trial going on, I believe, right now in Florida where an earmark recipient has pled guilty, I believe, to distributing earmark money to contractors who had no intention of following through and delivering on the contract. That is why we are here.

So we can talk all we want about the needs of our troops in the field, and that is why I am offering these, because this money should be going to our troops in the field. Instead, it is being bled off, in some cases, according to press reports, to companies who don't know enough about what they are doing to receive the earmark. But they are getting an earmark and getting around competition despite the language in this year's bill which claims that these will be subject to free and open competition.

This particular amendment, Mr. Chairman, would remove \$3 million from funding for a Gulf Range Mobile Instrumentation Capability project. Again, I am here not knowing the specifics of the technology here, but I would submit that there are people in the Defense Department that perhaps might know better than some Members. And in this case, I would think that the chairman of the Defense Subcommittee would concede that we shouldn't be giving money to companies that have been implicated, at least it has been alleged, that they are under investigation.

The Wall Street Journal reviewed real estate records and reported that many of the facilities that ProLogic, the recipient of this earmark, uses are partly owned by the family of the CEO, and ProLogic pays the CEO monthly rent that is higher than prevailing local rates. ProLogic was also subpoenaed in a broader Federal investigation into earmarks going to West Virginia, where ProLogic is headquartered.

The Wall Street Journal also noted that four of ProLogic's six facilities were located in the congressional districts of senior members of the House Appropriations Committee. CBS News reported that ProLogic has spent more than \$880,000 lobbying and contributed more than \$400,000 to congressional campaigns.

I should note this company has denied allegations of wrongdoing and the status of the investigation is currently unknown.

But here we have a company that press reports say is either under investigation or cooperating with an investigation, and we are still giving it an earmark, a no-bid contract. Despite what is said about this will be open to free and open competition, we are giving them an earmark and saying this company at this address should get this money.

I just don't see where this connects with the speech about the needs of our men and women in the military. Again, I will stipulate, we need to make sure that our men and women are armed, that they have force protection, that they have the arms and everything else they need. And that is why I am so against this process that we have here, because we bleed off money that should be going to our military into companies, through no-bid contracts, who in too many cases simply aren't doing the work that they were contracted to do.

With that, I reserve the balance of my time.

Mr. YOUNG of Florida. Mr. Chairman, I will claim the time in opposition.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. YOUNG of Florida. I don't know about the company and the concerns that Mr. FLAKE has about the company. I don't even know the company, but I know the issue and I know the needs for the Eglin Range. The Air Force and the Navy use the eastern part of the Gulf of Mexico for just tremendous amounts of training.

Members will recall that during the debates over oil drilling and drilling for natural gas and doing other kinds of commercial activities in the eastern Gulf of Mexico, we always protected the Gulf of Mexico east of the military mission line because it was so critical to training for our national defense, to train those pilots and those people who are on seaborne missions, to train them so, if they do have to go into harm's way, they will have the proper training.

This is for range sensors to help with the training of those military training programs of the Air Force and Navy. If you recall, the debate was very, very aggressive on that issue, and the Congress on numerous occasions agreed that we had to protect the eastern Gulf of Mexico so that we were free to use those areas for training.

Now, I am not going to vote for this amendment. The interesting thing here is, I think, if Mr. FLAKE were a member of the Armed Services Committee or the Appropriations Committee, he would have a better knowledge of how that works. He may never have even heard of what we call unfunded requirements. He may never have heard of witnesses coming to testify before these committees on the issue of the request by the administration for appropriations and then giving you and giving the members of the committees a list of unfunded requirements, things that they need that were not included by OMB in the budget request.

The Members that have been here for a while might remember that when I first became chairman of this subcommittee, I identified every unfunded requirement that I could and I put it on a scroll and we rolled it across the front of this Chamber so people, Members, could see what the military said they needed but didn't have in the budget request.

I will give you one example. In talking about bombers at a particular hearing some years ago, an Air Force officer said to me, You know, these bombers are really important, but you guys aren't paying attention to something else really important.

I said, Tell us about it. What are you talking about?

□ 1145

He said, do you know that the tugs that we use to pull the bombers out of the hangars to take them out to the runway, we don't have enough? And so, if we have a large mission, we have bombers and aircraft waiting in line to get a tug to pull them out. Well, that's an unfunded requirement, and the committee tries to take care of those unfunded requirements. The Defense Department, under the language that I read earlier, must compete, no matter what the bill says, no matter what the report says about where the committee thinks that the work ought to go, the Defense Department has to compete it.

Now, I don't know how much more transparency we can give to Mr. FLAKE if the projects are competed. But I agree with him. If someone, some company is not doing the job properly, then they ought to be investigated, and they ought to be taken off the list of contractors. In fact, in my own district I had a request for an earmark in this year's bill, and the Inspector General decided to pay that company a visit to see about something. I'm not even sure what it was about because they keep these investigations pretty secret.

But I pulled the request for that earmark until we work it out, until we find out what happened here, what went wrong, what are they investigating. And I think we ought to do that. And I don't think we ought to be providing contracts to anyone who hasn't treated the public trust properly. So Mr. FLAKE and I aren't totally in disagreement, but we're in disagreement on this amendment because that Eastern Gulf of Mexico range that is so important to training Air Force and Navy pilots especially, and seaborne vehicles, is very, very important, and those sensors are part of that training.

I yield back my time.

Mr. FLAKE. I would disagree with the gentleman. I think we're in total agreement on this amendment. CBS News reported ProLogics businesses are getting a lot of attention, a lot of it from the FBI, which is investigating whether it diverted public money for its own private profit. This company is reported to be under investigation. And so should we be giving it an earmark?

The gentleman mentioned that he doesn't know the company. But this we do know; that this company, it's reported by CBS and by others, that it is under investigation, and we're giving an earmark. So when the gentleman says that he thinks that we are in agreement that we shouldn't give earmarks to companies that it's alleged that there's some impropriety going on, I would submit that that's what we have here, according to the press. And unless we know completely that they're clean and doing good work, then we shouldn't give them an earmark. We should instead say to the Department of Defense: you decide. The gentleman mentioned that he doesn't know the company. Does he know if this company is the only company that can provide these services outlined?

Mr. MILLER of Florida. Mr. Chair, I rise in opposition to the amendment.

I stand in vigorous support of my request for a Gulf Range Mobile Instrumentation Capability. This capability will convey enormous long-term benefits and provide weapons systems in a cost effective manner on time.

DISTRICT INTRODUCTION

For those of you that don't know, I represent the First District of Florida, which is home to Eglin Air Force Base, Air Force Special Operations Command, Naval Air Stations Pensacola and Whiting Field, Corry Station, which hosts the Center for Information Dominance and is the proud future home of the Joint Strike Fighter.

ARGUMENT/JUSTIFICATION

The project fulfills a critical need. Specifically at Eglin Air Force Base, the 46th Range Group has a need for a capability for remote test, collection, storage and relay of various types of data. This capability can be accomplished with a Gulf Range Mobile Instrumentation Capability. This capability is needed to support test events which occur over large geographic areas on both land and sea. Examples of this testing includes Live, Virtual, Constructive test events, large footprint weapons testing, Directed Energy testing, and hypersonic testing.

This capability does not exist because there is a shortfall across this nation in both adequate range space and instrumentation to realistically test today's long-range stand-off weapons. This problem is expanding with the enhanced performance of weapons in development. The Eglin range remains one of the only locations to test these weapons over its enormous land and water area. The instrumentation shortfalls can and should be addressed today. This project would develop mobile data acquisition capabilities to address the need for cost efficient operations involving remote areas with multiple ranges across the nation. As a simple example, extending a datalink, much like a wireless network, over 150 nautical miles into the Gulf would greatly support test operations. Test professionals need this capability and it will help ensure that our defense test and evaluation capabilities field cost-effective systems.

