Whereas many individuals are unaware of data protection and privacy laws generally and of specific steps that can be taken to help protect the privacy of personal information online;

Whereas "National Data Privacy Day" constitutes an international collaboration and a nationwide and statewide effort to raise awareness about data privacy and the protection of personal information on the Internet;

Whereas government officials from the United States and Europe, privacy professionals, academics, legal scholars, representatives of international businesses, and others with an interest in data privacy issues are working together on this date to further the discussion about data privacy and protection;

Whereas privacy professionals and educators are being encouraged to take the time to discuss data privacy and protection issues with teens in high schools across the country;

Whereas privacy is a central element of the mission of the Federal Trade Commission

and the Commission will need to continue to educate consumers about protecting their personal information, and their consumer education campaigns should be part of a National effort;

Whereas the recognition of "National Data Privacy Day" will encourage more people nationwide to be aware of data privacy concerns and to take steps to protect their personal information online; and

Whereas January 28, 2009, would be an appropriate day to designate as "National Data Privacy Day": Now, therefore, be it
