STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. BINGAMAN (for himself and Mr. BAUCUS):

S. 2747. A bill to amend the Land and Water Conservation Fund Act of 1965 to provide consistent and reliable authority for, and for the funding of, the land and water conservation fund to maximize the effectiveness of the fund for future generations, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. BINGAMAN. Mr. President, today I am introducing the Land and Water Conservation Authorization and Funding Act of 2009. I am pleased that Senator BAUCUS has joined me as an original cosponsor.

The legislation I am introducing today will provide consistent funding of the Land and Water Conservation Fund, LWCF, program at a time when its purposes have never been more important to our communities and quality of life. This program provides funding for States and Federal land management agencies for the purchase of land and interests in land from willing sellers. Since its inception in 1964,

LWCF has led to the protection of more than five million acres of land and water across the country, including such irreplaceable landscapes as the Grand Canyon National Park in Arizona, the redwood forests in California, the Rocky Mountain Front in Montana, and Denali National Park and Preserve in Alaska.

In my own State of New Mexico, LWCF funds have been used in many important landscapes including the Santa Fe National Forest to provide hundreds of miles of trails for hiking, horseback riding and off-road vehicle use, and to protect the unique Valles Caldera from development. Going forward, the Bureau of Land Management hopes to protect portions of the Rio Grande National Wild and Scenic River in New Mexico using LWCF funds.

Equally important, this program's flexibility means that it also is used to protect what is sometimes most valuable to our communities—the lesser-known special places virtually in our own backyard. The availability of portions of this funding to States means that it can be used to protect local landscapes when development threatens the open spaces that communities need for clean water and recreation. It is also available for the purchase of conservation easements when public ownership of land is not the best solution. These easements—acquired at the request of the landowner—protect the landscape against development while retaining private ownership.

Since its inception in 1964, the law has provided that the Land and Water Conservation Fund will accumulate revenues from Federal outdoor recreation user fees, the Federal motorboat fuel tax, surplus property sales, and from oil and gas leases on the Outer Continental Shelf. It has been authorized at \$900 million a year since 1977. In establishing LWCF, Congress recognized the importance of the protection of lands with significant natural, recreation and scenic attributes, and for the development of outdoor recreation lands and facilities at the State and local level.

Under current law these funds cannot be spent until they are further appropriated each year. Congress has rarely appropriated the \$900 million annually that was authorized as necessary as far back as 1977. The levels of funding for both Federal agencies and States have fluctuated wildly over the years. In addition, LWCF itself will expire in 2015 if not reauthorized.

However, the purpose of LWCF—the acquisition of land and interests in land—is one that requires consistency and predictability in order to be truly effective. The opportunity for land purchase can emerge quickly and can be quickly lost. The cost often requires that deals be structured over a period of time. The absence of a consistent amount of funding annually makes it virtually impossible for Federal agencies or States to plan effectively or to ensure that they can protect those

areas most important to communities and to the nation as a whole and at the lowest cost.

Protection of special places and landscapes for the common good has always been a great American idea that we have exported to the rest of the world. These lands are a wonderful gift that every taxpayer receives at birth, and values very highly. Today, even more than when LWCF was enacted, there is increasing pressure on our natural landscapes, both as a result of man-made development and changes in our climate. It is more imperative than ever that we protect and restore our ecosystems so that they stay resilient. By protecting natural systems, we are protecting human health and the economy by providing clean water, clean air, livable coastal areas and the quality of life that is so important to all Americans.

The time has come to make sure that the Land and Water Conservation Fund has consistent and predictable funding and that it continues beyond 2015. This bill will not change the authorized amount or the well-established purposes and parameters of the Fund. It simply provides that the monies deposited in the Fund under current law will be available without further appropriation at the authorized amount. It is my hope that this will be a down payment on something vitally important to all Americans—protection and conservation of our natural heritage and our most special places for ourselves and for future generations.

I would like to thank Senator BAUCUS for his leadership on this issue and I look forward to working with my colleagues to pass this legislation in a timely manner.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 2747

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.