Developmental test and evaluation brings new capabilities to the battlefield and saves lives. I have had the opportunity to watch some of the magnificent testing conducted on the Eglin range. The 46th Test Wing completed testing last year on the small diameter

bomb and it is now being employed for F-15E Strike Eagles in Afghanistan because it offers unique low-collateral damage capability. This testing could be expedited and improved with the instrumentation capability we are discussing now. Future weapons testing includes Tomahawk, Joint Direct Attack Munition, Non-Line of Sight-Launch System, and continued testing of the Small Diameter Bomb. These programs will all benefit from increased safety, shorter tests, and a better product. In the end, this will convey benefits to Military activities across the nation, as we eventually link geographically separate ranges.

The T&E infrastructure, whether administered by a military service or by a Defense Department entity, continues to be a target for budget cuts year after year. In a recent letter I sent to the Secretary of Defense, and the Undersecretary of Defense for Acquisition, Technology, and Logistics, I questioned why the 2010 funding for Test and Evaluation is \$57.9 million below last year's level and noted that such a lack of funding could negatively impact numerous critical Department of Defense programs.

Five senators, including Senator MARTINEZ and Senator NELSON, recently sent a letter to Chairman INOUE and Senator COCHRAN identifying two Test and Evaluation budget shortfalls in the FY2010 Budget. In fact, Congress created the Director of Test Resource Management in 2003 and in conjunction with the Director of Operational Test and Evaluation, the DTRMC is supposed to be afforded the opportunity to certify each military service's budget every year before it is submitted to Congress. Due to the new Administration and different budget submission timelines, the DTRMC was not able to certify the services' budgets for the Fiscal Year 2010 submission. In the wake of acquisition reform, the Administration must fund areas that contribute to long-term cost savings.

I am looking forward to seeing the contributions of the Gulf Range Mobile Instrumentation Capability to future weapon systems. This capability is a critical need because a shortage exists across the nation of adequate instrumentation systems. However, investments in test and evaluation infrastructure provide magnified benefits because they affect so many weapon systems. The right test resources provide weapon systems on time, in a cost-effective manner.

Mr. FLAKE. I yield back.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART B AMENDMENT NO. 432 OFFERED BY MR. FLAKE

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk designated as No. 432 in part B.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 432 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in this Act shall be available for an Ultra Low Profile EARS Gunshot Localization System.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Just in reference to the last amendment, let me finish my thought there. Here we have, and the ranking minority member on the subcommittee concedes that we shouldn't be giving an earmark to a company if there's allegations out there that they're not doing the job that they're supposed to do, or that there's some cloud hanging over, I would assume. And yet that's what this earmark is for.

And so I seem to hear that, yeah, that we shouldn't do that and that my amendment would be agreed to. But all I heard were noes when my amendment was offered. So I would hope that when it comes time to vote, that Members will say, you know, regardless of everything else, perhaps if it's reported that a company is under investigation, perhaps we shouldn't be giving it an earmark until that's cleared up. And so I would hope that that's remembered when it comes time to vote later this day.

This amendment would strike \$1.5 million from the Ultra Low Profile EARS Gunshot Localization System. According to the sponsor's Web site, funding for this localization will produce a completely covert detection system which will enhance situational awareness and survivability of our military.

Mr. Chairman, this sounds like a worthwhile project. Even though the military did not request it, it may be something that we will ultimately benefit from. But why are we earmarking funds again here for a private, for-profit company that will not have to compete, regardless of the language that's in the House bill—that will likely not survive the Senate anyway, but which complies with regulations that the Defense Department says they already have about competition?

According to the sponsor's Web site, Planning Systems, Incorporated, will be the recipient of these funds. What's not included is justification for use of taxpayer dollars to an entity that the receiving entity of these funds was a client of now-defunct PMA Group. We're all familiar, all too familiar with the PMA Group. The PMA Group, and the companies it represented, donated more than \$270,000 to the sponsor of this earmark in the 2008 cycle alone. Collectively, employees of the PMA Group and its clients have contributed

nearly \$1 million to the sponsor since 1998.

According to the Center for Responsive Politics, this earmark sponsor was the third-highest recipient of contributions from PMA since 1998. And that's not all. The recipient of this earmark, Planning Systems, Incorporated, has contributed more than \$35,000 to the campaign of the sponsor of this earmark, again, according to the Center for Responsive Politics.

Again, there is nothing in our House rules that prohibit this. I'm not alleging that there are. But I'm saying that we have to stop this process of circular fund-raising. It just looks too bad outside of this body when we have a process where Members of Congress will earmark spending to an earmark recipient, and that earmark recipient, through its employees, through a PAC, through its lobbyists or through its executives, will contribute very handsomely back to the Member of Congress' campaign committee.

There is no other way to look at this outside of this body, I would say, than to say we shouldn't be doing that, particularly in a process where we're told that there are more than 1,000 earmarks in the bill, just days before the bill comes to the floor, and we know that 552 of those earmarks are no-bid contracts to private companies like this one.

I reserve the balance of my time.

Mr. MORAN of Virginia. Mr. Chairman, I rise in opposition to the amendment.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. MORAN of Virginia. I rise in opposition to the amendment. I thank the gentleman from Arizona for his conscientious scrutiny, particularly of the appropriations process. I trust perhaps some day he will look at the tax process, the Tax Code, which many of your colleagues are very much aware, has far more earmarks of greater amount. But in deference to the gentleman's concern, again, I would underscore the fact that in this appropriations bill, we make clear, in legislation, that when there is an earmark awarded to a for-profit entity, it shall be awarded under full and open competition.

Now, that's legislative language. It's not intent or report language. It's the law. I appreciate the fact that the gentleman has raised this earmark because otherwise no attention would be given to it since it represents about $\frac{1}{1000}$ of 1 percent of the entire bill, a very small amount, \$1.5 million.

Normally it would go without notice. But fortunately, the gentleman has raised it, so it gives me an opportunity to explain what it does. And it is quite true that Mr. Alan Friedman's firm, who is a terrific person, CEO, and scientist, was represented by PMA, which, in fact, is located in my Congressional district. And I'm proud to have their support, frankly, because they too were conscientious in making sure that

their earmarks were fully investigated, vetted, and competitively bid. And, in fact, for the last three straight years, this system was competitively bid and won.

What this system is is called the SWAT system. It is very strongly supported by our military because it saves lives. What it does is to enable people, special operations primarily, and intelligence assets, that are in denied territory, and I don't need to go into detail any further than that, to find out exactly where gunshots are coming from, how far away, and how many snipers there are. And it's worked exceptionally well.

What Mr. Friedman does with this small amount of money is to address one problem with this system, which is that it's bulky. It's very visible. It has radars, and so it's too easily detected by the enemy so, to some extent, our people can be an easier target as a result. What this does is to make this system virtually invisible. And for \$1.5 million it's going to save hundreds of lives in our expectation; that's why we are more than confident that when it is competitively bid, which is required by this legislation, it will win this bid.

If the gentleman was actually to look at this system, he, even, would vote to include the money in this bill to ensure this system is available for our military in some of the roughest, most dangerous terrain, so as to save their lives.

I reserve the balance of my time, Mr. Chairman.

Mr. FLAKE. I would simply ask, and maybe when he has his time back, to explain why, if it was open to competition in the last 3 years, why we had to earmark it this year.

The gentleman made the point that's been made again, that these have to be subject to fair and open competition. Let me say again, the Defense Department has said that all along. For years they've said the same thing. We subject these earmarks to full and open competition, but that doesn't stop Members of Congress. As soon as this bill is passed today, there will be a flurry of press releases, I guarantee it, where Members will say, I was successful in securing funding for this particular program. And if it's open to competition, how do you know that you've secured funding?

Let me just read from a couple of the press releases in the past:

I was pleased to secure funding to assist these small businesses in Prince George's County working on projects that will benefit our Nation's military and the safety of our troops.

