

SEC. 5 RESPONSE TO EMERGENCY DESIGNATION

(a) Priority Treatments: This section describes priorities for treatment—not in order of preference. The intent is for the agency to treat the identified areas before general forest.

The section also allows for assistance to State and local governments, Indian tribes and private landowners for the removal of hazardous trees and restoration of the health of land located in the insect and disease emergency area.

(b) Biomass Use: This provision states priority should be given to those areas that are in the insect and disease emergency areas when determining BCAP funded areas. BCAP is to assist with the collection, harvest, storage, and transportation of biomass material. 'The Secretary shall make a payment for the delivery of eligible material to a biomass conversion facility to (1) a producer of an eligible crop that is produced on BCAP contract acreage; or (2) a person with the right to collect or harvest eligible material.' The Biomass Crop Assistance Program (BCAP) provides financial assistance to producers or entities that deliver eligible biomass material to designated biomass conversion facilities for use as heat, power, biobased products or biofuels. Initial assistance will be for the collection, harvest, storage and transportation costs associated with the delivery of eligible materials.

(c) Emergency Forest Restoration: This section provides funding assistance through grants for people who remove biomass from private property. 'The Secretary may make payments to an owner of nonindustrial private forest land who carries out emergency measures to restore the land after the land is damaged by a natural disaster.' This section adds the emergency areas described by this bill under this authority.

(d) Biomass: This amends the definition of the renewable fuels standard. The RFS specifically excludes material from NFS lands—this would include those lands in the insect and disease emergency area.

(e) Healthy Forest Restoration: This section allows the Forest Service to apply the streamlined NEPA provisions of the Healthy Forest Restoration Act to hazardous fuels removal, hazard tree removal and restoration of the health of National Forest land in the insect and disease emergency areas.

SEC. 6 GOOD NEIGHBOR AUTHORITY

This provision makes the Good Neighbor authority permanent for all states.

SEC. 7 STEWARDSHIP CONTRACTING

This provision makes Stewardship contracting permanent. It also changes the current requirement of the Federal Acquisition Regulation to fund costs of cancelling a contract at the time of award for a multi-year stewardship contract to a requirement for payment of contract cancellation at the time such cancellation may occur.

SEC. 8 EFFECT

This section says that nothing in this act diminishes the right of private property owners.
