

Thank you, Mr. Speaker.

Mr. Speaker, I rise today to share with you real stories of people from Colorado and their experiences with our health care system and why we need to reform it.

Gary Laura from Denver shared a compelling story with me, and I wanted to share that with you on the floor of the House of Representatives. Gary has worked in public health for 24 years. First, he was a public health adviser in New Orleans. He saw firsthand the issues that face individuals who don't have health care. Many individuals who, if they had a public option for health care, Gary believes, would seek out preventative care, would be diagnosed before a condition is too expensive or too difficult to treat.

Gary shares that in the old Charity Hospital, people would have to have limbs removed because they never had access to preventative care and they show up in the emergency room as a last resort. It's a very common problem across our great country. When an individual doesn't have access to preventative care, as the story I shared earlier about the woman who had spinal cancer, didn't have insurance, wasn't diagnosed until it was too late and left it to her mother to share that story which I hope becomes a legacy that helps pass health care reform in this country.

But this happens far too often and costs all of us more. When somebody is uninsured and doesn't have access to preventative care, goes in after the fact and has to have a limb removed because of untreated diabetes or any other condition, it costs us all more. Those costs are passed along to those of us who have insurance, resulting in higher insurance premiums for the rest of us. That is why we need to pass comprehensive health care reform.

Thank you, Mr. Speaker.