That was somebody who knows the process pretty well. It's the majority leader. He put out a press release as soon as legislation was passed, not waiting for the competition that supposedly comes when the project gets to the Defense Department. And like I said, tomorrow you'll see a round of those same press releases: I was able to secure funds, because Members know, with uncanny precision, the Defense

Department will follow these earmarks.

I would say, again, with this particular earmark it sounds like a great program. The sponsor of the earmark indicated that this was open to competition in the last couple of years. That's great. Why do we have to earmark it this year?

I yield back the balance of my time.

□ 1200

Mr. MORAN of Virginia. May I inquire how much time I have, Mr. Chairman.

The Acting CHAIR. The gentleman has 2½ minutes.

Mr. MORAN of Virginia. Mr. Chairman, again, in case it wasn't fully understood—this may resolve the gentleman's concern.

In the legislation, it says, again, that all earmarks, when awarded to a for-profit entity, shall be awarded under full and open competition.

I can't stress that enough.

Now, to address the gentleman's concern, first of all, I've never made a press announcement about this. In fact, truth be known, I haven't talked to Mr. Friedman for probably a year, and I certainly didn't even let him know that this earmark was in. It was in because we checked with military personnel, vetted it, and found that this was a system that was a substantial improvement over what the military is currently using, which is called the SMART System. This is the EARS System. These are acronyms. This, as I explained, will be a much safer, less visible system that will protect lives.

Now, Mr. Friedman is no longer represented by PMA, and I haven't had contact with him. The fact is, at least in quite some time, this has been in here because of the merits of the project. It's only \$1.5 million, but it is highly meritorious. That's why it is in.

I grant you I know about it because it takes place, the work is done, in my congressional district. It also represents jobs, but they're not simply jobs for the sake of keeping people employed; they're jobs to protect our military and civilian personnel in the most dangerous terrain and in the most dangerous places on the planet. That's what this does for \$1.5 million.

Now, again, I have enormous respect for the people in the Pentagon, but they don't always move with blazing speed when they are making a change from one system to another. Oftentimes, you go with the status quo. Even though there are deficiencies, it is the easiest thing. What this does and the reason we put many of these earmarks in is that it adds a new level of technology to do a better job of accomplishing its underlying purpose.

With that, I again thank the gentleman for raising this issue.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART B AMENDMENT NO. 439 OFFERED BY MR. FLAKE

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR (Mr. HOLDEN). The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 439 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in this Act shall be available for AARGM Counter Air Defense Future Capabilities.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Mr. Chairman, this amendment would prohibit \$2.5 million from being directed to Alliant Tech Systems, or ATK, for AARGM Counter Air Defense Future Capabilities.

According to ATK's Web site, AARGM is a supersonic, medium-range, air-launched tactical missile used by the U.S. and by allied forces. The sponsor's Web site and certification letter state that the funds directed to this project in the bill would enable ATK to continue to demonstrate improvements to AARGM, particularly at longer ranges.

Now, here again, I am not going to argue the merits of the problem; neither are most of us here. It's possible that ATK's missile system is the best one out there, but we don't know that. I would suggest that nobody in this body knows that, not even the sponsor of the earmark.

We don't know that because there is no way the Appropriations Committee thoroughly vetted each of the 1,102 earmarked projects in this bill during its 18-minute markup. We don't know that because Members of Congress, in general, don't have the kind of expertise required to make that determination.

In cases like these, when we're determining the kind of missiles that best work for our Armed Forces, it seems to me that the decision is best made by experts at the Department of Defense. Once that determination is made, just like with any other procurement, the contract to make these missiles ought to be competitively bid through the DOD.

But as is the case with nearly 550 of these earmarks, we have a handpicked private company being handed Federal funds for a project based solely on the discretion of one Member of Congress. This is a no-bid contract. This alone

should be troubling enough, but there is an additional facet.

I mentioned the problem with circular fundraising that has been detailed by so many media organizations out there. It's getting tiring reading these stories every day. The Associated Press reported that an ongoing FBI investigation is "highlighting the close ties between special interest spending provisions, known as earmarks, and the raising of campaign cash."

As I mentioned, in every one of the individual earmarks that we're discussing today, there are examples of funding going to the earmark recipient, and then the executives from the company, their lobbyists and the PACs are contributing large amounts of campaign dollars back to the sponsors of the earmark. That simply doesn't look right. It may be legal. It is.

Our Ethics Committee has said that you can get campaign contributions in close proximity to earmarks; but Members of this body, I would think, would want to have a higher standard here. We ought to say, you know, maybe we don't know exactly the kind of missile systems that ought to be used. We ought to leave that to those with a little more expertise instead of giving a no-bid contract to a private company which happens to be in the district or doesn't but which is simply willing to provide a lot of campaign contributions.

So I would say, Mr. Chairman, we have to stop this process. We have to say we can no longer afford to award no-bid contracts to private companies, as we have done in the past, regardless of the language that is inserted which says that all of these have to be subject to competition.

We know how it works in the Defense Department because they say now, over the past several years, these have to be subject to competition. Yet, time and time again, when you look, there is an uncanny alignment between the earmark recipient designated by the sponsor of the earmark and the company that eventually gets the dollars.

I reserve the balance of my time.

Mr. MURTHA. Mr. Chairman, I rise in opposition.

The Acting CHAIR. The gentleman from Pennsylvania is recognized for 5 minutes.

Mr. MURTHA. I reserve my time.

Mr. FLAKE. Mr. Chairman, again, I would say we can no longer continue to give no-bid contracts to private companies. I would say, as I mentioned, that for those who say we have language now in the bill—and I would certainly yield time to the gentleman, to the chairman of the Subcommittee on Defense—I would hope that he would agree, if they really believe in this language and that if the Senate knocks the language out, that we will not agree to a conference report that has these no-bid contracts in it.

If that is the case, if we are so willing to believe that this language actually has any force—and I don't believe it

does because the Defense Department already says that they subject these earmarks to full competition—for those who are placing so much stock in this language, I would assume that they agree so strongly and that they will say these are going to be subject to competition. If the Senate strikes that language out, I would like to hear from those here that the House will also nullify those no-bid contracts, because we have designated who those recipients should be.

I yield back the balance of my time.

Mr. MURTHA. Let me read to the gentleman, Mr. Chairman:

"With respect to the list of specific programs, projects and activities contained in the tables entitled 'Explanation of Project Level Adjustments' in the Report of the Committee on Appropriations of the House of Representatives, those which are considered congressional earmarks for purposes of rule XXI of the House of Representatives, when awarded to a for-profit entity, shall be awarded under full and open competition."

This amendment would prohibit \$2.5 million for AARGM Counter Air Defense Future Capabilities. Now, I know that Members of Congress represent their districts. I know that Arizona gets \$9.7 billion in defense. I'm sure that this Member is not worried about the fact that some of this money may go someplace else. I know that's not his reason for this. It's \$9.7 billion. It's fifth in the number of defense industries throughout the country. Let me tell the Chair a story:

When I first took over the committee in 1989, I looked at one of the projects that the Navy was working on. They made consoles for all of the ships in the Navy, and they were paid \$850,000 for those consoles. We said, You've got to compete them. We had probably 25 to 30 hearings that year. We had 51 trips that we sent the troops on, which is the same as we had this year. We had 37 hearings this year, and we had hundreds and hundreds of meetings.

This one particular program was called the Q-70. We forced them to compete it, and it's a very interesting thing. The Navy went to the Air Force and said, Look, we want you to buy this particular program, and we'll buy it from you. This is so they wouldn't have to compete. Well, the staff found out about it; and in the end, that didn't work and they competed.

That particular console now costs \$125,000 per unit. We've saved over \$1 billion. They happen to make that in my district. Some people would say that was an earmark. We saved over \$1 billion in one contract. On another submarine torpedo contract, we saved over a half a billion dollars.

So small business is the backbone of industry in this country. All the growth has been in small business. These folks are working diligently. They pay taxes. They go home every day, and they know how important it is to do good work. They meet super-spec-

ifications from the military. They complain all the time that the specifications are too tough and that competition is too tough.

The first time that I brought defense companies to my district, I had 24 percent unemployment, and we couldn't get any business out of them because none of my companies knew how to do defense work. Now, in Arizona, they obviously know how to do defense work. They've got \$9.7 billion worth of business in Arizona. Pennsylvania is not even on the list for the amount of defense work. That's embarrassing with all of the troops that we send. We send more National Guard members to Iraq and Afghanistan than any other National Guard unit in the country. I've lost 19 people in my congressional district, so I feel very strongly about this.

Small business is the backbone. These people that I visit are working hard. They know how tough it is. They know that they meet the specifications, and they bid on these contracts, and they win these contracts, and I'm proud to represent them. With that, I ask for a "no" vote.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

PART B AMENDMENT NO. 449 OFFERED BY MR. FLAKE

Mr. FLAKE. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 449 offered by Mr. FLAKE:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in this Act shall be available for AN/SLQ-25D Integration.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Mr. Chairman, this amendment would prohibit \$8 million from being directed to Argon ST, which is a private systems engineering and development company headquartered in Fairfax, Virginia.

The sponsor's Web site and certification letters say that the funding

from this earmark would be used to upgrade current naval torpedo defense capabilities that would enhance ship survivability against the modern threat of a torpedo attack.

This isn't the first time that this company has received Federal funding for a project. This project, itself, received two earmarks, totaling \$8.7 million in 2007, and \$7.5 million was also allocated to such a system in 2006.

The FEC records indicate that, since 2006, employees of the earmark recipient, Argon ST, have donated more than \$47,000 in campaign contributions to the sponsor of the earmark. According to the Center for Responsive Politics, the Argonne PAC made \$23,000 in donations to the sponsor's campaign and to his leadership PAC in the 2008 election cycle.

□ 1215

According to the FEC, this represented more than a third of all donations of Argon's PAC made during the election cycle. In addition, during the 2008 cycle, Argon ST was reported to be the second highest contributor to the earmark sponsor's PAC. The funding for this earmark may very well be vital to national defense or it may not be. We just don't know here, I would suggest. But the earmarking system is so opaque that the purposes and justifications for more than 1,100 earmarks in this bill are a mystery to just about everyone.

Again, the committee took a whole 18 minutes to accept this bill on to the floor with a unanimous vote. Had this earmark been closely examined, it would have been revealed that this earmark recipient acquired Coherent Systems in 2007. Coherent Systems' former president and CEO now faces Federal charges for soliciting kickbacks from a defense contractor.

Argon ST is cooperating with Federal authorities in the investigation and is not facing any charges. But in the wake of the Abramoff scandal and the burgeoning PMA scandals, I would simply ask whether Congress should be providing no-bid contracts to private companies involved in Federal investigations. I would submit that it should not.

There is more than \$2.7 billion in earmark spending in this bill. We've had less than 2 weeks to go over 1,100 earmarks that comprise this spending. We simply can't continue to do this.

I know the Member will stand up and say these have to be competed out. And I will again ask the Member, and I will actually yield him the rest of my time, if he will stand and say that if the Senate removes this language that requires open competition, if then we will then remove these no-bid contracts.

And I will yield to the gentleman for that. He doesn't have to take my time. He can take his own.

Again, what I am asking is if the Senate removes the language that Members put, I think, too much stock

in because the Defense Department says they already subject these contracts to full and open competition, but if the Senate should remove that language, will the Members of this body remove the no-bid contracts, 552 of them, I believe, from the bill.

And I would yield for an answer.

I yield back my time.

Mr. MURTHA. Let me read again to the Chair.

"With respect to the list of specific programs, projects and activities contained in the tables entitled 'Explanation of Project Level Adjustments' in the Report of the Committee on Appropriations of the House of Representatives, those which are considered congressional earmarks for purposes of Rule XXI of the House of Representatives, when awarded to a for-profit entity, shall be awarded under full and open competition."

In this particular case, this company is doing very well. Reuters gave them a very high rating. But what we look at is the people that work in those places, the awarding of these contracts, the fact that the Defense Department has such high levels of specification that they insist on.

When you go to a defense company, they have all kinds of things that are added that are not true in most places, and small business is the best you can get at doing this kind of work.

During World War II, we produced 83,000 airplanes in 1 year during 1943, 30,000 tanks. There were some abuses, I'm sure. Today, we don't have that capacity. What we worry about, if we don't have small business doing this, it's going to go overseas, and if it goes overseas, we're going to lose those businesses, we'll lose the ability. We continually put "buy American" in our provisions, and it turns out that it still goes overseas. Much of the airplane parts are built overseas. Much of the parts—if we weren't careful, some of the body armor would be built overseas because some of the companies would be cheaper.

So we insist they be built in this country. We insist Americans do it. And those Americans are so proud of the work that they do, they have Americans flags there. They have pictures of the troops. They have letters from the troops about how proud of the work they are doing, and the government checks continually to make sure they're doing that kind of work, and they meet those specifications.

With that, I would ask for a "no" vote.

I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by

the gentleman from Arizona will be postponed.

PART B AMENDMENT NO. 553 OFFERED BY MR.

FLAKE

Mr. FLAKE. I have an amendment at the desk designated number 553 in part B.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part B amendment No. 553 offered by Mr. FLAKE:

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Mr. Chairman, let me note before I start this amendment, again I ask the chairman that if the Senate nullified the language requiring free and open competition, that the House would say, Okay, we will remove these no-bid contracts. I didn't hear an answer to that.

I would suggest that we know full well the Senate will remove that language. I think we put too much stock in the language anyway, but the Senate will surely remove it, because not to remove it might force some Senators to think they might not be able to secure funding for their earmark, and we know that's not going to happen.

So, if we were serious about this language, if we were serious about free and open competition, we wouldn't be earmarking in this fashion. Full stock.

Mr. Chairman, I would ask unanimous consent that this amendment be modified in the form I placed at the desk.

Mr. MURTHA. I object.

The Acting CHAIR. Objection is heard.

Mr. FLAKE. This amendment would prohibit nearly \$200 million for more than 70 earmarks for former clients of the PMA Group that would be funded in this bill.

We are now all familiar with the PMA scandal that I think is in the beginning stages and certainly not the end. PMA Group was a prominent lobbying firm that specialized in obtaining defense earmarks for its clients, whose offices were recently raided by the FBI, according to The Hill, as part of a Federal investigation into politically corrupt—potentially corrupt political contributions. The lobbying firm has ceased operations and shuttered its political action committee, but not before, according to The New York Times, leaving a detailed blueprint of how the political money churn works in Congress.

PMA is emblematic of the troubling circular fund-raising that's become entrenched in the current earmarking process. CQ Today noted that the firm has charged \$107 million in lobbying

fees from 2000 to 2008. Safe to say, the PMA Group was associated with showering Members of Congress with campaign cash.

According to the Center for Responsive Politics, since 1998, the firm and its clients have given \$40.3 million total to the candidate committees and leadership PACs of 514 lawmakers, nearly every Member of the current Congress. The Center also reported that members of the Defense Appropriations Subcommittee have collected nearly \$1 million in campaign cash since 1998 from PMA employees and the firm's PAC. If you include contributions from employees and PACs of the parent companies and subsidiaries of PMA clients, the total jumps to nearly \$8 million over the last decade.

In review of the 2008 PMA earmarks, the Sunlight Foundation noted that 40 organizations whose sole lobbyist was PMA had an average return on their lobbying fee investment of more than 2,700 percent. Clients of the firm received at least \$300 million worth of earmarks in fiscal year 2009 appropriations legislation, including several that were approved even after news that the FBI raided the firm's office and the justice investigation into the firm was well known. That was earlier this year.

The omnibus spending bill that we approved in January, had money for PMA clients in there just weeks after it was revealed that the PMA's offices had been raided, and we still didn't scrub them out. I would submit if we're not going to do it then, when would we do it?

I believe there are 70 earmarks in this bill for former clients of PMA. And we have had several privileged resolutions, of which I think at one count 29 members of the majority party, and nearly all members of the majority party, agreed that we should have the ethics committee look into the relationship between PMA and campaign dollars that have come to this Congress.

I reserve the balance of my time.

Mr. MURTHA. I rise in opposition.

The Acting CHAIR. The gentleman from Pennsylvania is recognized for 5 minutes.

Mr. MURTHA. I reserve my time.

Mr. FLAKE. May I inquire as to the time remaining?

The Acting CHAIR. The gentleman has 1 minute remaining.

Mr. FLAKE. I would yield the remainder of my time to the gentleman from Illinois (Mr. KIRK).

Mr. KIRK. I rise in support of this amendment. Coming from Illinois, we know the pace and timing of a Federal investigation. I think it's fairly clear that PMA and several principals will now be indicted.

To protect this House and to protect the Appropriations Committee, I think having a strategic pause in the spending of this money is necessary. It's clear that PMA and its key folks with so many Federal resources now dedicated to this investigation are going to face Federal criminal prosecution.

So to protect this House, this is a wise amendment to put forward to make sure that we can be beyond reproach. As someone who comes from Governor Blagojevich's State and already knows how Federal prosecutions and work goes forward, so many resources have been put forward on this case already that it is clear that an indictment is coming forward. And to protect this House, I think we should adopt the amendment.

Mr. MURTHA. I rise in opposition to the amendment. Let me read to the House again—the one Member keeps mentioning over and over again the same thing I'm going to mention.

“With respect to the list of specific programs, projects and activities contained in the tables entitled ‘Explanation of Project Level Adjustments’ in the Report of the Committee on Appropriations of the House of Representatives, those which are considered congressional earmarks for purposes of Rule XXI of the House of Representatives, when awarded to a for-profit entity, shall be awarded under full and open competition.”

As I mentioned, I hope that there is no Member that's trying to protect their own Defense money—\$9.7 billion in Arizona—that this is not the reason that there is opposition to these things.

But I don't say that under any circumstances. One thing I say is we put money in for projects. We don't put it in because of any one Representative.

Last year—this PMA is defunct, and this year, we've put the projects in that we thought were worthwhile, not because they're from a Representative, because they don't represent them any more. Those projects are in the budget because Members, themselves, thought they were good projects.

And with that, I ask a “no” on the amendment.

Mr. FRANKS of Arizona. Mr. Chair, my voting record has consistently demonstrated my support for a full investigation of The PMA Group, its lobbying activities, and the relationship between Member budget requests and campaign contributions by the House Committee on Standards of Official Conduct. I also publicly maintain that all budget requests that The PMA Group lobbied on behalf of should not be funded by the taxpayers. I intend to vote “aye” on this amendment.

Mr. MURTHA. I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

EN BLOC AMENDMENT OFFERED BY MR. FLAKE

Mr. FLAKE. Mr. Chairman, I offer an en bloc amendment made in order under the rule.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from Arizona (Mr. FLAKE) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. I thank the chairman.

As my colleagues are aware, I submitted 553 amendments to the Rules Committee, each seeking to strike an earmark that was listed by the sponsoring Member as going to a private for-profit earmark—553 amendments. Nearly half of these—I'm sorry. There are 1,102 earmarks representing \$2.7 billion. This is not chump change. This is a lot of money going out the door. I'm sorry. I said 553. 552 are listed as going to for-profit companies. If a dollar amount is attached to these earmarks, it's \$1.3 billion, comprising nearly half of the earmarked dollars in the bill. I simply do not believe, and I think the country agrees, that we should be doing no-bid contracts for private companies.

As much as the Members on the other side of the aisle, and this side aisle, as much of the members of the Appropriations Subcommittee will say that these are going to be competed out, we know that they won't be.

We had testimony from the Comptroller General's office in the Government Reform Committee. He said there is no automated database that provides insight into the extent of competition achieved on congressional earmarks. I have been trying for literally months to get some insight into this process. And we were told, as I mentioned, we were told we do compete these out, but then when I asked them to do a random sample of earmarks in a prior bill, they came back and confessed that with uncanny precision, these earmarks find their way to the intended recipients.

This process will not change because language has been submitted in this bill just saying they must now be competed. If the Members really believe that statement, then they would agree that if the Senate nullifies that language, that they would strike these no-bid contracts and say that the Defense Department should simply make them all open to competition.

□ 1230

But we know that they're not going to do that because the Members here know the Senate is not going to agree to that language. Even if they did, the Defense Department confesses here: There is no way to really track these,

but with uncanny precision, even though they've had a process that they claim subjects these earmarks to open competition, they aren't subjected to open competition. They know that unless they follow the guidelines in these conference reports that they may not get funding next year.

Mr. DICKS. Will the gentleman yield?

Mr. FLAKE. I yield to the gentleman from Washington.

Mr. DICKS. If, in fact, we do wind up competing these projects, which is the intent of our committee, wouldn't the gentleman say that that is a major step forward in correcting his concern, if they were, in fact, competed?

Mr. FLAKE. If they were, in fact, competed, we wouldn't need to earmark them. That's the point. An earmark is a way around competition. We've seen it in other appropriations bills, and it's no different here in defense. You earmark dollars because you want that company, either in your district or out, to be sure to receive that funding. That's why in the certification letters the Members say, This earmark is to go to this recipient at this address.

Mr. DICKS. Will the gentleman yield on that point?

Mr. FLAKE. I yield to the gentleman.

Mr. DICKS. Because, again, the gentleman may not understand the process. It is because that is the company that has made the request of the Member of Congress. The Member of Congress now realizes that it is going to be competed, that it isn't going to necessarily go to that company. I think that is a good reform. I supported it in the Appropriations Committee.

Also, by the way, for the gentleman's knowledge, all of these earmarks, every single earmark, was vetted with the Department of Defense before the committee staff and Members considered those amendments. They were looked at by the Department of Defense.

Mr. FLAKE. Reclaiming my time, I would submit that if it's going to be subjected to competition, there is no reason to name the recipient organization that's to get the earmark.

Mr. DICKS. They're the ones that made the request.

Mr. FLAKE. Excuse me. I have very limited time.

The Acting CHAIR. The gentleman from Arizona controls the time.

Mr. FLAKE. May I inquire as to the time remaining?

The Acting CHAIR. The gentleman from Arizona has 45 seconds remaining.

Mr. FLAKE. As I mentioned, I have very little time. I will say that if we believe in that language, then we would agree that if the Senate nullifies it, then we would take out these no-bid contracts. Would the gentleman agree to that?

Mr. DICKS. I think we ought to fight for that language in conference to do the very best we can to prevail and to keep that language.

Mr. FLAKE. I would submit that the gentleman knows full well that the Senate will not retain that language, that that bill will come back to the House without that language, and that we, unless we take a stand here—and we can with this amendment—and simply strike funding for those, if these companies are great—some of them are, I'm sure—then they'll win these contracts. If they're not, they won't. But the Member won't be earmarking and saying, This money needs to go to this company at this address. That is a no-bid contract. That's what the Member is seeking; and that, unfortunately, is what happens when it gets to the Defense Department.

I yield back the balance of my time.

Mr. YOUNG of Florida. Mr. Chairman, I claim the time in opposition.

The Acting CHAIR. The gentleman is recognized for 5 minutes.

Mr. YOUNG of Florida. Mr. Chairman, I know that the gentleman from Arizona, who is my friend, listened to the comments that I made when I read from the bill earlier and when others have read from the bill. But I don't think he heard. He listened, but he didn't hear. The intent of this legislation is that any money provided here will be competitively bid.

Now I've gone to the Senate in conference many, many times and have returned so frustrated many, many times. I don't know what the Senate will do on this language or anything else in this bill. But I know if I were a Senator and I was being accused on the floor today, I would be really offended by the fact that he is suggesting that the Senate doesn't want competition. I am not prepared to say that. I think the Senators believe in competition, just like the House.

Mr. FLAKE. Will the gentleman yield?

Mr. YOUNG of Florida. No, I won't. If I have the time, I might; but right now I don't have time.

As we participate in this debate, anyone listening might think that Congress is all a bunch of crooks and that American free enterprise is sneaking in the back door to make money and that the Congress and the Department of Defense are at odds all the time. Well, that's not true. Congress is full of good people. The Defense Department secures our Nation. But they don't have all of the knowledge, and they don't have all of the wisdom. Neither does the administration, neither does the Congress. That's why we work together. I think that's one reason that the drafters of the Constitution included article I, section 9 to say how appropriations should be handled. Now maybe you don't like the way the appropriations are handled. People can make that decision in the House every 2 years. Article I, section 9 says very simply, "No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law." Now what that means is, Congress appropriates the people's money. The Con-

stitution—read it thoroughly—does not say that Congress can only appropriate money requested by the administration. It does say that the administration can only spend money that has been appropriated by the Congress. Now if you don't like that, offer a constitutional amendment. Amend the Constitution. But somebody's got to be responsible, and the Constitution makes Congress responsible.

I said that the Pentagon is not the fountain of all knowledge. I will give you a couple of examples of where Congress has insisted, over objection on the part of the Pentagon, for certain types of appropriations. With the leadership of Jerry Lewis who was the chairman of the subcommittee at the time, this subcommittee and the Congress insisted that we buy, produce and deploy unmanned aerial vehicles. We call it the Predator; and next to the American soldier on the ground, al Qaeda fears that Predator more than any other weapon that we have. The Pentagon didn't want it. It was not in any budget request. Congress insisted, and it has become one of the most effective weapons that we have in the war against terror in Iraq and in Afghanistan.

Then on another side of it—not taking out the enemy but saving our own people—without any support from the administration, Congress created something we refer to as the Bone Marrow Transplant Program. It is a life-saving program that has saved the lives of thousands of people. The administration didn't like it. They just thought we were wasting our time trying to do it, but we did it anyway. They told us we would never develop probably, maybe 50,000 people willing to donate their bone marrow to save the life of another human being, but we prevailed. Today there are over 7 million people in the registry that we created with an earmark that are saving lives every day not only in America but in many countries around the world. We have relationships with 13 other countries where we exchange patients and exchange bone marrow over the oceans to save people's lives, to give them a chance for life. That was a congressional earmark.

The Acting CHAIR. All time has expired.

The question is on the amendment offered by the gentleman from Arizona (Mr. FLAKE).

The question was taken; and the Acting Chair announced that the yeas appeared to have it.

Mr. FLAKE. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from Arizona will be postponed.

It is now in order to consider amendments printed in part C of House Report 111-233.

PART C AMENDMENT NO. 1 OFFERED BY MR. CAMPBELL

Mr. CAMPBELL. Mr. Chairman, I have at the desk Campbell amendment No. 1.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part C amendment No. 1 offered by Mr. CAMPBELL:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in title II under the heading "Operation and Maintenance, Marine Corps" shall be available for the MGPTS Type III or Rapid Deployable Shelter project, and the amount otherwise provided under such heading is hereby reduced by \$3,000,000.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from California (Mr. CAMPBELL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. CAMPBELL. Mr. Chairman, this amendment would strike the \$3 million earmark for the Rapid Deployable Shelter project, which money would go to Johnson Outdoors Inc. Mr. Chairman, during the debate on the previous earmark, there's been a lot of discussion on all the previous earmarks about how the earmarks say that they are to be competitively bid. I guess the question that I would have is: If, in fact, the earmarks are to be competitively bid, why did the author/sponsor of this earmark send in his certification letter to the ranking member and the chairman of the Appropriations Committee to say, "The entity to receive funding for this project is Johnson Outdoors Inc., 625 Conklin Road, Binghamton, New York, 13903."

So I would ask the question of the sponsor: If these are to be competitively bid, how do you reconcile that with the statement that "the entity to receive funding for this project is"?

Mr. DICKS. Will the gentleman yield?

Mr. CAMPBELL. I yield to the gentleman from Washington.

Mr. DICKS. I think it's a very simple answer. It's the company that made the request. But that doesn't mean that when there is a competition that this funding is going to necessarily go to that company. But if you want the people to certify that they don't have a financial interest, you've got to put down the name of the company that made the request.

Mr. CAMPBELL. If I can reclaim my time, and I understand—the gentleman from Washington and I have discussed this. Frankly, some day I hope—maybe after this, which is the last appropriations bill—we can sit down and see if we can figure something out here. Because this says, "The entity to receive the funding for the project is." If that's not dispositive, I don't know what is.

Mr. DICKS. We might want to change that language to "will compete for the project."

Mr. CAMPBELL. Well, then, don't list the entity. If somebody requested the money, and the expectation is that they're going to get it, then where is the competitive bidding? Shouldn't we just simply say, Here is a project. Here is what it is. There is no name. There is no indication. Let whoever wants to bid for this thing compete for it, and require that there be a minimum of three bidders or the earmark doesn't go out. Because sometimes these things are written to a specific product that perhaps only one company makes.

I understand the gentleman from Washington's point on this, but I hope you understand mine. Mr. Chairman, this is a stain on this House. I don't want to be doing this. We've all got better things to do. There happens to be a recession going on. There are a lot of people out of work. There happens to be a big and legitimate debate about how health care should go forward in this country. We have a lot of things to do. But this has been a stain on this House, these earmarks, particularly the ones on private companies. I don't do any earmarks; and arguably, if I were king, I don't think we should do any in this House at all. I understand the legitimate argument for them, but I absolutely reject any thought or idea that earmarks that go to private entities like this, with a direction to a private entity, are anything but a stain in this House.

Mr. Chairman, there are former Members of this body in jail today because of earmarks to private entities. I wish I could say that there will never be any more, but I don't know that. But the way we won't have any more is if we stop this practice, and we don't do this sort of thing again in the future. This really is about this House and the integrity of this House and the view of the integrity of this House to the outside world, to our constituents, and to the people of the United States.

I would ask a couple of more questions. I am almost out of time. But did the company submit for defense procurement and was turned down, is that why you have this earmark? How did you determine the price, that \$3 million is the right price? And will you, as other Members have, commit that you have not received and will not accept campaign contributions from company executives, employees, shareholders or lobbyists on this entity? Other Members on this floor have made that commitment.

With that, Mr. Chairman, I will yield back the balance of my time.

Mr. HINCHEY. Mr. Chairman, I oppose the amendment.

The Acting CHAIR. The gentleman from New York is recognized for 5 minutes.

Mr. HINCHEY. Mr. Chairman, I just want to make it clear that we're dealing with a situation here which is critically important to military personnel both here in the United States and in many places around the world.

□ 1245

I'm sure that the sponsor of this amendment doesn't realize what it's like not to have a roof over your head, but if you're in the military and you're stationed out in places that are difficult and hazardous to deal with, it's important to have these tents.

The particular entity with which we are focusing attention on in this particular earmark to provide these tents is a company that has done so over and over again in the context of bidding—and bidding successfully—for it. The Army and Marine Corps, just as an example, currently have unmet needs for shelters, and those unmet needs are growing.

This year, the tent and shelter industry was informed by the Marine Corps—just by the Marine Corps—of a need of 9,000 tents. Unfortunately, those real priorities are not resulting in production orders. And the main reason they're not resulting in production orders is due to the way in which the Department of Defense has focused on other things and not dealing with this particular aspect of the needs of military personnel in a number of places, here and in a lot of other places which are dangerous around the world, Iraq, Afghanistan, places like that, for example. So without this stop-gap funding for these shelter programs, our troops could literally be without that roof over their head.

The Defense Logistics Agency had stated that the tent and shelter industry is a critical part of the U.S. defense industrial base, and they did that in the context of a report to the Congress. So supporting this amendment by Mr. CAMPBELL will leave the United States military with a smaller, less competitive, and potentially foreign source of this essential material which is needed by our military personnel.

You're dealing with something that is fundamentally essentially important. And in the context of this particular situation, if we didn't deal with it in this particular way, perhaps these manufacturing operations would come from places outside the United States. There are a lot of people here, apparently, who are opposed to many of the things that we're doing, who are not opposed to having manufacturing activities in other parts of the world and not here.

So this is what we are intending to do, to make sure that the military gets the security, the safety that they need and, at the same time, to ensure in every way that we can that the manufacturing process is done here in the United States so that these jobs are going to be an important part of our dealing with this economic recession, which was put forward over the course of the previous 8 years and is now something that we are dealing with effectively.

So if you're opposed to this earmark, it really doesn't make any sense. If you're opposed to the amendment, that makes perfect sense. And that is exactly what we're doing, for all of the

good reasons that I have stipulated, and that's why this amendment should remain as an important part of this absolutely essential piece of legislation.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendment offered by the gentleman from California (Mr. CAMPBELL).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. CAMPBELL. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from California will be postponed.

PART C AMENDMENT NO. 8 OFFERED BY MR. CAMPBELL

Mr. CAMPBELL. Mr. Chairman, I have amendment No. 8 at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Part C amendment No. 8 offered by Mr. CAMPBELL:

At the end of the bill (before the short title), insert the following:

TITLE X—ADDITIONAL GENERAL PROVISIONS

SEC. _____. None of the funds provided in title IV under the heading "Research, Development, Test and Evaluation, Army" shall be available for the Model for Green Laboratories and Clean Rooms project, and the amount otherwise provided under such heading is hereby reduced by \$1,500,000.

The Acting CHAIR. Pursuant to House Resolution 685, the gentleman from California (Mr. CAMPBELL) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. CAMPBELL. Mr. Chairman, first, before I discuss this amendment, I would like to make a comment relative to the gentleman from New York's defense of his earmark before.

If, in fact, these shelters are necessary—and I'm not going to dispute that point with the gentleman, they may in fact be—then why do we not have a designation that the Defense Department shall procure 9,000, 90,000, whatever it is, items of shelter, and they should procure them from a U.S.-based source, and they should do it under competitive bidding and get at least three bids and pick that which is deemed to be the highest quality and the lowest cost? Wouldn't that be an appropriate way to do this?

And that's what I am saying, and I think the gentleman from Arizona before me is saying. We are not here—and certainly I am not here—to say that it is not Congress' right to appropriate funds. It is, in fact, the right, as you have all pointed out, as enumerated in the Constitution. However, there is a right way to do that and there is a wrong way to do that. And with these 552 no-bid, going-to-private-companies

earmarks, amounting to \$1.3 billion, which if the 18 minutes of debate in committee were spent entirely on the earmarks means that each earmark received 2 seconds of debate, this is not the proper way to do it.

This particular earmark, Mr. Chairman, would strike \$1.5 million designated for the Green Laboratories and Clean Rooms project and would reduce the overall funding of the bill by an equivalent amount, and this money is intended to go to Amethyst Technologies. And again, as we have discussed, if this is competitively bid, why does the sponsor's letter, which I have here, of certification of this earmark say, and I quote, "The contact name and address is Ms. Kimberly Brown, President, Amethyst Technologies, 1450 South Rolling Road, Suite 2041, Baltimore, Maryland, 21227?"

Mr. Chairman, again I would ask—and I don't think I see the author of the earmark—but let me ask someone over there, whoever is going to deal with this, why, again, is only one company listed if it is to be competitively bid?

If there is no response to that, then I guess I would ask, did this company submit this to the Defense Department for procurement? Did this company even try to go to the Defense Department and make their case with those in the military whose job it is to determine what is best for the military?

Mr. TAYLOR. Would the gentleman yield?

Mr. CAMPBELL. I will yield, yes.

Mr. TAYLOR. I want to thank the gentleman. You ask a great question. The reason is, in the 6 years that he was Secretary of Defense, Don Rumsfeld decimated the defense acquisition community, fired tens of thousands of people who would have drawn those drafts and would have put it out for bid. We are trying to reconstitute that community right now.

Mr. CAMPBELL. Reclaiming my time, Donald Rumsfeld is no longer Secretary of Defense, has not been for some time, and there is a different President. We are dealing with appropriations for a fiscal year that begins later this year and goes into 2010.

Look, if you think this is necessary, just don't say it's for this company, that it's \$1.5 million. Because another question I would have is, how do you determine the \$1.5 million is the right price? What are you getting for \$1.5 million, and how do you know you couldn't get the same thing somewhere else for half that?

And I will yield.

Mr. TAYLOR. You are exactly right. Because of the lack of trained professionals, there really isn't anyone in the DOD anymore who can say what something should cost. You don't learn that overnight. Now, we are trying to reconstitute that—

Mr. CAMPBELL. Just reclaiming my time, I'm happy to exchange, but if there's nobody, then isn't that something the Armed Services Committee should be dealing with?

And I would yield.

Mr. TAYLOR. And we are dealing with it.

The other part is, on those major programs, starting with the big ones, whenever we buy something here going forward, we are demanding that when we buy something, we own the technical data package, that from now on we will own the specifications so that—

Mr. CAMPBELL. Reclaiming my time—

Mr. TAYLOR. If we think the contractor is not being fair with us, we can put it out for bid for someone else.

Mr. CAMPBELL. Reclaiming my time, could I inquire as to how much time I have remaining, Mr. Chairman?

The Acting CHAIR. The gentleman from California has 30 seconds remaining.

Mr. CAMPBELL. I am going to reserve the balance of my time, and I would ask that the gentleman please continue his argument on his time.

Mr. MURTHA. Mr. Chairman, I rise in opposition.

The Acting CHAIR. The gentleman from Pennsylvania is recognized for 5 minutes.

Mr. MURTHA. I reserve my time.

Mr. CAMPBELL. Mr. Chairman, one other question, one that didn't get answered on the last earmark, and I will ask it again on this particular earmark. I understand the sponsor is not here, but will the sponsor commit, as other people have done on this floor, that he has not received and will not accept campaign contributions from the company, its executives, its stockholders, employees, or lobbyists, or other people who can benefit directly from the earmark? Because, Mr. Chairman, if people won't do that, then as the gentleman from Arizona and others have suggested, that is where, perhaps, we can get in deeper trouble on these sorts of things in the future.

Mr. Chairman, I ask for an "aye" vote.

I yield back the balance of my time.

Mr. MURTHA. Mr. Chairman, let me read the policy of the committee. The full committee just brought me the policy which answers the gentleman's question.

Under the policies adopted by the great Appropriations Committee, "The use of Member earmarks awarded to for-profit entities as a functional equivalent of no-bid contracts is ended.

"In cases where the committee funds an earmark designated for a for-profit entity, the committee includes legislative language requiring the executive branch to nonetheless issue a request for proposal that gives other entities an opportunity to apply and requires the agency to evaluate all bids received and make a decision based on merit. The legislative language included in the bills requires 'full and open competition.'

"This gives the original designee an opportunity to be brought to the attention of the agency, but with the possibility that an alternative entity may be selected."

Now, let me read to the gentleman, Mr. Chairman: "With respect to the list of specific programs, projects and activities contained in the tables entitled 'Explanation of Project Level Adjustments' in the Report of the Committee on Appropriations of the House of Representatives, those which are considered congressional earmarks for purposes of Rule XXI"—this is on page 113 of the bill—"when awarded to a for-profit entity, shall be awarded under full and open competition."

In this particular case, they strike \$1.5 million from hospital maintenance and so forth. Nobody, there is no committee in the Congress—the authorizing committees work on different things. We work on making sure that the medical facilities are clean, making sure that they are taken care of. And Mr. BISHOP offers an amendment which wants to make sure that the funding would provide for development, renovation, maintenance, to test the environmental sustainable laboratories, hospitals, and clean rooms for drug development.

I ask for a "no" vote.

I yield to the gentleman from Mississippi (Mr. TAYLOR).

Mr. TAYLOR. Again, I would remind the gentleman; the gentleman makes the point that we have had a new administration for 6 months. Don Rumsfeld, the guy who said he knew the Iraqis had weapons of mass destruction and he knew they were going to use them, decimated the acquisition force. Unless you own the specs, you can't put it out for competition. We are in the process, in the Armed Services Committee, of getting the specifications of everything we buy from here on out—something Rumsfeld never did—so that we can have the kind of competition that the gentleman seeks. We are in the process of doing so, starting with the Littoral Combat Ship.

If the gentleman has a question, I would be more than happy to answer it. Mr. CAMPBELL. Would the gentleman yield?

Mr. TAYLOR. Sure.

Mr. CAMPBELL. Does the gentleman see a problem with doing these in the future without a company name?

Mr. TAYLOR. Again, there will be times when someone who has invented something comes to Congress and says, I have something that is bigger, faster, smaller, faster—whatever the deal is. And if that person says, and by the way, I own the unique rights to this, do you want to buy it from me or not? That first time it makes sense for the Nation to buy it. It also makes sense for the Nation to say, from here on out, when we buy your product, we are buying the specifications with it so we can get it from somebody else in the future.

Mr. CAMPBELL. Will the gentleman yield?

Mr. TAYLOR. Sure.

Mr. MURTHA. Mr. Chairman, I yield back the balance of my time and ask for a "no" vote.

The Acting CHAIR. The gentleman from Pennsylvania controls the time and he has yielded back his time.

The question is on the amendment offered by the gentleman from California (Mr. CAMPBELL).

The question was taken; and the Acting Chair announced that the noes appeared to have it.

Mr. CAMPBELL. Mr. Chairman, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentleman from California will be postponed.

Stated for:

Mr. ELLISON. Mr. Chair, during rollcall vote No. 663 on H.R. 3326, I mistakenly recorded my vote as “no” when I should have voted “aye.”

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR (during the vote).
There is 1 minute remaining.

□ 1404

Mr. HALL of Texas changed his vote from “no” to “aye.”

So the amendment was rejected.

The result of the vote was announced as above recorded.

The Acting CHAIR. The Clerk will read.

The Clerk read as follows:

This Act may be cited as the “Department of Defense Appropriations Act, 2010”.

The Acting CHAIR. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. ALTMIRE) having assumed the chair, Mr. HOLDEN, Acting Chair of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes, pursuant to House Resolution 685, he reported the bill back to the House with sundry amendments adopted by the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Pursuant to House Resolution 685, the question on adoption of the amendments will be put en gros.

The amendments were agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT

Mr. FRELINGHUYSEN. Mr. Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. FRELINGHUYSEN. In its present form, I am.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Frelinghuysen moves to recommit the bill H.R. 3326 to the Committee on Appropriations with instructions to report the same back to the House forthwith with the following amendments:

Page 2, line 22, after the dollar amount, insert “(increased by \$100,000,000)”

Page 26, line 9, after the dollar amount, insert “(increased by \$304,800,000)”

Page 29, line 21, after the dollar amount, insert “(reduced by \$404,800,000)”

In section 8120, strike “None of the funds appropriated” and all that follows through “\$368,800,000 of the funds” and insert “Funds”.

In section 8120, strike paragraph (1) (and redesignate subsequent paragraphs accordingly):

Mr. FRELINGHUYSEN (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered read.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The SPEAKER pro tempore. The gentleman from New Jersey is recognized for 5 minutes.

Mr. FRELINGHUYSEN. The motion to recommit would restore funding originally included in the bill as reported by the Appropriations Committee for advanced procurement for 12 F-22 aircraft and allow the program to move forward. It would also provide an additional \$100 million for the Army military personnel accounts. These increases are offset by cutting \$400 million in unrequested funds for the Presidential helicopter, a troubled program that the President himself has proposed to eliminate.

My motion to recommit is consistent with the recently passed Defense authorization bill which recognized the continued vital need for the F-22 by authorizing an additional F-22 aircraft and, at the same time, did not authorize additional funding for the President's helicopter.

Mr. Speaker, while much is made of the President's threatened veto of this bill over the F-22, the fact of the matter is the President has also threatened a veto over funding for the Presidential helicopter. While I appreciate the President has a role in this process, it is Congress, not the President, that has the power of the purse. I do not believe that we should simply take the President's budget proposal and rubber-stamp it.

In addition, my motion to recommit begins to fill a known funding shortfall in the Army military and personnel accounts that resulted from Secretary Gates' recent decision to increase the total Army end strength by 22,000 troops to support the administration's Afghanistan policy.

My motion would also leave intact the additional funds added in the Murtha amendment for four of the Air Force's unfunded priorities.

I urge my colleagues to support this motion to recommit.

I yield to the gentleman from Utah (Mr. BISHOP), a member of the Armed Services Committee, for the remaining time.

Mr. BISHOP of Utah. Mr. Speaker, we all know that to maintain air superiority, which we have had since the Korean War, requires two elements: one is the technological ability, which we know the F-22 provides, but the other is the numerical superiority that we have to have, which is why, when this program was originally started, it was supposed to be 750 planes.

Even as late as last year, the military was telling us 381 maintains the status quo and 243 is the absolute minimum, a number still maintained by Air Combat Command, by the Air National Guard, by 30 of the military studies over the last 15 years. Even the Chief of Staff admitted the 243 is what they needed.

The only person that said 187 is the Secretary of Defense. There is no study to verify that number. That number is a political number, not a military number.

As we go into the future where the Russians are building a new generation fighter with 200 to 300 extra planes to sell to countries like Iran and Venezuela, when we then couple that by cutting 250 legacy planes already in the Air Force and stopping the F-22 and having an F-35 which will not be available under the best of circumstances until 2014, maybe even 2016 as we are talking about it, what we are doing is putting ourselves in danger 10 and 15 years out of being on the wrong side of history. We cannot do that.

This amendment mirrors what the House voted on the Defense authorization bill by putting back procurement money for 12 F-22s and adding \$100 million for military personnel to help the anticipated shortfall in the upgrade in what we are doing in Afghanistan.

This is the right thing to do. This is what the military needs. We should not simply make a political decision, because I hate to say this in this crass of a way, but when we can authorize \$5 billion for groups like ACORN but \$2 billion to keep 18,000 jobs going and provide planes for another year that this country needs, we have something to do to look at our priorities. The \$2 billion is for the defense of this country into the future. The military needs this plane.

Mr. FRELINGHUYSEN. Please support the motion to recommit.

I yield back.

Mr. MURTHA. I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Pennsylvania is recognized for 5 minutes.

Mr. MURTHA. I've said over and over again, I have been for the F-22. The point is we'd need 292 votes here in order to pass the F-22. We'd need 66 votes in the Senate. The Senate voted 58-40 against it. So we have no alternative.

Now, what I've done is try to robustly fund the program as it is. In other words, they have 187. Let's make sure it's funded adequately. Let's make sure they have what they need. They have a lot of maintenance questions about the F-22. There is no question about it, and so we need to make sure it's robustly funded.

The Presidential helicopter, \$3.2 billion we spent on this thing. We ought to get something out of it. One of the Secretaries said to me the other day that they are going to spend another \$2 billion if you get it right. I said, Wait a minute; how much do you think you will spend if you have to do another one?

I'm trying to work something out with the White House on that and other issues.

It took a little more time than I expected in this bill today, but I'd appreciate a "no" vote on this vote to recommit.

I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. FRELINGHUYSEN. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for electronic vote on the question of passage.

The vote was taken by electronic device, and there were—ayes 169, noes 261, not voting 3, as follows:
